Having purchased the Livery Establishment recently owned and conducted by Mr. J. M. Blaisdell, J. L. and he flattered that by close attention to business and a large supply of good HACKS, can fill orders for any required number at all times, for FUNERALS, PARTIES, or any thing, to the satisfaction of customers. All business promptly attended to, if orders are left at the Livery Stable of MR. JOHN H. FERGUSON.

Portsmouth, April 14th, 1853.

Hacking Notice—Removal.

WM. O. SIDES having removed his Hack Office to 30 VAUGHAN STREET, Next door to F. W. ROGERS' Store—would invite the ordered his old patrons and the public, to his new and more convenient location.—Prompt attention to all calls, day and evening.

WM. O. SIDES,
30 VAUGHAN STREET.
Portsmouth, Oct. 18th, 1852. tf

AMERICAN STABLE,

31-2 Vaughan Street,

NATHAN JONES, having greatly enlarged his stable, and added much to his stock of HORSES and CARRIAGES, is now better prepared than ever to serve his old patrons and the public, with stylish and safe HACKS at the lowest rates for cash. His facilities for

Letting, Boarding, and Baiting Horses,

Are now superior to any other in the city.

Hacking.

We have now purchased several elegant HACKS in Boston, and having now the largest and best stock of Carriages in Portsmouth, are prepared to fill all orders for Funerals, Parties, or other riding, to the satisfaction of customers. All business promptly attended to

WM. H. WALLACE, JOHN C. SHANNON,
Portsmouth, 1853. Drivers.

TILTON & FOSTER'S LIVERY STABLE,

STONE STABLE,

adjoining the City Hotel, invite the patronage of their old customers and the public.

They have large stock of good

Horses and Carriages,

constantly for hire on reasonable terms.

STABLING for HORSES on reasonable terms.

MOSES H. TILTON,
JOSEPH L. FOSTER.

Portsmouth, Feb. 2, 1852.

HACKING.

DENNETT'S HACKS may also be found at the STONE STABLE, as heretofore, ready for all business in the line. Grateful for patronage bestowed, the subscriber solicits, and will give prompt personal attention to, all orders from his old customers or the public generally.

Sold by WM. R. PRESTON,
my2 Wholesale Agent, Portsmouth, N. H.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet introduced, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the exception of this, the oven is a large copper Reservoir for hot water; also a large the warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the sawdust in the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed. Any other Stove, as well as many families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. SATURDAY JULY 18, 1863. NO. 15.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth; do good; be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the kind of ours, it is the spirit in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"STICK TO IT."—In a town near Hartford, a fellow owed a neighbor a small sum of money, and agreed that when he killed his hog he would divide the pork with him to settle the claim. When the time came for butchering, he arrived at the conclusion that he wanted the whole hog himself; but how to get out of the bargain troubled him. He finally consulted an acquaintance, who was noted for "strategy," and laid the case before him. Acquaintace said: "It is easy enough, I'll tell you how to manage it. You kill the hog in the afternoon, and after it is dressed, hang it out on a tree so that your neighbor can see it. Then late at night you go and take the hog in and pack it down. In the morning tell your neighbor and everybody else, that somebody stole it; "*and stick to it!*" "I'll do so," said the fellow.

He carried out the instructions, hung the hog out and only waited for late hours to come to finish the business. In the meantime, however, the acquaintance, who had advised the movement, came round and carried the hog off; so that when the owner went out after it, and "looked where it was, it wasn't there." This of course was a state of things not anticipated. The next morning he met his adviser, and said to him, "I did just as you told me; hung the hog out; but when I went out at midnight, somebody had stole it." "That's right, stick to it!" "No, but honestly somebody *did* steal it." "That's the talk; stick to it!" "No, but somebody *did* steal it." "That's it, stick to it!" "Won't you believe any thing? I say somebody *did really, actually* steal it." That's it; stick to it; nobody will ever think you carried it into the house. Big thing on your neighbor, eh?" And that's all the satisfaction the fellow got. Moral; look out whom you go to for advice.

☞ The following is the rate of taxation for the present year in some of the towns in this vicinity:—

Greenland $0.95 on $100; Rye .93; North Hampton $1.08 80-240; Hampton $1.42; Hampton Falls $1.09; Seabrook $1.42.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials of one given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the sub-criber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other agency, or attorney, at the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* as *I successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors, that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.
Boston, Dec. 2, 1862. 3tawly

Rare Chance.

Chronicle.
South. N. H.
DAY, JULY 18, 1863.

THE REBELLION.

Gen. Gilmore officially reports the battle on Morris Island. At 5 o'clock, A. M., on the 10th, an attack was made on the enemy's fortified position, on the southern portion of the island, the assaulting party having landed in small boats, under cover of our batteries on Folly Island, and four Monitors led by Adm. Dahlgren. After an engagement of three hours and a quarter, they captured all the strongholds on that part of the Island, and the infantry was pushed forward to within six hundred yards of Fort Wagner. On the 12th, we held all the Island, except one mile on the north end, which includes Fort Wagner, and a battery on Cummings Point, mounting at the time 15 or 16 heavy guns. Our loss is stated at 150 killed, wounded and missing; the enemy's at 200. We had taken 11 pieces of heavy ordnance, and a large quantity of camp equipage.

The Philadelphia Inquirer says it is generally believed, from information from Washington, that Charleston was captured on the 14th. [We wish we had the story on better authority.] Another account says Beauregard evacuated and burnt the city.

Gen. Lee was severely wounded by a citizen of Williamsport, who watched his chance and fired. The citizen was seized and taken off.

Our army was near Berlin, Md., on the 16th. Lee is said to be pushing as rapidly as possible for Culpepper. Our cavalry crossed the river on Wednesday, and now occupy all the passes as far south as Chester Gap, and ahead of the rebel army at Front Royal. They took 100 prisoners on that day.

7000 men were captured at Port Hudson; also 35 field pieces, 25 siege guns, and about 10,000 stand of small arms. We have Maj. Gen. Gardner, Brig. Gen. Beale and five Colonels. The latest accounts say that Gen. Sherman is still pursuing Gen. Johnston, but that the rebel General had kept out of his way.

Gen. Dodge, at Corinth, Miss., reports that he has routed the rebel forces under Forrest and Biffler, which have been scouring the country north of his lines, killing, wounding and capturing quite a number.

THE NEW YORK RIOT.—The excitement in the city seems to be subsiding, and the lawless scoundrels and thieves who have been the terror of decent people for three days and nights are skulking to their dens in back parts of the city, to hide themselves and their plunder, while their abettors are endeavoring to leave the city. William Anderson, the leader of the rioters at the burning of the Orphan Asylum, has been arrested and placed in Fort Lafayette—The mob is now but a plundering gang of thieves. Gen. Kilpatrick has arrived from the front, and will at once take steps to quell the riot. There was considerable fighting between the mob and the troops on Thursday night, and many of the rioters were killed.

The riot at Staten Island was comparatively an insignificant affair. Three negro shanties were destroyed, and one negro beaten. It was overawed by an armed patrol of citizens. In several small towns in the suburbs riotous demonstrations have been prevented by the action of the Catholic Priests, imploring their parisioners to desist.

☞ The Cincinnati Commercial has advices from Vicksburg to the 9th inst. The rebel soldiers are making great efforts to get away and return to their homes. Gen. Pemberton, on the contrary, wished them to go into camp. Pemberton applied to Grant for a Federal guard to force all Confederate soldiers to leave Vicksburg as prisoners of war. Grant refused, and ordered Gen. Logan to take charge of all those who refused to go out with Pemberton. They will be disposed of when the captured army leaves the town. Several hundred men from the Louisiana brigade crossed the river in stolen yawls and skiffs, as soon as they were paroled. They declared they would fight no more, but would go home and stay there.

☞ While Rev. Chas. Lowe, of Somerville, Mass., pastor of the Unitarian Church, was at "Commencement" in Cambridge, on Wednesday last, his house was broken into and robbed of a gold watch valued at $100, and $35 in money.

ACCOUNTABILITY.—The N. Y. Tribune says:—"The men who set on the howling mobs are guilty of aggravated assault and battery, of grand larceny, of criminally resisting the execution of the laws with armed violence, of treason, of insurrection, of arson and of murder."

☞ The corner stone of St. Phillip's Church, Epping, is to be laid on Tuesday next, the 21st inst., at 11 o'clock, A. M.

The Rev. Dr. Burroughs is expected to deliver the address.

THE CONSCRIPTION.—The Salem Register makes the following admirable comments upon the false and mischievous impressions entertained by some portions of the community with regard to the draft. It says:—

A draft from those capable of bearing arms, for the defence of the country, when assailed by its enemies, is no new thing.—Every citizen is bound to give his aid in some way to uphold the government which protects him, and to which he owes his civil rights and privileges; and from the very first, the laws have prescribed that those able-bodied men between certain ages, under certain conditions, shall serve as soldiers when danger is imminent.

Our wisest statesmen have taught us to look to the militia as the safeguard of the Republic, and to consider service in its ranks as honorable; and we have among us yet living not a few well known and respected citizens, who were among the drafted men during the last war with Great Britain. Instead of being the dreaded and detested thing, which political demagogues, for base purposes, have endeavored to represent, the draft has always been the fairest and most equable course to be pursued, and those liable to it should consider it an honor that they are deemed able and worthy to bear arms in the service of the country. Our fathers incorporated the principle in their militia laws, where it has ever since remained without complaint, or the intimation from any quarter that it was wrong.

In regard to the clause authorizing the Secretary of War to fix a commutation fee, which has been so bitterly and malignantly denounced, Senator Wilson says:—

This provision of allowing a sum not to exceed three hundred dollars to be paid to the Government, to procure substitutes, was put into the law for the sole and single purpose of keeping down the price of substitutes, so that men of very moderate means and poor men could more readily obtain substitutes. Without this provision it was believed that the prices for substitutes would go up at once to one thousand or two thousand dollars, so that none but rich men could obtain them.

If any drafted man can obtain a substitute for a sum less than that determined by the Secretary, he is at liberty to do so.—This authority conferred upon the Secretary to fix a sum from one dollar to three hundred dollars was purposely given to check speculations, to keep down the price of substitutes, and it must inevitably do so. Thus partizan malignity, in its blindness and madness, perverts a measure framed solely in the interests of drafted men of moderate means, and of drafted poor men, into a distinction in favor of the rich and against the poor.

THE $300 EXEMPTION.—To the Editor of the N. Y. Times. You have been trying to vindicate the Draft from the charge that it throws the whole burden of the war upon the poor. You must know that when one hundred men are drawn, if fifty of them can pay their $300 they are released, and then their places must be filled by another draft from among the poor. If this is not releasing the rich and placing the burdens of the war, exclusively, on the poor, I should like to know what would be.

Yours, A POOR MAN.

Our correspondent misunderstands the law entirely. It contains no such provision as he alleges. Every man who pays his $300 does escape personal service in the war, but his place is not filled by another draft. *It is filled by inducing a substitute to volunteer.* And this $300, which is paid by the rich as the price of their own release, is distributed among the poor as an inducement to volunteer and to increase their pay by just that amount. Not a single poor man will be drafted now, who would not be if this $300 exemption clause were not in the law. But a great many would miss the $300 which now they can obtain as a bounty for volunteers. [*Times.*

☞ The Dover Gazette, speaking of the Concord 4th July Mass Meeting, says, "in mingling with the thousands from all parts of the State, there was no mistaking their sentiments. Secessionism they *abhorred*, as fully as they despised Abolitionism."

"What a pity, then, (says the Enquirer,) not to give some expression to their abhorrence of the former, as well as spitting out their venom upon the latter. In none of the speeches made or resolutions passed was there a sentiment, or hardly an expression, which would not have been hailed as orthodox at Richmond."

We learn that the troubles in New York were foretold in Bangor several days before they occurred; that the editor of the Copperhead paper in that city was heard to tell one of his friends, that arrangements had been made to test the power of the Government to make a draft, and that the test would be made in New York. Who will say that men who planned or encouraged such a test of the nation's power, do not as richly deserve the rope as the worst type of traitors?—*Portland Press.*

INTERFERING WITH THE DRAFT.—Bernard Boyle, who was arrested in Boston on Tuesday evening, in the vicinity of the Old Colony Depot, while haranguing a crowd, was brought before U. S. Commissioner H. L. Hallett on Wednesday, for examination on a charge of counselling resistance to the draft. At Doyle's request, the hearing was postponed until Tuesday next, and in default of bail in the sum of $5000 he was committed. The penalty which the law fixes for this offence is a fine of $500, and imprisonment for two years.

☞ The Press states that one of the conscripts, in Portland, went to a dentist, after he was drafted, and had four of his front teeth extracted, in order to incapacitate him, from serving his country. Patriotic fellow!

NATIONAL THANKSGIVING, AUG. 6.

PRESIDENT'S PROCLAMATION.

It has pleased Almighty God to hearken to the supplications and prayer of an afflicted people, and to vouchsafe to the Army and the Navy of the United States, on the land and on the sea, victories so signal and so effective, as to furnish reasonable grounds for augmented confidence that the Union of these States will be maintained, their Constitution preserved, and their peace and prosperity permanently preserved. But these victories have been accorded not without sacrifices of life, limb and liberty incurred by brave, patriotic and loyal citizens. Domestic affliction in every part of the country follows in the train of these fearful bereavements. It is meet and right to recognize and confess the presence of the Almighty Father, and the power of His hand equally in these triumphs and these sorrows.

Now, therefore, be it known, I do set apart Thursday, the sixth day of August next, to be observed as a day for National Thanksgiving, praise and prayer, and I invite the people of the United States to assemble on that occasion in their customary places of worship, and in the forms approved by their own conscience, render the homage due to the Divine Majesty for the wonderful things He has done in the nation's behalf, and invoke the influence of His Holy Spirit to subdue the anger which has produced and so long sustained a needless and cruel rebellion; to change the hearts of the insurgents, to guide the counsels of the Government with wisdom adequate to so great a national emergency, and to visit with tender care and consolation throughout the length and breadth of our land all those who through the vicissitude of marches, voyages, battles and sieges, have been brought to suffer in mind, body or estate and family, to lead the whole nation through paths of repentance and submission to the Divine Will back to the perfect enjoyment of Union and fraternal peace.

Mons are always cowardly, as well as senseless, cruel, brutal. Who ever heard of a mob attacking a force superior to itself? No indeed,—but a score or a hundred ruffians will attack one single individual, if he be unarmed, no matter how harmless or inoffensive he may be. The following comments upon the spirit of the infernal New York mob, are from the Tribune:

Relentless and cruel and cowardly as all mobs are, the actions of this at least are equal to any that have yet earned a record in history. "Pull down that d——d flag!" was their greeting to the Stars and Stripes. "Kill that d——d nigger!" was the infuriated howl raised at the sight of any unfortunate black man, woman or child that was seen on the street, in the cars, or an omnibus. Resistance to the Draft was merely the occasion of the outbreak; absolute disloyalty and hatred to the negro were the moving cause. It was not simply a riot, but the commencement of a revolution, organized by the sympathizers in the North with the Southern Rebellion.

THE FORBEARANCE OF THE MILITARY. The Boston Transcript gives much praise to the military who were actually engaged in resisting the late mobs. They bore with rare patience the insults, jeers and assaults of the ruffians, and only proceeded to extremities when there was no other alternative.

☞ In less than four hours after the capitulation of Vicksburg, the levee was lined with steamers as far as the eye could reach. Gunboats, transports and merchant steamers jostled one another, and the city, after being two years shut out from the world, instantaneously assumed the appearance of a great inland commercial metropolis.

THE DRAFT has been suspended in all the New Hampshire districts. This is only temporary. The law must be enforced every where, if the army has to be withdrawn from the rebel States to do it. It is quite as important to sustain the laws at home, as to enforce the execution of the laws in the rebel States.—*Newburyport Herald.*

☞ Rev. Dr. Benjamin Hale, late President of Geneva College in the State of New York, died at his residence in Newburyport on Wednesday. He was eminently a gentleman and a scholar.

☞ The Boston papers call attention to the law which declares that where a person is acting in concert with a mob of more than thirty persons, by whom a person's life is taken, he is guilty of wilful murder! Several trials are now taking place under this righteous statute, in Boston.

—— Mr. James W. Odlin of Exeter has been appointed clerk in the naval office in the Custom House, in Boston. Mr. Odlin has been an expressman between Exeter and Boston.

BRIGHTON CATTLE MARKET.

THURSDAY, July 16.

At market 760 beef cattle, 300 Stores, 2000 Sheep and lambs, and 780 swine.

PRICES—Beef Cattle—Extra, $9 00 a 9 00; first quality, $8 25 a 9 00; second quality, $7 50 a 8 00 3d quality, $5 50 a 6 00

WORKING OXEN—$260 a 300.

MILCH COWS—$42 a 46; common $20 a 21

VEAL CALVES—sales at $5 00 a 6 00.

Yearlings $0 00 a 0 00; two years old $00 a 00; three years old—$24 a 28.

HIDES—5 a 8½ c. (none but slaughter at this market): Calf Skins 12 a 14c per lb.

TALLOW—Sales at 8 a 8½ lb.

SHEEP AND LAMBS—$3 00 a 3 50; extra $4 00 a 5 00.

SWINE—Stores, wholesale 6c, retail 6c; Spring Pigs—Wholesale 8 a 9c, retail 10.

Market Beef—Extra are the largest fat Oxen, highly stall-fed. First quality are large Oxen well fed at least three months. Second quality are grass and hay fed Oxen, well fatted Cows, and the best three-year old Steers. Third quality are odds and ends of droves.

Sheep and Lambs—Extra consists of choice Bucks and fancy Ewes for stock.

Reeces are sold by the head, at prices equal to the value per pound of the estimated weight of beef in the quarter with the fifth quarter, or the hide and tallow, at the same price at a shrinkage from live weight agreed on by the parties—varying from 2½ to 3½ per cent.

☞ There was no truth whatever in the rumor concerning anti-draft disturbances in Hartford, Conn., on Monday and Tuesday. Drafting closed there on the last named day without the least excitement.

☞ Mr. T. B. Aldrich, of the New York Illustrated News, was seriously wounded in he wrist during the riot in New York on Monday afternoon. He was mistaken for a detective and set upon by the crowd.

☞ The American ship Athens, Shields, from Cardenas for Queenstown, which put into Fayal, May 28, leaking, has discharged her cargo, and will probably be repaired.

☞ So far as now appears five persons were killed in the riot in Boston; and two of these were children of ten years!—one boy and one girl.

☞ The continued details of the riots in New York are heart-sickening. A more ferocious spirit could hardly be manifested than seems to actuate the mob.

☞ Rev. Benjamin Hale. D. D., for more than twenty years President of Hobart College, Geneva, N. Y., died in Newburyport on Wednesday evening.

"NO TERMS WITH A MOB" is the only doctrine for the protection of property and life.

☞ The Portland Press now denies that Provost Marshal Davis was shot at Augusta, Me., on Thursday.

DRAFT NOTICE.

OFFICE ACT. ASST. PROVOST MARSHAL GEN.,
Concord, N. H., July 16, 1863.

The Legislature of this State having passed a joint resolution requesting the Governor to ask the Secretary of War to order the Draft in this State to be made by towns, and the Governor having forwarded said resolution, and also telegraphed to him upon the subject, and having received a telegram from him, that he would take the subject into consideration when the papers were received—therefore the Draft in the First District is postponed until the decision of the Secretary of War in this matter is made known.

O. A. MACK, Major & A. D. C.
A. A. P. M. G.

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This splendid Hair Dye is Perfect—changes Red, Rusty, or Grey Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY ST., N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jne22eplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough medication, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One Pill, never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Local.

THE RIOT IN PORTSMOUTH.—It is devoutly to be hoped (as we write on Friday noon) that the prompt and decided action of our city authorities, aided by the citizen soldiery, on Thursday night, has effectually quelled the mob spirit in our city. And no true patriot or good citizen will say a word or make any movement to irritate any other person or create further excitement.

How strange it is that so many excitable people lose sight of the plain fact, that while it is for the good of *all* of us to keep peace and good order,—it never is, never can be, for the benefit of any man or set of men, save thieves and robbers, to interfere with or overthrow the legally-instituted authorities.

As to the action of the rioters in Portsmouth—no doubt too much forbearance was extended towards them during their continued and outrageous manifestations of the past week. It would have been better to curb their treasonable insolence, and disperse their illegal assemblages, earlier.—And but for some accidental circumstances, they would, without doubt, have met their legitimate reward sooner. Had some other officer been in command, at the Provost Marshal's quarters, Wednesday night—probably less stones and more lead would have been thrown.

And it is reported that a large crowd of the rowdies, stated as high as two hundred, went to Fort Constitution, Tuesday night, while most of the force stationed there was doing duty here in the city, and attempted to enter the Fort, with the intention of capturing a light field battery there! The chief officers were absent, or without doubt the men would have met the reception they deserved; but the Sergeant in command, after some parley, ordered a charge, and dispersed them, capturing one prisoner, whom he afterwards was induced to release—we think, with mistaken clemency. The guns of the Fort are since kept double charged with grape, to meet any such assault hereafter.

Things appeared to be more quiet on Friday than for days previous—an indication, we hope, of returning reason on the part of those on whose heads be the responsibility of causing the late lamentable disturbance.

☞ The great question of the hour is, shall the laws—any law and order, be sustained? Besides this, all other questions, of abolitionist and copperhead, draft, bounty or exemption, union or secession, even,—sink into insignificance. This Chronicle has always denounced mobs, of every kind, every where—and will continue to do so, no matter whether friend or foe be engaged therein. Any enemy of the public peace, is our enemy. Stand by the laws, and the government!—We certainly have no personal or political enmity against any one of the men whom we have denounced as rioters; on the contrary, our business and social associations with them, have always been pleasant—which makes us regret the more, to see them in the position of outlaws and malefactors. But however little part or interest we may take in political matters—we can't sit quietly by, and see the social fabric of society torn down about our ears.

☞ In Board of Aldermen, on Thursday evening, it was voted that a legal meeting of the citizens be called in the several wards, "to ascertain the minds of our citizens in regard to the City paying the sum of $300 each for all who may be drafted for the quota of the city, under the enforcement of the conscription act."

At a special meeting on Friday evening, Charles H. Joy and Daniel J. Spinney were appointed Assistant Marshals: several special police officers were also appointed.

POLICE COURT, Friday. — Winthrop Hoyt, for resisting the police on Thursday night, was held in $200 for his appearance at the S. J. Court.

Benj. Grant, for assaulting an officer, was fined $10 and costs. Appealed, and gave bonds in the sum of $50 for his appearance before the S. J. Court.

☞ The person who was wounded in the throat on Thursday evening was not Mr. George Watkins; we are informed that he was at home at the time of the riot.

☞ A very convenient little article, is the Kerosene Lamp Lighter advertised by Messrs. Stavers—to save the trouble of lighting matches, turning down wicks and removing chimnies. Look at it.

☞ Capt. Ashby, of ship Hamlet, was murdered by one of his crew, while on the voyage from Boston to Hong Kong. Capt. Ashby belongs in Salem, Mass. He married a Portsmouth lady, who is now at the residence of her father, Mr. Joshua Staples. The report of his death comes by telegraph from San Francisco, and no particulars have been received by his friends.

Notice.

The Subscriber gives notice that he has been duly appointed Administrator of Estate of ARVILLA W. WEBSTER, late of Portsmouth in the County of Rockingham, deceased, intestate.

All persons indebted to said estate are requested to make payment; and all having claims to present them for adjustment.

Dated at Portsmouth, N. H., July 17, 1863.
J. M. EDMONDS.

☞ Amid all the terrible excitements of the week, at home and abroad,—don't let us forget the splendid Concert at the Temple to-night. Besides Mr. Gottschalk's inimitable performances on the full and truly "grand" Chickering piano-forte,—Mdme. Strakosch will introduce some of her choicest vocal gems. The occasion will be one of rare interest to those who appreciate music of a high order; and even the most intensely loyal and devoted to country, need a little relaxation and entertainment occasionally. We need only advise those who have not heard the great American pianist, to go; for all who have heard him, will want to again. It will be noticed, that all seats are alike open to-night—none being "reserved."

P. S. A dispatch from Mr. Gottschalk's agent, on Friday evening, proposed that the Concert be postponed on account of the excitement; but we think it more than probable that the Concert will be given. The ringing of the Temple bell will give notice, if such be the case.

☞ It will be seen by the advertisement that the ever-welcomed Peak Family are to give one of their unsurpassed concerts in this city on Wednesday evening next. The troupe is now much larger than ever before, and better prepared than ever to gratify their many friends.

IN MOBS the innocent suffer with the guilty—the spectators with the participators. This should be a caution for well-disposed people in case of riots to stop at home within their own houses. And especially should boys and women be kept out of the way.

DR. CRANE announces, if sufficient subscribers be received this week for a Class, he will give a regular course of medical lectures next week, commencing Monday evening. Terms moderate and satisfaction guaranteed. His rooms are at the Franklin House.

☞ DR. CRANE may be consulted today, at his room in the Franklin House; and would give another gratuitous lecture, if the expense of the house were paid, on Monday evening.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

MARRIAGES.

At New Durham, N. J., on Wednesday, July 8, GEORGE S. PEDUZZI, of Portsmouth, to MARY B PERRY, daughter of H. F. Perry, of New Durham.

DEATHS.

In this city on Friday, July 17, FLORENCE L. CHASE, aged 10 years, daughter of Charles H. and Mary J. Chase.

Funeral services will be held at No. 98 Water Street, to-morrow (Sunday) afternoon, at half past 12 o'clock.

In the U. S. A. General Hospital at Baton Rouge, La., Lieut. SAMUEL CUSHMAN HAVEN, 162d N. Y. V.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the safest, as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus deprived of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to any address, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Poyet's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and the best in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

EVERY KIND OF

KITCHEN FURNISHING GOODS.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement, and is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant taint.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*we plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at cheaper prices than ever before.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.**

Prices from $3.00 to $10.00 each.

Also a variety of TOY GIGS, TOY CARTS, WHEELBARROWS, &c.

THE MODEL COOK

FOR WOOD OR COAL.

E. A. STEVENS,
No 46 MARKET ST.

Two Garden Engines,

Of sufficient capacity to throw a stream of water over a two story house; a fine thing for washing windows and watering gardens or shrubbery, for sale cheap, by E. A. STEVENS

Morning Chronicle.

LOCAL ITEMS.

☞ On Sunday afternoon, while his parents were at church, a little son of Mr. William C. Hatch, six & one-half years of age, fell from the chamber window of his residence, on School street, a distance of twenty feet. He was trying to close the blind, when it became unhinged, throwing him out of the window. The little fellow still clung to the blind, however, which striking the ground first, broke the fall, and no doubt saved his life. After he struck he raised himself up, placed his hand to his breast, gave one scream and fell back,—supposed by those who ran to his assistance, to be dead: but strange to say he is now doing well.

FIRST NATIONAL BANK.—A new bank under the National Bank Law was organized in this city some time since. The Capital Stock of the Bank is $100,000. W. H. Y. Hackett is President, and Samuel Lord, Cashier. The other Banks in Portsmouth hold about two hundred and seventeen thousand dollars of government securities, and one hundred and twenty thousand dollars in specie. The Rockingham Bank paid a semi-annual dividend of five per cent. July 1. The par value of the securities held by the Portsmouth Savings Banks April 1, was $1,160,818.

☞ The hod carriers at work on the new Eastern R. R. depot, struck for $1.75 per day last week, but after resting a day or two resumed work at $1.50, the old wages.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.

Exceptional Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the glands and kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, as it gently stimulates and invigorates the appetite, and beneficially invigorates ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, during the first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure contagion, Strictures, Gleets, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscess, Pimples, Pustules, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest siblings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases arising from a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. Such cases require no less than much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases peculiar to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are speedily relieved upon new pathological principles, and speedy relief guaranteed in a few days. Very invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon begins to feel herself cured.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Chronic Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every nature, which from long and unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to consult him.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW. Persons afflicted with a private disease, who need the services of an experienced physician and surgeon should give him a call.

☞ Dr. Dow has prepared and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly.

☞ ATTENTION, THE WHOLE!

SYR, N.H., Feb. 26, 1846. "I hereby certify that my dog, Prior Ned, cured the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum has been expended to the most celebrated physicians, but Williams' Iodine Syrup, &c., has obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

FORT ERIE, C. CANADA, Lee, May 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our home, in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. Another year's medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented; the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top, there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be replenished day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed. Over 500 Stoves are hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

Also on hand an assortment of the different sizes —of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which passes in contact with the pipes is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive devices have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This deflection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fuse or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the ignition of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, or if so, can at any rate off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any attention.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. When a set of teeth is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.—It is very light and elastic, and consequently it perfectly easy to the muscles of the mouth and cheeks. There are no insertices or open joints to collect food, &c., consequently they can be worn night and day, and are very easily kept neat and clean.

Besides all this, the nostrum cate it is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and I can put the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists (so I will warrant, a perfect fit and tooth from the best manufacturer in the country.

S. S. WHITE.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TERRY, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for their ability in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, Surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much troubles, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. MONDAY JULY 20, 1863. NO. 16.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."!

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

GEN. MEADE.—One coppery newspaper of July 3d, printed just after Gen. M. took command, said:

Of the man who has taken Hooker's place, we know nothing. His name is Meade, and it is said he was born in Spain some 48 years ago. He has been in one or two battles, and got wounded at the battle of White Oak Swamp. We have no idea that he is in any way capacitated to lead the federal army to anything but further defeat and humiliation. We want no better evidence of the calibre of this Gen. Meade, than the fact that the Abolition leaders say that "he is just the man for the position, and now the rebellion will be speedily suppressed." The confederate army are in Pennsylvania, walking over the course with "perfect impunity and great boldness." They have up to this time, met no opposition of any consequence.

On the 6th of July, after the battle of Gettysburg, the N. Y. World said Meade's genius had shone resplendent through the brief campaign.—On the same day the N. Y. Herald expressed its belief that the fate of the rebellion was sealed. The Boston Post, the 7th, said, in speaking of the Army of the Potomac, "that it was in high spirits and willing to go to the length of human endurance to save the country! And when were not the noble men who compose that army, willing to do this? Did they not follow, to the death, Burnside? and Hooker? What could they do more even under Gen. Meade, a noble soldier, unmixed with the past miserable intrigue, and the friend of McClellan!"

LOOK ON THE BRIGHT SIDE.—It is better to tread the path of life cheerfully, skipping lightly over all the obstacles in the way, rather than sit down and lament your hard fate. The cheerful man's life will spin out longer than that of a man who is continually sad and desponding. If distress comes upon us, dejection and despair will not afford relief. The best thing to do when evil comes upon us is not lamentation but action; not to sit and suffer, but to rise and make a vigorous effort to seek a remedy.

☞ The Newburyport Herald wants all rich and prominent men who are drafted to go. It says that "if the men of learning and wealth who have been tenacious for the war, advocated it even to extermination, and denounced all those who dared even name honorable compromise as enemies of their country, will come foward where they are drafted, and urge their sons to do the same when they are drawn, there will be no trouble with others."

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the question of the utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL. All THE PATENT OFFICE gives those the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had occasion to transact business."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 20, 1863.

THE REBELLION.

Gen. Dix having gone to New York, it is understood that Gen. Foster is to take command at Fortress Monroe.

It is stated that the Chattanooga Rebel announces the capture of Charleston by the Union forces on the 14th.

Steamship Fulton, at New York, brings Charleston dates to the 10th. Gen. Foster had captured all the batteries on James Island, and all on Morris Island, except Fort Wagner, which Gen. Gilmore was mining.

The rebel government have been notified that Gen. Fitz Hugh Lee and Capt. Winder will be hung if they execute Capts. Sawyer and Flynn, as they threaten. The rebel officers are in close confinement at Fortress Monroe.

A Vicksburg letter to the N. Y. Herald repeats the statement that Gen. Sherman crossed the Big Black on the 5th; came up with the rear of Johnston's army in considerable force; had quite a smart battle; and surrounded and captured 6000 rebels, comprising infantry, artillery and cavalry. Johnston continued his retreat across Pearl river.

☞ Governor Seymour of New York is a remarkable man, and has recently given birth to three remarkable documents, viz. one speech and two proclamations.

In his speech, as reported in full by the Commercial Advertiser, he says:—

"I come before you with confidence, as my immediate constituents, and as one whose principles have been tried and approved."

No doubt they were his immediate constituents—he might have added, his *principal* constituents: for while in the State, outside the city, he was 20,000 in the minority, he had in that city a majority of 30,000, which included the very class of men that stood before him, the mob. If *they* approved his sentiments, it might be well to question their soundness.

In one of his proclamations he says:

A riotous demonstration in your city, originating in opposition to the conscription of soldiers for the military service of the United States, has swelled into vast proportions, directing its fury against the property and lives of peaceful citizens. I know many of those who have participated in these scenes, would not have allowed themselves to be carried to such extremes of violence and of wrong, except under an apprehension of injustice.

Beginning with this miserable apology for the rioters, he pauses on to say, that riotous proceedings must be put down, and called on the rioters to go home and be quiet.

They did not do it: and lastly he issues another proclamation, in which he pronounces his *immediate* constituents to be in a states of *insurrection*, in the words following:

Whereas, It is manifest that combinations for forcible resistance to the laws of the State of New York and execution of civil and criminal process, exist in the city and county of New York, whereby the peace and safety of the city, and the lives and property of its inhabitants are endangered:

I, Horatio Seymour, Governor of the State of New York, and Commander-in Chief of the forces of the same, do in its name, and by its authority, issue this proclamation, in accordance with the statute in such cases made and provided, and do hereby declare the city and county of New York to be in a state of *insurrection*, and give notice to all persons that the means provided by the laws of this State for the maintenance of law and order, will be employed to whatever degree may be necessary.

Taken together, these three items show that the immediate constituents who had tried the Governor and approved him,—but who were rioting under an apprehension of injustice, would not be still when he coaxed them, but are now declared insurgents.—Let it be noted, that not one republican, not one war democrat, has aided or abetted this *insurrection:* it is wholly the work of his copperhead supporters, from whom loyal men would do well to cut loose. U. T.

NEW YORK.—There were 6000 troops in New York on Friday night, and regiments continued to arrive. Orders to some regiments to go there have been countermanded. Gens. Wool and Brown have been relieved from command. Gen. Canby superseded Gen. Brown, it is said by order of Gen. Wool. The Mayor has issued a proclamation, announcing the virtual suppression of the riot; urging the citizens to pursue their ordinary business; advising them, however, to yield to no intimidation and to no demand for money as the price of their safety. The police, he says, are everywhere on the alert, and there is a sufficient military force to suppress any illegal movement, however formidable. The Fire Marshals estimate the losses growing out of the late riot at over $400,000. Thirty-four fires occurred between Monday morning and Thursday night.

☞ The Navy Department has detailed five vessels for permanent service on the Eastern coast during the fishing season. It has at present several additional cruisers in that service, and in any emergency, will order other vessels to protect the commerce and fisheries in that quarter.

NEW HAMPSHIRE ITEMS.

—— When the announcement of the fall of Vicksburg was received at Plymouth, two young ladies hastened to the Academy and vigorously commenced ringing the bell.—Other young ladies caught the spirit, and soon all the belles of the Village were ringing the bells right merrily. The citizens rallied and fired a hundred guns, accompanied by a hundred cheers.

—— In Concord, on Friday night, while the Fire Department were absent at the tannery, which was on fire, the City Stable, in another portion of the city, was set on fire, and Mr. Whitehouse, of Farmington, Senator from the 5th District, rendered essential service. Engine No. 4 had been superseded by the steamer Gov. Hill; had been idle a long time, and was advertised for sale by the city authorities. But Mr. Whitehouse and others brought out and put No. 4 into such effective operation that the fire was confined to its source.

—— In the present operations against Charleston, it is probable that the 3d, 4th, and perhaps the 7th N. H. regiments are engaged. The 10th and the 13th joined Gen. Meade's army some days since.

—— Simeon Carlton, of Colebrook, on the 1st assaulted a neighbor, Henry Trask, because the latter attempted to drive the former's calves out of his fields, where they were trespassing. Carlton seized a hoe from Trask's hand, inflicted a severe wound upon his head, and continued to beat him when down till life was almost gone. It is thought he cannot recover.—Carlton has been arrested.

—— The Coos Mutual Insurance Company, which was chartered in 1855, has just gone into operation at Lancaster.

—— Rev. John M. Peck has accepted the invitation of the Wardens of Trinity Church, Claremont, and will assume the rectorship about the first of August.

—— A Glee Club from Amherst College are on their way to the White Mountains, and are giving concerts in towns on the route.

—— Nine persons joined the Orthodox Congregational Church, in Peterborough, at the last communion. Twelve joined at the previous communion. Three persons also joined the Unitarian Church at the last communion.

—— Among the prizes awarded at the Law School in Cambridge this year is one of $60 (the highest) to Alonzo B. Wentworth, of Somersworth, for a dissertation on "The influence of the Roman Law in the Formation and Determination of the Rules and Principles of the English and American Law."

—— The Lebanon Free Press says:—

Large numbers of horses are being bought in this vicinity for army use. Most of them are of inferior quality, and the inspecting officer who allows some of them to pass ought to have his brains beaten out.

☞ The outbreak in New York was doubtless planned by men in deadly opposition to government, allies of the rebels, who did not hesitate to employ the vilest instruments. Those who began the riots were, with few exceptions, *not* laboring men, but bullies, thieves, emigrant runners, watch stuffers, &c.: they drew in vicious boys, vile women and children, and as the tide swelled, many laborers. With those who really made the trouble, the draft was only a *pretext*,—as they have been in the interest of the rebels ever since the war began, and their papers also. The World headed its first account of the riot and murder, "Great Uprising of the People."—But the Express of Thursday says—"The Riot has degenerated into a Riot of *Thieves*, and ceases to exist as a riot of Conscription."

The riots in other places were of the same character, only on a smaller scale.—The men who planned them, though pretending that they only opposed the draft, have really opposed the Government, and sided with the rebels ever since the war began. The riots and insurrection have stripped off their mask.

THE LEADER OF THE NEW YORK MOB. The original leader of the New York mob, who has been arrested, John W. Andrews, is a Virginian by birth, and a low lawyer in New York city. He has resided in New York about five years, most of which time the police say he has lived with a notorious colored courtesan named Josephine Wilson. He has a wife and four children living in Virginia, in the vicinity of Norfolk. The name of his wife is said to be Foster. She was taken home by her father upon being deserted by Andrews.—The police recognize him as an habitual associate of thieves and prostitutes. A few hundred dollars in Confederate currency and U. S. Treasury notes were found on his person.—*Traveller.*

He was the leader who addressed the mob in Third avenue on Monday, telling the rioters that he would lead them in their raid upon the property of all members of the Black-Republican-Native-American party. He was arrested at a house of ill fame; and made some resistance. Andrews is truly a Representative Man, being a fit representative of his followers, and of the cause in which he is engaged. He is undoubtedly guilty of treason. Perhaps Judge McCunn or some one of his associates, may issue a writ of *habeas corpus* in his case.

THE HEROIC DEAD.

FUNERAL SOLEMNITIES.—Funeral services commemorative of the death of Lieut. Sumner Paine, of the Mass. 20th, killed at Gettysburg, were held in Chauncy-place Church, Boston, in the presence of the family of the deceased, the Harvard College Class of 1864, of which the deceased was a member, and of many friends. The services consisted of prayer by Rev. Dr. Peabody, singing by the Chauncy-place choir, and the following beautiful address by Dr. Peabody, which is everywhere applicable.

My Friends,—This second war of our independence is signal, even less for the number of its victims, than for the unprecedented proportion of those eminent for genius and high promise. In numerous instances the fatal lot has fallen on the inheritors of distinguished names, on the hope and joy of large circles of kindred, on the very youth who seemed the born and designated leaders in all that is graceful in attainment and honorable in deed. And at moments when our future has looked dark, have we not felt that the gloom was deepened into the very shadow of death by our bereavement of those to whom we should have looked to restore our decline and to repair our desolation? Have we not been tempted to ask, more than in sorrow, even in bitterness, "To what purpose is this waste?" Yet with a profound sense of all that the dead and the living have suffered, with the recent and regretful memory of many in whom I have felt a deep personal interest, with the most tender sympathy with our friends here, one of whose choicest treasures has now been laid on the sacrificial pile, I would say emphatically, this is not our loss so much as our gain. To be sure, in individual affection the void places must still remain void; in the nearer circle of home-love none can stand where the departed stood; and to our fond admiration no new luminary can reflect the specific light-beams of our own bright particular stars. Yet we are experiencing the multiform fulfilment of those words, "Except a corn of wheat fall into the ground and die, it abideth alone; but if it die, it bringeth forth much fruit." The martyr-blood is becoming the seed of patriotism and of civil and social virtue. Those that have fallen on the field are bequeathing their charge and trust to many who would not have shared it with them living. A higher tone of manhood, a more energetic purpose, a nobler aim, a loftier moral sentiment, has been breathed largely into our youth. The elements of national greatness, which reside wholly in individual character, have been stimulated through the swift ministries of death into rapid, yet healthy growth; and notwithstanding the multitudes that have passed away, there are at this moment more than ever before of those in opening manhood, and in the prime of their maturity, who are fitted to be strong pillars of the state, who are reproducing all that was noblest and best in the fathers of our country, and whose loyalty has been sealed and pledged in the solemn sacrament by which they have entered into the places of the dying, and have taken as from their lips the parting charge that the republic receive no detriment.

But while, for those who come hither in profound grief that they can see no more on earth the son and brother so lately with them in the blossoming of their hope and of his rich promise, there is comfort in the thought that their costly offering has been laid on their country's altar,—there is the yet sweeter consolation, that the Lord God reigneth, omnipotent and merciful. Over the wild uproar of the battle field, no less than among our quiet homes, sweeps the fan of his discriminating Providence. No one falls without our Father,—no one for whom it is not in the counsels of his love the fitting, the best time. And none perish. Where death plies the sickle, God's angels are the harvesters. In the eternal life of which he is the source, the hopes disappointed here may look for full fruition,—the desolation of the earthly household may be restored,—the children of his love may be trained, disciplined, purified, ennobled, and in his own time given back to their kindred where the farewell is never uttered. We yield up our dead, not to the devouring sword, not to the pitiless grave, but to the sure mercies of heaven, and the hope that is full of immortality. God grant that these burdened hearts may cast their burden on him whose love is nearer and more precious than even that which bound them to the departed. May no murmuring thought blend with their sorrow. May they, in profound submission, have grace given them to say, "the Lord gave, and the Lord hath taken away; blessed be the name of the Lord."

But in the presence of a great grief, how feeble are our best words of sympathy and comfort? Let us then look together to the God of all consolation, and let us unitedly commend our afflicted friends to him and to the word of his grace.

At the close of the address, prayer was again offered, and the beautiful chant "Thy will be done," finely sung, the services closing with the benediction.

IMPORTANT ORDER FROM THE PROVOST MARSHAL GENERAL.—*Washington, July 17th.*—The operations of the draft in the New England and Middle States, though in most instances completed, or now in progress without opposition, have in one or two cities been temporarily interrupted. Provost Marshals are informed that no orders have been issued countermanding the draft. Adequate force has been ordered by the government to the points where the proceedings have been interrupted. Provost Marshals will be sustained by the military forces of the country in enforcing the draft in accordance with the laws of the United States, and will proceed to carry into effect the orders heretofore given for the draft, as rapidly as will be practicable by the aid of the military forces ordered to co-operate with and protect them. JAS. J. FIX, Provost Marshal.

☞ The N. Y. News says it has the best authority for stating that Fort Darling, on James river, has been taken by our naval forces. Doubtful.

A FULL ALTOGETHER.

BY MARY FORREST.

Steady, O steady, my flag ship of State!
The breakers are gnashing their white teeth of hate;
The foam on your pathway is gory and red,
Everywhere stareth the eye of the dead!
Yet falter not now, midway on the sea,
For the blood of the brave and the hope of the free.

Fling out your broad pennant, on with your fleet;
On, like a Fate, through the fiery sleet;
Throw over your Jonahs—all hands to the strain;
A long pull, a strong pull—a pull once again—
And right through the surge you shall strike the true line,
That marks to its issue the purpose divine!

SOLITUDE.

Solitude is sometimes best society,
And short retirement urges sweet return.
MILTON.

☞ It is an encouraging fact that many of the drafted men, instead of paying the $300, bring good substitutes, of which the supply in Boston at the present time is said to be large. These are generally received through brokers, who receive $25 per man for their services. Many persons are coming from Canada and the Provinces as substitutes, the bounty being regarded as tempting.

☞ The Richmond authorities have abandoned the brutal design of executing two Union officers, chosen by lot from among those in the Libby prison, in retaliation for the rebel spies condemned by court martial and hung at Cleveland. The great excess of rebel prisoners in our hands has doubtless induced this decision.

☞ Commodore David D. Porter, commanding Mississippi Squadron, has been promoted to the rank of Rear Admiral, for gallant and distinguished services. His commission dates the 4th of July, 1863, the day of the surrender of Vicksburg.

☞ A steam carriage quietly making its way through the streets of Chelsea, on Wednesday, attracted much attention.

The Time allowed for Six per cent Discount on Taxes in this city the current year, will expire on THURSDAY, July 30. Collector's office, No. 74, State street, up stairs.

R. LEEAVOUR, *Collector.*

Portsmouth, July 4, 1863.

NOTICE.

CUSTOM HOUSE, PORTSMOUTH, N. H. } JULY 4, 1863. }

By direction of the Secretary of the Treasury, notice is hereby given, that no Vessel, other than Steamers and Packets known to be engaged on regular lines, or in the employ of the army or navy, will be allowed to leave this port between the hours of Sunset and Sunrise, until further orders. J. B. UPHAM, *Collector.*

Proposals for Wood.

The Overseers of the Poor of the City of Portsmouth will receive proposals at the City Clerk's Office, until WEDNESDAY, July 29th, at noon, for supplying 400 Cords good, merchantable HARD WOOD, to be delivered at any railroad station in this city, or at such wharf as the Overseers may designate, on or before the 10th day of November next.

Proposals will be received for the whole or any part of said Wood not less than 100 cords.

MARCELLUS BUFFORD, Clerk to Overseers.

Portsmouth, N. H., July 6, 1863.

DRAFT NOTICE.

OFFICE ACT. ASST. PROVOST MARSHAL GEN., } Concord, N. H., July 16, 1863. }

The Legislature of this State having passed a joint resolution requesting the Governor to ask the Secretary of War to order the Draft in this State to be made by towns, and the Governor having forwarded said resolution, and also telegraphed to him upon the subject, and having received a telegram from him, that he would take the subject into consideration when the papers were received—therefore the Draft in the First District is postponed until the decision of the Secretary of War in this matter is made known.

O. A. MACK, Major & A. D. C.
A. A. P. M. G.

Proposals Wanted.

The Subscriber is desirous of contracting with some responsible party, to furnish SUBSISTENCE & LODGING to Drafted Men; and also for the supply of Knives, Forks, Cups, Plates & Spoons. All under the Regulations of the Provost Marshal General.

For further information apply at the office of the Provost Marshal at the Old Custom House.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in the preparation of this. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be secured, in COLDS, CORYZA, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,
Commercial Wharf, Boston.

For Sale by all Wholesale and Retail Dealers. WEEKS & POTTER, G. C. GOODWIN & CO., REED, CUTLER & CO., M. S. BURR & CO., CARTER, RUFF & CO., J. WILSON & CO., S. M. COLCOMB & CO., Wholesale Agents, Boston, Mass.

☞ 86 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 9 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

POLICE COURT, Saturday.—Sampson L. Russell was brought before the Court on a charge of inciting a riot on Thursday night last. Several witnesses were examined, and the Court adjourned to this, Monday, morning, Russell being put under $1000 bonds for his appearance.

☞ "Promptness when duty calls," is one of the best recommendations for all public officers or servants. And all officials who were called upon to assist in quelling the mob, the other night, displayed this quality in a commendable degree. Our city officers were on hand in a twinkling; and the volunteers from Fort Constitution, and the marines from the Navy Yard, come on the double quick,—and pretty quick it was, too.

And all possible clemency and moderation, under excitement, is equally desirable;—and there were many commendable instances of this shown, also. But for the timely request of the Mayor, to the squad of volunteers at the lock-up, "Don't fire! don't fire!" many people, perhaps innocent of all but the folly of being there, would no doubt have been killed or wounded, with the guilty. And at the Provost-Marshal's office, "the better part of valor" was strikingly exhibited, when the gallant and vigilant Colonel commanding the marines, refrained from giving the order to fire on the mob, who occasionally stoned the premises, in mercy to the boys and innocent men who were also in range. And at Fort Constitution, also, no doubt it were better to disperse the rioters without bloodshed, if possible, as was done.

☞ Thanks to our old friend and liberal patron, John S. Harvey, Esq., for a basket of nice white-heart and black-tartarian cherries, from his garden. Mr. H. has probably extended as much patronage to this Chronicle, since its establishment, as almost any other man, and never forgets us in dispensing his favors. Long may he abide, and may his cherry trees be loaded every year!

To Rev. Mr. Patterson, also, we are indebted for similar favors, on more than one occasion. And, by the way, a little school-girl, the other day, told us of this gentleman leaving a basket of delicious cherries at the school which she attends—and the pleasure caused thereby among the children, must be as apples of gold, to such genial and kindly souls as his.

THE SWISS BELL RINGERS.—The Peak Family are almost too well known to require commend. The following from an exchange shows how well they are always received:—

A very large audience welcomed the Peak Family Bell Ringers at Concert Hall, last evening—an agreeable surprise, as the weather was so inauspicious. The performance was varied, and we need not say interesting, when we mention that though nineteen pieces were on the programme, nearly every one was encored. The versatile talent of these musicians is remarkable. Mrs. J. P. Blaisdell's harp performance was charming; the violin solo of Gustave Kaufmann, the recitation, songs and bell pieces by Little Lizette, Eddie and Master Frank, were delightful, and the finest Italian musical box could not sound more melodious than the ringing of the bells by the family in their well arranged medleys, polkas, waltzes and songs. One piece alone is worth the very low price of admission to this rare entertainment.

☞ In the attack on Morris Island, the fleet was divided into two divisions; the first consisting of the Monitor Catskill, with Adm. Dahlgren on board, and followed by three other Monitors. The second division consisted of the Housatonic, Capt. Charles W. Pickering, of this city, in command, Canandaigua, Conemaugh, Marblehead, Tobago, and six other gunboats.

☞ Thanks to our New York correspondent "Newington," for full and interesting accounts of the riot in that city; but, especially with the delayed mails, the telegraph so much outstripped him, and our room was so constantly demanded for affairs nearer home, that we could only use his letters for our private gratification.

DR. ALBERT CRANE,

Formerly of N. Y.,

Physician for Consumption and all Chronic Diseases, respectfully informs the Ladies and Gentlemen of Portsmouth, that from the request of many citizens, he will deliver

A FREE LECTURE!

THIS, MONDAY, EVE'G, July 20th,

AT THE TEMPLE,

Commencing precisely at 8 o'clock, on

The Philosophy of Man, the Laws of Health, and the Nature and Treatment of Diseases.

☞ *Ladies & Gentlemen are respectfully invited to attend.*

There will be several Examinations and Practical Illustrations of persons selected by a committee, at the close of each lecture, in which the Ancestry, Character, Constitution, Diseases, &c., will be plainly described.

☞ DR. CRANE can be consulted at the FRANKLIN HOUSE, on all Diseases of the Eye and Ear, Lungs, and Air-Passages—those arising from IMPURITIES OF THE BLOOD, and all derangement of the Stomach, Liver, and Bowels, &c., &c.

DR. CRANE has testimonials from the most eminent Medical men in Europe and America; also can refer to many thousand persons for proof of his successful treatment in Consumption and all Chronic diseases.

DR. CRANE was the first and only person who has ever introduced the BROMPTON TREATMENT, by Inhalation, for Diseases of the Throat and Lungs in the United States.

☞ The capture of Chattanooga by General Rosecrans is a matter which has attracted very little attention, yet it is almost as important an announcement as the surrender of Vicksburg. The latter gave us the Mississippi, but Chattanooga is the key to the whole internal railway system of the South. East Tennessee now becomes ours as a matter of course, and the mountain regions which split the South like a wedge pass naturally into our control.—Chattanooga, in its way, means as much as Vicksburg.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 60 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jn20

J. M. EDMONDS.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so ruinously lodged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in the development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, derangements of the stomach and Bowels, and as a Family Pill. spno

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures more to his and her Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for those diseases, offer inducements to the unfortunate of a quick and reliable cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are produced by under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving them of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. As the reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Violon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsupprecised, and is in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.

N. B.—No students or boys employed. Notice this, address all letters to

EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap *Refrigerators*, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the families for "*Pin Money*." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, and thoroughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.**

FOR WOOD OR COAL.

E. A. STEVENS,
No 46 MARKET ST.

Two Garden Engines,

Of sufficient capacity to throw a stream of water over a two story house; a fine thing for washing windows and watering gardens or shrubbery, for sale cheap, by E. A. STEVENS

From the Journal

LATE HENRY L. RICHARDS.

It pains us to say that this noble hearted man is no more. At the commencement of the rebellion he offered his services in defence of his country. Though possessing sterling ability, he sought no high position, but only that in which he was confident of being most useful. When requested to take a commission, his reply was, "No—I had rather be a good soldier than to be a poor officer." When the company of Sharpshooters was forming at Concord, he went on foot to that place from Portsmouth, was examined, accepted, and he returned home in the same way, to fit up for his departure. After an absence with the army of fourteen months, in which time he was exposed to severe engagements, he came home wounded in November last. As soon as his health would permit, he again joined the army, on the Rappahannock, and on the 2d of July, at the battle of Gettysburg, was severely wounded in his knee by a minnie ball. After remaining on the ground all night, he was taken up and carried to the hospital, where amputation was performed, while under the influence of chloroform, from the effects of which he did not revive. His age was 38. His remains will probably reach here in a few days, and the performances of the last sad rites will bring feelings of heartfelt sorrow to our whole community. And now, and in all future time, as those who knew him well pass under the shade which is just beginning to be made by the long range of trees in Auburn street, they will be reminded of the one who selected and with his own hand placed them there, to cheer the passage to the cemetery—and the name of the noble Richards will be as green in their memory as the leaves which every returning spring will renew.

Capt. Thomas O. Barry.—Among those who fell at the late battle at Gettysburg, was Capt. Thomas O. Barr, of the Regular Artillery, aged 37, son of Mr. Bartholomew Barr, of this city. He has at West Point, has been in the regular service for many years and enjoyed a good reputation as an officer and a man. This is the second son Mr. B. has been called to part with in this war.

The Shaker Soldier.—Among those who fell at the battle of Antietam, on the 16th of last Sept., whose names have not been published, was Mr. Andrew Jackson Moore, aged 27, son of Mr. Frederick W. Moore, of this city. He was of the K., 38th Mass. Reg. From early childhood Mr. Moore had been with the Shaker family at Canterbury. Soon after the war commenced he left the family, desirous, as he told us, to be in the world in these stirring times. In August, 1862, he enlisted, went directly to Antietam, and fell in the first month after his enlistment.

Contrabands and Prisoners.—On Sunday last a U. S. steamer, (formerly the Bermuda, captured while attempting to run the blockade,) arrived at our Navy Yard, from Mobile via Fortress Monroe, with about a hundred prisoners and as many contrabands. The former were destined for Philadelphia and the latter to be stationed at Fort Sullivan, on Trefethren's Island, adjoining the Navy Yard. Among the prisoners was Capt. Joseph Leach, formerly of this city, a nephew of Hon. Daniel Marcy, the Representative of this District. He was formerly Capt. of ship Frank Pierce, owned by Daniel and Peter Marcy and others. He was captain of ship Plaster, with a valuable cargo. He had run the blockade three times, and was captured on the fourth effort. His clerk, Mr. Frank Scott, of Portsmouth, was also a prisoner. It was rather tantalizing to be brought within sight of their former homes, without the privilege of visiting them. The Bermuda sailed for Philadelphia on Tuesday.

The arrival of these contrabands has occasioned no little disquietude among the Irish laborers, who think the blacks are to be brought north to take their places. As these blacks are to be trained for soldiers, and in this way to discharge a duty from which the Irish are very willing to be relieved, they should have been received with better feelings.

New Route to the Lake.—It does not seem to be generally known that passengers who leave the station of the Eastern Railroad in this city at 2½ o'clock P. M. can reach Alton Bay at 4½ o'clock, without changing cars, and then take the beautiful steamer Dover and reach Wolf'boro' at 5½ and Centre Harbor at ten time. They can spend the night at Wolf'boro', Centre Harbor, and spend the day in steaming on the Lake, and reach Portsmouth at 5½ o'clock the next afternoon. Twenty-seven hours time, and a little money, will give you an exhilarating ride through a beautiful country—through a half dozen interesting villages—an excursion on the Lake and back again. Those who go will be likely to meet persons who have come from a great distance to see our Lake, and who will say that they have been richly paid. Yet there are people in Portsmouth who are living within two hours' ride of the "Smile of the Great Spirit," and have never afforded themselves the pleasure of looking at it.

HIGHLY IMPORTANT FROM NORTH CAROLINA.

Newbern, N. C., July 12.—Hon. John A. Gilmore and other extreme slave holders, are said to be in favor of the gradual emancipation system in this State, which it is understood North Carolina will be required to accept as the chief condition of settlement but between the Federal States.

Intelligence from the Legislature now in session at Raleigh, confirms the report that many of its members have come out for the immediate repeal of the act of secession passed by the sovereign convention of this State, and for the recal home, by Gov. Vance, of the troops from the Confederate army at once. Should Lee's army be annihilated, or prevented from reaching this State, the repeal of this act may take place at any moment, otherwise matters will remain as above stated.

A portion of Col. Mark F. Wentworth's Regt. 27th Maine Volunteers, which volunteered to remain at Washington, reach home last week. The company composed of the men of Kittery and Eliot under Capt. Dixon, with Col. Wentworth, reached Portsmouth via the Eastern Railroad, and were welcomed by their friends, as noble men, who were willing to remain and discharge their duty to their country, after the term of their enlistment had expired. Had the time of their arrival in Portsmouth been previously known, they would have had a good reception at the depot.

Newcastle Bridge.—At the Corporation meeting held the 6th inst., the following Directors were chosen:

John Staves, W. H. Y. Hackett, Mark H. Wentworth, T. Sheafe Coffin, James Dodge.

At a meeting of the Directors, John Staves was elected President, and W. L. Dwight, Treasurer.

The U. S. steamer Augusta, E. G. Parrott Commander, arrived at the Philadelphia Navy Yard July 10th, from Port Royal.

Singing Schools.

Mr. Benj. B. Davis, of Concord, at the request of many citizens of Portsmouth, respectfully announces that he is now conducting a Juvenile and an Adult class in Singing at

MERCANTILE HALL, Portsmouth,

Each Wednesday Afternoon and Evening.

The Juvenile Class at 3 o'clock, the Evening Class for adults, at 8. The rudiments are taught, and also practice in singing, in both classes.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Seminal Weakness, Lost Manhood, Loss of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by this baleful habit are, Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily by females, diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the success of his treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had more experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1847, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. Dr. Dow's letters are genuine, have never gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, should call on him.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜

Rye, N.H., Feb. 26, 1862. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her from walking or putting her feet to the floor, very much. A large sum had been expended to the most celebrated physicians, for Sarsparilla Syrup, Ointments, &c., but all failed to relief until I procured some ten or twelve bottles of Dr. Swett's Panacea, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. Joseph Junkins.

Portsmouth, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. Swett's Panacea, which proved so relief cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. J. D.

From Elder I. Chenley, *Lee, May 31, 1861.*

Dr. Swett: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but could not grow worse till she commenced using your Panacea and Humor Wash. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named. Isaac Chenley.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may30o

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove, in all respects, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for heating water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using the Magee Stove, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, John R. Holbrook, George Billbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John H. Piper, John Warburton, Asel Quimby, Louis Green, Robert King, George H. And the footsteps of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, there is no foul air nor headache so much complained of in other Furnaces, is entirely obviated.

The objection raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The communications between the fire pots, and the air, of into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air. The air, being heated, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large portion of the heat, without injuring the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy, and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:—

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Meadum, Henry P. Wendell, John Sise, and others.

December 5th, 1862. ly

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the prominence—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean as easily as any other, and as sweet, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in this branch of business, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 Congress Street, Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late years much trouble in inserting upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon VULCANIZED RUBBER, the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: Lightness and elastic, and consequently is perfectly easy to the mouth, and will not bagging cheeks. There are no insterstices or open points to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

All those who are waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and satisfaction to the best manufacturer in the country, S. S. White.

All other operations in Dentistry I will do at the usual rates. I will here mention that my price for Extracting is 25 cents.

I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr Oliver and Dr Dennett, for particular success in extracting Teeth. Teeth extracted without pain and will perfect safety, with ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace surgeon in King James's army. Through it agency he cured thousands of most serious sore and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wound. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much troubl suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

VOL. 23. PORTSMOUTH, N. H. TUESDAY JULY 21, 1863. NO. 17.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home! our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Parental Address*

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act, of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the undersigned during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure patents, and the usual great delay thereby are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable on I successfu*l practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be assured having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART,

During eight months, the subscriber, in course of his large practice, made application for rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Dec. 2, 1862. 3tawly

Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, contracts for less than every other day, charged one-third less than full rates.

Cuts charged double their measure, and inserted on front page only.

Advertisements in large, reading matter type, charged double per Square, the smaller type.

"Special Notices" double the common rates.

Leaded notices in editorial columns, 10 cents per line, each insertion; and no statements as of fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.

Solid notices in reading matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.

Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for; and a similar fee will be accepted when proffered.

☞All papers more than one copy per week, sent to advertisers, will be charged for.

Probate Notices and other Legal advertising at regular rates.

Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.

Portsmouth, N. H., Jan. 1, 1863.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 21, 1863.

THE REBELLION.

Our whole army is across the Potomac, and moving.

Lee is retreating by way of Strasburg and Stanton.

Adm. Lee has attacked Fort Darling; result unknown. The rebels captured the small force left at Fort Powhattan and decamped.

The Department of Virginia, by a recent order from the Secretary of War, has been annexed to the Department of North Carolina, Maj. Gen. J. G. Foster commanding, who goes to Fortress Monroe to organize his command. Gen. Heckman is in command at Newbern.

During the attack on Morris Island a rebel steamer, which attempted to land reinforcements, was driven off and destroyed by our gunboats; the rebels escaped. It is reported that our iron-clads have made a breach in the South wall of Fort Sumter.—Gen. Foster had taken all the forts on James Island as far as Secessionville. On the 13th, 113 wounded rebels were brought in to Folly Island. Many of them stated that they were forced into the rebel service, and intended to take the oath of allegiance. They are Germans, and will be sent north. A rebel official dispatch, 16th, states that they attacked part of the Federal forces on that morning, and drove them to the protection of the gunboats in the Stono, with small loss on both sides. The Federals were massing their troops on Morris Island, evidently for another attack on battery Wagner. Their monitors and the mortar boats kept up an almost constant fire all day on that work, with little damage to it and little casualties.

The rebels apparently intending to advance towards Plymouth, N. C., four of our gunboats bombarded Williamston on Monday, 13th. A bridge was destroyed, and the rebels were driven entirely from the river, many miles back.

A large rebel force under Pillow is threatening an advance on the Ohio river. The Cincinnati Gazette of the 15th says parties from Helena, Ark., represented that Gen. Blunt had captured Little Rock, Ark., with a large number of prisoners.

Three hundred of Morgan's men were captured on Sunday near Buffington, among them Col. Dick Morgan.

Morgan attempted to cross the Ohio on Sunday near Coolsyville, but was prevented by a gunboat. 150 rebels were killed or drowned, and 1000 captured with their artillery. The rest were scattered among the hills. They numbered 5000 or 6000.

Our forces under Gen. Sherman occupied Jackson, Miss., on the 10th, and our advance was then beyond Pearl river. Johnston had retreated still further into the State of Mississippi.

Twenty-two transports left Vicksburg on the 12th, for a point down the river, supposed to be Natchez.

The rebel cavalry was defeated at Jackson, Tenn., by Col. Hatch, on the 13th inst. Their loss was 200 killed, wounded and prisoners; 400 conscripts were released, and about 250 horses were captured, with more than that number of arms.

None of the captured rebels at Fort Hudson had been paroled by Gen. Banks up to the 12th. Of the garrison, 4000 were in line when they surrendered, besides 500 wounded and 1000 sick. The wounds were mainly in the head, from the bullets of our sharpshooters. Our batteries had destroyed an immense amount of stores. A large supply of ammunition fell into our hands.

A Memphis dispatch states that Col. Hatch has captured the artillery and trains of the command of Biffle. Biffle's men scattered in every direction, and most of them succeeded in crossing the Tennessee river and joining Rhoddy and Newcome, who retreated toward Trenton.

New Orleans letters give a rumor that Adm. Porter will assume command of the Mississippi river, and that Adm. Farragut will go outside to commence operations in another quarter against the enemy,—possibly against Mobile.

☞ One of the principal objects of Gen. Sherman's pursuit of Johnston in Mississippi is said to be to collect all the rolling stock Johnston has in Mississippi. All the cars, engines, &c., which were taken by the rebels from Nashville, Columbus, Memphis and New Orleans, are now lying west of the Tombigbee river, and many of them north of Jackson and Canton. If Sherman can cut the roads leading east at Jackson and Meridian, then the whole lot must fall into our hands or be destroyed.

☞ Elizabeth Archer, for being concerned in the sacking of one of the stores in New York, has been sentenced to the Penitentiary for six months.

☞ The Gibraltar, late the Sampter, which sailed from Liverpool for Nassau, was freighted with heavy guns to look out for Federal merchantmen.

CURIOUS ARGUMENT.—A writer in the Boston Courier says:

"Our argument that anti-slavery originated the war, is met by the response, "There would have been no anti-slavery had it not been for slavery." Very irrelevant and irreverent, too, do they consider the questions: Where would have been slavery without the negro? Where would have been the negro without God?"

We do not so consider them: and proceed to answer the first question, by remarking that there have been millions there of white slaves than of negroes,—and especially that in our father land, Britain, the ancient Britons were slaves to the Romans, then to the Saxons; and the Anglo Saxons were slaves to the Normans: so that slavery has existed, in many places, and in many ages, without the negro.

As to the last question, *Where would have been the negro without God?*—really we cannot say: but with God's permission he is all round, just now. He is the working man at the South,—and the rebel chieftains having tried to build an empire on his back as a mudsill, one side of the edifice has settled, almost as badly as the famous Custom House in New Orleans.—The builders, North and South, are making a great ado about it, but it looks as if it would slide off the foundation, and bury itself in the mud. U. T.

SUBSTITUTES UNDER THE CONSCRIPTION.—There seems to be much confusion in the minds of the public in regard to the question of substitutes and exemption by paying $300 to the Government. Whether this confusion extends to the mind of the Provost Marshal General, or only to his written exposition of the law, is uncertain. The 13th section of the law provides that a man may furnish a substitute, or pay three hundred dollars to the Secretary of War or his agent—"for the procuration of such substitute." The Secretary accepts the trust, receives the money, which he can apply to no other use than that specified—and is bound to procure the substitute; and it is clear that any attempt on the part of any branch of the Government to make a distinction between the principals of substitutes actually furnished and those paid for to the Government, is a gross violation of the contract entered into when the money is paid.

By section 17, it is provided that a person furnishing a substitute shall be exempt "during the time for which he was drafted." It is clear as a matter of right and contract with the government that the man who has paid his money to the secretary "for the procuration of a substitute," *has furnished a substitute*, and is entitled to all the privileges of having done so. But the whole difficulty vanishes at once, if we accept the true meaning of the words of the 13th section, "shall be discharged from further liability *under that draft*." That draft lasts as long as the term for which the men are called out under it, and until that time has expired, the conscript under it, whether he serve by substitute or otherwise, is exempt. This is the only reasonable reading of the law, and it is obvious that such must have been the understanding of the framers of it.

It may be that this question will never arise, so that a judicial tribunal can reach and decide it, but the agitation of it has already added to the doubt and anxiety in the minds of many, who can, by a great effort, raise the three hundred dollars, but doubt whether payment will release them, and therefore are looking about for substitutes, and creating that artificial demand and exaggeration of price by competition which it was a special object of the bill to avoid. Let the public understand that the best way for the Government and the drafted who propose to furnish substitutes is to have but one purchaser of substitutes, and that the Government.

"MORAL FORCE."—Frank Pierce, in his speech at Concord, is reported to have said that he would have the Government of the United States rely wholly upon moral force to sustain its existence, and secure the enforcement of the laws.

A few years ago, when Pierce was himself entrusted with the execution of the laws, a fugitive slave was caught in Boston, and, because there was danger of resistance to the enforcement of the odious Fugitive Slave Law, armed men were called out to make its execution sure.

And it will not be forgotten that this same Frank Pierce, who believes only in *moral* force, telegraphed to his Marshal, who had called in the aid of the military, with hot haste, "Your conduct is approved. The law must be executed." Did he mean then, to rely upon moral means alone?—Or, would he rely upon moral means when dealing with one section of the country while force should be used when dealing with another section!

It is absolutely sickening to hear men, who would not hesitate to use any means to carry out their own schemes, talk about *moral* force when applied to themselves and their friends.—*Boston Transcript.*

☞ Commander Read has been mortally wounded in an attack on some rebel batteries above New Orleans. Adm. Farragut, in communicating the fact to the Department, says:—

Well might it be said, "The country could have better spared a better man."—I know nothing of him prejudicial as a man; but I do know that no navy can boast of a better officer; and I deem him a great loss both to the navy and his country.

CUTTING ITS OWN FINGERS.—The New York World says:

The man who refuses to put his physical strength at the service of the legitimate authorities, when summoned so to do, contributes to the power of the mob by precisely so much as he detracts from the power of the government. Whatever his motive may be, he deserves and he will receive the direct chastisement at least, of the contempt of his fellow-citizens. But mischievous as are the course and the example of such as these; their course and their example are a hundred-fold more disgraceful to themselves, and to the public weal a hundred-fold more perilous, who seize upon the moment of the wildest popular excitement, to fan the fire of party passions, and heat still hotter the furnances of rage and hate and mutual distrust.

This is sound doctrine. But it reads strangely in the columns of a journal that has been doing its best to influence the passions of the mob against the government and to persuade people to resist the demand for their aid in crushing rebellion. If good citizens are bound to render help, when summoned by the law, to put down a riot, what sort of citizens would those be, who should listen to the World's advice, to refuse to shoulder the musket to defeat and conquer an armed insurrection, purposing the dissolving the Union and the overthrow of the Federal supremacy?—*Transcript.*

THE SEED THAT BORE FRUIT.—On the 2d day of November, 1860, at a meeting held in Cooper Institute, New York, called under the auspices of such men as Fernando Wood and James Brooks, Mr. C. L. Vallandigham uttered the following words:

"If any one or more of the States of this Union should at any time secede—for reasons of the sufficiency and justice of which before God and the great tribunal of history they alone may judge—much as I may deplore it, I never would, as a Representative in the Congress of the United States, *vote one dollar of money whereby one drop of American blood should be shed in civil war.*"

The doctrine of this language is, that disunion and dishonor are preferable to war. Mr. Vallandigham has been true to his pledge. Even before this language was uttered, he, with Ben Wood alone, of the members of the House of Representatives, voted against the resolution of Mr. Crittenden, declaring that the war had been forced upon us by the disunionists of the South. Who can doubt that such utterances as this, in connection with the factious, defiant and treasonable speeches of such men as Brooks and Wood, have constituted the seed that, scattered upon the vicious soil of that city, has been bearing bloody fruits for the last few days? These are the legitimate results of such causes.—*Portland Press.*

AN IMPROVEMENT.—The decision of the Provost Marshal General, that drafted men may not pay their commutation or furnish substitutes *after* the preliminary surgical examination, has been reversed, in accordance with an opinion of the Solicitor of the War Department, Hon. William Whiting of Massachusetts. We are glad that this decision has been made, for it removes what has been regarded as an oppressive feature of the construction given to the law by the Provost Marshal General.

Hon. Caleb Cushing also gave a very full and conclusive opinion to the same effect, which is published in the Newburyport Herald.

☞ Gen. Dix has arrived in New York to assume command of the Department.—The Aldermen and Common Council have resolved unanimously to pass the bill to pay the exemption fee by raising a fund of two and a half millions over the Mayor's veto, if he should veto. All was quiet on Saturday night. Several war vessels lay in the harbor, delayed for the suppression of the riot. The Tulip and Faschia lie off the Battery, the Passaic at the Navy Yard, and the Gertrude and Granite City off Long Dock.

GODEY'S LADY'S BOOK, for August, contains more of the late fashions from the celebrated house of A. T. Stewart & Co., New York, besides all the peculiar features which have made this Lady's Book unequalled.

Count Walewski, who leaves the French Ministry, is an illegitimate son of Napoleon I.; and the Duc de Morney, who enters it, is an illegitimate son of Napoleon III.'s mother. No wonder that the legitimists do not like the imperialists, with such facts before them.—*Travelles.*

☞ The Washington correspondent of the N. Y. Herald asserts that the draft is enforced at the present time in consequence of the danger of a war with England.

☞ The Boston Post, speaking of the draft, says "it is a summons to, not a discomfitted and broken-spirited soldiery, but a band of heroes, the monuments of many a well-fought field."

☞ Foreign advices state that a powerful iron-plated ram of 1900 tons has been launched from Laird's Yard, ostensibly for the Emperor of China, but insinuated to be for the rebels. She is to have revolving cupolas.

☞ The drafted men at Plattsburg, New York, numbering three hundred, celebrated the "election" by music, a procession, repeated cheers for the President, Gen. Meade and others.

☞ The Raleigh, N. C. Journal admits the existence in that State of Secret Union Societies.

☞ In 1814, says the Traveller, the war democrats tried to get up a conscription which was to have excepted only the President of the United States and the Governors of the States; but the project failed, because of the opposition made to it by the federalists, who were aided by some of the democrats. James Monroe, then Secretary of War, and afterward the most popular President we have had in this century, was the initiator of the project, and his immediate purpose was the conquest of British North America. Resistance to the measure was much threatened by the federalists, and Connecticut took measures in advance to render it of no avail. Peace coming soon afterward, there was no occasion for any law of the kind; but it had been almost as necessary as it is now, as we were in great danger.

☞ The Boston Post says,—"The suppression of the riot in Boston was promptly and properly accomplished. Such disturbances admit of no parley. It is "your life or mine." The laws must be sustained; the peace preserved; the rights of life and property observed; or Government becomes a mockery, existence worthless, and man but little better than the brute that perishes. We hope never to see a repetition of the scenes which transpired here on Tuesday; they are a shame and a disgrace to this community, and a renewal of them can only be atoned for in the blood of the guilty parties."

☞ Several thousand rebel prisoners who were on their way to New York, were sent to points south of the city, because when information of the riot reached their slender guard, it was apprehended that the mob might recruit itself with these congenial spirits.

Domestic Dyes—Fast Colors.

R. LEFAVOUR, *Collector.*

Portsmouth, July 4, 1863.

NOTICE.

CUSTOM HOUSE, PORTSMOUTH, N. H.
JULY 4, 1863.

By direction of the Secretary of the Treasury notice is hereby given, that no Vessel, other than Steamers and Packets known to be engaged on regular lines, or in the employ of the army or navy, will be allowed to leave this port between the hours of Sunset and Sunrise, until further orders.

J. B. UPHAM, Collector.

Proposals for Wood.

The Overseers of the Poor of the City of Portsmouth will receive proposals at the City Clerk's Office, until WEDNESDAY, July 29th, at noon, for supplying 400 Cords good, merchantable HARD WOOD, to be delivered at any railroad station in this city, or at such wharf as the Overseers may designate, on or before the 10th day of November next.

Proposals will be received for the whole or any part of said Wood not less than 100 cords.

MARCELLUS BUFFORD,
Clerk to Overseers.

Portsmouth, N. H., July 8, 1863.

DRAFT NOTICE.

OFFICE ACT. ASST. PROVOST MARSHAL GEN.,
Concord, N. H., July 16, 1863.

The Legislature of this State having passed a joint resolution requesting the Governor to ask the Secretary of War to order the Draft in this State to be made by towns, and the Governor having forwarded said resolution, and also telegraphed to him upon the subject, and having received a telegram from him, that he would take the subject into consideration when the papers were received—therefore the Draft in the First District is postponed until the decision of the Secretary of War in this matter is made known.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,

Local.

POLICE COURT, Monday.—Sampson L. Russell, Augustus Walden and Richard Smart, for inciting a riot in this city, last week, were bound over in the sum of $1000 each, for their appearance at the October Term of the S. J. Court.

☞ The officers of the new National Bank in this city are the following gentlemen: President—W. H. Y. Hackett; Directors—Ichabod Goodwin, Wm. M. Shackford, Samuel Lord, John Stavers and W. H. Y. Hackett. It will go into operation as soon as the circulating bills are issued by the general government. It is to run for twenty years.

☞ The U. S. barque Fernandina, Acting Master Edward Moses of this city in command, arrived at this port on Monday, from Port Royal.

☞ Lieut. Charles W. Patch, of this city, Co. K, 2d N. H. Regiment, who was severely wounded at Gettysburg, died on the 10th. He was a brave and patriotic officer.

☞ We learn that orders to build three new steamers have been received at the Portsmouth Navy Yard.

☞ Corp. Thomas Entwisle, of this city, Co. D, 3d N. H. regiment, was slightly wounded in the attack on Morris Island.

NEW HAMPSHIRE ITEMS.

—— Leading Republicans from this State are in Washington to get some action of the government, whereby towns which have hitherto furnished but few volunteers, shall make up for their deficiencies, and thus cause the conscription to fall lightly on such localities as have exhibited conspicuous patriotism at an early and perilous hour.

—— In capturing Morris Island, the N. H. 3d regiment lost 8 killed and 21 wounded; and the 7th, 5 wounded. Lieut. Col. Bedell, of the 3d, was slightly wounded.

—— The bells were rung for two hours in Exeter on Thursday evening, and a bonfire built, in honor of the fall of Port Hudson.

—— The dying words of the lamented Col. Cross, of the N. H. 5th, were:—

"I did hope I would live to see peace, and our country restored. Thank Heaven, I have done my duty. I think the boys will miss me. All my effects I give to my mother. Heaven knows I have bought them dearly enough. Oh! welcome death. Say farewell to all."

DRAFTING IN NEW HAMPSHIRE.—Drafting has been postponed in New Hampshire on account of towns having been classed together in sub-districts, which is disliked by the people. Gov. Gilmore is also endeavoring to have due allowance made to each town, for any overplus on account of volunteers.

In Massachusetts this disregard of the overplus of towns, and merging it all to the credit of the Congressional District, has operated hard on some towns. Haverhill is stated to have a surplus of 200 volunteers, yet she is called upon now for 236 drafted men. The same hardship, we believe, applies to Natick, Lowell, and other towns. *Traveller.*

EXCITEMENT IN NEW HAMPSHIRE. We understand that in view of the approaching draft there is considerable excitement in New Hampshire, especially in the large manufacturing towns where the foreign element is in the majority. Messengers have been sent to the U. S. Arsenal at Watertown for cannon and ammunition, which have been supplied. These precautionary measures will probably prevent an outbreak.—*Traveller.*

☞ A gentleman who arrived in this city on Monday evening from Lowell, Mass., informs us that a terrible accident occurred in that city on that day. A boiler in a picker mill exploded about ten minutes before 12, 30 men being employed in the building at the time. When the cars left, the building was in flames; one man, severely injured, and the dead bodies of two others had been taken out; all the others remained beneath the ruins, but efforts were being made to rescue them from the flames.

☞ One of the most curious features of the rebel invasion was the holding of a prayer-meeting by one of the regiments of Lowell's corps in the streets of Boonesboro', Md., whose loud prayers and singing proclaimed the truth of the report previously published that a revival had taken place in Jackson's corps.

☞ The front door of the old Hancock House was bought by Hon. Moses Kimball for $37. The red cedar balusters were sold for canes, at fifty cents per cane.

☞ Gen. Sickles has passed the critical point in his case, and is now rapidly recovering.

☞ The blockade running steamer Kate Driver run ashore near Wilmington, N. C., and was destroyed by our gunboats.

☞ The rioters at Troy, N. Y., on Wednesday, delivered from the jail eighty-eight prisoners, four of whom were under indictment for murder. Three of the latter were apprehended on Thursday.

☞ A great Union meeting and torch-light procession took place at New Orleans on the night of the 11th. A large number of residences were illuminated.

☞ It is said in the New-York Journal of Commerce, that the soldiers of the army of the Potomac, while fighting in Pennsylvania, were under the impression that Gen. McClellan had taken Halleck's place in Washington; "nor (says the Journal) could the most distinct denials from those who had reason to know the facts, convince the soldiers that they had been misinformed. They were perfectly satisfied with the leadership of Gen. Meade, and gave him their hearty confidence."

That this falsehood about McC. and H. might be believed by some soldiers, is possible; that it was believed by THE soldiers, i. e. all or most of them, is not probable; and whether true or false, whether believed or not, the item was made before Lee had retreated across the Potomac. It reads differently now, calling up a new train of thought.

☞ Mr. Vallandigham has turned up in Canada, whence he sends over the border a letter accepting the nomination to be Governor of Ohio, saying everything he can against our own Government, and expressing great confidence in the invincible rebels: but when he wrote, he had not heard from Port Hudson, and did not know the Mississippi was open: these things must trouble him; but the "insurrection" in New York City will cheer his heart a little.

☞ A large steamer was seen off Cape Cod on Friday night, by the U. S. steamer Cambridge. The steamer behaved mysteriously and refused to give information, when the Cambridge beat to quarters. She quickly made off and was lost sight of in the fog. The Cambridge arrived off Portland on Sunday, and went to sea again the same evening.

NORWICH UNIVERSITY. The annual commencement of Norwich University takes place August 12 and 13. An oration will be delivered on Wednesday by Rev. James Davis Butler of Madison, Wisconsin. The commencement exercises proper occur on Thursday, when an oration will also be delivered by George W. Bungay of New York, an address before the Trustees by Rev. Francis Vinton, D. D., and a poem by William Winter of New York city.

A succession of military pastors has been had by the North Church in Newburyport. Their first minister, Mr. Marsh, before the revolution, had been chaplain in the English army. Their second minister, Dr. Spring, was chaplain in the revolutionary army. Their third, Dr. Dimmick, held the pastorate during the long period of peace succeeding the war of 1812, when no calls were urgent for the national army; but he was not devoid of military spirit, and for seven years was chaplain of a militia regiment. The fourth and present pastor, Rev. Mr. Hooker, has been drawn under the conscription; and we are informed that he expresses his willingness to answer the call, if his parish raise no objection. Fifteen of his flock are also conscribed—making sixteen from the "Old North" parish.—*Herald.*

☞ Hereafter a reward of $10 will be paid for the apprehension and delivery of a deserter.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast.* Samples on silk and wool can be seen and the colors procured of THACHER.

DR. ALBERT CRANE,

of New York, formerly of New Orleans, Physician for Consumption and all Chronic Diseases.

☞ DR. CRANE can be consulted at the FRANKLIN HOUSE, on all Diseases of the Eye and Ear, Lungs, and Air-Passages,—those arising from IMPURITIES OF THE BLOOD, and all derangement of the Stomach, Liver, and Bowels, &c., &c.

DR. CRANE has testimonials from the most eminent Medical men in Europe and America; also can refer to many thousand persons for proof of his successful treatment in Consumption and all Chronic diseases.

DR. CRANE was the first and only person who has ever introduced the BROMPTON TREATMENT, by Inhalation, for Diseases of the Throat and Lungs in the United States.

MARRIAGES.

In this city, on the 19th inst., by the Rev. Mr. Davies, CHARLES B. BARLOW, U. S. N., of Newport, R. I., to MISS CARRIE J. CHASE, daughter of Asahel P. Chase, of Portsmouth.

DEATHS.

In Greytown, Central America, June 24 th, MRS. ANNA W. PATON, aged 20 years, wife of George Paton, Esq., H. M. Vice Consul at that post, and daughter of Dr. Adams Perry of this city.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can do, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer independent to the unfortunate of a safe and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. The pamphlet, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sun days from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

EVERY KIND OF

KITCHEN FURNISHING GOODS.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Currie, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *six weeks*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the difficulty of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper prices* than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.** Prices from $3.00 to $15.00 each.

Notice.

The Subscriber gives notice that he has been duly appointed Administrator of Estate of ARVILLA W. WEBSTER, late of Portsmouth in the County of Rockingham, deceased.

All persons indebted to said estate are requested to make payment; and all having claims to present them for adjustment.

Dated at Portsmouth, N. H., July 11, 1863.
J. M. EDMONDS.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. Its other produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from generation to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. This it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. It also tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & CO.,
Practical and Analytical Chemists,
Lowell, Mass.

Sold by all druggists every where.

Singing Schools.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the sufferer with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment all the symptoms of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Strictures, Gravel, the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Irritating Swellings, and the long train of horrible symptoms attendant on these diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the business or society. Some of the sad and melancholy effects produced by early habits of youth are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Pulmonary Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment can be accommodated with board at reasonable rates, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment can be accommodated with board at reasonable rates, and be at once restored to health and happiness.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. There for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system, Irregular Uterine, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and unfailing principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the subscribed Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly.

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1856. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. She has tried much and expended to the most celebrated physicians, for Sarsaparilla Syrup, &c. &c., but she obtained no relief until I procured your Sarsaparilla. Her use, with a few vials of Dr. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no doubt of the cure being more lasting than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWEETS PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER J. CHESLEY, *Lee, May 31, 1861.*

Dr. Sweet: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting her lived in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but failed to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease here mentioned. ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. may26o

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a heating warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and pleasant, and at the mouth of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating furnaces have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass over the coal, leaving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney hot and dry, and of little draught.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. It from two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as any other, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,
DENTIST,
60 Congress St.
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET.
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had of late many calls to insert teeth on the VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon the RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz: It is very light and elastic, and consequently is perfectly easy to the tissues of the mouth and cheeks. There are no fissures or open joints to collect food, &c., consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and lasting from the best manufacturer in the country.

B. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BERRY, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.

All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. WEDNESDAY JULY 21, 1863. NO. 18.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth; do good; be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)
75 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is more SUCCESSFUL. At THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as I successfu*l practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, or more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAYLOR.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.
Boston, Dec. 2, 1862. Stawly

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from
WHEAT, RYE AND CORN,
is, without doubt, the most healthful and medical spirit that can be used. Having determined to make this of his business a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of
"GOLDEN SHEAF,"
PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the trade by his Traveling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, 91 Washington St, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure safe transportation.

C. A. RICHARDS, General Agent.
Boston, May 19, 1863 6mos eod

HERE'S HEALTH FOR THE MILLION!
DR. CLARKE'S
SHERRY WINE BITTERS!
Palatable and Healthy.
Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.
Preferred in the best Sherry Wine and Whiskey
Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face and Humors of all kinds.
They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.
N. B.—If you wish a good Bitter, *Call for Clarke's, and take no other.*
Beware of all imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease. Our system is to keep up the quality and make the price in proportion.
Sold by druggists, grocers, hotel-keepers and dealers generally.
Manufactured by E. R. CLARKE, Sharon, Ms.
Price only 38 cents for the Trial Bottle, 50 cts. for one pint, two quarts for $1 50 four quarts.
Sold in Portsmouth at wholesale and retail by N. F. MATHES, 88 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

Rates of Advertising,
IN THE DAILY CHRONICLE.

For 1 "Square" of 500 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one insertion 50 cts., two insertions $1, each subsequent insertion, 25 cts.; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per square, one dollar and fifty cents.

For a Column, (18 Squares) per year, inside $200, outside $150.

Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day, charged one-third less than full rates.

Cuts charged double their measure, and inserted on fourth page only.

Advertisements in large, reading matter type, charged double per Square, the smaller type.

"Special Notices" double the common rates.

Leaded notices in editorial columns, 10 cents per line, each insertion, and no statements as of fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.

Solid notices in reading matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.

Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for; and a similar fee will be accepted when proffered.

☞ All papers more than one copy per week, sent to advertisers, will be charged for.

Probate Notices and other Legal advertising at regular rates.

Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 22, 1863.

THE REBELLION.

1300 of Morgan's men had been captured up to Monday afternoon; the rest are scattered and endeavoring to escape. Our cavalry are in pursuit and stragglers are continually captured.

Morgan's forces were chased nearly 50 miles on Monday and brought to a stand, when a fight ensued. The rebels fled to a high bluff. A flag of truce was sent, demanding a surrender, which was complied with. They numbered 1500. Morgan and a small guard escaped, but our men are in pursuit.

Scouts report that Bragg's army is retreating precipitately in Georgia, followed by Gen. Rosecran's forces. Gen. Rosecran's advance on the 17th was reported at Rome, Ga. Bragg was endeavoring to form a junction with Johnston's army; there were many deserters from his army.

Gen. Sherman had a severe fight at Jackson, Miss., before he captured it. The city was partially destroyed by our shells, and the loss was severe on both sides.

Richmond papers of the 14th report the Federals landing in considerable force at Brandon, on James river, doubtless, it says, to make a raid on the Weldon and Petersburg road. Brandon is thirty miles from Petersburg.

It is said large numbers of stragglers from Lee's army have been captured during the last few days.

The Richmond Enquirer of the 17th reports two Federal iron-clads above City Point on James river. Seven gunboats and transports remain below City Point.

The iron-clad Passaic sailed from New York on Tuesday, for Charleston.

The N. Y. Herald's Fortress Monroe correspondent confirms the report that another attack on Fort Darling may be expected in a day or two.

REBEL ITEMS.—The Charleston Mercury says if Fort Wagner is taken, Somter and Charleston must fall. It considers the prospect as gloomy, and thinks the only remedy lies in attacking our forces at the point of the bayonet.

The Mobile Advertiser speaks of the people who are crying for submission and peace, and appeals to and threatens such organizations.

The Richmond papers of the 18th show great joy over the drafting riots at the north. They acknowledge that Charleston is lost to them. The State flag has been hoisted at Wilmington, N. C., in lieu of that of the Confederacy. Gen. Pemberton and suite had reached Richmond. They report that the Federal Gen. Osterhaus had been killed in an attack upon Johnston. The Federals had burnt a part of the city of Jackson, Miss.

The Richmond Sentinal bitterly denounces Gen. Johnston for not making the attempt to raise the siege of Vicksburg.

Jeff. Davis has called for every able-bodied man from 18 to 45 years of age, remaining in the Confederacy, declaring that there shall be no exemptions. The Richmond Enquirer recommends that President Davis be clothed with supreme power to declare the country in a state of siege, and empowering him to call on the people, *en masse*, to defend it.

The Columbus (Ga) Sun says the people are about to be called upon to undergo the greatest ordeal of the war, and adds that there is much murmuring already.

☞ President Kennedy of the Polytechnic College of Pennsylvania has been authorized by the Secretary of War to organize a Corps of Engineers, to serve three years or the war. The Polytechnic Corps of Engineers is to be composed chiefly of students, to be recruited to a full regiment, and to be officered by educated practical Engineers, and report for service within sixty days. This is the first regiment of Engineers called for by the government, and the demand for it at this time foretells an active offensive fall campaign.

☞ It is stated by the manufacturers of artificial limbs, that they make about eight left legs for soldiers to two right legs, and about the same proportion of right arms to left ones; showing, about four times as many lose left legs as right, and four right arms to one left. This seems very singular, but an agent for the sale of artificial limbs affirms it to be the actual fact.

☞ Judge McCunn of New York, who has recently declared the Enrollment Act unconstitutional, is the same person who, while Colonel of a volunteer regiment, was arrested by Gen. McClellan and sent to New York, with the injunction not to return to the National Capital on peril of his life.

☞ That the recent mobs were instigated by what a contemporary calls the "ultra opposition" journals, and Vallandigham orators, is the decided judgment of a vast proportion of every patriotic community, irrespective of political parties.

PRISONERS OF WAR.—The New York Times says the following is a nearly correct statement of the number of rebel prisoners known to be in our hands. It is below rather than above the actual mark:

On hand at Memphis,	4,000
At Fort Delaware,	5,000
Captured by Gen. Grant,	31,300
Captured by Gen. Sherman,	2,000
Captured by Gen. Banks,	13,000
Captured by Gen. Prentiss,	2,000
Captured by Gen. Rosecrans,	5,000
Captured by Gen. Meade,	24,000
Total,	86,300

It has been a common saying with Northern traitors, that the rebellion could never be put down by force and arms: now one of their organs cries out that in consequence of our recent victories, there can be no need of a draft,—because we can get as many men as will be needed for Union success, by enlistments. Well, we have supposed, and suppose now, that but a very small portion of the drafted men will ever be called into active service: but it was the duty of the Government to provide against possible defeats in Pennsylvania, at Vicksburg and Port Hudson: the call was *late* rather than early. We had been told, over and over again, by the rebel papers and their associates, that our nine months' men would soon come home, we could get no more soldiers, and the rebels would certainly prevail. Great "popular meetings" were held on purpose to make the war so odious that few men would enlist; the employment of black troops was opposed, ridiculed and denounced, sometimes as foolish, sometimes as barbarous, sometimes as impracticable, and always as useless; and this was done by the same men and presses that now make the greatest outcry against the draft, which their own sympathy with the rebels rendered necessary. U. T.

SOME DIFFERENCE.—The New York Copperhead says:—

"The only genuine Democrats are those who say that this raid against the South was *wrong* from the beginning, and that we ought to have compromised when we had an opportunity to do so.

At present, all that we can do is, to call home our troops, and tell the people of the South to take their choice, either to come into the Union or leave it."

Per contra, the Boston Post says:—

"Peace and conciliation, if *possible*, but the *unity* of the Republic now and forever! The South must be made to see first the impolicy, and second, the impossibility, of that splendid confederate empire they are dazzled with. To do this the *first* essential thing is to cripple them in the *field* and deprive them of their military faculties. Conquest in the field is the first step to conciliation in council."

In view of these two platforms, would it not be wise for all respectable Democrats, all sane men, to cut loose from the copperheads? If they do not, now that Vicksburg and Port Hudson have knocked the bottom out of the Confederate craft, they may all go to Davy Jones' locker together. U. T.

There seems to be a fair chance of conflict between the national government and the State of New York, on the conscription. When Gov. Seymour told the rioters that he would see that they were secure in their rights, we take it he indicated a course of conduct yet to be developed: and we think that not many days will elapse before we shall have the opinion of the Supreme Court of that State on the constitutionality of the law of Congress. It has always been disputed whether a national conscript law would not conflict with the rights of the States; and some of the best lawyers the country has produced have been against it. If the courts should decide in favor of the law, we have no doubt Gov. Seymour will aid its execution by all the power at his command; but if otherwise, we may have an unhappy collision of powers which no well-wishes to the country would desire to see at this time.—*Newburyport Herald.*

It is certainly to be hoped that all men, especially all men in authority, will do what they can to aid, and not oppose the government, and injure the country—but it is no matter how soon all traitors, in high or low station, throw off their mask, and rank themselves on the side where they belong. But in any and all events, let us stand by the laws, and the men the people have chosen to enforce them; and the Union first, last and forever.

☞ A London letter says the comb is henceforth an obsolete article in fashionable circles, and ladies are reverting to the Lady Godiva style of wearing the hair—that is, letting it flow down over the shoulders.

☞ Mr. Punch was asked whether it was possible to cure a blind-alley; when that mighty genius readily replied—"Certainly, I should first begin by improving its site."

PETERSON'S MAGAZINE, for August, contains thirty-eight articles and forty-six embellishments, all of great interest to the ladies, for whom the magazine is especially designed.

☞ The copperheads are fond of saying "Time makes all things even"—but we guess it will be a *long* time before right and wrong become synonymous, or sympathizing with and aiding treason, counts for patriotism.

☞ Long Island, in Boston harbor, has been selected as the depot of drafted men in Massachusetts.

NEW HAMPSHIRE ITEMS.

—— Col Bailey, of the 2d regiment, forwards to Gov. Gilmore a corrected list of the killed, wounded and missing of the regiment at the battle of Gettysburg, July 2d, as follows:—

Killed.—Commissioned officers, 3; non-commissioned officers, 5; privates, 12—total, 20. *Wounded.*—Commissioned officers, 18; non-commissioned officers, 55; privates, 85—total, 158. *Missing.*—Non-commissioned officers, 7; privates, 27—total 34. Total loss of the regiment, 192.

The Adjutant, in sending the report, writes:—

It gives me much pleasure to state that the men formerly belonging to the 17th Regt. N. H. V. fought most valiantly, and did much honor to themselves, the Regiment, and the State that sent them forth. A great share of that number were either killed or wounded. The 2d, as a whole, were fought most bravely. It actually saved a battery of eight pieces, (the Mass. 5th and a section of a battery unknown); this they acknowledged, and cheered the regiment as it passed from the battle field that night. Too much praise cannot be conferred upon the commander of the regiment, Col. Ed. L. Bailey, for the cool, gallant, most brave and skillful manner he commanded the regiment in that terrible conflict. The same deserving praise should be conferred upon Lt. Col. James W. Carr, and Maj. S. P. Sayles; in fact both officers and men most nobly did their duty.

—— The Port Royal New South thus refers to the noble generosity of the N. H. 3d regiment:—

We last week received a communication from the 3d N. H. Regiment, which was unavoidably crowded out, given an account of a subscription in that Regiment, led by Col. J. H. Jackson, in behalf of the destitute in Ireland. The field and staff, with seven companies to report, would probably swell the amount to $800. Co. C, Irish Volunteers from Manchester, gave, $272. The money is to be forwarded to Gov. Gilmore, of New Hampshire, and by him sent to the proper authorities in Ireland.

—— A correspondent of the Boston Courier, writing from Dover, N. H. states that a very full town meeting called by the city authorities of Dover, unanimously passed the following resolutions.

Resolved, That we authorize the city council to pay out of the city treasury, to every drafted man who is liable and fully qualified to go to the war to put down the rebellion, as follows: to each man who is drafted and shall go to the war, when the government shall call for his services, the sum of $300 before he leaves the State, and $200 in addition at the expiration of his term of service, or at the close of the war.

And we also authorise the city council to pay to the proper authorities of the United States government, for each drafted man who is liable and qualified to go to the war, the sum of $300 as required by law, as a commutation fee.

The above votes, literally interpreted, make a droll jumble; but if the city council pay according to the probable intent of the meeting, nearly every POOR MAN who shall be drafted, will be strongly tempted to go! On one hand, he can stay at home, and be as poor as he is now, while his city pays the U. S. $300, and he is taxed to help pay it. On the other hand, if he goes, his family may receive State and City Aid, and he will have food and clothing, $13 per month wages, and $600 bounty! for three years at most; or for three months, if peace should come so soon.

—— Thomas Wier, of Enfield, shot Caleb M. Dyer on Saturday. The ball went into the left side. He was alive on Monday morning, but not expected to live.—Cause, trouble about some children.

—— Mr. Caleb M. Dyer, the Enfield Shaker, who was shot by Thomas Wier on Saturday, died on Tuesday morning at two o'clock.

—— The Concord correspondent of the Manchester Union speaks of "Congressional Clergymen."

—— Surgeon George H. Hubbard, Medical Director for the southwestern district of Missouri, arrived in Manchester on Saturday evening on a furlough. He has been absent about two years.

—— The Manchester American suggests the propriety of a State Fair this year, it having been omitted for three years past. It proposes, however, that the officers of the State Agricultural Society, if they prefer to incur no risk, grant aid and the appropriation of funds to the Merrimac River Association, which holds its annual exhibition about the 8th of October, at Nashua.

—— A subscription for a monument to the memory of Col. E. E. Cross has been started. Papers are left at all the hotels, bookstores, &c., in Concord. The amount subscribed is limited to $1 each. Money contributed may be sent by mail directed to Hon. William Burns, Lancaster, where the remains of Col. Cross were interred.

☞ The merchants of New York met on Monday afternoon, and subscribed $5000 for the relief of the negroes who were maltreated by the mob in the late riot, and passed resolutions requesting Gen. Dix to give assurance of protection to them in their labors on the docks.

☞ A lady has been drafted in Lewiston, Me. The enrolling officer, in visiting a boarding house, asked for the list of names of the boarders. One of them was Frances Parker, signed Frank Parker.—Frank was accordingly enrolled, and is now drafted.

☞ A few days since the High School building in West Amesbury Mass., was struck by lightning, when sixty scholars were present. The electrical fluid came down the chimney, followed a stove-pipe through the room, and passed down, shattering the building, but killing no one. Several of the pupils were seriously affected, and all of them complain of its effects in their legs.

☞ Three Vermont 9 months' regiments from the Army of the Potomac, arrived at New York on Monday, and as Gen. Dix wished them to remain in that city for a few days, they all agreed to offer their services in any manner most desirable for the interests of the country and the maintainance of the laws. One of these regiments is commanded by Col. W. G. Veazie, of Exeter.

☞ The Union troops are now in possession of four rebel State capitals, and their respective seats of Government are being carried about in carpet bags and bandboxes by their itinerant Executives.

☞ A grand "Conscript Ball" is advertised in the Taunton papers.

Board Wanted.

THE CONFESSIONS AND EXPERIENCE OF AN INVALID.

Published for the benefit, and as a warning and A CAUTION TO YOUNG MEN who suffer from Nervous Debility, Premature Decay of Manhood, etc., supplying at the same time THE MEANS OF SELF CURE. By one who has cured himself after being put to great expense and injury through medical humbug and quackery.

By enclosing a post paid addressed envelope, single copies may be had of the author.

spuot NATHANIEL MAYFAIR, Esq., dawly may20 Bedford Kings County, N.Y.

Take no more unpleasant and unsafe Medicines.

For unpleasant and dangerous diseases, use HELMBOLD'S EXTRACT BUCHU, which has received the endorsement of the most PROMINENT PHYSICIANS IN THE U. S. is now offered to afflicted humanity as a certain cure for the following diseases and symptoms originating from diseases and abuse of the Urinary or sexual Organs.

Mrs. M., who is thoroughly versed in the affections of the sick, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ The secesh sympathizers and copperhead newspapers, far and near, are naturally very tender on the subject of the late traitorous mobs, and cant bear to have them denounced as they deserve. Among the rest, a Portsmouth correspondent of the Manchester "Union," who disgraces his signature "Piscataqua," as much as the paper he writes for does *its* title—complains bitterly that the late riot here was quelled, and defends the rioters, while denouncing all the legal authorities. Natural enough, no doubt, for all such secesh sympathizers—but he overshoots the mark in the following paragraph:—

The story of the Chronicle, about 200 men going to Fort Constitution to take the artillery there, I find must have originated in the brains of the editor; for, on inquiry of the keeper of the toll-gate, I find that no more persons passed over the bridge that night than usual, and no one at Newcastle heard anything about it.

* * * Work at the Fort is suspended for the present, and the men discharged—for what cause I do not know.

Now, nobody who has *got* much brains, would tell such an absurd story as this of "Piscataqua's." The officers at the Fort say an attempt *was* made to enter there, by a mob, which we said was "estimated as high as 200 persons," which may have gone by land or water, or both. We suppose they are as good authority as any anonymous secesh newspaper scribbler, or any toll-keeper whose gate is open at night, while he, probably, is asleep. And work has not been suspended at the Fort, unless done since our last advices from there, at noon, Tuesday. O, Piscataqua!

☞ We notice as we pass Congress Block, that the sign of a certain Democratic counseller at law, who was somewhat prominent at the recent anti-draft meetings in this city, has apparently been torn from its place and destroyed. No good citizen will countenance, or fail to denounce, such wanton outrages on private rights, as this; or encourage or excuse the slightest deviation from law and order.

☞ The U. S. Barque Fernandina, Moses, came up to the Navy Yard on Tuesday morning—exchanging the usual salutes.

☞ The Peak Family, who stand at the peak of their profession as bell-ringers, will give one of their agreeable entertainments at the Temple, to-night; in which, besides "the tintinnabulations of the bells,—fairy bells," will be interspersed vocal music and harp playing,—the whole decidedly patriotic, of course, as this Family always are,—who carry "the star-spangled banner" at their peak.

☞ Mr. Davis' Singing Schools this (Wednesday) afternoon and evening. See advertisement on the fourth page of this paper.

☞ Dr. Crane gave great satisfaction to his audience, at his medical lecture at the Temple, Monday evening—and his examinations and explanations of character are reported to be astonishingly accurate. Dr. C. is at the Franklin House for a few days longer.

☞ The New York Tribune says Philadelphia is the home of the Goddess of Rumor. If so, her headquarters must be at the office of the Inquirer. The last report but one, showing their ingenuity, is the following:—

Lee has been checked by our forces at Bunker Hill. He has turned to defend himself. His army is estimated at 60,000.

For the very latest, consult the following, with its brief yet explicit contradiction:—

Gen. Meade has captured the whole of Lee's army.—*Philadelphia Inquirer.*

The above is a lie.—*Washington Dispatch.*

☞ A man in Bath who has never been accustomed to using glasses until he heard he was drafted, became almost as blind as Bartimeus as soon as the intelligence reached him. He evidently "didn't see it."

One of the "Smiths" in Boston, who was drafted, on being asked by a friend if he intended to go, replied, "No. You see the papers say a drafted man gets $402 bounty, the same as a volunteer. It only takes $300 to get exempted, and I'm going to tell Capt. Shaw I'll take $102 and call it square."

☞ It is thought that the reports, as of cannon, heard all along the coast, from Portland to Boston, Saturday, must have been a thunder-storm at sea.

☞ Isn't it more patriotic to pay men for going to serve their country, than for *not* going?

THE BRITISH ROYAL FAMILY.—Princess Alice, they say, has the beauty, and Prince Alfred the brains, of the royal family. He is a lively, ambitious young man, and no great admirer of his big brother, whose marriage at first he absolutely refused to attend. He was much disappointed because the great powers decided that he should not be King of Greece, although the Greeks were crazy to have him. Prince Alfred's face shows that he has far more character than the Prince of Wales, and personally he is more of a favorite among the aristocracy. His younger brother Arthur is just coming into society, though not past the awkward age.—*London Cor. N. Y. Post.*

AN INCIDENT of the murderous mob in New York is given in the following item from the Commercial:—

The murderers of Col. O'Brien, after beating him in the most merciless manner with stones, bars of iron, bludgeons and slung shots, stab ing him and dragging him through the gutter, by a cord around his neck, threw him into an area way, and stood guard over him until life was extinct, preventing any one approaching him to cool his parched lips with a few drops of water, or to convey his last words to his bereaved family.

When their diabolical tortures were no longer felt by the victim, death having given kindly release, they left him, and two priests conveyed his body in a handcart to the Bellevue Hospital Dead House. He was almost naked, terribly mangled and covered with gore.

Col. O'Brien was an Irishman and a Catholic, to whom a priest administered extreme unction as he lay in the street. The Colonel was imprudently away from his regiment, though they were very near him, but did not know he was in danger, or they would have destroyed his murderers. His family saw him murdered.

An eye-witness says that the murderers of Col. O'Brien, closed their work over him by giving three cheers for Jeff Davis! Such cheers were common all through the riot.

☞ The Herald states that Lieut. Col. Macomb, commandant at Portsmouth, visited Newburyport on Monday, and informed Mayor Boardman that temporary batteries would be commenced immediately on Salisbury Beach, just below Black Rocks, to be completed in two months. Fifty or sixty men would be employed in their erection. Eight 32-pounder rifled guns are to be mounted there, and a garrison of 100 men will hold them.

THE DRAFT.—The New York Times says:

"There is a remarkable change in public sentiment concerning the draft since the opening of last week. Very many who were formerly opposed, now favor it. Indeed, the determination to uphold it seems to be universal, except among those inhuman rioters who constituted the mob. The rioters took a very bad way of convincing the public of the justice of their cause."

☞ The Boston Transcript says the mob at New York is a picture of all mobs; brought into life, as it has been, by the help and nursing of political partisans, some of whom did not know, and some of whom did not care, what was to be the end of their teachings.

☞ A decision of the Provost Marshal is, that colored men cannot be accepted as substitutes for white men, not being, under the existing laws, a military equivalent.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ju30

DR. ALBERT CRANE,

of New York, formerly of New Orleans,
Physician for Consumption and all Chronic Diseases

☞ DR. CRANE can be consulted at the FRANKLIN HOUSE, on all Diseases of the Eye and Ear, Lungs, and Air-Passages, those arising from IMPURITIES OF THE BLOOD, and all derangement of the Stomach, Liver, and Bowels, &c., &c.

DR. CRANE has testimonials from the most eminent Medical men in Europe and America; also can refer to many thousand persons for proof of his successful treatment in Consumption and all Chronic diseases.

DR. CRANE was the first and only person who has ever introduced the BROMPTON TREATMENT, by Inhalation, for Diseases of the Throat and Lungs in the United States.

MARRIAGES.

In Salisbury, Mr. BENJ. N. PEARSON to Miss MARY A. COLBY, both of Salisbury.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in constant receipt with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offering advantages to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and other painful Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have imposed upon their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible evil.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (five price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's *Refrigerator.*"

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it *perfectly* good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete refrigeration. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new Refrigerator, KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper prices than ever before sold.*

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Notice.

The Subscriber gives notice that he has been duly appointed Administrator of Estate of ARVILLA W. WEBSTER, late of Portsmouth in the County of Rockingham, deceased, intestate.

All persons indebted to said estate are requested to make payment; and all having claims to present them for adjustment.

Dated at Portsmouth, N. H., July 17, 1863.

J. M. EDMONDS.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and other complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which have made whom all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & CO.,
Practical and Analytical Chemists,
Lowell, Mass.

Sold by all druggists every where.

Singing Schools.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, he has met with the great misfortune of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Urethral Swellings, and the long train of horrible symptoms attending such cases, are now cured, and become as harmless as the simplest things of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous dread of society or society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capothes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of Cases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to the study of Venereal, Urinary, Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not receive attention.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on the cure of all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher than the established reputation of DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, may safely place themselves under his care.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, two for $1 and a red stamp.

BOSTON, April 4, 1863. ly eod

☞ ATTENTION, THE WHOLE!

EPP, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her from attending to her business. It troubled her very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she got no relief until she had I procured some of your twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as it has now been more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it. Since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. JOHN LOVEJOY.

From EZRA I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with erysipelas humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural reason for day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing, or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK,

Also on hand an assortment of the different sizes of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine their very valuable invention.

For economy, purity of air and ease of management, it has no equal, producing a current of warm air, moist and agreeable, and as none of the air is allowed to come in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from the fuel used, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The due or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the fuel, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cover can be made to consume the gases, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes of Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron Hill,	Chester H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done in any manner—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as any other, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that the last of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon it UNDER GOLD, or the Finer bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently very perfectly easy to the muscles of the mouth and cheeks. There are no insertions or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber by Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and such from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my rooms are fitted for operators in Ether.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Children's Teeth. Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

☞ PIANO-FORTES FOR SALE.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace, surgeon in King James's army. Through his agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

WILLIAM GRACE,
Amesbury, Mass.

PRICE 25 CENTS PER BOX.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. THURSDAY JULY 23, 1863. NO. 19.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

WONDERS OF SLEEP.—In Turkey, if a man fall asleep in the neighborhood of a poppy-field, and the wind blow toward him, he becomes narcotized, and would die, if the country people, who are well acquainted with the circumstances, did not bring him to the next well or stream, and empty pitcher after pitcher of water on his face and body. Dr. Appenheim, during his residence in Turkey, owed his life to this simple and efficacious treatment. Dr. Graves from whom this anecdote is quoted, also reports the case of a gentleman thirty years of age, who from long-continued sleepiness, was reduced to a complete living skeleton, unable to stand or his legs. It was partly owing to a disease, but chiefly to abuse of opium, until at last, unable to pursue his business, he sank into abject poverty and woe. Dr. Reid mentions a friend of his, who, whenever anything occurred to distress him, soon became drowsy and fell asleep.

A student at Edinburgh, upon hearing suddenly of the unexpected death of a near relative, threw himself on his bed and almost instantaneously, amid the glare of noonday, sunk into a profound slumber. Another person, reading to one of his dearest friends stretched on his death bed, fell asleep, and with the book still in his hand, went on reading, utterly unconscious of what he was doing. A woman at Hamadt slept seventeen or eighteen hours a day for fifteen years. Another is recorded to have slept once four days. Dr. Macnish mentions a woman who spent three-fourths of her life in sleep; and Dr. Elliotson quotes a case of a young lady who slept for six weeks and recovered. The venerable St. Augustine, of Hippe, prudently divided his hours into three parts—eight to be devoted to sleep, eight to meditation, and eight to converse with the world.

Maniacs are reported, particularly in the eastern hemisphere, to become furiously vigilant during the full of the moon, more especially when the deteriorized rays of its polarized light are permitted to fall into apartments: hence the name of lunatics.—There certainly is greater proneness to disease during sleep than in the waking state, for those who pass the night in the Campagna di Roma inevitably become infected with its noxious air; while travellers who go through without stopping escape the miasma. Intense cold produces sleep, and those who perish in the snow, sleep on till the sleep of death.

SHARPS AND FLATS.—The Courier de Paris tells the story of a beggar who presented himself regularly at a certain coffee house with a clarionet under his arm. "Will you allow me, gentlemen," he said, in a humble tone of voice, "to play a tune. I am no virtuoso and if you prefer giving me a trifle, I will spare you the annoyance of listening to me." Every one felt at once for a few stray coppers, and the musician departed with a profound reverence. This he repeated several evenings in succession. At last one evening a young man who had never failed to contribute to the wants of the itinerant musician, asked him in a friendly manner to give them a tune; let it be good or bad, he wanted to hear him.

"But I am afraid, sir, I shall disappoint you."

"Never mind that, give us a tune anyhow."

"But I am a poor player, and I have a poor instrument."

"No matter for that; I want to hear you."

"Well, sir, since you insist upon it," said the poor man, "I tell you that I don't play at all. I carry this clarionet merely for the purpose of *threatening* people with my performances."

Established in 1760.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 23, 1863.

THE REBELLION.

A dispatch from Fortress Monroe says the expedition against Fort Darling is abandoned. Reason not assigned.

A U. S. gunboat at New York, which left Charleston on Friday afternoon, reports that a battle was commenced on that morning, by the land and naval forces, and was progressing when she left.

A cavalry expedition left Newbern, N. C., July 18, which will penetrate into the interior one hundred miles or more,—to extensive railroad bridges, culverts and railroad connections. Gen. Porter is in command.

Adm. Porter reports the result of a naval and military expedition to Yazoo City, which Johnston was fortifying with heavy guns, and where he was gathering troops for the purpose of obtaining supplies for his army. 4 gunboats, under command of Lt. Walker, and 5000 troops, under Gen. Herron, were sent. Gen. Herron landed his men, and the army and navy made a combined attack on the enemy's works. The rebels set fire to four of their best steamers and fled, leaving everything. The army pursued and captured their rear guard of 260 men, and at last accounts were taking more prisoners. Six heavy guns and a vessel, formerly a gunboat, fell into our hands, and all the munitions of war. The gunboat DeKalb was sunk by a torpedo. Her guns will be removed, and she will be raised when convenient.

On the 16th, the sev re fighting at Jackson, Miss., was still going on. Gen. Sherman, therefore, could not have occupied it on the 11th, as stated. The Federal forces engaged consisted of the 9th, 13th and 15th army corps: they were at first commanded by Gen. Sherman, but as appears from dispatches from Richmond, the rebels think that Gen. Grant has gone forward and taken command in person.

Gen. Lanman has been relieved of his command by Gen. Sherman, it is stated for disobedience of orders, in prematurely attacking Jackson. He made the attack on the 13th, and was repulsed with a loss of 300 killed and wounded. It is probable the rebel report of the death of Gen. Osterhaus, is incorrect, for if he had been there it is not probable that a subordinate General would have moved to make a premature attack. Johnston is supposed to have 30,000 men at Jackson.

Gen. Grant reports that Johnston evacuated Jackson, on the 16th, and is in full retreat East. Gen. Sherman has occupied the town. Most of the rebels paroled at Vicksburg have deserted and scattered in every direction. The expedition to Natchez captured many prisoners and guns, large quantities of ammunition and stores, and 5000 head of cattle. It was a complete success.

300 rebels, who intended to attack Camp Davis, a strong stockade fort 6 miles south of Corinth, Miss., were surprised and captured on Saturday night, 3 miles from Rienzi.

☞ The 55th Mass. Regiment (colored) left for Newbern, N. C., on Tuesday. John Gordon, of Exeter, is captain of one of the companies. Of the $50,000 bounty money paid to the regiment last week, an agent of the American Express Company received $15,000 to transmit to their families in Ohio, Indiana, Wisconsin and Pennsylvania.

☞ Hon. John J. Crittenden has not been taken prisoner by the rebels. He was in Louisville on the 13th instant.

☞ The Common Council of Rochester, N. Y., passed an ordinance voting $207,200, to pay $300 for each man drawn in the city under the present draft,—the money to be paid to the conscript if he goes, and to the government if he does not.

☞ The gunboat Agawam is now taken board her heavy machinery at the Portland Company's works.

☞ Brigadier General Paul S. Semmes, of Geo., who was wounded at Gettyburg, is dead.

☞ The City Government of Portland have voted to pay the sum of $300 to each conscript of the city entering the service himself or by substitute.

☞ It is about time that the copperheads, and every other man, found out that it is actual war in which we are now engaged, and not a political discussion or squabble.

☞ The Invalid Corps is rapidly being filled up. Twenty companies of the 1st battalion are already organized, and seven companies of the 2d battalion. At least 25,000 men are already enlisted.

☞ Report says that General Buckley, the head of the Knights of the Golden Circle, has been arrested at the West.

☞ Brigadier General Smith, new Governor of Virginia, has resigned his commission.

☞ A check for $1,500,000 was presented and paid at the United States depository in Chicago a few days since.

THE MURDER OF CAPT. ASHBY.

Thesad intelligence of the death of Capt. Ashby, a capable, successful and highly-respected Ship Master, has been received with deep regret by his many friends in thiscity. He was about 30 years of age.

From a letter written by the U. S. Consul at Hong Kong to the widow of Capt. Ashby, and dated May 22d, we are permitted to make the following extracts:—

I am pained beyond measure to communicate to you the death of your husband, Capt. John B. Ashby, which occurred in the China Sea on the 18th of May. A more sad and afflictive affair it has never been my lot to record, but I know that all intelligence with regard to it, and to his last hours, will be of value to you and to those near and dear to him.

On Monday, May 11th, the second mate of the "Hamlet" had an altercation with one of the seamen, a young and almost boyish person, during which the latter bit the thumb of the second mate badly. He was subsequently called alt by Capt. Ashby and properly rebuked, having been punished by the second mate. Nothing of importance occurred for two or three days. The carpenter observed him sharpening his knife, but did not think that be harbored any purpose of revenge.

On Friday, May 15th, about six o'clock in the morning, Capt. Ashby and the second mate were on deck and this same seaman again used some impudent language, and the captain ordered him below. As he turned to go down into the cabin, he moved slowly and the second mate ordered him on. In a moment or two after, the captain went below and found that the refractory seaman had gone into the back cabin. He ordered him out and went in himself behind him, the second mate being in the middle cabin. At this time, the seaman pulled out his sheath-knife and inflicted two wounds upon Capt. Ashby, one of which was mortal. The knife penetrated under the ribs on both sides. The seaman was immediately seized and ironed, and every attention was paid to Captain Ashby, who had fallen to the floor. At first Capt. Ashby appeared to consider the wound mortal, and he gave the mate some instructions. Subsequently the hemorrhage was somewhat allayed and he appeared to feel more confident of his recovery. Every attention was paid him by the officers and crew, but in a day or two he became anxious to reach Hong Kong, which desire was participated in by the officers. No change took place of a particular character until early on Monday morning, May 18th, when it was evident that he was sinking rapidly. He soon lost his senses and about 8 o'clock expired. During the last few hours the officers of the vessel were by him, and you have the consolation of knowing that nothing was omitted to render him as comfortable as possible.

After his decease the body was carefully preserved and on Thursday, yesterday, the ship arrived at Hong Kong. I immediately had the prisoner taken from the vessel by the police, and lodged in the Hong Kong prison, and took charge of the corpse of the deceased. After an examination by Dr. Murray, colonial surgeon, who decided one of the wounds necessarily mortal, I made arrangements for the funeral, which took place this morning. On the coffin was a plate containing the name of the deceased and the name of the ship he commanded. It was followed to the grave by the masters of American vessels in port, and by the crew of the ship; the flags of the vessels in port were at half-mast. At the grave, the funeral service was most impressively read by the Rev. Mr. Irwin, and thus the remains were consigned to the tomb—"Earth to earth, dust to dust, ashes to ashes." He sleeps that sleep that knows no waking in a most beautiful and retired spot in "Happy Valley," and his grave is marked for the purpose of a tablet. Nothing has been wanting on my part to fulfill the last duties of respect to one, who although unknown, was a member of that great American family towards which my heart in sympathy turns. H. N. CARGOE, U. S. Consul.

AN IMPORTANT MISSION TO EUROPE. The Hon. Wm. Whiting, Solicitor of the War Department, arrived in this city to-day from Washington. He is to leave for Europe by the steamer of this week, as the accredited agent of the United States to the Courts of Europe, and the commissioned legal adviser of our ministers in England and France, in reference to matters of great importance. A fleet of powerful iron steamers is now being fitted out at Buttonwood, in Great Britain, supposed to be intended for the Confederate navy, and his visit probably has direct reference to that fact. Mr. Whiting is one of the ablest counsellors of this country, if not the ablest, thoroughly versed in all constitutional and national law, and the President is fortunate in having secured the services of such a delegate to send abroad at this crisis.—*Traveller.*

The action brought before Justice Barnard, of the Supreme Court, New York, in chambers, to test the constitutionality of the enrollment act upon a writ of habeas corpus, has been suddenly terminated by the discharge of Dr. McCauley, charged with resisting the draft, by a United States Commissioner. A return to that effect was made on Saturday to Judge Barnard by the United States Marshal, which, of course, put an end to the proceedings. It is understood that the same course will be pursued with all persons now under arrest on similar charges.—*Transcript.*

☞ When a man or a newspaper condemns every act of the Union government, and approves or excuses all the doings of the rebels, it is fair and natural to set them down as secesh sympathizers and traitors, isn't it? If not, why not?

☞ By direction of the President the following officers have been retired from active service:—Maj. Gen. John E. Wool, Brig. Gen. William S. Harney, Brevet Brig. Gen. Harvey Brown, Col. Justin Dimick, Col. Charles S. Merchant and Lieut. Col. Martin Burke.

NEW HAMPSHIRE ITEMS.

—— By order of the Governor, commanders of companies of Volunteer Militia in this State will immediately order their companies to be armed, equipped, and provided with 20 rounds of ammunition, and will at all times hold their commands in readiness for immediate service within the State, until further orders. Requisitions will be made upon the Quartermaster General for all necessary arms, equipments and ammunition. The Governor's Horse Guards have been officially notified, and Col. George, Captain of Co. A, has directed the members to hold themselves in readiness in accordance with the requirements of this order.

—— Caleb M. Dyer, who was shot at Enfield by a returned soldier, was the chief Elder of the Shakers in that town.—Thomas Weir, the murderer, had bound out two of his children to the Shakers on going to the war, on condition that he might reclaim them after his return, if they were willing to go with him, by paying their board—otherwise they were to remain until 21 years old. Coming home, Weir claimed the children, but was unable to pay their board. He had been to see Mr. Dyer two or three times before he shot him. This he is said to have done deliberately, and then surrendered himself to the authorities.

—— A citizen of New Market has got up the latest fish story. He states that on Saturday morning last, an eel, measuring 11 1-2 inches in length, was seen to fall in the street from the clouds, alive and active, as if just taken from the water.

—— The widow of Moses Fellows of Salisbury, died last Friday, in the *one hundred and first* year of her age. She was one of the oldest persons in the State. A large concourse of people attended the funeral. A sister was present who was over eighty years of age. Mrs. Eastman, the early playmate and life-long companion of the deceased, was at the funeral. She now lives in Salisbury, and is in the *one hundred and second* year of her age.

—— A dispatch from Gov. Gilmore states that the War Department has finally agreed to credit to each town the number of soldiers heretofore sent. Now, in the pungent language of the Governor, "the most patrotic towns will" *not* be punished for their early patriotism," and "the other towns will" *not* "have a premium paid them for their delinquencies."

☞ The first octavo volume of J. S. C. Abbott's History of the Rebellion, is recently issued (to subscribers only) by Gordon Bull of Springfield. It is a work of great interest and permanent value,—another monument to Mr. Abbott's skill and genius as a writer,—and is finely illustrated with portraits, maps and battle-scenes. The author is uncompromisingly for the Union, and takes decided anti-slavery ground, not less from military necessity than for humanity's sake, and an enlightened civilization. So great was the expense in getting up this elegant national work, that the publisher is said to be losing money by its delivery at the subscription price.

ADJUSTMENT OF QUOTAS.—The following, from the Provost Marshal General, contains an important decision:

Washington, July 19, 1863. The Enrollment Act only provides that in assigning to the *Districts* of a State, the number of men to be furnished therefrom, the President shall take into consideration the number of Volunteers and Militia furnished by and from *said State*, and the period of their service, &c.

If, however, it shall be made to appear to the Provost Marshal General by the Governor of any State that particular towns to which quotas have been assigned have heretofore actually furnished a *surplus* of men over their quotas, an order will be issued discharging from the service of the United States a number of men called into service by the present draft from said towns equal to the surplus proved to have been furnished heretofore. Towns will thus get credit actually for their excess on former calls.

The number of men thus discharged from the service will be added to the next subsequent quota of the *Congressional District* to which said towns belong.

☞ Hon. Caleb Cushing has given an opinion adverse to the construction placed upon the enrollment act in two important points, by Provost Marshal Fry. Mr. Cushing maintains that the payment of $300 exempts a man for three years, and that a person cannot be required to furnish a substitute or pay the commutation money before being examined. In the latter particular the instructions of the Provost Marshal General have already been overruled.

☞ Only about one-fourth of the territorial area represented in the so-called Confederate States Congress, is now under the control of the armed forces of the rebellion. The other three-fourths has been overrun and conquered by our armies. If England and France do not hurry, they will have nothing but a fugitive government to recognize.

☞ On Monday night, in York river, Me, George Payne was drowned by the upsetting of a boat. Two other persons in the boat were saved. The deceased was about 15 years of age, son of Oliver Payne.

☞ At Hagerstown the boys were the means of discomfitting some sixty rebel soldiers. One seized a gun, and pointing it at the breast of a cavalryman, said—"Come down from that horse, you infernal rebel," and he came down. As many of the officers who permitted them to ride their horses to the water, found their holsters empty when examined. Upwards of fifty revolvers were thus taken from the rebels. Nine men, with the aid of these boys, captured fifty-three men and the mail bags.

☞ The Department has decided to build by contract another new batch of ironclad vessels of war, differing in several important respects from all those hitherto constructed in this country. Instead of being propelled by a screw, they will have paddle-wheels, and be entirely iron, with only the necessary wooden backing.

☞ The Richmond Despatch, of the 18th, says Gen. Jackson advertises, in the Mississippian, that 441 members of the Fourth Miss. Cavalry have disgraced themselves, by basely and cowardly deserting their posts at a time when their services are most needed. Among them are 18 non-commissioned officers, and two officers.

☞ The Richmond Dispatch of the 18th confirms the statement that a rebel steamer was burnt by our shells near Morris Island, Charleston Harbor. He name was "Gabriel Maniguelt."

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or Soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

What an amount of Suffering and Disease among the Volunteers would be prevented by the free use of HOLLOWAY'S PILLS & OINTMENT. For Wounds, Sores and Scurvy, the Ointment is a certain cure, and for Bowel complaints, Fevers, Small Pox, &c., the Pills are the best medicine in the world. Only 25 cents per box or pot. 221

DEATHS.

In San Francisco, Cal., June 23, Mrs. ELIZABETH N. PUTNAM, wife of Mr. Samuel Osgood Putnam, formerly of this town.—aged 41 years, leaving 6 children, one an infant.

MOCHA AND JAVA COFFEE.
From the Celebrated Berry Mills, Lynn, Mass.)

This SPLENDID ARTICLE of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, O. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *TRY IT!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any St. Domingo or Cape.

☞ All the Grocers have it.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the Cough is a theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, lead to CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,

Boston, April 8, 1868. 1yr spno 8taw

Local.

CITY OF PORTSMOUTH.

MAYOR'S OFFICE, July 21, 1863.

The Mayor congratulates the inhabitants of the City, upon the suppression of the riotous demonstrations of last week. This was due not only to the determination and untiring activity of the Marshal and his Assistants, but to the active co-operation of many citizens, who assisted and encouraged him in the performance of his duty, and to whom he returns his heartiest thanks. He was also greatly indebted to Col Marston of the U. S. Marines and the officers and men under him, and to the officers and men of the company at Fort Constitution, for the promptness with which they answered his calls, by day and by night, and for their very efficient services in protecting the government property here, and in preserving the peace of the city. These all deserve and should receive the warmest thanks of every loyal citizen.

By order of the Mayor.

MARCELLUS BUFFORD, City Clerk.

☞ The copperheads, correspondents for various "democratic" newspapers, and others,—who are evidently vexed that treason's overt acts should have been so soon squelched in this city—affect to consider the late riot here as a trifling matter; but it will be seen by a card in another column, that His Honor the Mayor,—who is well known as one of the most discreet and efficient officers we ever had in Portsmouth—don't look upon it in that light.

☞ Several sympathisers with those who instigated the recent riot in this city, are endeavoring, through communications to newspapers of not too loyal proclivities, to convince people abroad that the mob-ites here acted in a perfectly proper manner, and that no blame is to be attached to any one, except, forsooth, the police! For instance, one who signs himself "Spectator" sends a remarkable communication to the Boston Courier. Spectator's father must have been Aminidab Sleek. Judging from his account, the rioters came up like lambs and were as gentle as cooing doves. We cannot afford space to contradict all his wild statements, but we wish to make the following points, directly opposite to what Spectator says:—

1st. The mob were armed with bludgeons, stones, *firearms*, &c.

2d. They made their demand to one of the Assistant Marshals, and not to the special police.

3d. Walden did give the order to his confederates to fire, after first making an assault with an iron bolt on one of the officers.

4th. The only officer whom we mentioned as injured, was more severely wounded than we stated, he being struck in the head with an iron bolt, and shot in the arm.

For the general accuracy of our account of the riot, we would refer Spectator, and all other sympathisers with the rioters, to the testimony taken before the Police Court; and we would request him to await the trial in October next, before he ventures to give such prejudiced, partisan and false statements.

☞ The bodies of Lieut. Patch, of the 2d N. H. regiment, and Mr. H. L. Richards, Sharpshooters, from the battle field of Gettysburg, are expected to arrive in this city this afternoon or to-morrow.

☞ It is pretty generally known that a large number of guns were sent to this city on Saturday evening last. The Manchester American states that they were sent to Concord by the government to be used by conscripts, but were found to be imperfect, and were immediately ordered to this city by Gov. Gilmore.

☞ The smallest vessel known to have crossed the Atlantic is the Norwegian sloop Skjoldmoen, from Bergen, Norway, April 12th, which arrived at Quebec July 12th, and reached Chicago July 16th, being three months on her passage from Bergen to Quebec. She is 55 tons, and only 60 feet long on deck, while the vessel in which Columbus first came to this country was over 60 tons. She brings herrings, stock fish, cod liver oil and Spanish salt, about such a cargo as the old Northmen might have had in smaller vessels, when they visited Vineland more than 800 years ago. She will carry back pork, flour and tobacco.

So say the newspapers. But a correspondent informs us that the smallest vessel known to have crossed the Atlantic was the *ship's boat* in which Capt. Shackford of this city, who afterwards died in Portsmouth, Ohio, crossed the Atlantic from Bordeaux to the West Indies, several years ago.

☞ The Concord Patriot stoutly denounces the late mobs, and all mobs, every where. The only just and safe ground to take—"without a why or wherefore," a but or an if, a hum or a ha! Law and order!

"ARE you the mate?" said a man to the Irish cook of a vessel in port. "No," said he, "but I'm the man as boils the mate."

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

Arr 21st sch Bonny Brook, Perry, New York.

Ship Athens, Shields, at Fayal June 29, rep'g.
Brig Maid of Erin, Davison, old Picton 8th for this port.

Wanted,

A YOUNG MAN, between 16 and 20 years of age, as CLERK. One residing in the city, of correct habits, a good and rapid penman, will find a permanent situation by applying before Saturday night. For particulars apply at the Chronicle Office.

Portsmouth, July 28.

THE ALL SUFFICIENT THREE,
The Great "American Remedies,"
Known as "Helmbold's"
Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.
	Dryness of the Skin

These symptoms, if allowed to go on, which is medicine invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION,

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhœa, or Whites, Sterility, and for all complaints incident to the sex, whether arising from indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience,

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

THOUSANDS IMPORTANT TO THOUSANDS
WHO HAVE BEEN THE VICTIMS OF
QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, combining healing and cleansing properties, and in combination with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of* 1837,)

75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by writing One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials herewith given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe that can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to prosecute an application, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made no twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. 3tawly

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The order is of course weak, and the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body.—Startling disclosures. DR. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vicholi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market. Provisions keep far better than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it *perfectly good*."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.**

Two Garden Engines,

Of sufficient capacity to throw a stream of water over a two story house; a fine thing for washing windows and watering gardens or shrubbery, for sale cheap, by E. A. STEVENS.

Morning Chronicle.

SPIRIT OF THE RICHMOND PRESS.—It is no exaggeration to say that the Richmond papers, aided by false reports of rebel victories, manifest a diabolical spirit toward the North. Thus the Enquirer, gloating over the reported successes of Lee in Pennsylvania, which represented Philadelphia as the mercy of his army for pillage and destruction, Baltimore waiting deliverance, and Washington, "that foul den of thieves," expecting capture, uses this bitter language:

"In Philadelphia, how the Quakers quake this day! In Washington, how the whole brood of Lincoln and his rascal ministers turn pale—how their knees smite together, as they hear from afar off the roar of their grand army of the Potomac rolled back in bloody rout and dismay, and see flashing through their guilty dream the avenging bayonets of those they dare to call rebels! Ha! their monstrous crimes weigh heavy on their souls to-day?"

Again, speculating on the vengeance which the victorious rebels will visit upon the conquered North, it says:

"Cincinnati, for example, would, we are assured, burn well. It is the enlightened metropolis of strychnine whiskey, the queen city of fat pork, peopled by as God-abandoned sons of Yankees as ever killed a hog. Our troops have now got a taste of Northern friends, and their fine, healthy appetite grows by what it feeds on. Ohio also has silver and gold, and towns to ransom, and fertile plains to sweep of flocks and herds."

The Enquirer is the organ of Jeff. Davis, and it is not unreasonable to suppose that he cherishes the same spirit. Such are the feelings of your erring brethren," whom we ought not to "irritate" by making war upon them.

VALLANDIGHAM'S DISCOVERY.—Mr. Vallandigham reports it as his idea that we, "dear old Abe, in his travels through secession, has found everybody ready—when the war shall have ceased and invading armies shall have been withdrawn, to consider and discuss the question of re-union." This brings to mind the old fable in which the wolves avowed their willingness to treat the sheep with "distinguished consideration" if the dogs which guarded the latter could only be withdrawn. The result was not very encouraging to those who are inclined to put faith in Mr. Vallandigham's assurance.—

The truth is, the warlike power of the North was put forth and has since been kept up solely on account of overt demonstrations to break up the Union, and it will be withdrawn the moment those demonstrations are over. But to expect that it will be withdrawn while treason is still rampant, calculating upon the generosity of the latter, indicates either an exceedingly simple-minded disposition, or else a loss in favor of the rebels as strong as that ever imputed to Vallandigham by his bitterest opponents.

Besides, why lay a great stress upon an opportunity "to consider and discuss the question of re-union?" Let the rebels withdraw all their armed enterprises against the Constitution and the laws, and the re-union is instantly complete, without a thought of further consideration or word of discussion. Their friends here all say they want "the Constitution as it is, the Union as it was." But nobody has altered the Constitution, and nobody but the rebels interfered with the Union. But until they abandon this violent and bloody interference, there needs no Vallandigham to come to us from their domain, bespeaking new confidence in traitors, and crying peace where there is no peace.—*Boston Journal.*

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 8 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the afflicted with remedies that have never failed to effect a cure, and that, failed to cure, in most alarming cases of

GONORRHŒA AND SYPHILIS.

Beside his treatment of the horrors of venereal and impure blood, Dr. Dow cures Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the bladder and kidneys, Stricture, Seminal Weakness and Nervous Debility, and the long train of horrible symptoms attending the class of disease, are made to yield to a course of treatment, the simplest things of a child.

SEMINAL WEAKNESS.

Dr. D. devotes the whole of his time to the treatment of those cases caused by a secret and solitary habit, destroying the body and mind, rendering the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dimness of the Eyes, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, Loss of the faculties of the mind, Loss of memory, be devoted, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, and many the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and hoist once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for treating and curing themselves of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 8 ENDICOTT STREET, Boston, is consulted daily for all diseases peculiar to the female system, such as Uterine Inflammation, Falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief guaranteed in a few days, in a manner totally certain is the new mode of treatment, that most delicate females complain of it under it, and the afflicted person could not be induced to leave it.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any other Physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to one other practice, for the cure of Private Diseases, and the treatment of recent and chronic diseases of every genus and nature, has the unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his aid.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW. Any person wishing to consult a physician, who need the services of an experienced physician and surgeon should give him a call.

Dr. Dow has prepared his last for sale a new article, called the FRENCH SECRET. Order by mail. Four for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜

HYDE, N. H., Feb. 20, 1863.—I hereby certify that my daughter Hannah has been troubled for a number of years—some of the time so badly as to prevent her labor, or even rest—so it affected her health very much. She has taken much and been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured her one and twelve bottles of Dr. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. Neither medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and who need many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNES.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with diseases at my stomach, loss of appetite, and often vomited up all of my food immediately after taking it, and nothing would stay on my stomach until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have had the best health from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

Dr. Sweet—Perhaps I should certify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous tumor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, and had her natural rest by day or night. She had applied to one of the physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has enjoyed good health so far as to rest quietly by night, and labor by day; and your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. may26o

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of frying fish and onions is prevented from escaping into the room, and the shaking of the ashes in the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and the embers can be kept alive and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes of the

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great est amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating apparatus have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this failure, the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off in a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any care.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill	Charles H. Mendum,

December 8th, 1862. dly

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES:

1st. It is stronger and lighter than any known metal, rendering a plate less bulky.

2d. From two to six times the amount of retention or adhesion can be obtained by it.

3d. Its palate arch is irregular we can by building out the depressions, which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the excretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon it have can be kept clean and sweet as easy as a gold plate, when finished the work presents one whole piece.

6th. Persons in wearing it can have it in a new peculiar case, it is much cheaper than gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had long years of experience in manufacturing this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,

Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he has had all the teeth upon his teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the country, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz., It is very light and elastic, and consequently it perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c., consequently they can be worn night and day, and are very easy kept neat and clean.

Besides all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the section is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for the best permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than the best gold plate, and for the same teeth (in blocks) that you would pay $80.00 for an upper or lower set on Gold.

As New Yorkand Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists, it will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do as heretofore, and guarantee. I will not mention the my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TOWNSEND, Dr. BOARMAN, Dr OLIVER and Dr. BENNETT, for particulars respecting Vulcanized Teeth. Teeth extracted without pain and with no injury to the mouth with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rate.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

Advertising.
For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $5, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of article Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though everyism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

GRAPE, CANISTER AND SHRAPNELL. An officer of the Fourteenth Mass. regiment recently communicated the following interesting article to a Lawrence paper:—

Grape consists of nine shot arranged in three layers, which vary in size according to the calibre of the gun; they are held together by two plates of about 1-14 in. less diameter than the gun, two rings, a bolt and nut. The canvass bag arrangement is too old for this war, it is not so simple or durable, and has not been used for years.

Canister for a gun contains 27 small cast iron balls, arranged in four layers, the top of 6, the remainder of 7 each; for a howitzer it contains 42 small iron balls in four layers of twelve each; for the same calibre you will see that the balls for canister are smaller than grape. The envelope for canister is a tin cylinder, closed at the bottom by a thick cast iron plate, or a wooden sabot, and at the top by a sheet-iron plate with a handle attached, the interstices between the balls are closely packed with sawdust to prevent crowding when the piece is fired.

Shrapnell consists of a very thin shell, which is filled with musket balls, the interstices are then filled by pouring in melted sulphur, a hole is then bored through the mass of sulphur and bullets, to receive the bursting charge. Now to explain the difference between a "Shrapnell" or "Spherical Case" and a "Shell." The destructive force of a Shrapnell is what it received from the charge in the gun, the powder in the Shrapnell being only to break the envelope and spread the balls, they still moving forward by force of the impulse they received from the charge in the gun.

A Shell is made very much thicker than the envelope Sharpnell and is nearly filled with powder, and will do great execution if it explodes on the ground, it having destructive qualities in itself aside from the charge in the gun.

A Shrapnell Shell has only half the charge of powder that a Shell proper has; thus a 24 pounder Shrapnell contains 175 musket balls, 6 ounces of powder and weighs 22. 75 lbs. A 24-pounder Shell has 12 ounces of powder and weighs 19.75 lbs. A 6-pounder Shrapnell has 89 musket balls and 2.5 ounces of powder.

Communication.

TOO MUCH TRUTH.—*Messrs. Editors:* Allow me room for a brief notice of an article copied from the Boston Journal, in which that paper says there is "too much truth" in a certain letter of Thurlow Weed, wherein he assails the New York Tribune. And let me say that whoever thinks there is *too much* truth there, must be satisfied with a very *small* quantity of truth, indeed. But on the other hand I know that there is altogether *too much falsehood* in Weed's assertion that the Tribune has ever advocated amalgamation; the assertion is utterly false. The Tribune has published Wendell Phillips' speech, and so it has Vallandigham's; but it did not endorse that notion.

Mr. Weed is welcome to his own views of the cause of the prejudice, as it is called, against the negro. But there is no prejudice against him as a *slave*: it is only when the black working man becomes a *freeman*, that this stupid, ignorant, contemptible prejudice rises up. It says, while the laboring man of the South is a slave, keep him in the Union;—but the moment he becomes free, kick him out. I do not see any beauty or justice in the sentiment. It is a mere worship of the idle, arrogant aristocracy which made the rebellion.

Mr. Weed's assumption is, that Wendell Phillips' *theory* of amalgamation by lawful connexion, would demoralize the blood; and that it really causes hatred against the negro, as shown in the New York riots and insurrection. It is a curious comment on this, that Andrews, the Virginian, leader in the riots, is a practical amalgamationist by adultery; and that a million of mulattoes are living in the rebel States. SENEX.

☞ Mr. Blackburne, now well known in Europe as a remarkable blindfold chess player, has recently played twelve games at once, against as many players, at Manchester, Eng., before a large number of spectators. Six of the games were won by Mr. Blackburne, four by his opponents, and two were drawn.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 24, 1863.

THE REBELLION.

We have news from New Orleans to July 16, by steamer Creole at New York. The C. spoke off Florida coast, the gunboat Cayler with a side-wheel prize steamer in tow.

Col. Chickering, of the 3d Massachusetts cavalry, had been appointed Provost Marshal of Port Hudson, and had sent a large number of prisoners to New Orleans, including all the commissioned officers, who are about to be paroled.

The ceremony of receiving the surrender of Port Hudson was conducted by Gen. Andrews. Seven transports had left Port Hudson for operations in another quarter.

Brig. Gen. G. S. Andrews has been appointed commander of the Corps d'Afrique, and comnandant of Port Hudson. Several hundred rifles and two cannon were found buried at Port Hudson.

The news of Lee's defeat was received with intense satisfaction by our army at Port Hudson and New Orleans.

A rebel band under Morgan, passed through Nelsonville, Athens Co., at 10 o'clock on Wednesday morning, our forces close behind him.

After perambulating Athens County, Morgan took a southerly direction, crossing the Muskingum river in the direction of McConnelsville, with the evident intention of gaining a point on the river above gunboat navigation and crossing into Virginia. The authorities have made such arrangements as may effectually checkmate and capture his bands.

New Orleans letters state that Weitzel's and Dudley's brigades, under Gen. Grover, left Port Hudson on the evening of the 9th, and went to Donaldsville to clean out the rebel batteries near there. When a few miles from there the 30th Mass. regiment, in advance, was suddenly attacked and 150 men were killed and wounded, and 3 field pieces captured.

Effort will be made by Gen. Banks to recover Brashear City and the Opelousas Railroad. The enemy were reported to have fallen back beyond Bayou Lafourche An expedition has gone up Red river to Alexandria. The gunboat Sciota was sunk in the Mississippi, in collision with the gunboat Antonia.

An expedition from our squadron off Galveston has destroyed 3 schooners and 300 bales of cotton in Galveston Bay.

In Virginia the latest official information leaves the two armies watching each other, the rebels on the west side and the Federals on the east side of the Blue Ridge.

It is said that Gen. Grant is to be appointed a Major General in the regular army, in place of Gen. Wool, retired.

There was a rumor on Wednesday in Washington, of Johnston's surrender to Gen. Sherman or Grant, but official dispatches received from Gen. Grant render this report unworthy of belief.

News overland from Oregon states that the election in Washington Territory gave a large Democratic majority.

About 4000 rebel cavalry attempted to cross the Potomac near Nolan's Ferry on Wednesday night, to take up the Baltimore & Ohio Railroad,—but they were driven from the river. At 3 o'clock Thursday morning Lee's entire army was moving rapidly towards Winchester. Ewell fell back and followed Lee. Scouts report an increased body of cavalry at Harper's Ferry, supported by two regiments of infantry, one of which is dressed in Federal uniform.

☞ The land and naval force which was sent from Vicksburg to Natchez on the 6th inst., under command of General Ransom, found near Natchez 5000 head of cattle which had been brought from Texas for the use of the rebel army. Of these, 2000 head were sent down the river to General Banks, and the remainder were taken to Vicksburg. A detachment from General Ransom's force crossed the river into Louisiana, where they found a large quantity of ammunition intended for the use of Kirby Smith's army. 2,000,000 rounds of this ammunition were brought over to Natchez, and 268,000 rounds were destroyed.

☞ The N. Y. Herald's Washington dispatch says:—"All efforts to induce the Government to suspend or avoid the draft in New York are unavailing. The conduct of the rioters there has rendered it, in the estimation of the authorities, imperatively necessary that the draft shall be enforced. If, however, the quota should be filled by volunteers, there would be no occasion for proceeding with the draft, but under no other consideration can or will the draft be dispensed with.

☞ The thirty-fourth annual meeting of the American Institute of Instruction, will be held in Concord, N. H., at the City Hall, on the 25th, 26th, and 27th days of August, 1863.

☞ Benj. T. Larkin has been appointed Assayer of the Mint of San Francisco, in place of Conrad Weigand, resigned.

MRS. KEMBLE'S JOURNAL OF A RESIDENCE ON A GEORGIAN PLANTATION is exciting great attention. The fair author dashes into the question of slavery without preface or circumlocution. The work takes the form of a journal, or confidential correspondence with Miss Sedgwick, to whom the volume is dedicated. The author at the outset thus controverts the principles of the peculiar institution. We make the following extracts from the work:—

ARGUMENT AGAINST SLAVERY.

My Dear E——: I return you Mr.——'s letter. I do not think it answers any of the questions debated in our last conversation at all satisfactorily; the *right* one man has to enslave another he has not the hardihood to assert; but in the reasons he adduces to defend that act of injustice, the contradictory statements he makes appear to me to refute each other. He says, that to the continental European protesting against the abstract iniquity of slavery, his answer would be, "The slaves are infinitely better off than half the continental peasantry." To the Englishman, "They are happy compared with the miserable Irish."—But supposing that this answered the question of original injustice, which it does not, it is not a true reply. Though the negroes are fed, clothed and housed, and though the Irish peasant is starved, naked and roofless, the bare name of freeman—the lordship over his own person—the power to choose and will—are blessings beyond food, raiment or shelter; possessing which, the want of every comfort of life is yet more tolerable than their fullest enjoyment without them.

Ask the thousands of ragged destitutes who yearly land upon these shores to seek the means of existence; ask the friendless, penniless foreign emigrant if he will give up his present misery, his future uncertainty, his doubtful and difficult struggle for life at once, for the secure, and as it is called, fortunate dependence of the slave.—The indignation with which he would spurn the offer will prove that he possesses one good beyond all others, and that his birthright as a man is more precious to him yet than the mess of pottage for which he is told to exchange it because he is starving."

HER VIEWS ON AMALGAMATION.

I am rather surprised at the outbreak of violent disgust which Mr.—— indulges in on the subject of amalgamation, as that formed no part of our discussion, and seems to me a curious subject for abstract argument. I should think the intermarrying between blacks and whites a matter to be as little insisted upon it repugnant, as prevented if agreeable to the majority of the two races. At the same time, I cannot help being astonished at the furious and ungoverned exacration which all reference to the possibility of a fusion of the races draws down upon those who suggest it, because nobody pretends to deny that, throughout the South, a large proportion of the population is the offspring of white men and colored women. In New Orleans, a class of unhappy females exists whose mingled blood does not prevent their being remarkable for their beauty, and with whom no man, no *gentleman*, in that city shrinks from associating; and while the slave owners of the Southern States insist vehemently upon the mental and physical inferiority of the blacks, they are benevolently doing their best, in one way at least, to raise and improve the degraded race, and the bastard population which forms so ominous an element in the social safety of their cities certainly exhibit, in their forms and features, the benefit they derive from their white progenitors. It is hard to conceive that some mental improvement does not accompany this physical.

Already the finer forms of the European races are cast in these dusky moulds; the outward configuration can hardly thus improve without corresponding progress in the inward capacities. The white man's blood and bones have begotten this bronze race, and bequeathed to it, in some degree, qualities tendencies, capabilities, such as are the inheritance of the highest order of human animals. Mr.——(and many others) speak as if there were a natural repugnance in all whites to any alliance with the black race; and yet it is notorious, that almost every Southern planter has a family more or less numerous, of illegitimate colored children. Most certainly, few people would like to assert that such connections are formed because it is the *interest* of these planters to increase the number of their human property, and that they add to their revenue by the closest intimacy with creatures that they loathe, in order to reckon among their wealth the children of their body. Surely that is a monstrous and unnatural position, and utterly unworthy of belief. That such connections exist commonly is a sufficient proof that they are not abhorrent to nature; but it seems, indeed, as if marriage (and not concubinage) was the horrible enormity which cannot be tolerated, and against which, moreover, it has been deemed expedient to enact laws.

Now it appears very evident that there is no law in the white man's nature which prevents him from making a colored woman the mother of his children, but there is a law on his statute-book forbidding him to make her his wife; and if we are to admit the theory that the mixing of the races is a monstrosity, it seems almost as curious that laws should be enacted to prevent men marrying women toward whom they have an invincible natural repugnance, as that education should by law be prohibited to creatures incapable of receiving it.

A DELICATE SUBJECT.

About this same personal offensiveness, the Southerners, you know, insist that it is inherent with the race, and it is one of their most cogent reasons for keeping them as slaves. But, as this very disagreeable peculiarity does not prevent Southern women from hanging their infants at the breasts of negresses, nor almost every planter's wife and daughter from having one or more little pet blacks sleeping like puppy dogs in their bed-chamber, nor almost every planter from admitting one or several female slaves to the still closer intimacy of his bed, it seems to me that this objection to doing them right is not very valid. I cannot imagine that they would smell much worse if they were free, or come in much closer contact with the delicate organs of their white fellow countrymen; indeed, inasmuch as good deeds are spoken of as having a sweet savor before God, it might be supposed that the freeing of the blacks might prove rather an odoriferous process than the contrary.

However this may be, I must tell you that this potent reason for enslaving a whole race of people is no more potent with me than most of the others adduced to support the system, inasmuch as, from observation and some experience, I am strongly inclined to believe that peculiar ignorance of the laws of health and the habits of decent cleanliness are the real and only causes of this disagreeable characteristic of the race, thorough ablutions and change of linen, when tried, having been perfectly successful in removing all such objections; and if ever you have come into anything like neighborly proximity with a low Irish man or woman, I think you will allow that the same causes produce very nearly the same effects. The stench in an Irish, Scotch, Italian or French hovel is quite as intolerant as any I ever found in our negro houses, and the filth and vermin which abound about the clothes and persons of the lower peasantry of any of those countries, as abominable as the same conditions in the black population of the United States.

A YOUNG TRAITOR.—The Washington Star says that a boy name John Lancaster, about 15 years of age, was committed to the Old Capitol on Monday, by order of Provost Marshal Todd. Lancaster was employed, at one time, as a messenger in the American Telegraph office, but of late has been employed in bearing despatches to and from the War Department. His father holds some prominent position under Jeff Davis, and his brother, Samuel Lancaster, is on Gen. Lee's staff. Information reached Capt. Johnston, that despatches for the War Department failed to reach there. He at once took the case in hand, and succeeded in discovering that this boy, Lancaster, was in the habit of opening despatches entrusted to him, and when anything of importance presented itself, he would retain it, and, when opportunity presented, forward it to his father or brother.

The radical press have given great aid and comfort to the rebels at Richmond, by representing the recent riots as having been raised in their behalf. But the secessionists had better beware of laying that flattering unction to their souls. There is no party at the North in the interest of secession, except the Abolition party.—*Boston Cour.*

If this were true, the fact that cheers for Jeff. Davis are given by the rioters, would be very remarkable and very strange.—But as the case stands, the cheers are quite natural. They rose from the demons who murdered the loyal Irish Col. O'Brien in New York—and from their illustrious predecessors at Epping some time ago. They come only from rebels and traitors. U. T.

☞ The side wall of a police station house in Newark, which was burnt during the late disturbances, fell down on Tuesday upon a number of people, mostly children, who were engaged in picking up wood and coal from the ruins. A great number of people, estimated at between 30 and 40, were buried in the ruins. Eleven bodies were recovered up to 9 o'clock P. M., four of them with life still in them, and not so much injured as to be beyond the hope of recovery.

GEN. SIBLEY AND THE INDIANS.—A despatch from St. Paul, dated 18th, gives information from Gen. Sibley's Indian expedition to the 5th inst. His forces have marched about 175 miles, and are now encamped on Cheyrune river, waiting the arrival of a supply train from Fort Abercrombie. They are probably again in motion. The men and animals suffered considerably, owing to the drought, but the statement that it is contemplated to abandon the expedition is authoritatively denied.

☞ Braithwaite's Retrospect of Practical Medicine and Surgery, part 46, page 272, gives several cases of chronic diarrhea, represented as caused by red vulcanite; which is now being worn in the mouth to some extent, for bases for artificial teeth—the coloring matter (bisulphuret of mercury) being considered the objectionable and injurious ingredient. S. B.

☞ The N. Y. Tribune's Washington dispatch says—Reports of Aspinwall and Forbes from England are not very satisfactory; it is apprehended that the rebel fleet now building there will sail in spite of our Government.

☞ Gen. S. R. Curtis has turned over to the Quartermaster of the United States the camels that were imported into this country by order of Mr. Jefferson Davis, when he was Secretary of the War under President Pierce. They have been ordered to be sold at public auction.

☞ Ministers are received at Washington from Colombia, (late New Granada.) The diplomatic relations interrupted by the revolution are now by this reception re-established between the United States of America and the United States of Colombia.

☞ A Washington despatch to the N. Y. Herald states that Gen. Grant declines the chief command of the army of the Potomac, but recommends Gen. Sherman for the position. Gen. Grant will remain in his present command.

Writes an enthusiastic cavalier after a glorious dash of a few hundred miles through the enemy's country in Mississippi: "Solomon in all his glory was never on a raid like one of these."

☞ Gold in New York, Thursday, 126.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ju20

What an amount of Suffering and Disease among the Volunteers would be prevented by the free use of HOLLOWAY'S PILLS & OINTMENT. For Wounds, Sores and Scurvy, the Ointment is a certain cure, and for Bowel complaints, Fevers, Small Pox, &c., the Pills are the best medicine in the world. Only 25 cents per box or pot. 223

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cured, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive pamphlets, I would ask confidence which will be accorded, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all DISEASES of THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,
Commercial Wharf, Boston.

For Sale by all Wholesale and Retail Dealers. WEEKS & POTTER, G. C. GOODWIN & CO., REED, CULLER & CO., M. S. BURR & CO., CARTER, RICE & CO., J. WILSON & CO., S. M. COLCORD & CO., Wholesale Agents, Boston, Mass.

DR. JOHN C. MOTT, Physician and Surgeon

☞ 65 COURT STREET, corner of Howard, Boston. Established daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors, Mercurial Disease, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spo 33aw

Local.

☞ We have nothing fuller, official, about the Draft in New Hampshire; but rumor hath it that it will probably not take place for several days, perhaps weeks, as a new apportionment of the State is necessary, under the new arrangement. The deficiency on the former quota, in the 3d district, as compared with the others, is reported to be so great that a very large proportion of the drafted men will be called for from the 3d district. We give this only for what rumor is worth.

☞ We are glad to learn that steps have been taken to testify a proper respect to the memory of our late townsman, HENRY L. RICHARDS. The funeral services will probably take place on Saturday, and due notice will be given of the time and place.

Of course the respect for the memory of the gallant Lt. Patch, will be similarly testified.

☞ Ladies or gentlemen wishing to contribute $1 or *less*, to erect a Monument for Col. Cross, can find a paper at N. P. Thacher's store.

EPPING.—The Corner Stone of St. Philip's Church in Epping was laid on Tuesday last, by Rev. Dr. Hubbard of Manchester, assisted by Rev. Messrs. Wingate and Fisher; after which an exceedingly interesting address was delivered by the venerable Rev. Dr. Burroughs of Portsmouth. The site of the church is in a beautiful grove on the banks of the Pawtuckaway river.

The Dr. commenced by alluding to the locality, and in imagination carried his audience to and back from Epping Forrest in England. He then gave a biographical account of Epping from its settlement, mentioning its earliest ministers, and in particular Rev. Mr. Stearns, for thirty-four years pastor of the Congregational Church, his usefulness and patriotism; and also of the public men, Generals Dearborn and Cass, Governors Plumer and Morrill. Touching upon the antipathy existing against the Episcopalians,—after answering those objections, he asked the question, "Supposing the great and good men who have departed could look this day upon the laying of this corner stone, think you not they would approve of it? Most certainly."

We cannot, and should fail to do the Dr. justice, and will not attempt, to follow him further in his address, which was deeply interesting to his audience. He closed by stating the object of building this church, and the duties incumbent upon those interested. Also the necessity of building more churches in our land, and a greater regard to religious duties, or we must and should fall as a nation;—earnestly beseeching the blessing of Almighty God upon the completion of this church, its and our country's future.

The box inserted in the corner stone contained many articles which may be interesting to a future age.

The organ lately in the Hanover Street Chapel was recently purchased for the use of St. Philip's Church in Epping, and is now set up and used in their present place of worship, to be removed into the new chapel on its completion, which is expected to be early this autumn.

The corner stone of St. Stephens' Church in Pittsfield, N. H., was laid by Rt. Rev. Bishop Chase on Monday last. The site of this Church is the most desirable,—next east from the Academy yard, and cost $550. This parish lately received from a gentleman in New York a donation of $500 for the purchase of an organ.

The new Episcopal Church in Keene is to be of granite, at a cost of $11,000. The corner stone here was laid June 30th.—These, with one other new church on the Connecticut river, will make five new churches of this denomination, and others are undergoing extensive repairs, &c., showing a growing and commendable interest in this denomination. COM.

☞ Gen. Hooker after being relieved of the command of the army of the Potomac proceeded on horseback and almost unattended, to Baltimore. Night overtook him on the way, and taking the saddle from his horse as a pillow, he rolled himself in a blanket, and slept on the ground without shelter. He had just surrendered the command of nearly one hundred thousand men, and spoke of it to his intimate friends without bitterness, or any other regret than that he could not share in the approaching conflict. A gentleman who has the best opportunities for knowing, insists, reports that Gen. Hooker makes an intemperate use of intoxicating liquors are malicious falsehoods.

☞ A Barbadoes paper of June 23d reports the arrival there of a boat containing a Lieutenant and nine men, belonging to the prate Florida, being the prize crew of a vessel she had taken. Short of water near the island, they set her on fire, but she stranded, and her cargo had become a cause of strife among the Islanders. The military had been called out, and a colision with the mob is reported to have taken place. The report looks very like a canard.

THE ALL SUFFICIENT THREE.

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory,	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Eruptions on the Face,
Hot flands,	Pallid Countenance,
	Dryness of the Skin,

These symptoms, if allowed to go on, which Rlmedicine invariably prevents, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages, at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF
QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is as affection of the Blood, and attacks the Sexual Organs, Glandes of the Nose, Face, Throat, Windpipe, and other Mucus surfaces, making its appearance in the form of Ulcers.—Helmbold's extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its blood purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES,

75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but I can offer inventors more advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and no SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had our intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Having now devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Fits, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually with unfailing Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their vitals, and destroyed their mind, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they have the best Physician and Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in female.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, the price per box, these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 10 to 12 A.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,
NO. 46 MARKET STREET.
EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.
This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.
Daniel A. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."
Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."
John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."
C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."
Thousands of similar testimonials can be shown in its favor.
SCHOOLEY'S ICE KING REFRIGERATOR.
(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators, the question, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.
We are now happy to state that, by the introduction of our new patent ICE KING, we can offer to *the million* a compact ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.
The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.
Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very elegant.
Prices from $3.00 to $50.00 each.
Also a variety of GOG, TOY CARTS, WHEELBARROWS, &c.

FOR WOOD OR COAL.
E. A. STEVENS,
No 46 MARKET ST.

Morning Chronicle.

FREEDOM'S DEAD.

They do not perish as do common men,
Who for fair freedom die in glorious strife;
Death is to them the priceless diadem
Which crowns the grandeur of a royal life.
Nor do they leave us as the vain do—they
Depart, leaving the heavens to barren night—
Not into darkness do their great souls go,
But proudly vanish in excess of light.

"Though death be waiting in the path I tread,
Exiling in his knowledge of my fate,
I will not turn aside. . . Duty I know
Greater than he, though he, alas! is great."
Thus thinking, rode he at the Army's head.
Death smiled, but Duty raised her eyes to God,
And robed in glory came to him the twain;
She clasped the soul, and he embraced the clod.

He died, he leaves unto his slayers, shame;
Years to his country, and a nobler pride,
To think what splendors glorify his name.
How well he lived, and in what cause he died.

☞ The Augusta, Ga., Sentinel pays Gen. Gillmore, now in command of the forces engaged against Charleston, the following handsome compliment:—

He is considered a very dangerous man where forts or other works are to be reduced by artillery. He is a native of Ohio, and in 1844 graduated at West Point at the head of his class. For a year or two after his graduation he was a professor in that institution. Subsequently he was assigned to the duty of experimenting upon the power of projectiles upon earth, wood and earthworks, and spent several years in this duty, acquiring in that time more experience and knowledge on the subject than any man in this country. The more perfectly to record the results of his experiments he took photographs of the effects of every shot fired. At Fort Pulaski he for the first time brought his skill to the test of actual experience. Pulaski was considered next to Sumter in impregnability. Gillmore, getting his guns to within six hundred yards, knocked it to pieces as he might a house of cards.

☞ At a meeting of the Royal Geographical Society, held in London, on the 8th of June, after the reading of a remarkable paper on the "Physical Geography of the Indo-Australian Archipelago," by Mr. Wallace, who has spent seven years in the Indian Archipelago, and has communicated papers on Borneo and other subjects—a very curious fact was stated by Mr. Crawford. The Times says—

"Mr. Crawford, after acknowledging the merits of the paper, and making observation on the inhabitants, related some particulars respecting the volcanic eruption of the Tumboro Mountain in 1814, of which he witnessed some of the effects. At a distance of 300 miles it was pitch dark for three days; the ashes were carried by the monsoon to a distance of 1200 miles from the mountain; and for ten days he was obliged to write by candle light."

☞ The death of a young female, Mary Ann Walkley, in the service of a fashionable West End milliner, Madame Elise, a Frenchwoman, from exhaustion, caused by overwork and the breathing of impure air, has caused a sensation in London. The facts attending the extinction of this young creature, as they were developed at the inquiry before the coroner, reveal a state of things about which the fine ladies who employ these Court milliners can know nothing. Dr. Lankester has made a report on the subject. "I found sixty ladies," he says, "working in two rooms which contained 3630 cubic feet of air, and this gives but little more than sixty feet of air to each individual." It has been remarked that, in a sanitary point of view, these rooms have even less air than the Black Hole of Calcutta, into which, though double the number of people were thrust, yet many of them died a horrible death in the course of a single night.

☞ Somebody, in laying hold of straws, to hold up a sinking nest of rebels, has asserted that the births in the Confederacy, since the war began, outnumber their killed and dying,—so that their numbers keep good. "Well: what of it?" If true, then the same thing is true in the United States, on a larger scale: and, besides, we have an increase by immigration, which they have not.

CLOCK'S
EXCELSIOR
HAIR RESTORER

It restores to Restore gray or red hair to a dark brown—keeps the hair from falling off,—eradicates all humors and dandruff from the head, when used according to directions.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed, when introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal taint and impure blood, Pustules, Carbuncles, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Urinary Organs, Nocturnal Emissions, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to appear as harmless as the simplest stings of a child.

SEXUAL WEAKNESS.

Dr D., devotes a great share of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for Business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous-ness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of this habit are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, loss of energy, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. These for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, such as Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on the treatment of Private and Delicate cases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which enlists patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the public mind than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE!

RYE, N. H., Feb. 25, 1862.—"I hereby certify that my daughter had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. I have spent much time and money to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured your medicine. I shall ever speak of SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have spoken to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

Sworn to at PORTSMOUTH, this 25th day of Feb., 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOVD.

Sworn EDDON I. CHESLEY, Lee, May 31, 1861.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting Boston in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has enjoyed good health, and has to rise quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISRAEL CURRIER

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those, about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. There is an extension top, the case, large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the unsolving up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, that can be continued day and night, in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this truly valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection raised at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot escape, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated to as to give any amount of heat required, and the fire may be kept the entire season without opening out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Morrill,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When broken it is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents a single piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 Congress Street,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. It does not harbor or imbitter, or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the union is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too I will warrant a perfect fit and teeth from the best manufacturer in the country, $5 00.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting teeth. Most decayed teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE, surgeon in King James's army. Through agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sore.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much troubles suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,
Amesbury, Mass.

PRICE 25 CENTS PER BOX.

Each box has the above cut and the fac-simile of the proprietor's signature attached to it, without is duly copy-righted.

M. S. BURR & Co., 26 Tremont Street, Boston. C. GOODWIN & Co., 11 & 12 Marshall Street, Boston, Wholesale Agents.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. SATURDAY JULY 25, 1863. NO. 21.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

REBELS AND TRAITORS.—The rebels at the South are greatly pleased with the acts of the traitors at the North. The Richmond Dispatch of the 18th says:

"We have some intelligence from the North this morning *far more welcome, and much more important than foreign intervention. The peace meetings in New York*, so bitterly ridiculed by the unthinking; the safe parallels by which the anti-war people of the North were working into open resistance to Lincoln's government—*have borne their fruit.* The white flag has been suddenly lowered, and the red battle-flag now waves in New York over streets wet with the gore of Lincoln's hated minions. This *grand movement* in New York is but the precursor of a series of similar outbreaks.

The Dispatch further says that the President has not troops enough to enforce the measure in the large cities, and yet carry on the war, adding:

"Let us have more of these outpourings—a few more great cities on their mourners' bench—some more gutting and sacking of houses and hanging and mutilating of men. *It saves the Confederate troops a deal of marching and fighting*, and lops off many a dreary month of this war. The sacking and burning has been heretofore at the South. Our compliments to our northern "brethren," and may they enjoy their turn."

Thus it will be seen how these outrages, as they were intended to do, directly administer aid and comfort to the rebels, who rejoice over the New York Insurrection, as they did over the New York election.

THE PROPER TREATMENT FOR RIOTERS. The proper regimen for Governor Seymour's "immediate constituents," is stated by the New York Commercial Advertiser to have been recommended to that gentleman last week by a very distinguished person, as follows:

On Thursday last, General McClellan, while at Orange, N. J., received two very urgent despatches from Governor Seymour, asking him to come to New York, and assist in restoring order. In obedience to the request of the Governor, General McClellan came to town, went to the St. Nicholas Hotel, and had an interview with the Governor. The Executive was very much excited with the condition off affairs, and asked General McClellan to go up to the scene of the rioting on the East side of the city and address the people, stating that a speech from him would quell the riot.

General McClellan replied,—"If I go up to the people, as you call them, it will not be with a speech, but with grape and canister!" The General then withdrew in good order, leaving the Governor much chagrined that the General was not willing to adopt tactics similar to his own, and "speak to the people."

A BRAVE OLD PATRIOT.—The Germantown (Pa.) Telegraph narrates the following:

"John Burns, over seventy years of age, a resident of Gettysburg, fought throughout the battle of the first day, and was wounded no less than five times—the last shot taking effect in his ankle, wounding him severely. He came up to Colonel Wister, in the thickest of the fight, shook hands with him and said he come to help. He was dressed in his best, consisting of a light blue swallow-tailed coat, with brass buttons, corduroy pantaloons, and a stove-pipe hat of considerable height, all of ancient pattern, and doubtless an heirloom in his house. He was armed with a regualtion musket. He loaded and fired unflinchingly until the last of his five wounds brought him down. He will recover. His little cottage was burned by the rebels. A purse of a hundred dollars has been sent to him from Germantown. Brave John Burns!"

We hope that is only the first of many such purses.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 25, 1863.

THE REBELLION.

It has been said that Lee was heavily reinforced by Beauregard with fresh troops, but the report is flatly contradicted by rebel prisoners.

Scouts report that on the 21st, Johnston was at Brandon, Miss., Gen. Sherman being in possession of Jackson. Our recent victories are producing great consternation in the South West. Bragg's and Johnston's armies are represented to be in a state of great destitution and much demoralized; they give up Mississippi and advise the planters to remain and make the best terms possible. The scouts says a majority of the planters are anxious that we should get possession of the country, before Jeff. Davis has time to conscript there. Through our successes at Natchez, Yazoo City and Jackson,—large amounts of the munitions of war, especially of ammunition, have fallen into our hands.

A correspondent with the Army of the Cumberland, writing from Winchester, July 15, says that it was believed that General Stanley entered Huntsville, Ala., with his division on Monday afternoon, 13th inst. It was also reported that the forces under Gen. Sheridan were in possession of Chattanooga.

The U. S. steamer Circassian, from Charleston 19th, reports that a general engagement was just commencing as she left. Gen. Gilmore had erected a masked battery in the woods quite near Fort Wagner, and expressed no doubt that the attack of himself and Adm. Dahlgren would prove successful. As the early shadows disappeared, the attack began, and a shower of shot and shell was poured into Fort Wagner.

The U. S. steamer Penobscot, Capt. Cass chased ashore steamer Kate, a blockade runner, July 12, on Smith's Island. Her crew escaped; and as the Penobscot's men could not get her afloat, they burnt her and her cargo of merchandize.

Morgan was checked, with some loss, on Thursday, but finally escaped. On Friday morning he was at Washington, Guernsey county, O., closely pursued by Gen. Shackelford. He had done some damage and obtained some plunder.

CHARLES BEECHER'S HERESY.

The Council of Orthodox Churches and pastors at Georgetown, Mass., voted Chas. Beecher a heretic, and recommended his dismissal by a vote of 16 to 5. They say:

"We would save the entire church, and the community, from the utter indifference, not to say contempt, that must be engendered toward creeds and covenants, by such an example as his course has offered.

As it is a matter of right with the church at G., it should be a matter of honor with the pastor, that he preach the faith which, by his settlement, he has contracted with them to preach, and is most solemnly obligated to the Great Head of the Church to preach."

They speak favorably of Mr. B's Christian spirit, and his rare talent for preaching, and if he could only have kept his odd notions to himself as theories, he might have remained; but he would preach them, and therefore they must disown him and his heresies, which they describe as follows:—

"The lengthy and carefully written argument of defense given in by the pastor satisfies us that he does not preach the faith of this church and of the churches of our order in New England, but doctrines instead that are vitally and fundamentally erroneous.

By the doctrine of the race in a pre-existent state he denies the Scriptural doctrine of the Fall in Adam, a doctrine which, however interpreted by the different schools of New England Theology, is nevertheless held by them all in common. He weakens and undermines the doctrine of future punishment by teaching that the offers of salvation are made to men after death; that God, to affect men, overstates the reality of future punishment in his threatenings of it, as the cannonier elevates his piece above the mark in order to reach it; that the faculties and sensibilities of the lost are so weakened and blunted by their circumstances as to much diminish their sufferings; that they do find some pleasure in their degradation and sorrow even as wicked men here; and that all God's visitations on them are for their good.

By defining the God-man as having an angelic nature, being own and younger brother of Lucifer, with the divinity of the second person in the Trinity added, and only a human body given in the incarnation; and by making his sufferings sacrificial and argumentative rather than vicarious he has so distorted the nature, person and work of Christ as to fundamentally derange the commonly received doctrine of the Atonement. By his manner of teaching that God suffers and sorrows over the sins of our race he presents to us a God deficient in his nature and imperfect and finite in his blessedness; a doctrine having painful variation from our common faith."

☞ At New Orleans on the 4th, General Emory issued a call for three or four regiments of men to serve for sixty days in defence of the city. In just three days four full negro regiments were raised, organized, clothed, armed and equipped.

The receipts of silver at San Francisco have been for three months at the rate of $1,000,000 a month.

LOCAL ITEMS.

Defence of Portsmouth.—In compliance with the request of Governor Gilmore, the Navy Department has ordered an armed vessel to be stationed in Portsmouth harbor for its protection in case of any attempt upon ships lying here. Several guns will also be sent here at once.

A Beautiful Present.—We noticed on Friday, in the jewelry store of Mr. A. L. Bennett, No. 7 Congress Street, a beautiful Pin, a present from the Alleghanians, Vocalists and Swiss Bell Ringers, to their Business Agent, Mr. D. G. Waldron. It is a monster pearl, nearly round, very pure, the largest in the United States, and was obtained by the Troupe while in South America on their professional tour, — at which time Mr. W. accompanied them. It is indeed a rich souvenir, the pearl alone being valued at two hundred and fifty dollars.

Taxes.—When the new Internal revenue law passed, many people seemed to think that it would not be enforced as fully as its provisions indicated that it was intended to apply. But the Collector has received all the dues assessed in this District. The last man in was a son of the Emerald Isle, name David Welch, who "keeps a hotel" on the Plains, who was notified by the Assistant Assessor that he must apply for a license as a retail dealer in liquor. Now David, like his namesake of old, knows the effects of a sling, as well as any other man, but he protested that he never sold a drop of spirit. Cases of persons coming from his establishment in a state of intoxication were cited, but David adhered to his assertion. When an opportunity offered, Collector Lovering made a complaint before U. S. District Attorney Rand for prosecution. It is said that a pull at the dentist's door-bell will at times frighten away a severe case of tooth ache, and in the present instance the virtue of the law did the business. No sooner was the warrant issued than David was missing, but he at once sent a friend who paid for the license and the cost of the legal proceeding which his folly in undertaking to escape his share of the tax burthen had brought upon himself.—*Cor. Ballot.*

Law and Order.—The firm and determined, yet calm and business-like manner in which the Mayor went through the riotous times of last week, convinced every one that he was the right man in the right place. Beside the credit due to the military, to whom of course we are under great obligations, our police deserve most honorable mention for their brave conduct and continued vigilance: nor can too much praise be given to those solid men of the city who unmindful the claims or comforts of home, night after night stood by the city authorities, ready to grasp the musket and go forth to maintain law and order even at the point of the bayonet. They occurrences of last week do more to show who are good citizens or who the dangerous men in a community, than would years of our customary good order—*Cor. Ballot.*

Kittery and Eliot.—The draft for these towns was made in Portland on Thursday, and the following names were drawn:

Sam'l W Gould	Henry C Foley
Sam'l Wentworth	

☞ Among those drafted in Kittery are Mr. George S. Cutts, Postmaster, and the assistant postmaster, Edward F. Safford. One of the names drawn is that of a man who has been dead over a year; another is that of a cripple. At South Berwick, a negro and an idiot are among those drafted.

☞ A rebel sloop-rigged privateer, with one large gun amidships, was seen, 18th, in lat. 36, on the Southern edge of the Gulf Stream.

NOTES OF FORMER DAYS.

Collected and Collated — By Uncle Tony.

Another Romantic Letter—the Romance of Miss Ursula Cutt's Family.

Copy of a letter addressed to J. Wibgate Thornton, Esq.

Kennebunk, March 4th, 1840.

Dear Sir:—When you favored us with a visit I felt that it would be impossible for me to give you any information that could interest you concerning your ancestors, and grieved that so natural and laudable a desire could not be gratified. I have searched the records of memory, and in one of her long-closed cells have found some details that I received at an early age from an excellent grandmother, who was cousin to your great grandfather. He was an orphan grandchild to the Mr. Cutt that with his sister, the Lady Ursula Cutt, emigrated from England. I only know that the family were of high standing, and that several titles were added to that of Baron of Grondale Abbey. I often heard Lord Thomas and Lord William Cutt named by my grandmother and her kinsman, the Major, who sometimes visited us, and the high-sounding titles excited my curiosity. The inquiries that I made drew from that kind and revered old lady an account of their manner of living, with many details and anecdotes that I have now forgotten. I think one of the sons visited London and resided in his uncle's family some time.

Cutt's Island and a large tract of land in Kittery formed a domain almost lordly. A drawbridge was raised every night for the safety of the inhabitants, and lowered in the morning to permit the retainers of the family and the laborers to attend to their several duties. They kept thirty cows, several hundred sheep, and several horses.—The house was large and old fashioned.—One apartment was sufficiently spacious. The arms of the Cutt family, with innumerable paintings, covered the panels over the immense fire place, the mantle of which was adorned with colored glass and two silver branches for candles. The floors were daily rubbed with wax, till they shone like a nice mahogany table; the walls were ornamented with paintings and needle work of Mrs. Cutt and the ladies.

The daughters were sent to the best schools and were taught not only dancing, music and embroidery, but one day every week was to the making of cake and pastry, and I have been assured that the latter was a half a quarter high, as light as a feather, and as white as snow. One of the young ladies returning from school with a daughter of Governor Vaughn, was detained at Portsmouth for a few days by a storm.—She saw at the Governor's, tea for the first time. "I did not know," said she, "how to act, but seeing Mrs. Vaughn add sugar and cream and raise it to her lips, I followed her example." Mrs. Vaughn purchased a pound of tea, for which she gave a guinea, and sent to Boston for a set of cups and saucers. This was the first tea ever used in the province of Maine. The young ladies assisted in spinning, attended to the dairy, and even saw the culinary preparations. Madame Cutt herself always skimmed the milk and instructed her maids in the quantity of rennet for cheeses. They made two every day, and churned the butter every morning.

A pleasure boat was kept, and each young lady had a horse and saddle of her own. There was a domestic chaplain, who performed prayers every morning and evening, in a small apartment which was called a chapel. Also a steward and butler. The family attended the Episcopal church in Portsmouth, at Christmas, Easter and Good Friday.

To be concluded.

☞ The authorities of New Jersey are about making an effort to raise the quota of troops required from that State by volunteering. Bounties will probably be offered, and Governor Parker is confident that all men needed can be had without a draft.

☞ At a town meeting held in Cape Elizabeth, Me. on Saturday, a proposition to pay each drafted man $300 was voted down, but the town voted to give $350 to every man who goes by himself or substitute.

☞ The reward of twenty-five dollars for every Sioux scalp, which was offered by Gen. Pope's Adjutant, has led to such an outcry that Gen. Pope has been compelled to withdraw it.

BRIGHTON CATTLE MARKET.

Thursday, July 23.

At market 750 beef cattle, 120 Stores, 2000 Sheep and lambs, and 400 swine.

Prices.—Beef Cattle.—Extra, $9 00 a 9 25; first quality, $8 75 a 9 00; second quality, $7 50 a 8 00 3d quality, $5 50 a 6 00.

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent making attention to long series of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,
Commercial Wharf, Boston.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno Saw

Local.

☞ The Funeral of Mr. Henry L. Richards will take place at the North Church this (Saturday) afternoon, at 4 o'clock. The bell on the Stone Church will be tolled at the time of the funeral, as that of the North is broken.

The funeral services of Lt. Patch will be held at the Methodist Church on Sunday afternoon, at a quarter before 3. The Home Guards, and other Military, with the Band, will be in attendance.

☞ The copperhead organ in this city, (no offence intended to the hand organ company,) whose name, instead of "The States and Union," ought to be *misstates* and *disunion*,—is this week devoted chiefly to defending the recent riot here, and denouncing and deriding all who opposed and helped crush it. Just as was to be expected, of course. This Chronicle comes in for a good share of abuse, of course, seeing we gave this mob, like the devil, and all other mobs, its due; and the editor informs us that "hereafter the Chronicle will find there are blows to receive, as well as to give;"—to which we most respectfully beg leave to reply, that neither from that paper, nor any other man, nor any party, do we ask any favors; and to assure them all that we care no more for their "blows" than we do for their blowing.

The writers in this States paper are a legal set of fellows, truly. Why, they volunteer (are not drafted, mind ye) to prove, we don't know how many negatives:—that this was not done, and that was not done; that one man didn't go here, and another didn't go there. All which only goes to show, the intimate connection of that paper with the rioters, its sympathy with and justification of the mob. Among other statements of the paper, it has the impudence to say, that our report of the raid on Fort Constitution, was without truth, and was not derived from the officers of the Fort, whom we gave for authority—to which we respond, that this brings the matter to a point where the writer of one of the paragraphs referred to, lies; and for the truth of *our* statements, we call in the officers at the Fort themselves.

The States, and some other people, express some little surprise, that this Chronicle should denounce the mob, (as we insist on calling it,) and all accessory to it, before and after the fact—seeing that this is a "neutral" paper, (who told you so? *we* call it "independent always: neutral never") and that we have taken no part in these columns, editorially, for or against any party. But there is a point where argument ceases and fighting begins—where diplomacy closes, and war opens. This point was reached, when the first gun was fired on Sumter, and to us not less decidedly when it was declared in our streets and halls, that a law of the land ought not to be and sho'd not be executed. We care not what law it is—whether fugitive slave, liquor, draft, or what not; the mob certainly is not the tribunal of appeal, and never will be with our consent.

And finally, as to the merits of the matter in question—peace man as we are, and with the strongest antipathy to draft, and personally liable to this one—we stand, in this as in all other cases, by "our country, (and its legally chosen rulers,) right or wrong." May she (and they) always be right; but, right or wrong, our country." And however much this policy or sentiment may be open to the objection of the philosopher, the moralist and the christian—the partisan politicians certainly can't cavil at it; and least of all, those of the "democratic" persuasion.

☞ The instigators of the late mob demonstrations in Portsmouth, with part of the rioters, and their defenders, counsellors and organs, have told their story at some length; —and if the public believe it, they must conclude, 1. that there was no mob, riot or disturbance worth mentioning; 2. that the police wilfully and feloniously attacked and wounded several of the most respectable, quiet men among us; peace-makers, who would not harm a man for the world, but who came, in number a dozen or so, very peacefully, to demand of the Police a REVOLVER, which these same wicked policemen had WRONGFULLY wrested from one of the peacemakers an hour before, loaded and pointed; 3. that the defenders of this riot are against all mobs; but 4. that in this case "the people" [what people? if there was no mob I] were not to blame—but the government, the war, the draft, the mayor, the abolitionists, and almost every body and thing were to blame—except the rioters.

When the public get ready to swallow all this, they will probably go a little farther and believe that the three Grand Rallies were never held; that if held they were got up to prevent a row; that the windows of the old Custom House broke themselves; and finally that insurrectionists in general, and these rioters in particular, are almost the only friends of order and good morals we have among us.

It may perhaps require a faith equal to two grains of mustard seed, to believe all these items; but all of them are about alike, as to being credible or probable. Those who believe one half, may as well believe the whole.

THE FUNERAL SERVICES
of the late
LIEUT. CHARLES W. PATCH, Co. K, 2d Regt

who was wounded at the battle of Gettysburg, and his since died—will be held at the Methodist Church, State Street, on SUNDAY Afternoon, at a quarter to 3 o'clock.

The Funeral Escort will assemble on Market Square, the right resting on State St., in the following order:

Band,
Co. C. Governor's Horse Guards.
National Guards.
Co. Heavy Artillery from Fort Constitution.
City Council and other City Officers.
Officers of Army and Navy, &c.
Mourning Coaches.

The Horse Guards and the National Guards are requested to meet at their Armories at 2 o'clock, as the Escort will move to the house of deceased to receive the body, at precisely half past 2.

Officers of the Army and Navy are respectfully invited to meet at the Mayor's Office at the same hour.

Persons having Flags, are requested to display them at half-mast during the day.

A. J. HILL, Chief Marshal.

Portsmouth, July 26, 1863.

M. L. A.—SPECIAL MEETING.

A special meeting of the MERCANTILE LIBRARY ASSOCIATION will be held at MERCANTILE HALL, this, SATURDAY Evening, at 8 o'clock. Business of importance will come before the meeting.

CHAS. C. MELCHER, Sec.

☞ Paymaster Washington Goldsborough has been ordered to the U. S. Frigate St. Lawrence, fitting out at this station.

☞ See Auction Sale of Furniture, room paper, wagons, &c., this Day, by Henry F. Wendell.

MORGAN'S RAID.—Many copperhead journals were very savage on Burnside for allowing John Morgan to cross the Ohio into Indiana. Holding him responsible for that, will they now give him credit for defeating and capturing the daring raider's whole force? As it seems to us, Burnside has taught the traitors that it is one thing to invade a Northern State, and still another and less safe thing to get out of it.

There is a world of beautiful meaning in the following rather liberal translation from Freeville: As the clock strikes the hour, how often we say, Time flies, when 'tis we that are passing away.

☞ The Supreme Court of California has sustained the constitutionality of the law of the last Legislature requiring all attornies to take the oath o allegiance to the National Government before being permitted to practice in the Courts of the State.

☞ A destructive fire has occured at Port au Platt, St. Domigo; loss $700,000.

☞ Gen. Hooker is reported to have gone west.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Salaratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented to the public. They embrace so different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja30

What an amount of Suffering

and Disease among the Volunteers would be prevented by the free use of HOLLOWAY'S PILLS & OINTMENT. For Wounds, Sores and Scurvy, the Ointment is a certain cure, and for Bowel complaints, Fevers, Small Pox, &c., the Pills are the best medicine in the world. Only 25 cents per box or pot. 221

HUNNEWELL'S TOLU ANODYNE.—This most wonderful and reliable preparation which has earned its true name and fame, by results which had baffled every other attempt against lies in Neuralgia, Rheumatism, Gout, Nervous Head Ache, Tooth and Ear Ache, Bowel Complaints, Hysteria, Disease after Eating, Loss of Sleep, General Nervous Debility, Paroxisms in Whooping Cough, and Asthma, now declared to be largely Nervous, and also declared to be one of the most important points in Materia Medica. This valuable preparation should be in every Family, as no description equals its real necessity, or its splendid results.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeds One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, CONSTIPATION, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Designs, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure the rights secured and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made no less rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. 3mly

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities for such being in correspondence with the most eminent Physicians of the Old World, of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of married life, are advised that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A Book for everybody, sent free by mail on receipt of Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to any parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. Is contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy; unapproached, and far in advance of every other medicine—for stopping obstructions, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 a. m. to 8 p. m., and on Sundays from 2 to 5 p. m.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S NEW IMPROVED ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement, and is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant taste.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in the construction all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper prices than ever before sold.*

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Morning Chronicle.

TO HIM WHO FOR SIX DAYS.

BY CHARLES SWAIN.

To him who for six days a week
Can only call an hour his own,
How sweet to watch the Sabbath break,
And view the light that heaven hath thrown.
O, welcome more than tongue can name!
The dearest morn that greets our soil,
Is that the Sabbath bells proclaim,
Which chants the busy world of toil.

From morn to eve—from morn to eve—
Still walking but for work alone!
O! heaven it is a blest reprieve
To have one day to call our own;
One day to breathe a wider span,
Unfettered by the bonds of trade,
To leave the plodding world of man,
And view the world which God hath made.

Singing Schools.

MR. BENJ. B. DAVIS, of Concord, at the request of many citizens of Portsmouth, respectfully announces that he is now conducting a Juvenile and an Adult class in Singing at

MERCANTILE HALL, Portsmouth,

Each Wednesday Afternoon and Evening.

The Juvenile Class at 3 o'clock, the Evening Class for adults, at 8. The rudiments are taught, and also practice in singing, in both classes.

TICKETS for the Juvenile School, **$1.50**, may be had at Mr. MARSTON'S Music and Store, and at the Hall. Also the Book used, "The Nightingale," price 38 cents. Parents and others interested, are invited to visit the Juvenile class at any time.

TICKETS to the Evening School, **$1.50**, may be had at Mr. Head's store and at the door. Also the Book used, "The Sacred Star," price 75 cents. Per order Committee Arr.

Portsmouth, June 24, 1863.

Accommodation Pleasure Boat.

The commodious yacht FLORENCE, WILLIAM H. GRAY, Master, will take parties to the Shoals, Boon Island, or the Headlands adjoining the harbor. For particulars inquire at the Chronicle office, or of DANIEL L. RANDALL, City Expressman, or of Mr. GRAY on board the boat at Long Wharf. jel9

For the West!

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presuming the unfortunate victims of frailties that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHEA AND SYPHILIS.

Beneath his treatment all symptoms of venereal many impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pains and distress in the regions of procreation, Inflammation and Stricture, Gravel and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attendant on these diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Pains in the Head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is his new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to the above branches, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. Dr. Dow's Medicines contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. DOW continues to be consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied study and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher for honorable treatment than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon may safely place in him a full confidence.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

ATTENTION, THE WHOLE!

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her laboring out of doors for months, and hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but to no purpose. Hearing of your Sarsaparilla I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Syrup, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. Yours for Truth, JOHN FORST, Jr. Druggist.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with disease at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. JOHN W. FLOOD.

FROM ELDER I CURLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her nurse rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA AND HUMOR SYRUP, when she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicines one of the best that can be found for the disease above named. ISRAEL CURRLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNRQUALLED **MAGEE COOK STOVE,**

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plate are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea-kettle heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water-pipe heater attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every morning.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the differe / sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT" VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air which is agreeable and healthy, and of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus, are to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe as possible.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over common stoves, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of heated air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron B. Hill,	Charles H. Mendum,
Henry F. Wendall,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the material does not, as the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished it is a glass or porcelain surface.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,

60 Congress St.
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET, }
Portsmouth, Jan. 1st, 1863. }

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon the VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, on the other bases as GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions, open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. GOODALL, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ These goods and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHRICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medicinal properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have used the Wine.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

NEW HAMPSHIRE ITEMS.

—— The Dover Enquirer says that Maj. Samuel P. Sayles, who was wounded at the battle of Gettysburg, arrived home Wednesday. He was hit by a minie rifle ball, which went through the leg below the knee, making an ugly wound, but not breaking a bone. Being wounded, he was taken by the rebels, but recaptured with many other prisoners when our army advanced on Lee's retreating forces.

—— A young man belonging in Tuftonborough, who has been at work in North-Hampton, left a store in the last village, on Thursday night at about 10 o'clock, for his lodgings; but lying down on the track of the Eastern Railroad, was run over by the freight train, and both arms were badly crushed. Dr. Swett of Exeter removed them both near the shoulder. The young man will probably recover.

—— A man named James Donovan, engaged in felling trees near Beech hill, Exeter, was badly injured by the falling of a tree upon him, Tuesday forenoon. The falling tree struck him in the back, completely doubling him up, and it was at first thought must have killed him; but he was brought home, by his companions, and though very seriously injured, the physician was unable to determine whether his back was broken.

—— Hon. Wm. C. Clarke of Manchester, has been appointed by the Governor and Council Attorney General for this State.

—— Some merchants in Manchester propose the organization of an association embracing all who are engaged in trade of all descriptions, for their mutual benefit and for the good of the city. Their object will be to encourage and sustain all those enterprises which give business and character to the place, and by all fair means induce trade.

—— The term of service of the nine months' regiments from this State, the 15th and 16th, will soon expire. They are now with Gen. Banks.

☞ A decree has been granted in the U. S District Court, confiscating the personal estate of Dr Garnett, son-in-law of ex-Governor Wise, during his life-time, while his real estate is an absolute forfeiture. The same principle affects seventeen other cases, in which similar decrees have been ordered to be issued.

☞ A Washington dispatch says that no attempt to take Fort Darling has been made by Admiral Lee, as it has long since been established that it can only be reduced by a combined land and naval attack. Admiral Lee ascended the James river above City Point with two iron-clads, but not on the quixotic errand indicated.

☞ The drafted men in Auburn, N. Y., are made of the right stuff. On Thursday evening they were out with a band of music and flying colors; listened to speeches and cheers for the Union, "Old Abe," the draft, our recent victories, &c.

Rates of Advertising,
IN THE NEW HAMPSHIRE GAZETTE.
(*Weekly.*)
For 1 "Square" of 300 ems nonpareil type, equal to 12 lines or 90 words (7½ words averaging a line) or one inch by measure,—one insertion 50 cts., three insertions $1; each subsequent insertion 25 cts.; $3 for a month, $6 for three months, $8 for six months, $15 per year. For a fourth or fifth advertising, per month or year, one-half more.
For Column, (18 Squares) per year, inside $200, outside $150.

MONDAY, JULY 27, 1863.

THE REBELLION.

The Massachusetts conscripts are to be sent away at once to fill up the old regiments in the field.

A cavalry expedition from Charlestown, Va., cut the Virginia and Tennessee Railroad at Wytheville. They captured Wytheville after severe fighting, and took 120 prisoners, 2 pieces of artillery, and 700 stand of arms. Our loss was about 65 killed and wounded. Our troops were fired upon by the citizens from the houses. The town was totally destroyed.

The Petersburg Express gives particulars of a raid by Federal troops on Rocky Mount, N. C. They destroyed 5000 bales of cotton and burnt a depot and a large cotton factory with all its machinery; they captured a railroad train, and destroyed two car loads of ammunition and over 30,000 pounds of bacon: they also destroyed a bridge, 300 yards long, over Tar River, and torn up the track for a mile or two. Railroad communication between Weldon and Wilmington will be therefore, interrupted for some weeks.

A dispatch was received at Newbern, N. C., on the 20th from Beaufort, stating that our forces had obtained entire possession of Morris Island. The cavalry expedition which left Newbern, on the 18th, under command of Gen. Potter, had destroyed the extensive railroad bridge at Rocky Mount, on the Wilmington and Weldon Railroad, together with several miles of railroad.

The Richmond Whig of Thursday says:

"The evacuation of Jackson, Miss., left in the hands of the enemy the rolling stock of the New Orleans and the Jackson and Great Northern railroad, and the Mississippi Central and Mississippi and Tennessee railroads. The motive power alone consisted of over forty engines. The loss is incalculable, important and wholly irreparable. Nothing goes well in the Southwest."

Recent advices from Gen. Rosecrans' army state that the reports of movements of Union troops upon Chattanooga, Tenn., and Rome, Ga., were unfounded. The main body of the Army is still resting and preparing for another campaign, along the Northern slope of the Cumberland Mountains. But some small bodies of infantry are south of the mountains, holding points on the Nashville and Chattanooga R. R., as far south as Stevenson and Bridgeport.

A Key West letter reports the capture of the steamer Kate Dale of Mobile, with 700 bales of cotton, by the gunboat Cuyler.

Gen. Banks was in New Orleans on the 19th, but would make only a short stay, as he intended to take the field west of the Mississippi. His official report of the surrender of Port Hudson, states that with the place there fell into our hands over 5500 prisoners, including one Major-General and one Brigadier-General, 20 pieces heavy artillery, 5 complete batteries, numbering 31 pieces of field artillery, a good supply of projectiles for light and heavy guns, 44,800 pounds of cannon powder, 5000 stand of arms and 150,000 rounds of small arm ammunition, besides a small amount of stores of various kinds. We captured also two steamers, one of which is very valuable. They will be of great service at this time.

Adm. Porter reports the results of a successful expedition into the Red River region. Two rebel steamers and a large amount of ammunition were captured; and the rebels burned other steamers to prevent their being captured.

By Telegraph, Sunday, to Messrs Hutchings, Habey, and others.

The Richmond Sentinel of the 23d has two dispatches from Beauregard, stating that the Ironsides, five Monitors, and five gun- and mortar-boats, assisted by two land batteries mounting 5 guns, bombarded Fort Wagner furiously for 11 hours on the 18th, dismounting one gun in the fort. The Federals then assaulted the fort repeatedly, but the rebels fought desperately and repulsed the attack with great slaughter. The rebel loss, he says, was relatively slight, but included many officers.

The Richmond Whig has a dispatch from Charleston, 22d, stating that the Federals had commenced shelling again, with but few casualties on the rebels' side. In the battle on the 18th, the dispatch asserts, the rebels lost 150 killed and wounded, while the Federals lost about 2000, including prisoners.—nearly 800 dead being buried under a flag of truce. Col. Putnam, (7th N. H.,) Acting Brig. General, and Col. Shaw of the Mass. 54th, (colored,) were among the killed.

It is believed in Washington that these rebel accounts are greatly exaggerated. A Washington correspondent of the Baltimore Sunday Telegram says the latest news, via Fortress Monroe, is understood to describe the terrific engagement between the Morris Island batteries, Fort Sumter, and General Gilmore's batteries and the fleet. The rebels are said to have made a desperate and vigorous sortie, attempting to take General Gilmore's batteries by storm; they were but partially successful, our men being driven from their guns only to recover them by a grand counter-movement, in which extraordinary valor was shown. The fleet is reported to have distinguished itself by attacking Fort Sumter at very short range. Several of the vessels were more or less injured. Sumter was badly breached, but not sufficiently so to expect its surrender. Several explosions are said to have occurred within its walls, and in the other forts, but the results are unknown.

Lee is attempting to break through some of the passes of the Blue Ridge, but is anxious to retain the plunder secured in Maryland and the Shenandoah Valley. His advance has been met by our troops at Chester Gap.

Bragg's army is mostly at Chattanooga and Atlanta. None have gone to reinforce Johnston. Atlanta is being strongly fortified.

THE CONSCRIPTION LAW.

To the Editor of the New York Times:

Is it possible for laws passed by Congress to be altered by the President if found to be unwise or unjust? Should not the Conscription act be altered? Is it the best way to allow money to be paid, or substitutes to be procured? Ought not all to serve when drafted, who are not by law exempted?—When men have been drafted, the following way seems to have few objections: To have them first pass the Surgeon's examination, and then if found fit for duty, to allow ten days to procure a substitute, (at whatever price he chooses) and if he does not procure a substitute in that time, to serve as a soldier, *or pay $300 to the Government, who will procure one*, and this substitute shall serve for him, and exempt the drafted man for the full period of the draft.

Would not this be just to all? If it is not just, then both rich and poor should go if drafted, excepting those who are by law exempted. Please answer one who desires information. EQUALITY.

1. Our correspondent can scarcely need to be told that the President can not alter laws that have been enacted by due authority.

2. It would not be wise, in our opinion, to require all who are drafted to serve, because thousands of cases will inevitably occur in which such a course would inflict infinitely greater injuries than it would prevent. Take the case of a large manufacturer, or business man of any sort, who employs a hundred workmen, and whose business depends entirely on his personal attention for its success. Suppose he is drafted: if he goes, his business stops, his workmen are thrown out of employment, and their families are deprived of a living.—Would it not be better for all concerned that he should be permitted to hire a substitute, or that upon some equitable terms he should be able to procure exemption from service? Would not his workmen find it greatly to their interest to have him exempted? This case may serve as an illustration of thousands that will occur, and for which some provision must be made.

3. The law, as it stands, is almost exactly as our correspondent thinks it should be. If a man is drafted, he may procure a substitute at whatever price he chooses. If he can get one for $10, $50 or $100, very well: the substitute takes his place, and secures his exemption. If the price of substitutes rises, it may go to $200, $300, or $500; but, out of regard for men of limited means, the law steps in and says *it shall not rise beyond* $300—because, on payment of that sum, the Government itself will undertake the "procuration of a substitute." Is it not clear that this clause really benefits the poor? True, it may be hard for the man who cannot raise $300; but it would be still harder if there were no limit, and he should be compelled to pay $500. This provision of the law has been shamefully misrepresented, and seems to be very imperfectly understood.

We trust we have answered our correspondent's queries. They are evidently put in good faith, and thousands in the community undoubtedly desire the same information.—*N. Y. Times.*

NEW HAMPSHIRE ITEMS.

—— The Amoskeag Veterans, of Manchester, have held a large meeting, agreeable to the order from the Adj. General, to hold themselves in readiness for duty, and voted to employ an army drill-master to put them in proper condition. The Bedford Light Infantry have also voted to hold themselves in readiness.

—— The committee appointed to decide upon the merits of the various steam fire engines exhibited for three days at the Crystal Palace, London, awarded the prizes the 8th inst. The prize of $500 was given to the small second class machine, built by the Amoskeag Co. of Manchester, and exhibited by Lee of New York. The larger steamer from Manchester which was exhibited, was out of order, and worked badly.

—— The Amoskeag Company, of Manchester, have furnished Philadelphia with seven steam fire engines, and now have orders for an eighth.

—— The Manchester American says:

"Now that it is settled no drafted men will be required from this city, or at most not more than 20 or 30, those cowards that ran away from their work and their families to dodge the draft, may as well come back. They can tell their friends that they merely went to the rural district to escape the hot season, not one supposing that it would rain all summer. Finding the weather cool and work abundant, *and no draft*, they can safely come back. It will not affect their health now."

—— A despatch from Hanover, announces that Rev. Dr. Lord has resigned the Presidency of Dartmouth College. A meeting of the Trustees will be held in August, to consider upon a new appointment.

—— James Moulton, Jr., Esq., on account of ill health, has resigned the position he held several years as Treasurer of the N. H. Savings Bank, in Concord, and Mr. Charles W. Sargent, late cashier of the Pawtuckaway Bank (Epping), chosen his successor. The affairs of the Pawtuckaway Bank have been closed.

—— The N. Y. Herald says Brig. Gen. Gilman Marston has been assigned to the command of a camp of 10,000 rebel prisoners, to be established at Point Lookout; and that the 2d, 5th, 12th, and 14th N. H. regiments have been detailed for this command. The three first named have been greatly reduced in numbers in the various battles.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Another Romantic Letter—the Romance of Miss Ursula Cutt's Family.

Copy of a letter addressed to J. WINGATE THORNTON, Esq.

[Concluded from Saturday.]

KENNEBUNK, March 4th, 1840.

Once every year they gave a grand entertainment, to which none but persons of quality were invited. The last of this kind was just previous to the marriage of my grandmother, and she has so frequently described it that it is still fresh in my memory. The company were invited a week previous to the time appointed. It was the middle of June, and the anniversary (if I am not mistaken,) of Madame Cutt's birth. The entire week was passed in preparations. Billy Ball with his fiddle was engaged the whole day. The grass was rendered smooth as velvet, and the walk that led from the river to the house was nicely gravelled, on each side of which, box reared its humble but wholesome head. In several places appeared a sunflower, a rose bush, or a hedge of tulips. The last were taken from Long Lane. The Lady Ursula had them brought from the Abbey in England. The fiddler and drummer, close by the landing, bade welcome with "God save the King." A hog was roasted whole and called a barbacue, and the family were all astir, dressed in their best attire, the Major in a kind of brown velvet laced with gold, and a wig that would have covered twenty empty heads of modern dandies. Madame Cutt wore a black damask, a laced cap hood and a white and silver stomacher, cuffs with double laced ruffles, velvet shoes and blue silk stockings. The daughters and granddaughters in rich brocade and yellow satin. The latter was converted into a frock for me when I was eight years old.

The company arrived at eleven, the parson in his silk cassock, and his helpmeet in a brown damask. Old General Atkinson in a scarlet velvet, and his wife in white damask and tabby. The Governor in black velvet; his lady, crimson tabby trimmed with silver. The ladies wore bell hoops, high healed shoes, paste buckles and silk stockings, with breasts as high as a common tourse, from which depended lappets of brussels lace to the waist. "O!" said my grandmother, "it was a grand sight." Upon their entrance they were welcomed with abundance of ceremony, regaled with fruit, cake and sack, a liquor I am not acquainted with. After the introduction and sitting a proper time, for everything there was conducted with propriety and decorum, they walked around the island, had a little excursion upon the water and danced upon the green. When summoned to the dining room, the barbecue appeared at one end of the table, while boiled chickens, hams and tongues presided at the other; an immense boiled plum pudding, ducks, custards, and fish caught but one hour before, with fruits, jellies and preserves of every kind. All excepting the wine, sugar and spirits (of which there was a great plenty and variety,) were raised upon the island. But the centre of the table shone with the greatest beauty of all—a silver tub that held four gallons, full of pancakes, rising from its rich and polished side like an immense pyramid of snow, for it was entirely covered from the base to the top with powdered sugar. A floating island representing a ship at sea, stood just below; and an immense bowl of punch was handed round.

Every lady did ample justice to the wine and cordials passed round in flowing goblets. I trust the heads of our ancestors were stronger than those of their young descendants. They sat two hours at the table, when chocolate and tea were announced on the green before the doors, with all the requisites of cheese, cake, &c. The company with many ceremonies, bows, and courtesies, took leave of their princely entertainers. More than a century and a half has come and gone since that time.—Every one has long slept in the dust. The gay clothes, the rich brocades, the spacious head dresses, the vest hoops, the full bottomed wig, the bag and sword, have not had the power to resist the universal conqueror.

Cutt's Island is a spacious domain, and with its extensive forest has been divided and remains in the possession of three of their descendants; the hospitable dwelling has been destroyed by fire, the plate transformed into a more modern appearance, and the silver tub which was used by your great-great-grandmother, was long since converted into spoons and creampots for her descendants. SALLY A. WOOD.

☞ The gold watch and $35 in cash, stolen from the house of Rev. Mr. Lowe, in Somerville, Mass., on commencement day, have been recovered, and the thief arrested. The watch and money had been left with a girl in Charlestown, a friend of Amelia Chism, a servant in the family of Mr. Lowe, who stated that Amelia gave the property to her to keep. She confessed her guilt.

GEN. KILPATRICK.—The Springfield Republican inquires whether this gallant, accomplished officer was sent to New York on account of his name.

☞ The Draft for York, Me., was made at Portland on Friday. 234 were enrolled, and 65 names were drawn, as follows:—

Alford J. Norton	James B. Freeman
Joseph W Robertson	Samuel J. Adams
Wm. H. Littlefield	Chas Tucker
Chas. F. Newell	James O. Libby
Geo P. Thompson	Alex D. Perkins
Andrew J Parsons	Daniel Boston
Joseph W. Winn	Saulsbury Williams
Frank F. Emerson	Isaiah Perkins
Chas. Austin	Joseph H. Cloutt

Hair Dye! Hair Dye!!

BATCHELOR'S Celebrated HAIR DYE

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This splendid Hair Dye is Perfect—changes Red, Rusty, or Grey Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY ST., N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jne23eplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, INDIGESTION, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. epuo

DAILY CHRONICLE 85 per year, or 84 in adv. 40 cts. per month, 10 cts. per week, 2 cts. per copy.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Wedding, plain, Initial, or Business ENVELOPES, on hand, furnished, or Printed to order—in any style.

All sorts of Cards, Papers, and other stock, furnished for Printing.

CARDS AND BILL HEADINGS are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party requested to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereior."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

REV. DR. PEABODY Cambridge, Mass.
O. CARLTON, Esq., Salem, Mass.
Rev. A. J. PATTERSON, Portsmouth.
Rev. JAMES DE NORMANDIE, do.

DR. JOHN C. MOTT,

Physician and Surgeon

☞ 26 Congress Street, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr epuo 8aw

Local.

☞ The funeral services of Mr. Henry L. Richards were performed at the North Church, Saturday afternoon, by the pastor, Rev. Mr. Adams. In accordance with the wishes of the family, there was no military display; the services, which were brief and appropriate, consisting of a chant by the choir, "Our days are as the grass," selections from the scriptures, a few touching remarks, and prayer.

The funeral of Lt. C. W. Patch took place on Sunday afternoon, at the Methodist Church; the pastor, Rev. Mr. Holman, officiating. The military and civic escort, with the Band, formed a sad and imposing pageant, to do honor to the memory of a brave officer and true patriot.

Thus two more of our young and vigorous men lay down their lives for their country; and woe be to those on whose heads all the innocent blood spilled in this war shall be chargeable! Yet though not many years have passed over their heads, who shall not say they have not "done what they could" for humanity and the world; and truly, "that life is long which answers life's great end."

CANARD.—The story that 200 persons visited Fort Constitution, at the time of the attack on the Police last week, to obtain an artillery piece, appears to be wholly without foundation.—*Journal.*

Does it? Ask Capt. Long, Lieut. Wainwright, or any other officer at the said Fort. They tell us there *was* such an attempt made, and that the rabble entered within the outer enclosure; that a sentry fired his piece, and a charge was made on the mob, which dispersed the rebels.

We learn further, that the one prisoner who was captured, and afterwards released, —and concerning whose discharge there has been considerable said—was a citizen of New Castle; and there being no reason to doubt his assertions, that he was not at all concerned in the nefarious objects of the mob, he was very properly set free.

A workman in the Portsmouth Navy Yard is reported to have confessed the murder of a man named McPherson, who disappeared from Rochester, N. Y., two years ago.—*Boston Journal.*

If the above be correct, it must refer to Portsmouth in Virginia, as no such thing has transpired here.

POLICE COURT, Saturday.—Before Justice Bufford — John H. Folsom pleaded guilty of assault on Thomas Neil, and was fined $3; costs 3,86; said to be the result of a political dispute.

Alexander McElvey pleaded guilty of being drunk; fined $3 and costs, 2,86; also for assault on Wm. Scott, (plea not guilty) was fined $1; costs 3,86.

☞ Messrs. Jones & Co., proprietors of the Troy, N. Y., Bell Foundry, have first completed one of their improved bells, said to be of very fine tone, for the North Parish in this city. The bell weighs 2,520 poudds. The firm own the exclusive right to cast and use the round shank bell, with a new style of hanging, which is stated to add very much to the durability and tone of the bell.

☞ Mr. Benjamin Johnson, formerly of Vicksburg, who has been throughout the present struggle a firm, consistent and devoted Union man, has been appointed by Postmaster-General Blair a special agent of the Postoffice Department, and assigned to the charge of the Postoffice at Vicksburg. He is now in Memphis.

☞ The Rochester Democrat states that the banking office of Messrs. Waters, Bishop & Co., was robbed by two men in broad daylight, on Wednesday, of $5000. One of the parties made his escape with the money; the other was arrested.

☞ Among those who graduated at the High School, Lowell, on the 20th inst., was Miss Emma R. Welch, who has attended the regular terms of school eight years in succession, and has not been absent a single day or half day.

☞ One of the patients recently transferred to the Floating Hospital "Nashville," at Vicksburg, when he saw the matron, burst into tears and exclaimed "Thank God, I can die easier now, since I have seen a woman's face once more."

☞ The late Lydia J. Rotch of Boston, left $15,000 in trust, for the benefit of the General Convention of the believers of the doctrines of the New Jerusalem Church in the United States.

☞ Sec. Stanton has decided that a non-commissioned officer discharged for promotion before his time expires, is entitled to a bounty of $100.

☞ The Centennial of Dummer Academy, the oldest in Massachusetts, is to be celebrated on the 12th of August.

☞ The steamer Lizzie, of Nassau, was captured on the 15th, by our blockaders.

☞ The gunboat Mahaska arrived at New York, on Saturday, with the Monitor Lehigh in tow.

A LITTLE WHILE.

A little while to walk this dreary road;
A little way to bear this heavy load;
Then all our earthly pilgrimage shall cease,
And we shall wear the crown in perfect peace.

A little while to love with earthly love,
And then we share the "fulness" from above;
A little time of darkness and of doubt,
Then the bright home whose light shall ne'er go out.

A little toil and sadness here below;
A little time to watch and plant and sow;
Then Jesus calls his laborers away,
Where everlasting joy and gladness stay.

A little while of storm and wind and rain,
And then the shining haven we shall gain;
A little time to toss on life's rough sea,
Then in that peaceful home our rest shall be.

A little while! Oh, Saviour! make us strong
To bear this ills, nor let us faint or long:
Guide thou our way with thine own loving hand,
Till we shall enter in the Promised Land.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace all different shades, and include all the new and fashionable colors—and are perfectly *fast.* Samples on silk and wool can be seen and the colors procured of THACHER. ja20

MARRIAGES.

On the 25th inst., in St. John's Church, by Rev. Thomas F. Davies, Jr., JOHN HALE SHEAFE, Esq., of Boston, to Miss LUCY DUDLEY MARCH, daughter of the late Thomas March, Esq., of Brooklyn, N. Y.

—On the 25th inst., by the same, Mr. JOHN B. MAYO, of Springfield, Ill., to Miss SARAH M. MARSH, daughter of Matthew Sheafe Marsh, Esq., of Jacksonville, Ill.

DEATHS.

In Concord, July 19, after illness of five years, ELIZA MCCLARY, aged 29—daughter of the late James H. McClary of Epsom, and grand daughter of Gen. McClary, of the war of the Revolution.

Parties, Families, Picnics, &c., furnished with everything appertaining to the business with neatness and punctuality. ☞ Your patronage is respectfully solicited.

CHAS. W. CARTER,
ma18 Practical Confectioner.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications and Assignments of all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as I successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in the form to secure for them early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY one of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. 3ly

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the married Life, are invited to call on consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK,

A book for everybody—Satisfactory Advice free. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to any part, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 200,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stopping, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S NEW IMPROVED ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement that is to the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odor.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Owen Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very elegant.

Prices from $3.00 to $30.00 each.

Morning Chronicle.

☞ William Charles Macready, the distinguished tragedian, recently died at Dorsetshire, in England, aged seventy years. He was born in London; and was on the stage from 1810, when he first appeared in Birmingham, till 1851, being one of the most popular and deserving actors of modern times. It was a difficulty between him and Forrest, that occasioned the Astor Place riot in New York in 1849, in which twenty-one persons were killed and many others wounded. He shortly after left this country, to return no more. Since he has retired from the stage he has employed his time, talents and wealth, in improving the social and intellectual condition of his poor neighbors; and died at a ripe age, respected, honored, beloved.

☞ The Post Office Department will resume mail communication between the West and New Orleans by the Mississippi as soon as it ascertains that it can be done with safety. The mails between the Atlantic cities and New Orleans will continue to be carried in the usual way.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEEKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints
Excellent Wine for Females.
Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.
Gen. W. Scott, U. S. A. Dr. Ward, Newark,

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, No. 7 Endicott STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most aggravated cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, Lues and Diseases of the organs of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings and the long train of Mercurial Diseases attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins both body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early indiscretion, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. In writing send a lock of hair and enclose Twenty Dollars, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 Endicott STREET, Boston, is consulted daily for all diseases incident to it. Female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt but his superior experience in the cure of Diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 9 A. M. to 9 P. M.
CERTAIN CURE
in all cases. No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied study and extraordinary success, obtained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called BIRCH SECRET. Order by mail. Two for $1 and a red stamp.
BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜
EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years, some of the time so bad she was prevented her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swayne's Pain Killer, and will give my faith in his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since. I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with disease at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CHESLEY, *Lee, May* 31, 1841.
DR. SWETT, Dear Sir: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse. Her friends persuaded me to try your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26y

Sold by WM. R. PRESTON,
Wholesale Agent, Portsmouth, N. H.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.

MAGEE COOK,
Also on hand an assortment of the different sizes of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which passes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat up the smoke pipe or chimney.
To accomplish this many complicated and expensive Furnaces have been invented, and constructed, some possessing but little improvement over former methods, while many have proved a total failure. The objections for Dwellings, Public buildings, &c., are obviated by the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases in the cone, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to get out of order, and open joints to collect soot, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber Base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists, and I will warrant a perfect fit and teeth from the best manufacturer in the country.
S. S. White.
ALL SUCH OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Nitrous Oxide. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. We have the arch in front which can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.
6th. While in all respects it is better, as in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,
60 Congress St.,
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, June 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the right for VULCANIZE in this market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER, upon the most reasonably, if preferred.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth which are so liable to strain, and open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber Base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists, and I will warrant a perfect fit and teeth from the best manufacturer in the country.
S. S. White.
ALL SUCH OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Nitrous Oxide. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.
This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sore and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.
Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve, cures Ringworms.
And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.
It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering and money. All it wants is a fair trial to cure old and inveterate Sores.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. TUESDAY JULY 28, 1863. NO. 23.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind.
Love truth; do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage, and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

CAPTAIN THOMAS O. BARRI.

Capt. T. O. Barri, killed at Gettysburg, was 37 years old. Born at Portsmouth, N. H., at the age of 14 he passed two years at West Point, and nearly always after that was a citizen of Cambridgeport, Mass. He always took a great interest in military matters, was Lieutenant and Captain of the Cambridge City Guard, under J. Durell Green, and afterwards Adjutant of the 5th regiment M. V. M., which place he held for several years, until the fall of 1856, when he went to New York, where he was in the employment of his brother-in-law, Elias Howe. When the rebellion broke out, and he heard that the 5th was going to Washington, he offered his services, and joined the regiment in New York, in his former position of Adjutant, a place which he filled until he was commissioned a Captain in the 11th U. S. regular infantry at the same time with two of his brother officers, Lieut. Col. J. D. Green as Lieutenant Colonel of the 17th, and Major Keyes as Captain in the 14th U. S. infantry.

Capt. Barri has since then been on recruiting service up to February last, at which time he was acting as mustering and disbursing officer at St. Louis, and received orders to repair to Washington to join his regiment for active service. After a short visit home, he joined his command, and was present at the battle of Chancellorsville, and continued on very active duty until the 2d day of July, at Gettysburg, when he was wounded, first in the ankle, then twice in the arm, and finally by a short through the breast, and died the next morning. His body is buried on the battlefield, near a tree, on the spot where he fell. Capt Barri was well known in this vicinity, and had hosts of friends who were warmly attached to him, as it may be truly said, none knew him but to love him. He was one of the most genial and kind-hearted of men, fondly and devotedly attached to his family and friends; truly a good man, a most excellent soldier. He was longingly looking forward to the time when peace might honorably restore him to the endearments of his family and peaceful pursuits. He leaves a wife and four young children. Thus has another New England home been made desolate by the demon of rebellion.

A brother of Capt. Barri's, belonging to the Mass., 22d, died a short time since in the hospital; and still another younger one, Martin, served with the 5th in its three months campaign, and has ever since been in the 1st Mass., battery, passing through all the battles with the Army of the Potomac, thus far unharmed.—*Boston Post.*

SOME HUMOR.—"Obadiah," a droll correspondent of the Independent Democrat, perpetrates the following items, in a late letter from Washington:

In one of the hospitals there was a nurse named Annie Hill; not a daughter of Isaac, but from Massachusetts, and we almost wish we had been slightly wounded so as to have been brought to this Hospital and nursed by Annie Hill. We saw soldiers looking at her with tears in their eyes. We came away determined at the next battle to pitch in. We have been so long and so shockingly neglected that to be nursed by such a lady, we would willingly get wounded, if it was only a flesh wound. Our recovery would be slow, and months would intervene before we would be pronounced well. Who that has had a fond mother and sisters can but appreciate kind nursing? And by a New England lady of intelligence and virtue?

The President has a real old-school Presbyterian look—in fact a sort of orthodox determination amounting to eternal reprobation of the secessionists. When Gen. Jackson swore by the Eternal at John C. Calhoun and nullification, he had the same pious, Presbyterian expression, significant of Jehovah's wrath and a fearful slaughter. He looks older than our "confession of faith." He requires sleep, rest, peace, a vacation to visit the Quakers, to commune with the children of Abraham, and tell stories, laugh, recuperate and grow fat.

Mrs. Lincoln looks lovely, young as ever, with no war in her countenance at all.

All the Departments are well worked and there is every favorable indication of a speedy peace. Secession is an absurdity and will be put into ambulances. The street's of Washington, from the recent rains and the thousands of army wagons working up the mud, present an appearance which would gladden the hearts of the old brickmakers of Egypt, for here they could make bricks in the streets, without straw.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JULY 28, 1863.

THE REBELLION.

Lee has escaped. The affair at Chester Gap is supposed to have been with his rear guard. Col. Matthews, Chief of Gen. Meade's Staff, reports that the whole rebel army was on Saturday undoubtedly en route to Culpepper and Orange Court House, and probably his rear had passed the Shenandoah at Front Royal and Strasburg. At Chester Gap our cavalry recaptured 1100 of the cattle stolen by the enemy, and several hundred sheep. A large number of horses have also been recovered.

The N. Y. Daily News says the Federals have taken possession of the Gaps in the Blue Ridge, after severe fighting.

The pursuit of Johnston is said to be abandoned for the present. Jackson, Miss., surrendered to the Federals, under Gen. Grant, on the 19th inst. Our loss in the various skirmishes and assaults amounted to 900 men.

Morgan was routed at Salineville, O., on Sunday morning, and with the balance of his command, 500 men, was captured in the afternoon. They are in Cincinnati.

Our total loss in killed, wounded and missing, in the attacks on Fort Wagner, from the 10th to the 22d, was only about 1000.

On the 17th inst., Gen. Blunt attacked Cooper, 25 miles south of Fort Gibson, and routed him, capturing one gun and many prisoners. The enemy left 60 killed and 36 wounded on the field. Our loss was 10 killed and 24 wounded. Cooper retreated toward Fort Smith.

Gen. Foster's official report confirms the previous accounts of the great success of the expedition to Rocky Mount, N. C. He sums up the result as follows:—

The bridge of the Wilmington and Weldon Railroad, over the Tar river, was completely destroyed. A cotton mill, filled; a flouring mill, containing one thousand barrels of flour and large quantities of hard bread; a machine shop, containing shells, gunpowder, and every munition of war; a large depot, offices, &c.; an engine and a train of cars; a train of 25 wagons, filled with stores and munitions; an armory and machine shop, with the machinery and materials, and 800 bales of cotton, were all destroyed. At Tarboro', two steamboats and one large and iron-clad in process of construction, a saw mill, a train of cars, 100 bales of cotton, and large quantities of subsistence and ordnance stores, were destroyed, about 100 prisoners taken, and some 300 mules and horses. Some 300 contrabands followed the expedition into Newbern. The force had constant fighting with the enemy. Our loss in killed, wounded and missing, will not exceed 25 men.

At Vicksburg the Federal works are being levelled and the rebel fortifications put put into more perfect condition. A number of the finest guns are being mounted, and the place is held as a first class military fortification. The steamer Imperial from Port Hudson, 18th, reports that a large number of prisoners captured at Port Hudson were joining the Federal army.

The N. Y. Tribune's correspondent states that troops have been sent from Richmond to Charleston.

The Richmond Dispatch of the 17th inst. says: "We have made our calculations long ago that all the towns within the reach of the enemy's navy would fall."

☞ The barque J. W. Seaver, Capt. Snow, from Boston April 22 for Hong Kong, put into Rio Jansiro June 22, having been captured by the rebel pirate Georgia, and released on giving a bond of $15,000. The J. W. Seaver brought information of the capture of the barque Good Hope, by the same pirate. She was burnt. The Good Hope sailed from Boston April 22 for Algoa Bay, Africa. She was a fine barque of 436 tons, rated A 1, built at Newburyport in 1860, and was, together with her cargo, owned in Boston. The J. W. Seaver was 259 tons burthen, rated A 1 1-2, built at Charlestown in 1859, and was owned by Wm. A. Boardman.

☞ Wilkes' N.Y. Spirit of the Times says: "The rioters who cheered for Jeff Davis, and trampled on the American flag, went reeking with the blood of fifty murdered men to the house of the "conservative" idol of the war, and cheered repeatedly for Little Mac. They subsequently tried to release the confederate prisoners who were on their road from Meade's army to David's Island, but did not succeed."

It is a curious counterpart to this that Gen. McClellan is reported to have said he should put down the rioters by powder and ball, if he set out to do it in any way: this report, however, wants confirmation.

☞ We learn that Mr. Francis Preble, of York, Me., was found dead in the road near his house on Thursday morning last.—He had had an altercation with a man and his wife the evening previous, but there was no evidence of any foul play. A coroner's inquest was held, and the jury returned a verdict that he came to his death from some cause to them unknown.

☞ The work on the fortifications at the mouth of the Merrimack has commenced.

NEW HAMPSHIRE TROOPS.—We learn that a new and important order has been issued at Washington, by the War Department. A new command, called the Department of St. Mary's, has been created, and comprises a portion of Lower Maryland. This Department is placed under the command of Brig. Gen. Gilman Marston, and the N. H. regiments in the Army of the Potomac are to be transferred to Gen. Marston, who will encamp them at Point Lookout, at the junction of the Potomac river with Chesapeake Bay. The regiments in the Army of the Potomac are the 2d, 5th and 12th, and it is also understood that the 14th is to be added to the command.

The drafted men from New Hampshire, or a portion of them, are to be sent to this place, and incorporated into these veteran regiments. Formerly Point Lookout was largely patronized as a watering place, and a very large hotel and numerous cottages were erected; but last year the Government occupied it as a hospital, and erected extensive buildings in addition to those already there. No nicer camping ground could be desired; cool and salubrious, with one of the finest beaches on the coast; the water filled with fish, and the shores lined with oysters,—it is all that could be desired.

Of course men drafted from New Hampshire will all the more readily enter the service, if they know they are to be under the command of one with whom they are acquainted, and who will do all in his power to protect, and render them comfortable, and when all their associations are to be with New Hampshire men.

HON. JOHN J. CRITTENDEN died at Frankfort, Ky., on Sunday morning, in his 77th year. His disease was general debility. He was a member of the Kentucky State Legislature for several years, a portion of the time as Speaker of the House. From 1817 to 1819 he was a member of the U. S. Senate, and was again chosen in 1835, serving out his term. He was re-elected in 1841, but did not take his seat, as he had accepted the office of U. S. Attorney General in the Cabinet of President Harrison. Six months later (after the death of President Harrison) he resigned. He was sent to the Senate a fourth time, in 1843, and remained their five years. In 1844 he was elected Governor of Kentucky, after an exciting contest, by a large majority. In 1850, on Mr. Fillmore's succession to the Presidency, Mr. Crittenden became Attorney General of the United States, which office he left in 1853. Again elected to the U. S. Senate, he remained in that body until 1861, when he entered the U. S. House of Representatives, where he labored zealously in support of the Union cause. He belonged to the (so-called) conservative party, and was the last of those eminent men who figured in the contests of the last generation.

☞ A fire broke out in Havana on the 20th, in Hesser & Co.'s warehouse, and at last accounts was still raging. Fifty warehouses filled with sugar had been destroyed. The loss is estimated at four or five millions of dollars.

☞ The steamer Arago, from Charleston bar on the 24th, captured the steamer Emma of London, from Wilmington for Bermuda, with a cargo of turpentine, resin and cotton, and towed her into New York.

THE ATLANTIC MONTHLY, for August, contains articles by Hawthorne, Agassiz, Curtis, Judge Woodbury Davis, Gail Hamilton, and others, and is an excellent number. The article by Gail Hamilton, entitled Side Glances at Harvard Class Day, has occasioned some feeling, especially among the younger portion of the Alumni of that venerable institution. Starting with the absurd declaration that Class Day is "an institution peculiar to Harvard," when almost every college in the country celebrates it, she is hardly more fortunate in her strictures, which are as a whole extremely unjust. "Gail" must "cram," as the boys do for examination, if she wishes to write again about what she knows nothing of.

HARPER'S MAGAZINE, for August, contains two profusely illustrated articles, and a large amount of other useful and interesting matter. But this magazine so long since proved its abundant claim to the favorable regard of the public, that it is almost useless to recapitulate its excellencies. For sale in Boston by A. Williams & Co., agents for Harpers' Publications; and in this city by J. H. Foster.

☞ The publishers of the N. Y. Illustrated News have commenced the issue of the Portrait Monthly, giving portraits and brief sketches of the chief Military and Naval officers on both sides, in the present war. It is of convenient size for binding, and is furnished at 10 cents for a single copy; $1 per year.

THE REBELLION RECORD, Part 33, contains fine portraits of Rear Admiral Porter and Brig. Gen. J. G. Barnard. Mr. Moore is accomplishing his task most successfully. For reliability, completeness and interest, the Record stands unrivalled.

NEW HAMPSHIRE ITEMS.

—— The necrology of the Alumni of Dartmouth College shows that 20 have died during the past year. The number has been much smaller the past year than usual, notwithstanding very many graduates have been engaged in the war. Only 3 are known to have been killed in battle.

—— A small number of students have been admitted to Dartmouth College for the coming year. It is said not more than 15 have entered. The war, the draft, &c., explain this. The probability is the Freshman class for the coming year will not exceed 30 members.

—— Prof. Patterson and Prof. Sanborn, of Dartmouth, and Prof. S. H. Taylor, of Andover, Mass, are suggested as suitable persons to succeed Pres. Lord. The Manchester American recommends Rev. Sam'l C. Bartlett, of Chicago, formerly pastor of the Franklin Street Church, in Manchester.

—— A saw-mill owned by E. Barney, in Groton, was burnt Monday afternoon, the 20th inst.,—probably the work of an incendiary. Loss $1200. No insurance.

——Maj. Plimpton, of the N. H. 3d, has been appointed Inspector on Gen. Gilmore's Staff.

—— Ossipee is now without a settled minister. The Rev. Mr. Wood, Pastor of the Congregational Church, is about leaving, and the Rev. Mr. Webber, Free Will Baptist, has gone to Shapleigh, Me.

—— The 34th annual meeting of the American Institute of Instruction will be held in Concord on the last week in August, commencing the 25th. Among the gentlemen who will address the meeting are Rev. Mr. Parker, of Concord, Prof. Mark Baily, of Yale College, Hon. J. M. Gregory, State Supt. of Michigan, Rev. B. G. Northrup, Agent Mass. Board of Education, Rev. E. B. Foster, of West Springfield, Mass., and Rev. James Freeman Clarke, of Boston. There will also be frequent discussions on topics connected with the educational interests of the country. Most of the railroads in New England will give return tickets by the hands of the Secretary to all who purchase tickets one way. The American states that ample accommodations will be provided at the hotels at one dollar a day.

—— Four commissioned officers and 80 non-commissioned officers and privates, belonging to the 16th N. H. regiment, have been buried since the regiment went to Louisiana. Only 85 privates and 17 non-commissioned officers are left fit for duty, and it is stated that it has been left in the rear to guard ammunition.

—— A boy, 9 years old, while playing in a barn in Nashua on Monday, fell a distance of thirty feet, striking on the back of his head, the fall being partially broken by contract with a ladder in his descent. His injuries are, severe bruising of the back and shoulders, with concussion of the brain. The spine was not broken. It is wonderful such a fall upon a plank floor did not kill him instantly.

—— Mr. Charles C. Smith, of Exeter, died quite suddenly on Friday morning last.

——The News Letter states that a man in Exeter was tried and fined last week for profane swearing. He appealed to a higher court.

—— Capts. Brown and Leavitt, of the N. H. 7th, are reported killed in the attack on Fort Wagner. A Charleston dispatch says Lieut. Col. Hobbs of the 3d N. H., was killed, but the Lieut. Colonel of that regiment is named Bedell.

—— A town meeting is to be held in Exeter on Wednesday, to consider the subject of affording aid to drafted men, agreeably to the provisions of the law passed at the recent session of the Legislature.

—— Sergt. George A. Robbins, of this State, color-bearer of the 1st R. I. Cavalry after their charge at Middleburg, Va., June 18th, finding that they were surrounded, removed the flag from its staff and secreted it about his person. He was taken prisoner, and confined for eight days; then escaped and brought back the flag with him. The flag was presented to the Regiment by the Ladies of Providence, R. I., at a cost of 225. It is of blue silk, two feet five inches wide, and two feet three inches on the lance, edged with yellow silk fringe. On one side is embroidered the coat of arms of New Hampshire, on the reverse that of Rhode Island.

—— The house and out buildings of Jas. B. Fellows, in East Concord, were burnt on Sunday morning. The inmates leaped from the windows and barely escaped with their lives. Loss $800. Partially insured.

DEATHS.

In this city, July 26, of Cholera Infantum, EDGAR ELLSWORTH GOODWIN, aged 1 year, 7 mos., 15 days, only child of Joseph W. and Annie M. Goodwin.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Horrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly fast. Samples on silk and wool can be seen and the colors procured of THACHER. ju20

What an amount of Suffering and Disease among the Young and Old might be prevented by the free use of HOLLOWAY'S PILLS & OINTMENT. For Wounds, Sores and Scurvy, the Ointment is a certain cure, and for Bowel complaints, Fevers, Small Pox, &c., the Pills are the best medicine in the world. Only 25 cents per box or pot. 221

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long histories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

High School Notice.

CANDIDATES for Admission will present themselves for examination at the HIGH SCHOOL HOUSE,—the BOYS on WEDNESDAY, July 29th, and the GIRLS on FRIDAY, July 31st, at 8 o'clock A. M.

ROBERT O. TREADWELL,
Chairman High School Com.

Valuable Mill Privilege
AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water Wheels and other materials left from the late fire on the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pipe, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of EDGE HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES R. ODIORNE at Rye, or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 23, 1863.

Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jne28eplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the start in this Development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a family Pill. spno

☞ 86 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ Lieut. Nathaniel J. Coffin, of this city, Co. K, 13th N. H. regiment, has resigned and returned home.

POLICE COURT, Monday.—Albert S. Marston, for being drunk in South Street on Sunday afternoon, was fined $3, and costs $3.86.

☞ We have received the first number of the Dover Sunday News, which is to be published during the war, giving the latest dispatches received. It is printed by Twombly Brothers, and edited by C. W. Kimball. It says:—

The survey of the Portsmouth and Dover railroad goes bravely on, and Saturday the surveying party were at "Knight's Pines," 1 1-2 miles from Portsmouth. The route thus far gone over, goes by way of the old Piscataqua Bridge, making the distance to the same, with only a slight variation from the direct courses, four miles from the track of the B. & M. R. R., in Dover. Distance across the river at the Bridge, including islands, 2700 feet; across the same at Dover Point House, 2100 feet. The route via the Point will be gone over, when choice of the two lines will be made at headquarters. Success to the enterprise, let them go in any direction of the compass.

☞ Capt. Thomas B. Rand, 33d Mass. regiment, is one of the officers who arrived in Boston on Monday morning to take charge of the conscripts intended for that regiment. Capt. Rand is a native of this city.

A VERY ARBITRARY ARREST.—Mr. Andrews, from Virginia, the execrable miscreant who first led the N. Y. mob on to massacre and plunder, turned out to be a creature who has subsisted for years on the vile earnings of a yellow woman, with whom he has been seen frequently parading in Broadway, and in whose bed he was found after having instigated the murder of numbers of her race. When he was taken by the officers, he showed great cowardice, but finding they did not slay him on the spot, he gathered courage, and denounced his arrest as being without preliminary process, and consequently, arbitrary and unconstitutional. As the officers took no notice of the protest, his case is respectfully referred to Governor Seymour. It is quite as meritorious as that of C. Vallandigham.—*Wilkes' Spirit of the Times.*

A NEW SCARE. Since the late great victories of the Federal armies, it is observable that there is a tendency to get up a fright about our foreign relations. Contrary to the usual practice of nations, it is said that England and France have only been waiting for our successes, to wage war upon us, and that the victory at Gettysburg, the surrender of Vicksburg and Port Hudson, and the approaching fall of Charleston, will induce armed intervention in our affairs. The Valley of the Mississippi is to be recovered by the aid of France with troops which she can, of course, spare from Mexico. The New York Herald says that, in view of this awful condition of affairs, the President has concluded to abandon the policy of the Emancipation Proclamation, and throw himself for support on the friends of Seymour and Vallandigham. Of course, on this theory, we can only escape from England and France by being beaten by the confederates. We think the theory is a little too nonsensical even for croakers or copperheads to accept.—*Transcript.*

☞ The N. Y. Herald's Washington dispatch says the escape of Lee is more particularly regretted, as by prolonging the war against rebellion, it postpones the reckoning to which it is believed government intends to call either England or France for their recent conduct.

It is argued among military men, that the rebel leaders will concentrate their whole available military forces in Virginia, for a last grand struggle, hoping to crush the Army of the Potomac, and again menace Washington.

☞ A correspondent of the New York Herald, dating Jackson, Miss., 12th, reports the library of Jeff Davis has been captured. It comprises several bushels of private and political papers of the arch traitor. Several letters on secession date back to 1852, and the collection will bring to light the whole secret history of secession. The letters are from both Northern and Southern traitors.

☞ An arrival from Vera Cruz of the 13th, at Havana, states that Mexico was declared an Empire on the 10th, and Maximilian of Austria proclaimed Emperor, if he will accept it; if not, Napoleon is to select one. A salute was fired at Vera Cruz in honor of the event.

RESISTING THE DRAFT AIDS THE REBELLION. In a recent case, Judge Caldwallader, of the United States District Court in Philadelphia, declared that any one who resists the draft, participates in the rebellion.

☞ The New York Times says there are assurances that Gov. Seymour intends to assume no position antagonistic to the General Government, or calculated to bring the State in conflict with it.

☞ A committee of lawyers in New York have volunteered their services to prosecute the claims of negroes against the city for damages received during the riot.

☞ Nearly $70,000 have already been collected for families of policemen, firemen and soldiers injured or killed in the riot in New York.

THE ALL SUFFICIENT THREE,
The Great "American Remedies,"
Known as "Helmbold's"
Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power.
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which it immediately invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample with ess to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,
Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorin or Retention, Irregularity, Painfulness, or Suppression of the Usual Menstruating Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.
THESE SYMPTOMS ARE
NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet; no inconvenience.
ARE NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Stictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases; and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and
PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,
Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,
And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Heimbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting the Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through its inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* and *faithful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me FIFTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twelve years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are well being in correspondence with the most eminent Physicians of the Old World, of obtaining the latest as well as the latest remedies for these diseases, offer fortunate to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid, 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, and contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in postage or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stopping irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,
NO. 46 MARKET STREET.
EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Currier, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its construction all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very elegant.

Morning Chronicle.

☞ An Augusta correspondent of the Portland Courier gives the following account of a case of sharp practice:—

A shrewd yankee, from Albion I believe, was drafted. He was an able-bodied individual, and hadn't the $300 to pay, but another man from his vicinity, also drafted, stood ready to pay $350 for a substitute.—Conscript No. 1 agreed to go for that, took $300, paid it over and obtained his certificate of exemption; then he presents himself as a substitute for conscript No. 2, is examined and *accepted*, thus making $50 by the operation.

Mosquito Netting.
White and Colored MOSQUITO NETTING for sale by
June T. TREDICK.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and thus leaves the system in full into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Divine Law to says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and loathsome affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe r to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these distempers. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellency for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of very successful practice and experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet been first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Strictures, Gleets, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Spermatorrhœa, Seminal Weakness, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D.. devotes a great part of his time to the treatment of this distressing complaint, a most solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Nocturnal Emissions and sexually effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief produced in a few days. It is decidedly certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon finds herself in good health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases, and from his great natural talents, he has unwearied attention, and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S. Dr. Dow continues still has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 1, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜

EYE, N.H., Feb. 26, 1848. "I hereby certify that my daughter was afflicted with the salt rheum a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very badly. She had tried, and had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEET'S PANACEA, and some bottles of the Rose Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago, and her health has been equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my neighborhood, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNES.

PORTSMOUTH, April 21st, 1852.

I have for several years been troubled, with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicines failed to give me any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

Dr. Sweet: Permit me to inform you, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our town in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I return your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicine shall pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. may20

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension oven, there is a large copper Reservoir for hot water; also a large tilt warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as families in all families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses	John R. Holbrook

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK,

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacturers, and sole owners of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat in the smoke pipe or chimney.

To accomplish this many complicated and expensive building arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The means for this object are simple. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed, this objection so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume its own smoke, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and spoil the draft, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any young ashes.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleave, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is properly set up by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. Vulcanite is warranted to last, even in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DR. GOODALL,
DENTIST,
60 Congress St.,
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the sole right to VULCANIZE in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as may be preferred.

The Rubber has several important advantages, viz., It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and tongue. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept sweet and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, even a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

☞ ALL KINDRED OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I feel pleasure in referring the public to Dr. TREADWELL, Dr. BOARMAN, Dr. Oliver, and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether, if desired, without injury to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace surgeon to King James's army. Through it agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. WEDNESDAY JULY 29, 1863. NO. 24

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally—it is a spirit not to be encouraged—In common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

AN UNHEEDED WARNING.—As early as October last, we, in a personal interview with the President, warned him that the election of Horatio Seymour would be followed by riot and insurrection in New York, and advised him to provide against the danger, by establishing an entrenched camp at the Red House Grounds, near Harlem, under a trusty General with four thousand men. The President replied, that he could not persuade himself that the party working for Seymour, meditated an opposition of that desperation and extent. The interview closed at that point. The public may now decide which of us was right; and whether the precaution we advised, would not have spared the city its recent sanguinary shames. The recollection of Mr. Lincoln is respectfully called to the subject of that interview. — *Wilkes' Spirit Times.*

ON OUR PUBLIC DEBT, of eleven hundred millions, the average rate of interest is a fraction below 4 per cent. The large sum of $896,700,000 bears no interest at all; on the remainder the interest is at the following rates: 58 millions at 4 per cent., 101 millions at 5, 431 millions at 6, and about 140 millions at 7 and three-tenths per cent.

It may be safely asserted that no other country, ever raised such a vast sum of money, at so low a rate, in so short a period, and kept its currency at the same time so near the par of gold, as the United States have done during the past two years. Mr. Chase is fairly entitled to rank among the first financial statesmen of the century, and, in the history of the war, the operations of his department will occupy a place as conspicuous as it will be honorable.—*Trans.*

Martin Moore, a blacksmith, in Hartford, was shoeing a horse—the horse, it is supposed, got asleep, and fell on Mr. Moore, breaking his arm badly. The horse must have been attending a session of the Legislature.

☞ The career of a General in our famous army of the Potomac is something like this: the newspapers say proceed, and he proceeds; the rebels say recede, and he recedes; the people say supercede, and the President supercedes.

Established in 1760.

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Traveling agents throughout the country, and also kept on hand in his warehouse in Boston, in bergin, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for the sale, 91 Washington St., Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure safe transportation.

C. C. RICHARDS, General Agent.
Boston, May 19, 1863. 6mos eod

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 29, 1863.

GEN. WASHINGTON'S OPINION.—A great outcry is raised by peace-democrats, so called, against the United States Draft, because, as they say, it is unconstitutional; and Judge McCunn, a noted copperhead of New York city, has given an opinion to that effect. Not only so, the same parties are quoting, with great unction, the speech of Jeremiah Mason against the draft proposed by the republicans in Congress in 1814, but voted down by the federalists with the aid of a few republicans.

Mr. Mason stood high as a lawyer of knowledge, talent and skill. But he was exposed to the draft, was a very timid man personally, and moreover was an eminent member of the federal party, who opposed the war most earnestly, tho' he was in favor of some measures of home defence.—He was never suspected of being loth to plead either side of a case for a consideration: and so unpopular was he here among a portion of the people as a bank president, that a mob (so called) burnt the sign of his (U. S. Branch) bank in a bonfire on the parade, and threatened his house.

Against the opinion of Mr. Mason, who was a federal lawyer, and that of McCunn, who is a copperhead pettifogger, we place the *opinion* and *action* of General Washington, the statesman, patriot, and sage.

Washington was President of the Convention which formed the Constitution, and may be fairly presumed to be as well qualified to know what was meant by it, as any lawyer or pettifogger of modern days. He was also the first President of the United States. In the time of his administration occurred the famous whiskey insurrection in Pennsylvania, which came to a head in 1794.

In a convention of these whiskey rebels, Albert Gallatin, their secretary, wrote an address to "the still loyal people" who were in arms "to resist a lawless invasion of their rights," &c.

Washington, after two proclamations, *called out* (did not draft) 15,000 troops *en masse* from Virginia, Maryland, New Jersey, and the loyal parts of Pennsylvania, put them under command of Gov. Lee of *Virginia!* and had them marched into the rebellious counties of Pennsylvania, and against the rebels, who quickly stopped their rebellion.

In this act, Washington showed his opinion that rebels must be put down by *force*, if need be; that the U. S. government must call out that force; and that the Acts of Congress, under the Constitution, are the Supreme Law of the Land.

He had no *express* constitutional authority for this step of calling out troops and putting down a rebellion; but he saw it must be done, and he *did it*, going outside all written constitutions and laws, to the very *foundation* of all government, viz. the law of self-preservation. It was not forbidden in the Constitution, but was (like many things in our present condition) not specially provided for. It must be done by somebody immediately, or the government would drop to pieces. He did it; the people approved it.

In 1795, Congress *sanctioned* what he had done, by passing a law giving the President power to call out the militia of any State or States, "whenever the laws of the U. S. shall be opposed, or their execution obstructed."

The same power that can call out the *whole* militia of a state, can surely call for *part* of the same, by draft or otherwise.—Washington called out *whole* regiments: he surely *might* have drafted, but he could not stop for so slow a process.

And now, says Uncle Toby, what Washington did in full, *without* express sanction by act of Congress—Lincoln has done in part, *with* that express sanction. He has Washington on his side! McCunn is against him, and so is every man who sides with the rebels. U. T.

ANOTHER ARBITRARY MILITARY ARREST!—*Personal rights invaded! Occasion for another 4th of July Gathering in the State House yard!*—Morgan, the General of the marauders who invaded Indiana and Ohio with 2000 cavalry—after robbing and stealing, were all captured in Ohio by military powers. Is not this a case calling for an indignation meeting? Morgan was only on an electioneering tour through Ohio to aid the election of his friend Vallandigham, and has been interrupted and arrested. Who can be safe? X.

THE "SOUTHERN CROSS."—Six hundred and fifty "poor whites" signed the oath of allegiance a short time since near Fortress Monroe, all in succession. Five hundred and eighty of them signed with a cross. Such is the schooling afforded by a slave State.

A native of this city was recently present at the parroling of 1300 rebel prisoners at the West. Of these less than 50 signed their names: the rest made the cross.

THE REBELLION.

On Thursday last while the 3d and 5th Army Corps of Gen. Meade's Army were lying at the mouth of Manassas Gap, this side, information was received that Gen. Longstreet was sending a brigade of his troops forward to possess himself of the Gap. Gen. Spinoli, commanding the Excelsior Brigade, with 800 muskets of that corps, was at once ordered forward, it being supposed the rebel force was small. The brigade charged, with fixed bayonets and a yell, when the rebels fled and took refuge behind a stone wall. Up to this the brigade rushed also, when from behind it rose a whole brigade of Georgians, and two regiments of N. C. Sharpshooters. Our troops, amid a shower of bullets and artillery fire in front and on the flank, pushed forward, and with the bayonet drove the rebels away. The rebel loss was not less than 500 killed, wounded and missing. We had no artillery, while the rebels had at least seventeen pieces. In this fight, it is the opinion of military men, the rebels outnumbered us at least six to one, but they appeared to be completely fagged out, and after being dislodged from the stone wall, they could not move up a hill in an upright position, but crawled upon their hands and knees. Gen. Spinoli received two very severe wounds, one in the right foot, which tore open the heel for two or three inches, and one thro' the fleshy part of the right side.

The N. Y. Times has a dispatch from the headquarters of the Army of the Potomac, stating that on Friday morning the advance of Hill's and Longstreet's corps reached Culpepper. The columns were well closed up and their entire corps would be there soon. Ewell's corps still occupied the Shenandoah Valley, where it was guarding the fords on the Shenandoah River, and the rear of the rebel army.

The corps of Lee's army, under Longstreet, Hill and Ewell, passed through Chester Gap on Friday. Gen. Buford, who with his cavalry attempted to prevent their passage, thinks they will make a stand on the south side of the Rapidan.

A Charleston dispatch states that regular firing from Forts Wagner and Sumter was kept up all night Friday, and continued thro' Saturday, the Federals occasionally responding from their batteries on Morris Island. The dispatch states that the Monitors and Ironsides lay outside, taking no part. The Federals had two batteries on Morris Island, and had strengthened their position. Another Monitor arrived on Saturday, making six in all.

The bombardment of Fort Wagner still continued on the evening of the 26th. Our list of killed, wounded and missing foots up 1530.

Rebel dispatches state that Gen. Rosecrans is organizing a force to attack Atlanta and make a raid on the Northwestern Georia Railroad. Active preparations are being made by the rebels for the defense of the city and the railroad to Chattanooga.

A rebel dispatch states that the Federal troops have evacuated Jackson, Miss., and returned to Vicksburg. They had destroyed all the machine shops, rolling stock, cannon, and railroad track between Jackson and Vicksburg. Mobile, the rebels think, will be the next place of attack.

The bulk of Johnston's army is reported to be at Martin, thirty miles east of Jackson. His force is estimated at 30,000.

A dispatch, dated Martin, Miss., July 20, states that all the general and field officers taken at Vicksburg had been exchanged, but the men had straggled so that they were without commands.

The Rebel Gen. Bowen died on the 19th.

Bibbles and Jesse Forrest are reported to have again crossed the Tennessee and gone toward Jackson, Tenn. Gen. Dodge has sent a force to meet them.

The rebel iron steamer Merrimac, 500 tons, built by the British last year, has arrived at New York with a cargo of cotton, having been captured on the 25th while running the blockade at Wilmington.

The Raleigh, N. C., Progress, in speaking of Jeff. Davis' demand for every able-bodied man in the Confederacy, says:—"The condition of affairs is such that we (the rebels) must have more troops or abandon the cause."

JEFF. DAVIS' LIBRARY.—It appears that the library of Jeff. Davis was deposited in a house near Jackson, Miss., and that its locality was revealed by a negro. In addition to the books and papers, several valuable gold headed walking canes were found, one of them presented to Davis by Franklin Pierce. In many of the letters the subject of secession is warmly discussed. Some of these letters date back as far as 1852. Many of the more prominent writers accept the separation of the North and South as a foregone conclusion, but only disagree as to how and when it should be done. Davis is alluded to as the political Moses in this measure.

☞ The Post's Washington special dispatch states that a returned prisoner from Richmond says that in less than twenty-four hours after the issue of Jeff. Davis' conscription proclamation, a wholesale conscription commenced there.

REV. NATHAN LORD, D. D. has resigned the presidency of Dartmouth College, a post which he had held for a good number of years, with honor to himself, and benefit to the college. He was indeed one of its great benefactors; he left a good parish at Amherst, to become president of a literary institution scantily endowed, which could not reasonably hope for State aid, but was suffering for want of funds and buildings; and his first movement in his new office was to travel over the State and out of the State to secure these objects. In this arduous and self denying effort he was successful, perhaps more so than most men could have been; and from that time to the present, his devotion to the interests of learning there, has been earnest and untiring.

He is now to retire, at the ripe age of more than three score years and ten, yet not wholly because of age, for he is active in body and mind;—but rather because of great differences of opinion, between him and the denomination to which he belongs, and which controls the College, viz. the orthodox congregational. His views of slavery are known to be peculiar; probably not half a dozen of his brethren agree with his views on this subject; and on some points of doctrine he differs from them as widely as Charles Beecher differs from the council who have just condemned him for heresy. This great divergence of opinion has lately found expression in some conferences or associations; the president gracefully resigns, and will go out with honor.

It has lately seemed good to some copperhead organs, to make a fuss over this case, as a dreadful abolition movement; and they try to make themselves unhappy about it; but they are not very successful; for neither they nor most of their followers care a straw about the college or its president, except in pretence, to serve their own purposes. And the traditions of the College, as cared for by the copperheads of to-day, are singularly suggestive.

Dartmouth College is held under an old English charter, and is a close corporation, wherein the board of trustees fill their own vacancies, and are thus an immortal body, into which no one can enter uninvited. Almost half a century ago, the Trustees were mostly federalists and orthodox; but the Republican party, aided by the N. H. Patriot and Isaac Hill, got an Act passed by our General Court, changing the name, charter and character of the college, so as to make it liberal in theology and republican in politics, at least so far as to take it out of the control of the orthodox church, and put it into the hands of the Republican State.—The contest was warm, and a lawsuit came on; in the New-Hampshire courts the Republican Act was sustained by Judge Woodbury and others; the old Trustees and the teachers and pupils went and occupied an old house; while the new president and a scholar or two occupied the College. But the old Trustees had the case carried up to the Supreme Court of the United States; Daniel Webster plead for the Charter as it is and the College as it was; the full bench turned the tables, opened the College to the Old Trustees, and the school went on, to the great disgust of the politicians who were foiled.

Now the copperheads claim to be the only true democrats, and claim that the democratic party of the last 40 years is one and the same thing with the republican party of the previous 25 years. If this were true, they would be odd guardians of the college; but as the case really stands, the trustees will undoubtedly regard the advice of their own churches and ministers, more than that of any outside body, religious or political. U. T.

☞ Mayor Oydyke of New York vetoed the ordinance passed last week by the Council and Aldermen, to pay conscripts $300, on the ground of vagueness and illegality. He also holds that the Common Council has had time since last March to remedy any supposed inequalities of the draft, but that they did not do anything until this ordinance was passed, thus making it appear as a propitiatory measure to a mob.

☞ The Portland Courier states that Hutchinson, who was under sentence of death for desertion, escaped from Fort Preble on Friday by slipping his irons. His escape was discovered by the guard in a few minutes, but Hutchinson then was out of sight in the woods, and although they were scoured, he had not, at last accounts, been caught.

☞ Fort Wagner is considered by both parties, the key to Charleston—stronger than Fort Sumter. There will be desperate fighting for its possession. It is the nearest point of land to Sumter.

☞ It is stated that a piece of bread soaked in vinegar, and applied to a corn on the foot, going to bed at night, and bound with a piece of oil-cloth, will remove the corn in two or three applications.

☞ The Hay crop will be larger than was anticipated. Much has been the same as lost by the rains; but the growth of the standing grass has more than compensated.

☞ Advices from the Army of the Potomac say that large numbers of horses have been found in the mountain gorges, and appropriated by our troops.

☞ Governor Parker, of New Jersey, has issued a proclamation, stating that no draft has as yet been ordered in that State; that thirty days will be allowed for the purpose of raising the required number; that whatever number may be raised in that time will be credited should a draft be ordered; and that there will be no draft for the old deficiency claimed to be due from the State.

☞ On the night of the 19th inst. a large side-wheel steamer, in trying to run into Charleston, was chased by the Canandaigua and outside blockaders, and finally headed off and driven upon the shoals. The steamer was fired by her crew, and is now a total wreck.

☞ Jeff. Davis has issued a proclamation appointing August 21 as a day of humiliation and prayer.

STATE OF NEW HAMPSHIRE.

To the inhabitants of the City of Portsmouth, qualified to vote in City affairs.

You are hereby notified, in conformity to a petition signed by Richard Walden and 67 other legal voters—to meet at Jefferson Hall, in said City, on THURSDAY, July 30th, 1863, at 12 o'clock, noon, for the following purposes:—

To choose a Moderator to preside in said meeting.

"To express your opinion in regard to the payment, by the City, of $300 for each man so may be drafted under the conscription act of the United States, in lieu of sending such citizens into the service of the United States."

Given under our hands, this 28th day of July, 1863.

JONA. DEARBORN, Mayor.
THOMAS E. WIGGIN, Jr.
EDWARD J. MOULTON,
JOHN H. BROUHTON,
JOHN E. HILDER,
JOS. B. ADAMS,
} Aldermen.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES R. ODIORNE at Rye, or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 28, 1863.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 10 to 15 pills, to get a decent stool, have led the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILLIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ Col. John H. Jackson, 3d N. H. regiment, of this city, arrived in New York on Sunday. He was wounded slightly in the breast, in the assault on Fort Wagner, July 18th. His son, Captain Thomas M. Jackson, Co. B, same regiment, was slightly wounded in the arm. Mr. John White, of this city, a private in Co. G, 7th N. H. regiment, was wounded in the same battle.

The N. Y. Times' account of the assault on Fort Wagner on the 18th, states that two brigades, one under Col. Putnam and the other under Gen. Strong, were ordered forward. After the negro regiment, which nobly made the assault, were driven back with frightful loss, and the 6th Conn., and all but three companies of the 9th Maine also compelled to retire, it devolved upon the 3d N. H. to push forward, and led by Gen. Strong and Col. Jackson in person, the gallant fellows dashed up against the fort. Three companies actually gained the ditch and wading through the water found shelter against the embankment. Here was the critical point of the assault, but the supporting brigade was somehow delayed and Gen. Strong gave the order to fall back and lie down on the glacis, which was obeyed without confusion. While waiting here, exposed to a heavy fire, Gen. Strong was severely wounded in the thigh. The breast of Col. Jackson's coat was torn off at the same time by a piece of shell, and he received a slight wound. Neither of these brave men would lie down to escape the rain of metal, but stood unflinching throughout, eliciting the unbounded admiration of their men. Finding that the supports did not come, Gen. Strong gave the order for his brigade to retire, and the men left the field in perfect order.

☞ Every voter who can possibly do so, ought to express his opinion, at the important general town meeting, called by the Mayor and Aldermen, to-morrow. A small meeting would be a farce, and no expression of public opinion.

☞ The Portsmouth Cornet Band's annual Excursion to the Shoals, in a schooner, came off yesterday—and was a success, of course. A large company enjoyed the trip, the fine music, and the lovely day.

☞ The U. S. revenue cutter Agassiz, Joseph Amazeen, of this city, Lieut. Commanding, arrived at New Bedford on Monday, from Newbern, N. C. The Agassiz is of 65 tons burthen, and armed with two 12-pounder Dahlgren guns. She will be employed on the New Bedford station. She has a crew of contrabands, white seamen being scarce at Newbern.

☞ During the thunder shower of Monday afternoon, a school-house on Eliot Neck, Me., was struck and Henry, son of Mr. George Nelson, aged 7 years, was instantly killed. The school-mistress and several scholars were considerably affected.

The lightning also killed a yoke of oxen, belonging to Mr. John Wilson, near Kittery Point Bridge. They were standing together on the top of a hill, in open ground.

A cow belonging to Oliver Dixon, of Eliot, was killed by lightning during the same shower.

NEW HAMPSHIRE ITEMS.

—— Prof. Samuel Gilman Brown of Dartmouth College has been transferred from the chair of Rhetoric and Belle Lettres to that of Intellectual Philosophy, made vacant by the death of Prof. Long, two years ago. There are still two professorships vacant, and two vacancies exist in the Board of Trustees.

—— Col. Harriman returned to Warner last Saturday. He resigned, and left his regiment in front of Vicksburg, June 27.—His brother, Capt. David C. Harriman, of the same regiment, has also returned.

—— During the attack on Fort Wagner, just as the artillery fight was the hottest, a short time before the advance, and while it was still light, when the advance Monitor (flag-ship) was lying up within a few hundred yards of the Fort, and was being peppered from all directions, Gen. Gilmore wished to send a message to Admiral Dahlgren by Capt. Burger, A. A. G. A boat was found and the following volunteers from Co. F, 7th N. H. regiment, manned it:—Corp. Henry S. Palmer, Privates George Palmer, Benj. F. Prescott, Geo. York, Webster Miller, Sylvester Card and Daniel Foss. They took the messenger out, put him on board the Monitor, and returned in safety from a shower of shot and shells.

—— Capt. Clark, of the 3d regiment, has arrived in Manchester, having left Port-Royal on the 20th. He says the whole number of killed, wounded and missing in the 3d in the attack on Fort Wagner, will probably reach as high as eighty-four. The 7th lost severely. Col. Putnam, was shot through the head.—The 4th suffered badly. Alvin H. Libbey, assistant Adjutant Gen. on Gen. Strong's staff, was killed in the charge on Fort Wagner. Adj. Libbey was a resident of Manchester and a typo by trade. He was buried by the enemy within their lines. Lieut. Col. Bedell of the 3d was wounded by a round shot in the leg and taken prisoner.

—— The N. H. regiments did well in the attack on Fort Wagner. Lieut. C. W. Knowlton, of Manchester, had his cap pierced by a rebel bayonet, his canteen sent spinning by a charge of cannister, his coat torn by a grape shot, and he was knocked over by a spent ball in the side. He killed one rebel with his sword, inside the fort, a very rare achievement, for an officer seldom has an opportunity to use his sword, either in attack or defence. Sergeant McPherson, also of the 7th, headed a squad of brave fellows, and charging over a traverse captured a gun, after a severe hand to hand fight. He fell while trying to hold the position, and is supposed to be killed.

—— A letter from an officer in the 16th N. H. regiment, dated the 15th inst., states that the regiment is expected to start for home about the first of August. Their term of service as a nine months' regiment expired July 25th. The time of the 15th is also up and it will probably return home with the 16th. These are the only regiments from this State whose time expires at present, the remainder being three years' volunteers.

—— A rattlesnake was killed last week near the Branch Hotel in Hooksett, by Mr. Ass Kemp. It measured 4 feet, 6 inches in length, 6 1-2 inches round the body, and carried nine rattles.

☞ The Western Board of trade (Chicago) are coming to Portland to hold "high jinks" with the Board of Trade of the latter city.

☞ Mr. Davis' Singing Schools this (Wednesday) afternoon and evening. See advertisement on the fourth page of this paper.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 60 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

HUNNEWELL'S TOLU ANODYNE.—This most wonderful and reliable preparation which has earned its true name and fame, by results which had baffled every other attempt at relief in Neuralgia, Rheumatism, Gout, Nervous Head Ache, Tooth and Ear Aches, of Complaints, Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Paroxisms in Whooping Cough, and Asthma, now declared to be largely Nervous, and also declared to be one of the most important points in Materia Medica.

This valuable preparation should be in every Family, as no description equals its real necessity, or its splendid results.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, it is not the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long florids of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

High School Notice.

CANDIDATES for Admission will present themselves for examination at the HIGH SCHOOL HOUSE,—the BOYS on WEDNESDAY, July 29th, and the GIRLS on FRIDAY, July 31st, at 8 o'clock A. M.

ROBERT O. TREADWELL,
Chairman High School Com.

MARRIAGES.

In Newburyport, July 26th, Mr. JOHN J. HICKES to Mrs. SARAH E. SMITH, both of Newburyport.

In Newbury, July 22d, Mr. NATHANIEL MOODY to Mrs. LOUISA GOODHUE.

DEATHS.

In Eliot, July 27th, very suddenly, Mrs. JULIA F. LIBBY, aged 60 years, wife of Mr. Jeremiah Libbey.

MARINE CHRONICLE.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense experience of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable an l successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and more faithful, or more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sured of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twenty rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. Stawly

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Mouth and Skin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the Country, and who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. J. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A Lecture on Love, or Secrets Showing Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and is in demand with every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1 (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S NEW IMPROVED ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, *Fruit dealer*, Boston, says of it, "I have preserved grapes, pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been unnecessarily great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer to the million a complete ventilated Refrigerator, well made, lined throughout with *zinc, at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

No 46 MARKET ST.

Morning Chronicle.

REBELS AND TRAITORS.—There are many very strong indications of the complicity of northern men in the invasion of Gen. Lee, and of the connection between it and the riot in New York. We firmly believe that a general rising, not in New York alone, but in other cities, had been planned to break out simultaneously with the success which was anticipated by Lee. The same men are still at work; they are still opposing every measure for the successful prosecution of the war, and are engaged in full co-operation with the rebels, in a common attempt to break down the government.—*Prov. Journal.*

The resistance to the draft in New York and elsewhere, has aroused the indignation of the veteran troops in the field to an extent which knows no bounds; and were it possible for them to be at the scenes of shame and anarchy, they would slaughter indiscriminately all who were engaged in this attempt to overthrow the Government. *Army Letter.*

Mosquito Netting.
White and Colored MOSQUITO NETTING for sale by
jun2 T. TREDICK.

The peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is predisposed by an enfeebled, vitiated state of the blood, whereby that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the mesenteric bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is compounded of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its superlative excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & CO.,
Practical and Analytical Chemists,
Lowell, Mass.
Sold by all druggists every where.

Singing Schools.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases as follows:

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unblunted extent, Dr. D. has now the gratification of pronouncing his cures perfect and permanent. Those that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Behold his victims, pining on beds of venereal and impure blood, impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, some suffering in the Urinary Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attendant on these diseases, which he has to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the individual for the duties of life or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Pains in the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are some of the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Price $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, continues to treat all **Female** diseases incident to it, female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most delicate cases can yield confidence to the afflicted persons upon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of females and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to no other practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. Letters for advice must contain fourteen stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which attracts patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the estimation of the public than Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, can safely place confidence in him.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Price $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1845. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her from walking or using her limbs at all for very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Drops, &c., but all failed to afford her relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure has now lasted more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENKINS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOW D.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofula humor, and that previous to your visiting our town in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but could not grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. ap26

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing to see hanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plates, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and dripping heater combined, by which the odor of broiling meats is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.

—of the—
MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting Buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, delicious to breathe, and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have cost a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the smoke pipe or chimney, unconsumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass through the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

We heating apparatus with the smoke-pipe or flue, on the top of the stove can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the Stove the hottest part of a heating apparatus.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Greenleaf, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadum,
Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber.

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, or when polished like a gentleman's boot or shoe.
6th. While in all ways it is better, it is in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

Dr. GOODALL,
DENTIST,
60 Congress St.
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Oct. 1st, 1862.

DR. GOODALL

Would respectfully inform his patrons and the public, that owing to of late many calls to insert teeth upon VULCANIZED RUBBER, that he has released the best VULCANIZER in the market, and is now prepared to do all work upon teeth upon the same, whether bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I assure them, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth in Rubber that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and satisfaction from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I would also take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BERRETT, for particular success in extracting Teeth. Teeth extracted without pain, and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and partial Sets of Teeth repaired with Vulcanite upon Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money, all it wants is a trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,
Amesbury, Mass.

PRICE 25 CENTS PER BOX.

Each box has the above cut and the fac-simile of the proprietor's signature attached to it, which is duly copy-righted.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. THURSDAY JULY 30, 1863. NO. 25.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally—it is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

LEGALITY OF POLYGAMY.—The Deseret News, of May 6th contains a report of a case of habeas corpus, recently decided by Judge Drake, of Great Salt Lake county, which shadows forth what is in the future for Utah, through its beastly crime of polygamy. A mother, by writ of habeas corpus, brought her daughter of seventeen before the judge, asking that the mother have custody of the daughter, who was then under the control of a man named Park, who claimed her as his lawful wedded wife.—The case coming up for hearing, it was shown that Park already had one wife, by whom he had several children, and that his two wives lived with him in the same house. The judge decided that the second marriage was not lawful, but a crime against the laws of the United States, and therefore null and void, and censure rests upon it. The judge decided the mother was entitled to the custody of the girl. The News characterizes the judge's doings as "detestable proceedings," and as "official outrages."

THE RIGHT MAN.—The Manchester Union says:—

"The latest news from Grant is, that, after occupying and burning Jackson, the pursuit of Johnston was abandoned for the present. It is pretty hot down there, we reckon. Our New Hampshire troops will probably realize that "the nigger in that latitude is the right man in the right place."

Exactly so: the negro is the working-man there; he is also the soldier for that region;—and he will be likely to stay there. Slavery planted him there: freedom need not transplant him. Give him an acre of the soil, a musket, a spelling book, with a fair chance to work for his living;—and he will live, thrive, and improve. U. T.

☞ The Portland Transcript, a literary paper, in an article on Mobs, favors prompt and decisive action, as lately pursued in Boston; and disapproves the soft speeches and delay in New York. The article closes with the following paragraph relating to Portland:—

We have an illustration of this matter in the experience of our own Portland. The prompt suppression of the John Robbins mob has saved the city from all riotous outbreaks from that time to the present. Previous to that event the mob spirit had become quite rampant in Portland. There had been frequent turbulent gatherings of rowdy men and boys, of an evening, bent on mischief or plunder. But from the day John Robbins was shot, not the first symptom of a mob has manifested itself in our city. The firmness of the authorities on that occasion has been of incalculable benefit to the city.

☞ Eleven hundred millions is a large national debt, but when we state that almost the entire amount has been raised among ourselves, without help from abroad, and that our great industrial interests are prospering, there is a consciousness of strength and wealth in the fact that is as gratifying to our pride as it is cautionary to nations envious of our greatness.

The aggregate debt of England is 4009 millions of dollars,—that of France 2206 millions, and that of the United States 1100 millions. The former is some four times, and the latter nearly double that of our debt, and yet in natural resources, those of the United States, as compared with either of the great nations named, are ten-fold greater.

AN IMPORTANT ORDER REGARDING ALIENS.—The Cambridge Board of Aldermen have unanimously passed the following order:

Ordered, That no individual shall be employed by the City Government of Cambridge, either directly or indirectly, whenever it shall have been ascertained that he has at any time applied for or obtained any papers from the British consul, or sworn allegiance to the English government, or any other foreign government, for the purpose of escaping the draft.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 30, 1863.

THE REBELLION.

A strong rebel force, with six guns, supposed to be the advance of Bragg's army, attacked our troops at Richmond, Ky., on Tuesday morning. After an hour's severe fight, our troops were compelled to fall back, badly cut up, to within 5 miles of Lexington, in which city martial law has been declared, and measures taken for defence.

The latest accounts represent that there is a great panic at Lexington, it being reported that Gen. Buckner was about to invade Kentucky at the head of 15,000 men. Gen. Burnside is on his way to Lexington.

The N. Y. Times' Washington dispatch says the Secretary of War has ordered that all the officers of Morgan's command captured in Ohio, including Morgan himself, shall be put in close confinement in the Ohio Penitentiary, there to remain until the rebel authorities shall release the officers of Col. Straight's command.

The statement that the rebel general officers captured at Vicksburg have been exchanged is incorrect. The rebels have no Federal officers of equal rank to offer in exchange.

A rebel dispatch, 21st, states that Gen. Grant's troops were busily engaged in tearing up the track between Brandon and Jackson, and had burned the depot at the latter place. He was preparing to fall back, from a scarcity of water. The rebel army had gone into permanent camp on Strong river. Gen. Grant was reported to be shipping troops down the Mississippi to attack Mobile. Lt. Gen. Hardee had taken command under Johnston. Pemberton's corps would be reorganized. The N. Y. Herald's correspondent says the campaign is ended by the flight of Johnston from Jackson. On the 16th the left wing of Smith's army corps, under Maj. Gen. Parker, had a severe battle in obtaining a point near Jackson, successfully driving the rebels, the latter leaving hundreds of their dead and wounded on the field. On the following morning the rebel pickets were found to have been withdrawn and the city evacuated. The rebels burned some sixty buildings fronting the capital, when they evacuated. The city was surrounded with excellent earthworks, rifle pits, &c., and could have been defended easily. After occupation detachments were sent out and destroyed all the rebel railroads, bridges, culverts, water tanks, &c., within a radius of 15 miles.

Atlanta, Ga., correspondence of the 23d states that that city is preparing to defend itself from an anticipated attack by Gen. Rosecrans.

The Charleston Mercury's account of the late attack on Fort Wagner admits that our forces held a portion of the fort over an hour under the most galling fire. The rebels captured over 200 prisoners, including a few negro troops, and buried over 600 of our dead. Col. Shaw was killed on the parapet of the fort; the Major and one of the Captains of the 54th were also killed. The rebels state that the bombardment was terrific, but their men were protected by bomb proofs. Their loss they say was 100.

Rebel prisoners say Stuart has been assigned to an infantry corps, and has been succeeded in the cavalry by FitzHugh Lee.

Rebel sympathizers in Washington say Lee's army is to re-occupy its former position at Fredericksburg, south of the Rappahannock. They destroyed what remained of our wharves and buildings at Aquia Creek, a few days ago.

NAVAL.—Orders have been received at New York to fit the iron-clad Lehigh for sea immediately. She is considered the best of the nine monitors, as she was not finished until the weak points of the others had been developed at Charleston.

The Navy Department has purchased the iron prize steamer Neptune, which was captured by one of our wooden vessels while attempting to run the blockade. She measures two hundred and fifty feet in length, is only seventeen feet wide, or one fifteenth of her length—the average proportion of fast steamers being about one-eighth. Her shape is of course, very novel, resembling that of an overgrown canoe. She will be converted into a man-of-war at once, at Brooklyn Navy Yard.

☞ The N. Y. Herald's Washington despatch says Earl Russell has ere this been informed that the United States will not permit the fitting out of vessels of war in the British ports to prey upon our commerce, and that if it is allowed to proceed we shall not hesitate to go into British ports and capture such vessels. If this be war England must make the best of it.

☞ One of Dupont's powder mills, in Wilmington, Del., exploded at 6 o'clock on Wednesday morning. Two workmen were killed. The cause of the explosion is unknown.

☞ Fort Wagner is a large and very strong work. In its capacious bomb-proof apartments it can shelter thousands of men. It was reinforced just before the Federal assault on the 18th. In that attack a portion of the Union troops made their way to the walls of the fort, but could not scale the enemy's defences and were there subject to the most destructive fire without chance of retaliating upon their foes. The guns from Fort Sumter command much of Morris Island, the shells passing over the Federal batteries, and nearly to the rear of our position. The rebels may yet discover that the possession of Wagner is not a necessary preliminary to the reduction of Sumter. Certain batteries on Morris Island, where rifled guns of four miles range have been mounted, will soon, if they have not already, open fire with similar results in regard to Sumter that were produced at Fort Pulaski. A battery of these effective cannon, bearing upon Fort Sumter, is not more than a mile and a half from this stronghold.

TERRIBLE EVENT. The Newbern, N. C. correspondence of the New York Herald, describing the late cavalry raid to Rocky Mount and Tarboro', and the destruction of the bridge at the latter place, states that the order to fire the bridge was given too soon. A large number of contrabands had just got over, many were still on the bridge, and many were on the other side eager to escape. Some of our own men were also on the other side, but, with a few exceptions, they escaped. When the burning bridge fell, it is feared between five and six hundred poor negroes were burnt or drowned.

☞ An autograph letter of Jefferson Davis, dated West Point, Jan. 12, 1825, and addressed to his brother, Joseph E. Davis of Natchez, has been published. He writes with contempt of Yankees:

"The Yankee part of the corps find their pay entirely sufficient, some even more; but there are not such as I formed an acquaintance with on my arrival, it having originated in the introductory letters I brought on with me, nor are they such associates as I would at present select. Enough of this; as you have never been connected with them, you cannot know how pitiful they generally are."

And this is the man, (despising a *prudent* and proper use of money by a student,) who was the great defender of repudiation, and is the president of the rebellion.

☞ Lewiston, Me., is a strange place.—The Journal tells of a sober man named Williams, who works in Lewiston but boards in Auburn, and has a boat in which he crosses the river. On Sunday he went to his boat and found a drunken Irishman in it, in possession of the oars. The boat pushed off, and then the Irishman, still retaining the oars, refused to land Williams unless he would pay him a quarter. He complied to save a row, and then another quarter was demanded, which he refused, whereupon the Irishman struck him with an oar, knocking him overboard; but seizing his assailant, he carried him over with him. The Irishman clung to Williams with a firm grasp. The two went down twice, but finally Williams, who is a good swimmer, got free and swam to the shore. A gentleman who was riding by, took him into his carriage and drove home, several Irishmen being in full pursuit.

——Two large barns and a shed on a farm one mile west of South Lyndeboro', occupied by H. Abbot, were entirely consumed, with their contents, on the afternoon of the 26th inst. Twenty tons of good hay, several sleds and farming tools, were all burnt. Loss about $600, and insured for $200.

—— The Unitarian Society at Hampton Falls have adopted the custom of one service on Sunday, during dog days. In about fifty years, the same practice will doubtless be universally adopted in our Portsmouth churches.

☞ At Jackson, Gen. Sherman captured a number of rebels who had been paroled at the capitulation of Vicksburg. These he took out and shot on the spot.

☞ Brutus J. Clay of Bourbon county, has been nominated for Congress in the Ashland (Ky.) district, to fill the vacancy occasioned by the death of Hon. J. J. Crittenden.

THE SEASON AND THE CROPS.—The rain which has fallen so liberally during the past three weeks, while it has retarded labor in the hay fields, has had a very beneficial effect on the grass. Farmers estimate that their crops of hay (of which not more than a tenth has been cut), will be at least one third heavier than they would have been had the weather been more favorable. A correspondent who has travelled over large portions of Massachusetts, New Hampshire and Maine within the past fortnight, informs us that corn never looked more promising than it now does, although it is perhaps a fortnight later in growth as compared with average seasons. Oats, potatoes and beans are generally strong and healthy. Clover will be a failure in many instances, on account of over-ripeness. The pastures never looked better at the same period of the season than they do at this time. All kinds of farm stock appear in good condition. The scarcity of labor is the cause of very general complaint throughout the rural districts.—*Boston Journal.*

NEW HAMPSHIRE ITEMS.

—— A squad of two non-commissioned officers and six privates from the 3d Regiment have gone to Concord. Col. John H. Jackson accompanied them. They are to drill the men drafted to fill up their regiment. Another squad of men also came by steamer from Charleston, from the 4th N. H. Regiment, under charge of Capt. D. O. Burleigh of Co. I.

—— The 4th N. H. Regiment was not engaged in the assault on Fort Wagner, although they are in that Department.

—— Com. Nutt outlived the reign of terror in New York, and has arrived at his home in Manchester. We trust that he was not "scared out of a year's growth."

—— The Claremont Eagle publishes the following, furnished by a gentleman who vouches for its truth, which shows how suddenly some men change their tone and become patriotic when their "wallets are in danger":

"A wallet maker of Sunapee reads the daily papers aloud to his friends. Reading the riot news from New York, he stopped and said: 'Glad of it; hope they will oppose the draft through the whole country.' Next day, reading of the riot in Boston, he stopped and said: 'Good! glad of it, glad of it.' The next day, reading the particulars of the destruction of property in New York, he read of a store broken into, stopped short and said, 'Good Heavens! that is the store where my wallets are sold! I want to know if there is not power enough in the Government of New York to stop a mob?'"

—— The police of Manchester are exerting themselves to enforce the Sunday law. Three keepers of liquor shops were fined on Monday, for keeping open shop on the day previous.

—— The Department of the Interior have just received notice of the acceptance of the Agricultural College grant by the State of New Hampshire. The State will receive 937 pieces of scrip, or 150,000 acres.

—— E. Hurd was arrested and brought before Justice Smith, of Waterbury, Vt., on Monday, the 20th inst., for living with Mrs. Hix, the wife of another man, with whom Hurd had eloped from New Hampshire. Hix was a soldier, having enlisted in this State in April, 1862. His wife deserted him and has been living with Hurd as his wife for several months. Hurd was committed for trial at the County Court.

A POET'S TRIBUTE TO "BURNS."—*Have heard it very highly spoken of*, says New England's most vigorous Poet. He referred not to Robert Burns, although in the matter of genius, Whittier has much in common with the immortal Scottish Bard, but to those Burns which are speedily, and certainly cured by GRACE'S CELEBRATED SALVE. The Salve is also the best cure for flesh-wounds, boils, felons, salt-rheum and all cutaneous eruptions whatever. The oldest and most obstinate ulcers yield to its permeating qualities. In fact it is a Household Friend, and no family should be without a box of it at hand. Only 25 cents per box. See advertisement in another column.

WARM WEATHER AND ITS EFFECTS.—Many people, especially ladies, complain at this season of the year of general weakness or debility. The use of Speer's Sambuci Wine prevents this. The wine is safe and sure. Wonderful effect in giving strength, vigor and tone to the whole system; it is extensively used by ladies nursing or about to nurse infants. The wine is not a manufactured article, as no water, sugar or liquor is added to it. It is no patent medicine or nostrum humbug, but is a superior wine of the Portugal Sambucus, cultivated by Alfred Speer, in this country; a *pure old unadulterated Wine*, nothing more nor less. THOMAS WORTH.

Mr. Speer has been supplying hospitals with his wine for three years past, not venturing to introduce it into the market generally until he had accumulated a stock of six thousand gallons, four years old, with which he is now supplying only first class druggists in a few cities. Parties from London and Paris order it, supposing it to be French Wines. It is said to be unsurpassed for summer complaints, and for weakly persons.—*Philadelphia Press.*

Our druggists and grocers have obtained some direct from Mr. Speer. The price is low for so excellent a wine, and every family should have a bottle in the house.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and give dyspeptic persons. Use it with cream tartar instead of soda—it is much better. Try it. Grocers and Druggists sell it.

☞ Gen. Conner has sent to the War Department a report of his expedition to Utah. He has given the Indians some good lessons; established a new military post at Soda Springs, near the great bend of Bear river, in Idaho Territory; and established in a town of their own, 53 families of Morrisites, or seceded Mormons.

A wine merchant having sent a sample of wine to Lord Derby, which he averred was a specific for the gout, subsequently wrote asking for an order. The earl replied, presenting his compliments to Mr. ——, &c., and begged to say he had tasted the wine sent, but—*preferred the gout.*

☞ On Saturday last, four of the Tacony prisoners were taken from Fort Preble and committed to the jail in Portland.—They had belonged to vessels destroyed by the Tacony, and joined the pirates after their capture.

☞ The crew of the privateer Tacony, previously of the Florida, captured off Portland, was sent to Fort Warren on Tuesday.

Sleight of Hand—Refusing an offer of marriage.

☞ At an entertainment in Winstead, Ct., recently, Mrs. Frank Moore, wife of the editor of the Winsted Herald, was awarded the premium as "the handsomest married lady." The Herald "fully concurs."

☞ The Union Pacific Rail Road Company advertises for four thousand tons of American railroad iron,—an indication that this great work is at last to be commenced.

How the Prince of Wales popped the question to the Princess of Denmark.—"Please *design* to marry me?" And the fair Dane *designed.*

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

THE MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of RUFUS H. ODIORNE at Rye, or, of WILLIAM H. HACKETT.

Portsmouth, N. H., July 28, 1863.

MOCHA AND JAVA COFFEE.

From the Celebrated Berry Mills, Lynn, Mass.

This **SPLENDID ARTICLE** of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, D. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *T R Y I T!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any at St. Domingo or Cape.

☞ All the Grocers have it.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be depended on by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and bowels, and as a Family Pill. spuo

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

STATE OF NEW HAMPSHIRE.

To the inhabitants of the City of Portsmouth, qualified to vote in City affairs.

You are hereby notified, in conformity to a petition signed by Richard Walden and 67 other legal voters—to meet at Jefferson Hall, in said City on THURSDAY, July 30th, 1863, at 12 o'clock, noon, for the following purposes:—

To choose a Moderator to preside in said meeting.

To express your opinion in regard to the payment, by the City, of $300 for such men as may be drafted under the conscription act of the United States, in lieu of sending such citizens into the service of the United States."

Given under our hands, this 28th day of July, 1863.

JONA. DEARBORN, Mayor.
THOMAS WIGGIN, Jr.
EDWARD J. MOULTON,
JOHN H. BROUHTON,
JOHN E. RIDER,
JOS. B. ADAMS,
} Aldermen.

☞ The kind of defence which is made by a guilty party on its own counsel, against a criminal charge, is often the means of proving the charge more clearly. We were reminded of this a day or two since, by a brief dialogue.

A gentleman met Uncle Toby in the street and said—

Your folks have been imposed upon by the story about a mob near the Fort, at Newcastle.

Uncle T.—No, we were not imposed upon at all: we gave the "report" as we heard it, and did not pretend to be eye witnesses. We told the story as it was told to us, and it was confirmed by the best authority, viz. the officers. If anybody was imposed upon, it was the public.

Gent.—The man whom they took had been a-courting.

U. T.—Very likely; but then they really took a man, did they?

G.—Yes.

U. T.—Was there only one man there? Was he alone?

G.—[very faintly] Yes.

Evidently the gentleman was not present at the scene, and could not have been if only one man was there. The gentleman really knew nothing about the matter; he only told what somebody told him, and was probably at home and in bed when the thing happened.

On the other hand, the soldiers themselves were there and on the watch,—as an officer had been in town that day, and heard threats of the expedition: they saw an assemblage of people not common at that time and place, whom they estimated at 200; ordered them off, advanced upon them, and captured one man, who being innocent did not flee as did the rest.

To discredit their testimony in this case is to suppose them not only liars but *fools*, as they must be, if they rushed out to capture a harmless man, all *alone*, and if they estimated one man to be 200!

On the other hand, we have *special* reasons for disbelieving any batch of stories got up against the troops in garrison there, about this time—as there were such stories brought in for us to publish some weeks ago, which we deemed most improbable; and on inquiry we found them false, malicious, and the offspring of envy, jealousy, and a sort of insane treachery.

☞ We learn that a boat race is to come off this (Thursday) evening at a 1-4 past six, between the champion boat Joe Hooker and the Olivet. Both are fourteen-oared barges. The course will be from the Beacon to Portsmouth Bridge. If stormy the race will be on the first fair evening.

☞ With the issue of the Daily Chronicle for Friday, July 31, ends the eleventh year of the publication of this paper. Thanks to all who have aided or encouraged the undertaking; and not a grudge against any (if such there may perchance have been) who wished it aught but success. In order to commence our twelfth year, on Saturday, "owing no man anything," save good will—we most respectfully request all persons having bills against us, to immediately present them; and all indebted, by note or account, to adjust the same.

☞ Col. John H. Jackson, 3d N. H. regiment, and Lieut. John W. Brewster, Co. B, 4th N. H. regiment, both of this city, have arrived in Concord. They, with other officers, are to take out the conscripts intended for their regiments.

☞ Mr. Joseph T. Moore, of this city, a private in Co. D, 3d N. H. regiment, was severely wounded in the foot, July 12th, in the advance on Fort Wagner.

☞ Senator Nesmith, of Oregon, visited the Portsmouth Navy Yard on Wednesday, and was received with the customary salute.

The salute on Monday was fired in honor of Paymaster Horatio Bridge, Chief of the Bureau of Provisions and Clothing.

☞ Capt. M. T. Betton, Co. K, 13th N. H. regiment, has returned to this city, on a brief furlough.

Messrs. Eds: What will be the effect of our vote to-day, if we agree to pay $300 to excuse each drafted man? will it stop the war, lower our taxes, or what?

A LOVER OF PEACE.

Answer:—It will not stop the war; it will increase our taxes; and will help government to a pile of money to carry on the war, by giving bounty to enlisted men. If the citizens feel very rich, and should vote, as in some other places, to give $300 to every man who goes, and to pay $300 for every one that stays—this would help the men some, and government some. Either way, every dollar we vote, adds to our taxes, and helps carry on the war. There is no way to escape from it.

HISTORY OF GRACE'S SALVE.

As the general enquiry of "what is Grace's Salve, and who is its originator," may seem to be a question worthy of being answered, the manufacturer has been induced to give the following brief, yet truthful account of its history: This Salve was invented in the seventeenth Century by Dr. Wm. Grace, who was Surgeon in King James' Irish Army, and from that time he always used it in his professional practice, whenever soreness or inflammation presented itself. As a medical agent for the cure of wounds it was followed with great success, and thousands of the veterans that were wounded in the campaigns of 1688, and 1691, owe to this salve the preservation of their lives.

Col. Richard Grace, who was King James' Chamberlain, introduced this Salve into the Royal Palace, where it was used with the greatest success, and highly esteemed for its virtues in the cure of sores. At the siege of Athlone, Col. Richard Grace ordered it to be administered to his compatriots who were wounded during the memorable days of the battle. The order was complied with, and it was used with such success that the head Surgeon of the Irish army at Aughrim ordered Dr. Wm. Grace to manufacture one hundred gross in season to have it distributed among the hospitals before the battle. On the sad defeat of the Irish army at Aughrim, after Ginckle's army took possession of the battle field, they found several ambulances abandoned by the retreating army, and in each of them were found sealed cases of the Salve. The English surgeons tested it upon their wounded and ascertained its value, and thus were both contending armies betriended by it.

Both Dr. Wm. Grace and Col. Richard Grace died in the campaign of 1691,—the former of disease, the latter killed in the intrenchment of Athlone, with the Irish flag wrapped around him, cheering on his men to victory.—After the death of Dr. Grace the Salve was not used much outside of the family, until the rebellion of 1798, when Wm. Grace, grandfather to the present subscriber, (he being a "United Irishman") applied its virtues at the battle of Ross, to his brave comrades who fell wounded, while fighting for the rights of their country.

The celebrated Dr. Fitzpatrick, who was connected with the leading Medical Institutions of his day, held in such high estimation this Salve that he ordered large quantities of it to be manufactured for himself, to use in his profession practice.

The Salve was used in Ireland, and in certain localities the residents had it furnished them free of charge, until the year 1848, when the subscriber's parents left their once happy home and the land of their nativity to seek a home in the land of Columbia. With them they brought the secret of the Salve they received from their predecessors. After landing in this country they continued to make it, as before, for their neighbors free of charge, until the fall of 1861, when the frequent calls made for it, and the serious cases that it cured, induced the subscriber to bring it to more general notice, and to charge a small price for the article that has received the commendation of patriots upon the battlefields of yore, as well as from persons of the present day.

WILLIAM GRACE.

Mr. Grace is constantly receiving testimonials from Physicians and persons of the highest character and responsibility, expressing benefits derived from the use of this purely vegetable preparation. It has saved much trouble, suffering and money where it has been used. The Amesbury Villager says:—

GRACE'S SALVE.—The increasing demand for Grace's Salve from all sections, proves conclusively that it is surely working its way into the confidence of the people, as a remedy for the many external diseases that afflict mankind. As a healing medium its virtues were quoted many years in the Emerald Isle, and when that country had a name and fame, and could not only boast of its brave men in war, but its knowledge of the arts and sciences, and especially of its medical and surgical skill.—The inventor of the Salve was a physician and surgeon of high renown in the army, and his easy remedy for the cure of wounds, bruises, burns, sores, and in fact for nearly the whole list of ulcerations affecting the body, has stamped with a signet of approval the honour with which his name is held by his countrymen at the present time.

The extent of its usefulness in the old country is a remarkable feature of the Salve, for we have the most indisputable evidence that on the battlefield it was the most reliable remedy in use. And already in this country, although but recently introduced to the public, it is becoming the standard remedy for all the purposes to which a salve is applied. The proprietor is in possession of letters from persons of the highest character and responsibility, testifying in the most unequivocal terms to the cures effected in a great number of cases by its use. In this village we have known the most serious cases of salt rheum cured by it, while several of our best citizens have tested its virtues and given it their approval. Therefore we have no hesitation in saying that the Salve is all it professes to be—a speedy cure for nearly all external diseases. See advertisement.

☞ The publication of Vanity Fair was resumed a few months ago, but after a sickly existence, it has again gone the way of all comic papers in this country. Its untimely decease leaves us without any "national" comic paper.

☞ The First Presbyterian parish of Newburyport, on Monday gave a call to Rev. D. S. Gregory to become their pastor. The salary is $1200 per annum.

COAL.—The total shipments of coal during the past year foot up an excess of 1,195,502 tons over the quantity shipped during the previous twelve months.

DEATHS.

In Newburyport, July 24th, Mr. ASA DAVIS, aged 69 years.—July 26th, Mr. WILLIAM STIRLING, aged 48 years.—July 27th, BENJAMIN G. LUNT, son of Joseph and Sarah C. Lunt, aged 22 years and 10 mos.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials here given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as I know*, practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in securing inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure them at early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which PATENTS have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Dec. 2, 1862. 3tawly

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the benefit of those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, and contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in the specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stopping irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation; sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,
NO. 46 MARKET STREET.
EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odor.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunf, butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "cream of all cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to a large class. The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very elegant.
Prices from $3.00 to $40.00 each.
Also a variety of TOY GIGS, TOY CARTS, WHEELBARROWS, &c.

Morning Chronicle.

TO A LADY ON HER BIRTHDAY.

There needs no calendar
Save the revolving year,
To tell thy thousand friends
It is your birthday the so-near;
For blossoming roses in their prime
Remind us yearly of the time.

Then shine the longest days,
And scarcely night between
Drops her tiny starry veil
Over the summer scene;
The sweetest birds are singing then,
And joy dwells in the so-near.

May'st thou the blessing share
That June forever brings.—
Mounting through grief and care
To happy higher things,
As climbs the summer up the way
Through dreary April, fickle May.

SYMPATHY.

Fellow-worker, toiling brother,
Come into the fields with me;
See! the sheaves support each other,
So with us they should be.

Lean upon me in your trouble,
And support me with your joy;
Friendship can a lifetime double,
Hatred will two lives destroy.

Oh! remember, the Eternal
Lays us in sheaves together,
When, with His sight hand supernal,
Shieves of life he stoops to gather.

ROMANCE.—Some thirty-four years ago, a young man left his bride in Amsterdam, with the object of proceeding to America, in order to better his position. Soon after his arrival he wrote to his wife, enclosing a certain sum of money to enable her to proceed to New York to join him. This letter was sent to his brother, who kept the money, destroyed the letter, concealed the whole matter from his sister-in-law, represented to her husband that she had died, and forthwith left the country. Her husband in the course of time married a second wife in New York; he was succeeding well in business, while his wife in Amsterdam regarded him as dead, and was making arrangements for a second marriage. That event, however, never occurred; for her second lover died a few days before the day fixed for the wedding. Her husband, meanwhile, last year lost his New York wife, and having made a fortune, which he was unwilling to subject to the risk of war, he disposed of his business, and a short time ago returned to Amsterdam to see once more the place of his birth. During these thirty-four years of absence the few friends he had had died or otherwise vanished: but accident brought to light the fact that the bride he had left behind him was still alive. She, indeed, during all this time had lived in comparative penury; but he is rich. The bride and bridegroom of thirty-four years ago, somewhat changed in externals, are again husband and wife.

THE OHIO COPPERHEAD'S LATEST HISS. That most foul and revolting creation of evil times, the great Ohio Copperhead—so numerous a reptile that even the rebel confederacy, which stomachs Floyd, and Benjamin, was obliged to eject him in haste—has wriggled his way at last (appropriately) to British territory, and, coiled upon the rocks at Niagara Falls, now spits his venom and hisses his complaints across the water—furious because he cannot again plunge his poisonous fangs into the life of his country, mad with rage because he cannot do something more to betray it to new horrors. The attempt is impotent. The Government, thanks be to God, is in the ascendancy.

Copperheadism has jumped its length, and *has buried its fangs in its own heart.* It perished miserably the other day, by suicide, in the very presence of its god-father; and the Ohio traitor might to day as well attempt to kick the mummies of Thebes into life as suppose that his demonstration will meet with the response he seems to have expected. So long as Copperheadism merely hissed and threatened, so long a magnanimous and great people might, to some extent, tolerate it as one of the lesser evils of the times; but when it emerged from its den with flaming eyes and crest erect to deal death to all who disputed its prerogatives, it challenged every honest citizen, every lover of his country to put his heel upon its head; to crush it out of existence as the foul thing it showed itself to be.—*Baltimore American.*

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has arrived at a perfection of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHOEA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhoea, Ulcerations and Gleets, Strictures and pravities, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Syphilitic Swellings, and the long train of horrible symptoms attendant on the Secret Disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those diseases caused by a secret and solitary habit, which so effectually ruins the body and unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive organs, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, selfdistrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted to be best preventives. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all illnesses incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other painful menstrual disorders, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. No invariably certain the new treatment has proved, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has had great success in his practice in the cure of Cancers of Women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to a special practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B. Dr. Dow's medicines cure four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. DOW, Physician and Surgeon, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Three for $1 and a red stamp.
BOSTON, April 7, 1863. eodly.

ATTENTION, THE WHOLE!
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her leaving her room for months. Her pains were very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrups and pills, but she received no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure that can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in eradicating the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it; since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. ALLOW.
From ELDER I. CHESLEY, *Lee, May 31, 1841.*
DR. SWETT. Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that persons to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till I commenced using your PANACEA and HUMOR WASH, after which she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found to cure disease above named. ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging to be present to witness this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which makes it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust ever possibly escapes into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This defect so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Bandall, Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. Being light the arch is irregular we can by building out the depressions which can be done to any extent—give the mouth a more natural appearance.
4th No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a tumbler, as when it is once adapted the wearer can do it readily.
6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DENTISTRY.
NO. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, that, having had of late many calls to insert teeth upon "VULCANIZED RUBBER," that he has purchased the best "VULCANIZER" in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER, if the patient prefers it.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently it is perfectly easy to the muscles of the mouth and cheeks. Food does not lodge in the joints to collect foul, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth (in looking) that you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, $10 for Upper.
ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain, and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.
All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, performed on the usual rates.
I shall continue to keep the best Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.
This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores, and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.
Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Fresh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.
And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.
It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.
MANUFACTURED BY

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. FRIDAY JULY 31, 1863. NO. 26.

The Chronicle.

"Bound to no party—to no sect confined;
Free to all parties, and free to all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

AN ARGUMENT.—Not long ago we cut the following sentences from the Boston Courier:—

"As no white man ought to consent to be a slave, so, in our opinion, no negro ought to desire to be a freeman in the United States. Freedom to them can have no other meaning than misery, degradation and final extermination."

The words are in the shape of a chain of reasoning. But in our opinion, says Uncle Toby, there are three defects in the chain; viz., the premises are fallacious, the argument is unsound, and the conclusion is absurd.

'No white man ought to consent to be a slave.' Indeed! who says so? Not more than two or three years ago, we read essays, learned and unlearned, aiming to show that all the white working men of the north were really slaves, because they labored and depended on their labor for subsistence.—What should they do? Stop working, commit suicide, and raise bread riots? or shall they consent to labor on, and so be what aristocrats call slaves or mudsills.

Paul wrote to the Corinthians, about 1800 years ago, "Art thou called, being a servant, (or slave) care not for it; but if thou may'st be made free, use it rather."—The Corinthians were nearer white than Paul was, and many of their slaves also; at that period black slaves were few; yet Paul does not discriminate between colors. The idea here is, that slavery may be endurable by a christian, but freedom is always preferable if it may be obtained.

Freedom is the desire of every man, and within the limits of mutual and fraternal obligation, is the right of every man. So says common sense,—and so said our fathers when they declared Independence.

But says the Courier, "in our opinion, no negro ought to desire to be a freeman in the United States." This is the mere echo of what the Jamaica planters and drivers, and the Liverpool and London West India proprietors used to tell us thirty or forty years ago, and what they kept on telling until freedom came over the islands like a refreshing breeze; and yet for these twenty years, since the working men there became free, they have not become more wretched nor miserable, but become richer, happier, more intelligent and more comfortable every way. The aristocracy of the islands very likely has gone down a peg or two, and the princely incomes have dwindled—but the workers have risen.

Does anybody believe *now*, that the negroes in Jamaica are likely to become extinct? We suppose not. And does any sane man presume to say that our white people in these States are worse than the whites in Jamaica? If not, where is the trouble? Answer, in the political Slaveocracy in the rebel States, and their allies and worshippers in the free. *They* desire to keep the negro as a slave—but that is no reason why *he* should not desire to be free, and free in the United States.

We need not theorize when we have facts before us. Since we cut out the extract, we put the question to a black man whose head is white with years, whether he did not wish to be a slave. He said "No." Did he not feel degraded and wretched as a free black man among whites? "No: (was the answer) I have had the same chance with other men to work and live." And a useful laborer he has been. What is true in these respects of him is true of thousands from Maine to Maryland, and will be true of millions further south. Efforts are made to stop the current—but the rebellion in the Gulf States cut away the levee, and freedom will overflow the land. The workingmen are destined to be *men* and not things:—and the country and the world will be the better for it.

True, the flood which they let loose has destroyed a vast amount of property, and sent mourning into thousands of bereaved households: but we shall come out of it by-and-bye, better, stronger, and vastly wiser than ever before. U. T.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 31, 1863.

THE REBELLION.

The Mayor of Savannah has issued a proclamation requesting all residents of the city to organize for home defense, and to close their places of business at 2 P. M. on Mondays, Wednesdays and Fridays for the purpose of drilling. He directs an enrollment be made of every man in the city capable of bearing arms in its defense.

Articles that have appeared almost simultaneously in the three Republican papers of Washington—the Herald says—go to show that the Army of the Potomac is hereafter to act mainly on the defensive, while aggressive operations are to continue in the South and Southwest.

The N. Y. Times' Washington dispatch states that Gen. Meade's army occupies about the same line that it did two months ago. There is but little sickness among the men. The last escape of Lee across the Potomac, which is pronounced by many the most stupendous blunder of the war, is deeply regretted, and there is some apprehension of evil results from his present movements, which do not seem to be clearly understood. The impression has gained ground in our army that Bragg has recently sent a large portion of his forces to Lee. Gen. Meade, however, is by no means idle, and correspondents state that at the proper time he will confront Lee and demand a fight. Indeed the Tribune has a dispatch stating that officers from the front report that Gen. Meade threw his pontoon bridge across the Rappahannock on Wednesday, the enemy making some opposition.

A steamer from Charleston, 26th inst., reports that the siege of Fort Wagner was still progressing. Gen. Gillmore had succeeded in erecting a battery of heavy siege guns within a thousand yards of Fort Wagner. Forts Sumter and Johnston keep up a continual fire on the Federal forces on Morris Island. Our casualties are about 6 a day. The N. Y. Times' Washington dispatch says Gen. Gillmore has been promised all the reinforcements he needs. The statement that Gen. Gillmore's losses in the recent engagements were one-third of his total force, it pronounces to be incorrect. In the last action he did not lose over 700 men, and his total losses ever since be began the campaign will not exceed 1100.

Brig. Gen. Strong died on Thursday from wounds received at Fort Wagner.

Reinforcements are said to have reached Gen. Gilmore, besides several 200 or 300-pound Parrotts. Passengers by the steamer report that the principal guns of Fort Wagner are silenced, leaving only howitzers for the rebels to use.

Pegram's forces attacked our troops at Paris, Ky., on Wednesday, but after a severe fight of two hours were repulsed, and retreated to Winchester, followed by our cavalry.

☞ The Washington correspondent of the N. Y. Herald each day sends a report, to be contradicted the next. His last romance is the following:—

The National Committee of the Douglas and Breckinridge Democracy are to have a meeting either at Milwaukee or Detroit, between the 17th and 23d of next month, to arrange a programme for the approaching Presidential campaign. It is already agreed to bury the hatchet and to place the Democratic party thus united upon a war platform. Copperheadism is to be denounced, and resolutions in favor of the integrity of the Union adopted. The responsibility of the recent riots in opposition to the draft is to be placed where it rightfully belongs. The present administration is to be ignored, and no comment whatever is to be made upon its action. The negro question is also to be treated with utter silence.—The meeting is not intended to be public, but a plan of operations is to be agreed upon which shall settle all differences, and bring together upon a war platform all the Democrats of the loyal States.

☞ $30,000 have been given to Yale College by S. B. Chittenden, to found professorship of Divinity. The sum of $35,000 has also been subscribed, to build a new College Chapel. Taking into account the new Agricultural College fund, the increased endowment of Old Yale this summer cannot be less than two hundred thousand dollars. 90 students have already entered for the new Freshman Class, and it is thought that the number will be increased by the entrance of 50 or more at the close of the summer vacation.

☞ At the close of the draft, in Philadelphia, for the 3d Congressional District, three cheers were given for the country—"Right or Wrong"—with a will.

☞ The first lot of new flour from Western wheat arrived in Boston on Wednesday.

☞ The Richmond Whig announces the arrival of Pierre Soule at Charleston, by steamer from Nassau.

☞ A War Democrat has been elected delegate to Congress from Washington Territory.

☞ It is rumored that the President will soon visit New England.

THE PIRATE FLORIDA.—The privateer Florida arrived at Bermuda on the 16th, to repair damage to her machinery, and to coal. She anchored first outside, but the following day was permitted to enter the harbor, saluting the British flag; the salute was returned. Considerable interchange of civilities had taken place between the officers of the Florida and the shore. The newspapers teem with communications laudatory of the craft, officers and crew.

Since the advices of the 7th the Florida has destroyed twelve vessels; only the name of one is given, the brig Wm. B. Nash, from New York for Marseilles, with lard, mostly on French account. After the best of her stores were removed to the Florida, she was burned.

The Florida lately run within fifty miles of New York, it is said, in search of the Ericsson, which she chased some time, firing several times, but she escaped in the dense fog. There had been serious altercations between the members of the 29th regiment and the men of the rebel blockade runners in Bermuda, but the authorities promptly interfered and restored quiet. The pirate was still there on the 22d, coaling and calking, and did not expect to leave for two or three days.

The Captain of the W. B. Nash states that the Florida is armed with six broadside guns and two pivots. She is not as fast as has been represented, and her machinery is getting out of repair. She does not steam over eight and one-half knots per hour. The discipline on board is bad. The Florida had transferred a portion of her valuable spoils to the Robert E. Lee, to be taken to Wilmington.

THE FIRST TRIAL FOR TREASON.—Thomas C. Shacklett was convicted of treason against the United States in the U. S. Court at Louisville, on the 22d inst. Judge Ballard pronounced the sentence as follows:

"In the exercise of that discretion, and under a full sense of my responsibility to God and my country, I have concluded to spare your life, but the magnitude of your crime demands that your punishment be severe. The judgment which I approve, and which the Court now makes, is, that you be imprisoned and confined in the jail of Jefferson county, in the State of Kentucky, for ten years from this day, that you make your fine to the United States by the payment to them of $10,000, and that your slaves be free."

GEN. CANBY SERVED WITH A WRIT.—On Wednesday one of Judge McCunn's writs of habeas corpus was served on Brig. Gen. Canby, who was directed to produce the body of a rioter arrested by the military authorities. He consulted a well known democratic lawyer as to what he should do, and was advised to pay no attention to the writ. Yesterday the Judge issued an attachment against the General for contempt, and placed it in the hands of Sheriff Lynch to serve. The Sheriff also took counsel as to his duty in the premises, and was advised not to serve the attachment. What steps the Judge will take next is not known. It is due to the attorney who applied for the writ against Gen. Canby, to state that as soon as he ascertained that the person in custody of the military authorities was one of the parties engaged in the late riots, he refused to have anything to do with it.

In this connection it may be stated that the Commissioners of Charities and Correction would instruct the Warden of the City Prison, where most of the rioters have been confined, not to obey any more writs of habeas corpus issuing from Judge McCunn's office. If this is done, it will effectually block the game of the City Judge.—*N. Y. Times, July 25.*

☞ The Navy Department has instructed the officers superintending the construction of the iron-clad vessels intended for ocean navigation, to expedite as rapidly as possible the work upon them. The work upon the Puritan and Dictator is consequently going on rapidly, and the vessels will be ready for launching some months sooner than was expected. The Roanoke, New Ironsides, Puritan and Dictator are the only armored ships in the U. S. navy, which rank as frigates; but the government has received from different contractors models for a craft of three thousand tons, which will probably be accepted as types for another fleet. The idea of building the seven thousand ton vessels, for which proposals were asked in the department advertisements, seems to have been abandoned as impracticable.

☞ The sudden conversion of the Hon. Albert Gallatin Brown to Unionism, is regarded as one of the marvels of a better change in the Rebellion. Mr. Brown was once U. S. Senator from Mississippi, but more recently a member of the Rebel Congress. This Mississippi politician, under the old régime, was one of the most violent and coarse assailers of everything Northern, and was fiercely devoted to slavery. He opposed Buchanan for being too much of a Northern man, and came very near overthrowing Jeff Davis, because the latter defended Buchanan. It is surprising that he came and surrendered to Grant, utterly disavowing any belief in Secession, declaring that he was always opposed to it, and finally taking the oath of allegiance.

☞ The Provost Marshal General has decided that substitutes between 18 and 20 will be accepted, with consent of parents.

NEW HAMPSHIRE ITEMS.

—— The Ballot states that the annual meeting of the stockholders of the Exeter Manufacturing Company was held at the Factory Counting Room, which was not crowded, on Tuesday. The report of the Directors was so far satisfactory that the old board of officers was re-elected without opposition, and there was a like degree of unanimity in partaking of the regular yearly dividend—a capital dinner at the Squamscott House.

—— At a town meeting in Hampton on Monday, it was voted to pay $300 to all drafted men or their substitutes.

—— Capt. Arnold Wyman, of 1st R. I. Cavalry, of Manchester, has been promoted to be a Major. Capt. Wyman entered the service as an orderly, but was promoted before leaving the State, and has worked up to his present position.

BRITISH NEGROES IN NEW YORK.—The fact of many black sailors belonging to English ships having been brutally beaten during the riots in New York, led the British Consul General, in the absence of an English war ship at that port, to apply to the Commander of the French frigate Guerriere, Admiral Raymond, to take this class of persons under his immediate protection. The Admiral consented, and took two hundred blacks on board of his vessel. The British frigate Challenge, Capt. Kennedy, arrived on Sunday night, when the negroes were transferred to her from the French frigate, with about one hundred others who were sent from the Consulate. Lord Lyons has ordered the Challenge to remain for some time, and the subject has created some diplomatic correspondence.

☞ Under the new postage law the franking privilege previously enjoyed by Mrs. Harrison, Mrs. Polk, relicts of our Ex-Presidents, as well as that of Ex-Presidents Fillmore, Pierce, and Buchanan, is abolished; their correspondence is chargeable with postage, and when not prepaid on letters and papers sent to them, the rate on each is double.

☞ New York has the credit of furnishing the rebels with clothing. A large quantity was found in a storehouse on Morris Island, by our troops, bearing "private marks", which show where it was obtained.

☞ James Farley beat his wife to death in Brooklyn, N. Y., Sunday night, with a washboard.

THE CONTINENTAL MONTHLY, for August, contains a letter on Jefferson Davis and Repudiation, from Hon. Robert J. Walker; Our Future, by Lieut. Egbert Phelps, U. S. A., and several other articles of more or less interest.

☞ With the issue of the Daily Chronicle for Friday, July 31, ends the eleventh year of the publication of this paper. Thanks to all who have aided or encouraged the undertaking; and not a grudge against any (if such there may perchance have been) who wished it ought but success. In order to commence our twelfth year, on Saturday, "owing no man anything," save good will—we most respectfully request all persons having bills against us, to immediately present them; and all indebted, by note or account, to adjust the same.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the most fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jy30

Bark Snap Dragon, Briard, at Singapore June 6 for Penang, to discharge part of cargo.

☞ The zinc now used in France for oxydizing the plates of iron-clad vessels, is soon destroyed by producing an electric current. In order to avoid the expense of frequently renewing the zinc, the Minister of Marine has offered a prize of ten thousand dollars for the discovery of a new method of oxydizing the iron plating on war vessels.

Kisses between young women are like two handsome unmatched gloves—charming things with their proper mates, but good for nothing in that way.

☞ Shoddy is not only a dangerous material in the hands of swindling contractors, but it is also subject to spontaneous combustion while in store. A fire in New York, Sunday night, originated in that wise.

Mr. Joseph H. Knight has handed us apples of the Bradford (original) Nonsuch, in a good state of preservation.—*Newburyport Herald.*

☞ The Lowell News says if the surplus of that city in volunteers is allowed, only 2 will be required by conscription to fill the quota.

JOS. B. ADAMS, Auct.

Portsmouth, July 30, 1863.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon.

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water Wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Iron Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of LONGLEAF HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business in connection with Sawing. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 23, 1863.

MOCHA AND JAVA COFFEE.

From the Celebrated Berry Mills, Lynn, Mass.)

This **SPLENDID ARTICLE** of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, O. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *TRY IT!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any st. Domingo or Cape.

☞ All the Grocers are it.

Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jne23eplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to follow the effects of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. One pill will now exceed any six, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, DROWSINESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. epuo

DR. JOHN C. MOTT,

Physician and Surgeon,

☞ 18 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spm 2taw

Local.

☞ The "Citizens' meeting" on Thursday was not very largely attended, the opponents of the measures proposed, preferring to take no part in what they regarded as a movement to secure an illegal appropriation of money from the city treasury. A. R. Hatch, Esq., was chosen moderator, and J. D. Mupby, clerk. Mr. Rider moved that the vote be taken—"Are you in favor of the payment by the city, of the $300 exemption fee for each man drafted?" Mr. Morse moved to amend by adding—"who shall actually enter the service of the U. S." The amendment was rejected. The vote was taken by ballot. No check list was used. At 1 o'clock the meeting adjourned to 6 P. M. The vote was finally declared as follows—yeas 440, nays 3, blank 1. A full vote would be about 1600. The Moderator, clerk, and Mr. Wm. Marvin were appointed a committee to inform the Mayor and Aldermen of the result of the meeting, which then adjourned.

☞ In Board of Aldermen on Thursday evening, the report of the proceedings of the Citizens' meeting was received from the committee appointed by the meeting to present it, and read.

The proposed "Ordinance for the relief of drafted men in the service of the U. S.," was taken from the table: and after some discussion, the ordinance, with the report of the citizens' meeting, was referred on motion of Ald. Rider, to a special committee, consisting of Ald. Adams, Broughton, and Marcy, to report at the next meeting. This bill proposes, 1st, that the city shall pay the $300 commutation fee for each citizen drafted; 2d, that the Mayor shall have power, under direction of the Board, to appoint recruiting officers, to fill, if practicable, the quota of the city, said to be about 160 men, by paying a bounty of not more than $300 each.

A communication was received from C. E. Laighton, and others, (including, we believe, all the residents on Auburn street,) asking that the name of that street be changed to Richards Avenue. Referred.

A request from Saml P. Treadwell for permission to encumber Congress street for building purposes, was referred to the committee on streets, with power to act.

The City Clerk was directed to present, at the next meeting, a report of abatements of taxes on account of persons owning U. S. stocks.

POLICE COURT, July 29, before Justice Bufford.—John Rolle plead guilty of being drunk, and was fined $2; costs $3.86.

Robert Horrocks plead guilty of same offence, and was fined the same sum.

Stephen M. Thomson, for brawl and tumult, was fined $5; costs $5.64.

POLICE COURT, July 30; Bufford, J.—Charles Magrath, for adultery with Fanny M. Shapley, waived examination, and was bound over in $400, to the S. J. Court, for trial in October. Committed.

Fanny M. Shapley, for fornication with Charles Magrath, peaded guilty, and was bound over in $300 for trial. Committed.

John Norton, an Irishman, for being drunk, fined $3, and costs $3.86.

James W. Tuttle, for uttering counterfeit money July 13th, was ordered to give bonds in the sum of $500. Committed.

☞ James W. Tuttle, one of the persons engaged with John Woodsum about two weeks since in passing counterfeit bills in this city, was arrested in Portland on Wednesday, in compliance with a dispatch from this city; and was brought back for trial on Thursday morning, by officer Johnson. Tuttle belongs in Portland, where he has a blacksmith shop.

SINGING.—Mr. Davis' Classes in this city have been quite successful; and he has been well received by citizens interested in musical education, especially of the young.

The first half of the Term closed with the lesson on the 29th inst.; and we are author zed to state, that Tickets for the coming half-term may be had at Mr. Head's, for half the full term price. This affords a fine opportunity for singers to enjoy good practice. For particulars of the School, see the advertisement on our fourth page.

A stationary engine has been placed on the wharf of the Concord Railroad at North End, to be used in discharging vessels by steam. The engine has power enough to discharge two vessels at once, and will be housed in a small building now being erected on the wharf. A second track has been laid across Market street, leading to the wharf.—*Ballot.*

☞ An elderly man, from the rural districts, got too much liquor aboard on Thursday morning, near Spring Hill, and walked off the wharf in the rear of Church Hill.—The tide drifted him down to Pier Wharf, where he was picked up by a boatman and conveyed to the shore, somewhat sobered by his salt water bath.

☞ In the boat race on the river, on Thursday evening, the Olivet was the victor.

☞ The new bell for the North Church has been received, and will be placed in the belfry the first of next week.

THE ALL SUFFICIENT THREE.

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"

COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the Assimilative Into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.
	Dryness of the Skin.

These symptoms, if allowed to go on, which is medicine invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS,

In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION,

Many are were of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Inflammation or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habit or Disease, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.

It causes frequent Urine, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands

WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE

HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affliction of the Blood, and attacks the Sexual Organs, Lisings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES,

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1857.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Opinions made into the validity of Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it Inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as I successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice rejected* applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. Stawly

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and sure cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN,

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their manhood, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured hundreds, in almost every part of the United States, who applied to Dr. T. broken down in health, now robust in all the vigor of life desirable and happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.

DR. TELLER'S GREAT WORK.

A book for every body.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—300 pages, 25 cents. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or danger.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF

KITCHEN FURNISHING GOODS.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping the contents sweet and free from any unpleasant odors.

Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather one week, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR.

(Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The reason has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well manufactured throughout with *zinc, at cheaper* prices than ever before sold.

The various sizes of the above are *for sale* by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very **elegant.**

Prices from $3.00 to $10.00 each.

Also a variety of TOY CIGS, TOY CARTS, WHEELBARROWS, &c.

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

E. A. STEVENS,

No 46 MARKET ST.

Morning Chronicle.

☞ Some antiquarian in Wales, has discovered in a stone quarry, they say, twenty-five feet below the surface, and in a large block of gray free-working stone, the fossil remains of a razor, a pair of scissors, and an open pocket-knife. The first two articles were unfortunately broken upon severing the block; but the knife, a completely fossilized implement, was luckily discovered in time to be preserved from destruction. They infer from this discovery, that man existed on the face of the earth millions of years ago, used scissors and knives, and shaved with a Sheffield razor!

MORS.—A man when wholly under the influence of his passions, is no better than a wild animal. A body of men, acting together under such influence, inflame each other's passions until they become utterly ferocious and unmanageable. A mob is therefore simply a many-headed wild beast—and ought to be shot down like one. As no man in his senses would think of snapping a percussion cap at a tiger about to leap upon him, so no wise and humane man would counsel the firing of blank cartridges at a mob. All such futile expedients only increase the passions they are intended to subdue. There is nothing like cold lead for hot and rebellious blood.—*Portland Transcript.*

FIFTY THOUSAND MAJORITY IN OHIO AGAINST VALLANDIGHAM.—The Keokuk Gate City says:—

"'Sunset' Cox, member of Congress from the Columbus District, and one of the leading Democrats of Ohio, was in our city a few days ago, and admitted in conversation that Brough would beat Vallandigham over 50,000 votes in the State of Ohio. From this it is evident that Val's friends are giving up the contest, and are just going "thro' the motions" merely to keep up a show of party organization."

☞ Lieut. Walden has been ordered to report for duty on the U. S. steamer cutter, recently launched at New York. Lieut. Davenport has been given three months leave of absence. Lieut. Richardson has resigned. All of the foregoing were officers of the ill-fated cutter Caleb Cushing.

☞ The celebrated horse thief, Hale, was arrested in Bridgeton, Me., last Thursday night, for stealing a horse of Mr. Moses Young of Waterford, some three weeks since. He is now some seventy years of age, and has spent more than half of his life in the State Prison.

☞ The Hartford Courant says there is a gentleman now in that city who was drafted in Boston. He furnished a substitute, paying a good price, and the fellow ran off; hired another substitute and he skedaddled. Not liking such luck, concluded to try himself, and went before the officers for that purpose, but the Board of Enrolment threw him out on account of disability.

☞ Ship Building in New Brunswick the present year is quite brisk; 4 ships and 2 barques have recently been launched in and near St. John, and there are some six or seven large ships on the stocks which will be launched before fall.

☞ Rev. E. H. Chapin was, at last accounts, at the Isle of Wight, nearly recovered from his illness. He proposes to return in the steamer which leaves Liverpool on the 1st of August, and to resume his pastoral labors early in the autumn.

☞ The death of Mrs. Pomeroy, wife of Senator Pomeroy of Kansas, is announced. She gave herself with such devotion to the cause of providing a home for the thousands of poor contraband children in the District of Columbia, that her health broke down under the pressure.

☞ The Knoxville Register calls Gen. Rosecrans "the quondam soap boiler." The Register has found out that he can lather the rebels.

A Western paper, annoyed by the pernicious "American citizens of African descent," offers "unblackened Americans" as a shorter and more expressive term.

Wheat, Rye, Corn.

WHEAT WHEAT

RYE. RYE.

CORN CORN.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made with care, can be made from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This Whiskey, very well be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also from stock on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, **91 Washington St, Boston.**

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of hospital and private practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet been in his hands introduced them, failed to cure the most alarming cases of

GONORRHEA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Secondary Gonorrhoea, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Gravel, Strictures, Scrotal Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those sad results of sin—that solitary habit, which robs the body and mind, unfitting the unfortunate individual for business or society. None of the baleful consequences of the effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Those who intend to shrink before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. This is especially certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases, and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of the Urinary Organs. Gonorrhoea, Gleet, receive unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S. Dr. Dow's Improved Pills for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

☞ ATTENTION, THE WHOLE! ☜

EYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter had been afflicted with a running of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla, Syrup, &c., &c., but the obtained no relief until I procured some ten or twelve bottles of Dr. SWEET'S PANACEA, and two bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. I have since seen persons equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been troubled with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicines failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May 21, 1841.*

Dr. Swett: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has enjoyed her health so far as to rest quietly by night, and labor during the day; your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

☞ Sold by WM. R. URESTON

my2 Wholesale Agent, Portsmouth, N. H.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with tiles, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cut-iron heater combined, by which the odor arising from cooking meats is prevented from going into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of this heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does not require the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

EMERY & FOX, Brown's Wharf, Portland.

H. B. CROMWELL & CO., 86 West St., N. Y.

December 5th, 1862. 1y

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of section of attachment can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a silver, as when finished it will not impregnate the breath.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET, } Portsmouth, Jan. 1st, 1863. }

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the section is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of other bases, and they have the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and partial Sets of Teeth repaired without **Nauseous nor Disputch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, clears, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble suffering, and money. All it wants is a trial to cure old and inveterate Sores.

MANUFACTURED BY

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. SATURDAY AUG. 1, 1863. NO. 27.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, adjust and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

NAVAL UNIFORMS.—The following changes have been made in the sleeve ornaments of naval officers.

Lace quarter of an inch. Spaces quarter of an inch between each row, except otherwise specified.

Rear Admiral, eight rows of lace; first row two inches from edge to cuff, with half an inch space between first and second rows, fourth and fifth rows, and seventh and eighth rows, with one inch gold embroidered star, placed quarter of an inch above last row in centre of sleeve.

Commodore, seven rows of lace, half an inch space between third and fourth rows, and fourth and fifth rows. Star as Admiral.

Captain, six rows of lace, half an inch space between third and fourth rows. Star as Admiral.

Commander, five rows of lace, half an inch space between first and second rows, and fourth and fifth rows. Star as Admiral.

Lieutenant Commander, four rows of lace, half an inch space between third and fourth rows. Star as Admiral.

Lieutenand, three rows of lace. Star as Admiral.

Master, two rows of lace. Star as Admiral.

Ensign, one row of lace. Star as Admiral.

Staff officers of assimilated rank, to be the same, with the exception of the star.

A GLIMPSE OF SPIRIT LAND.—Mr. and Mrs. Joseph Stroud of Cherryfield, Me., have buried within the last fortnight three promising and interesting children, who died of that fatal disease, the diphtheria. The oldest, a daughter, about nine years old; the second, a son about seven years old. Some striking circumstances attended the sickness and death of two of these children. The oldest, whose name was Clara, and who died first, and who, it is said, did not appear to suffer any pain while sick, sat up a few hours before her death and read a newspaper.—Her sister, the youngest, just before she died, sprung out of bed in apparent ecstacy, and clapped her hands exclaiming "Oh, Clara, how glad I am to see you?" She was soon with her.

A MISTAKE.—The Portland Advertiser says:—

"It will be seen that the Provost Marshal General has decided that aliens are not to be received as soldiers. It is an important fact that it is decided that aliens are ineligible for substitutes."

It would be very important if true; but we think the Provost Marshal General has made no such decision. He has decided that aliens are not liable to the draft;—but they are received as substitutes every day in some of the States, and enlisted in the regular army and navy.

We observe this item in some paper:—

"Provost Marshal Doughty has been instructed by Capt. Bailey, of Augusta, Asst. Provost Marshal General of Maine, that aliens could not be accepted as substitutes."

We think Capt. B.'s interpretation decidedly wrong,—and suppose it will be speedily corrected.

UNPUNCTUAL PEOPLE.—What bores they are,—what havoc they make with the precious moments of orderly, systematic men of business. To those who know how to turn time to advantage, every hour has an appreciable pecuniary value. The only capital of a large portion of the community, is time. Their compensation is measured by the clock, and the loss of an hour may involve the privation of some articles urgently needed at home. No one places any confidence in persons who are habitually behind time.

☞ Suspension bridges have recently been condemned entirely by the French Commission of Roads and Bridges, and orders have been issued for the removal of the only one now remaining over the Seine at Paris. It is to be replaced by a bridge of solid masonry.

☞ A Washington correspondent of the Express says that Mr. Cox, a clerk in the State Department, went out in the steamer of Saturday, as bearer of dispatches to London and Paris.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 1, 1863.

THE REBELLION.

At Charleston on the 26th our batteries on the left were advanced 600 yards nearer Sumter, and six 200-pounders have been placed in position.

Gen. Gilmore reports that his loss in the three actions of the 10th, 11th and 18th, in killed and wounded was 635. 350 are missing.

The New Orleans Era says the guns and ammunition captured at Port Hudson prove larger in number and quantity than was reported by the rebels. Two river steamers had been found near Port Hudson. Quite a number of cannon continued to be unearthed there. The Vicksburg paroled prisoners at New Orleans have been sent to Mobile.

The Era of the 23d inst. says reports, apparently trustworthy, state that Johnston has been severely whipped at Jackson.—Breckinridge's division was cut to pieces, and the victory of our army complete.

Advices from the army of the Potomac say the 11th corps is to be broken up and will be distributed among the others. Maj. Gen. Howard takes command of the 2d corps.

Vicksburg advices of the 26th inst. say that Gen. Herron's division has gone to Mobile. Our army has fallen back to the Big Black River. Jackson, Miss., is entirely destroyed. Gen. Johnston is believed to be retreating toward Mobile, which place the rebels are making desperate efforts to defend.

The forces sent out under Gen. Hatch to look after the rebel troops enforcing the conscription in East Tennessee, had a fight at Lexington, routing the rebels and capturing Col. Campbell of the 23d Tennessee, two Lieutenants, twenty-five privates and two cannon.

The rebels are reported to be hastily abandoning Louisiana; it is said they are en route for Texas. It is said to be probable that our troops will soon re-occupy Brashear City.

The probability of a change in the Army of the Potomac is again discussed in Washington, and General Sedgwick is named as the coming man.

☞ Capt. Washburn was struck at Port Hudson by no less than five balls, one of which hit and broke his scabbard, another penetrated his baversack and lodged in the thick folds of a towel, a third passed through his blouse, making only a slight abrasion, a fourth entered the right leg, making only a flesh wound, and the fifth produced a compound fracture of the left thigh. Capt. W. belongs in Worcester.

☞ When the explosion occured at Fort Lyon, one of the guards on duty on the ramparts, was thown about 200 yards, carrying his musket with him; he landed on his feet, and as soon as he could collect his bewildered reason, walked back to the fort and took the same post he had so suddenly vacated, and soldier like, with his bent and damaged musket, saluted his superior officer as he advanced to inquire about his wonderful escape.

☞ A New Orleans letter, dated noon 23d inst., says the steamer William Bagley with 600 bales of cotton on board had arrived there, a prize to the U. S. sloop-of war Oneipes, Comd. Gillis, and was captured while attempting to run the blockade at Mobile. Another steamer with 300 bales was captured at the same time and under similar circumstances.

☞ Capt. Worden, commanding the Montauk, and Capt. Dayton who commanded the Passaic in the attack on Sumter on the 7th of April, have both testified in the Stimers court of inquiry, that in their opinion, Dupont had no prejudice against the monitors, that the attack was thoroughly earnest, and that it was not expedient to renew the attack on the following day.

☞ A lady at Orange, N. J., in a letter published in the New York Times, not only confirms the statement of Gen. McClellan's proposal to Gov. Seymour, to talk to the late mob with grape and canister, but she represents him as saying that the draft was necessary to the government, and the power and authority of the government must be sustained. Moreover, he said that it was folly to say that drafted men did not make good soldiers. On the contrary, he said they made the best.

☞ A civil war has broken out in Athens, Greece. Dr. King states, under date of the Fourth of July, that scenes of strife had been commenced in Athens, between citizens and soldiers, and that a truce of forty-eight hours had been obtained. The foreign ministers had threatened to leave, unless the hostilities between the two parties were suspended.

"If I am drafted I shall go!" The last essen of the individual who made this remark, he was going—to Canada.

☞ A gold dollar in Richmond will bring $11 in Confederate paper.

NEW HAMPSHIRE ITEMS.

—— The Laconia Democrat says that the proprietors of the Belknap Mills of that place, are preparing to erect a new mill, to be used for a finishing house for Flannel, Hosiery, &c. The building is to be 80 feet long, 24 feet wide, and three stories high.—They are also putting in the foundation for an addition to their new mill, 42 feet long and 37 feet wide and three stories high. The Belknap Mills, and all the others, are now running full time, and are doing a good business.

—— A party of men attempted to move an iron safe down stairs in Manchester.—They placed it upon the end of a board down which it was to be slid with the aid of ropes, but it got a premature start and went crashing down, staving in the walls of the stairway, giving those in front of it a narrow escape from broken limbs, and brought up at the bottom of the stairs, minus the supports at the bottom, but otherwise uninjured.

—— The General Association of Orthodox Congregational Ministers and Laymen of New Hampshire will commence at Haverhill, August 25th, to continue three days.

—— The Rockingham Association of Universalists will hold their annual meeting on Wednesday and Thursday, August 26th and 27th, at East Kingston.

——The officers of the 13th N. H. regiment have presented Lt. Col. Bowers with a valuable massive gold snuff-box as a token of their esteem.

—— In the 2d Congressional District there are 12,000 names on the list liable to be drafted. The first class contains 8000.

—— Lt-Col. J. C. Abbott, of the 7th Regiment, issued a general order announcing the death of Col. Putnam, in which he handsomely compliments the deceased.

WILD VIEWS.—In articles on the Draft and the War, the Coos Republican [newspaper] intimates that some of its political friends do not approve its course exactly. So we should think, when we read such extracts as these:

"In our article last week upon this subject, we alluded to the future of the war, and said in substance that when the war became one of invasion instead of a war for the preservation of the Government, it was the duty of the people to resist, not by mobs, but by the legally constituted State authorities."

Such talk as this, *led* to the New York mob, and was precisely the doctrine of Breckinridge, Bernet, Vallandigham and company in Congress.

The same paper says, in another part of the same article:—

"We do not advise resistance because the laws do not all suit our particular views, but we do claim that when the State law and that of the general Government come in conflict, the *latter* should *yield*, otherwise we should have no safety."

This is neither more nor less than the grand heresy on which secession was based, on which was piled Rebellion and Civil War. It agrees with the South Carolina platform exactly, but it expressly contradicts the Constitution of the United States, which says:—

"This Constitution and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the SUPREME LAW of the land; and the judges in every State shall be bound thereby, any thing in the *Constitution* or laws of any *State* to the *contrary* notwithstanding."

In charity for the editor, we presume he never read the Constitution. If he ever did,—and holds his heresy in point blank *contradiction* to the Constitution,—let him no longer pretend to be for the Constitution *as it is*, or the *Union* as it was.

The Republican *people* of Coos do not and cannot agree with these wild actions of a so-called Republican paper. U. T.

☞ The N. Y. Tribune's Morris Island correspondence gives the following, which we hope for the credit of humanity, is exaggerated:—

Our loss in the entire late assault on Fort Wagner, according to official report, is 1517. The rebels claim to have buried 650 of them. This extraordinary proportion of killed could only have been reached by the indiscriminate slaughter of our wounded. The officers and men of the 54th Mass. (colored) will not be given up to us, and unofficial reports say the negroes have been sold into slavery, and the officers treated with unmeasured abuse. In fact, all our wounded at Charleston have been treated most barbarously. Opportunities to amputate were eagerly seized on by rebel surgeons, and it was performed in cases of the slightest gunshot wounds.

☞ A Colonel of a Texas regiment, who was mortally wounded at Gettysburg, stated in his last moments to Major Cross, of the New Hampshire 5th, that their regiments were opposed to each other, and that he recognized in Col. Cross, of the New Hampshire regiment, an old friend and companion in Mexican and Texan life, and that he ordered his men not to shoot at him, but both were wounded at about the same time, and died on the battle field.

☞ Fires are raging to an alarming extent in the pine forests near Lake Superior. A large extent of country is on fire, filling the air with smoke for many miles around.

NOTES OF FORMER DAYS.

Collected and Collated —By UNCLE TOBY.

French and Indian War, 1703,—Father Ralle,—Allen,—Fire in Portsmouth with loss of life.

Leaving romance, we come back to sober history.

The peace which succeeded the treaty of Ryswick, continued but a short time. Contentions arose between the French and English as to the extent and boundaries of their provincial territories. The French sent missionaries among the Indians, and supplied them with arms and ammunition. They built a chapel at Norridgewack for their use, which was under the superintendance of Father Sebastian Ralle, a Jesuit, who resided there. He was a man of great address, and by accommodating himself to their mode of life, obtained unbounded influence over them. He instructed them in those doctrines of the Catholic Church which best served to keep them in subjection to him, and availed himself of their propensity to superstition to promote his own purposes. The Indians at Norridgewack, and the neighbouring tribes, were entirely subject to his control, and he followed the directions of the Governor of Canada. Some suspicions of their hostile intentions had taken place, and Governor Dudley determined to visit the eastern country for the purpose of ascertaining the fact. On the 20th, of June, 1703, he proceeded to Casco, accompanied by some persons from both provinces, and there held a conference with the deputies from several tribes. They assured him in their strong and figurative language, that "as high as the sun was above the earth, so far distant was their design of making the least breach of the peace," and that "their union was firm as a mountain, and should continue as long as the sun and moon;" and in token of their sincerity, presented him a belt of wampum. But notwithstanding all these fair promises, on the 10th of August, assisted by the French, they made an attack on the eastern settlements, and "killed and captured one hundred and thirty persons." On the 17th of August they killed five persons at Hampton village. These attacks excited great alarm; the women and children took refuge in the garrisons, and the men went armed to their labor; troops of horse were stationed in this town, to be ready to pursue the enemy in case of another attack. A line of Pickets was established on the west side of the town, which extended from the millpond on the south, to the creek on the north, to defend against incursions of the enemy by land.

On the 26th July, 1703, Usher obtained a second commission, appointing him Lieutenant Governor of New-Hampshire; "but was restricted from interfering with the appointment of Judges or Juries, or otherwise in matters relating to the disputes between Allen and the inhabitants." He returned to this country and took his seat in the Council on the 27th of October. Partridge was present, and the next day requested his dismission on account of the urgency of his private business, which was granted. He removed soon to Newbury, and devoted the remainder of his days to mercantile transactions. Usher was very desirous of having the papers which Pickering had taken from Chamberlayne, deposited in the Secretary's office, and made use of all his address to procure them, but without effect. He supposed that all the papers relating to Mason's suits were among them. The Recorder was appointed by the Assembly and entirely under their control. He would not deliver any papers but by their directions. Usher applied to the Lords of Trade, and obtained their order for their removal to the Secretary's office, which he produced on the 4th of November. Penhallow was at this time Recorder, as well as Counsellor. Application was made to him for them, but he absolutely "refused to deliver them unless authorized by a vote of the General Court."

Late in December, Allen entered upon and took possession of all the common lands within the boundaries of the several townships, under pretence of license from the Queen; and he commenced his actions anew to determine his title to the improved lands.

Allen's suit was depending before the Superior Court at August term, 1704, and the Court was adjourned several times that Governor Dudley might be present at the trial. The Governor however was taken sick on the road, and the trial proceeded without him. The Jury found a verdict for the defendant, and judgment was rendered thereon; from which Allen appealed to the Queen in Council. Both parties grew tired of this continual litigation, and propositions were made for a settlement; Allen offered to convey his right upon very advantageous terms.

The last of October, 1704, the Rev. Mr. Rogers' house accidentally took fire in the night, and was entirely consumed together with most of his furniture. Mrs. Ellison, the aged mother of Mrs. Rogers, was so much burnt that she survived but a few weeks. A female infant child of Mr. Rogers seventeen months old, and a negro woman, perished in the flames.

At a meeting of the selectmen on the 4th of November, they "agreed to give the Rev. Nathaniel Rogers, who, by the Providence of God, lost his house and substance by fire, eight pounds a year for house-rent till such time as he should be otherwise provided for."

On the 28th of April, 1705, the town voted to assist Mr. Rogers in building a house upon his own land, and promised to give him one hundred and fifty pounds if he would relinquish all demands he might have on the town for house-hire, in consequence of their former vote, to which Mr. Rogers agreed. At the same meeting the town voted to divide the twelve acres of the glebe, situated near the parsonage-house, into lots, and to lease out the same, appropriating the rents for the benefit of the minister, reserving convenient places for a meeting-house, court-house, almshouse, and burying-ground. And to this vote Mr. Rogers also gave his assent.

FOR THIRTY DAYS ONLY!

Great Closing out Sale

JOS. B. ADAMS, Auct.
Portsmouth, July 30, 1863.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Flood Wheel. Also will be sold a lot of Pulleys, Gears and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. BACKETT.

Portsmouth, N. H., July 28, 1863.

MOCHA AND JAVA COFFEE.

From the Celebrated Berry Mills, Lynn, Mass.)

This **SPLENDID ARTICLE** of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, O. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jn23eplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so generously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose does not exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by comparing it to lost them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

SHIP LAUNCH.—There will be launched from the yard of Messrs. Tobey & Littlefield to-day, Saturday, at half-past one o'clock P. M., a fine ship of about 1050 tons, unnamed and unsold.

She is intended for general freighting business; is modeled for capacity, beauty and speed; built of white oak, a great part of which is the growth of New Hampshire, a guarantee of strength and durability to the ship.

The productions of Messrs. Tobey & Littlefield are equal to any in the world, and as each vessel is designed to be better than the preceding one, this ship must stand at the highest rate,—too valuable to remain long idle at the wharf. It is quite likely that some parties (perhaps in this city) have ere this time decided to purchase her.

☞ A dispatch received in this city on Thursday evening stated that Mr. Alfred S. Laighton, youngest son of Charles E. Laighton, Esq., of this city, died in hospital in Washington, July 29. He was a member of the 2d Regiment, Massachusetts Cavalry, having enlisted in San Francisco in the famous California Hundred, which came to Boston and joined that regiment. He was 19 years of age, and a young man of good promise.

☞ Capt. Charles H. Long, at Fort Constitution, has received authority from the Governor to enlist another company of 140 men, for the defence of Portsmouth harbor.

FOG-SIGNAL AT WHALE'S BACK LIGHT-HOUSE.—A fog-bell, struck by machinery, has been established at Whale's Back Light-House Station, and will be kept in operation from and after August 1st. The bell tower is a frame structure 25 feet high, whitewashed, standing upon the Light-House pier, and attached to the southerly side of the Light-House tower.

The signal is a steel bell, which will be struck four times per minute, at regular intervals, during the prevalence of fogs, snow storms and thick weather, and should be heard a distance of one-quarter to four miles, according to circumstances of surf, weather, wind, &c. The bell stands at an elevation of fifty- five feet above mean low water.

☞ The Secretary of the N. H. Soldiers' Aid Society, at Washington, in his report of contributions recently received, thus refers to the success attending the patriotic efforts of some little girls in this city in June last:—

From Portsmouth a box is received, containing a great variety of the choicest delicacies ever yet received by the Association. Their value is estimated at $60. They are thankfully accredited to the singularly thoughtful and beneficent industry of "two little girls of about eleven years of age"—Misses Lilla M. Benham and Nellie Jones. Assisted by Miss Mabel Shores and others, they held a Misses' Fair, the result of which is this rich collection and donation. They send it hoping—as they have in word and deed expressed it—"to relieve some of the many wants of the sick soldiers who have fought for our country and its flag." To these "little girls" who have thus so commendably begun *life* as public benefactresses, may that flag and country always afford a safe and happy home.

"That man may last,
But *never live*,
Who much receives,
Yet nothing gives;
Whom none can love,
Whom none can thank,
Creation's blot,
Creation's blank."

☞ It is difficult for a criminal to escape the keen eye of an experienced officer, as was well shown by the detection and arrest of five deserters on board the first train from Portland to this city on Friday morning. Marshal Heald, of Portland, happened to be on the train, and observed some men enter the cars at Wells, whose dress and action aroused his suspicions. He accordingly entered into conversation with one of them, who stated that he had sold his coat to obtain money to pay his fare, and had but ten cents left. The Marshal, however, persuaded him to go into a saloon, and on searching him found he had about $150. Tho' he denied that he had any companions, the Marshal found four others.—He brought them all to this city and placed them in the Station House. The five had a large sum of money, which they had received from drafted men in Portland, under promises to act as substitutes. They deserted at night and walked to Wells, having obtained citizens' clothes.

☞ Mr. A. M. Prentiss, of Bangor, and Richard H. Derby, of Boston, arrived in Bangor Tuesday evening, in a couple of wherries which they had rowed every inch of the way from Boston. They followed the coast, making the distance rowed something over three hundred miles. Notwithstanding the bad weather and fogs, they made the journey in twelve days, rowing from Camden to Bangor (50 miles) the last day. They are Cambridge students.

☞ John Morgan, of Ryegate, Vt., who fought bravely in the Mexican war, and who has four sons now in the army, enlisted last week.

☞ There is a second advent preacher in Chicago who declares that the end of all things will occur in 1868.

☞ The New York Post states that none of the original drafting lists were either lost or destroyed during the riots in that city, and that the draft when made will be completed from those lists.

SINGING.—Mr. Davis' Classes in this city have been quite successful; and he has been well received by citizens interested in musical education, especially of the young. The first half of the Term closed with the lesson on the 29th inst.; and we are author zed to state, that Tickets for the coming half-term may be had at Mr. Head's, for half the full term price. This affords a fine opportunity for singers to enjoy good practice. For particulars of the School, see the advertisement on our fourth page.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. Jn20

DEATHS.

In this city, July 30th, MRS. SARAH A. BROWN, aged 26 years, wife of Augustus R. Brown.

Funeral this, Saturday, afternoon, at 3½ o'clock, from her late residence, No. 5, Howard Street.—Friends are invited.

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout, with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.**

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer unknowns to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In the Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Skin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been noted in more than 30,000 cases annually, with immense success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to him, have been restored to health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

THE ALL SUFFICIENT THREE,

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,

A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good *for Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System.	Flushing of the Body,
	Eruptions on the Face,
	Pallid Countenance.
	Hot Hands,
	Dryness of the Skin.

These symptoms, if allowed to go on, which is remediable invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS, In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness of the truth of the assertion.

THE CONSTITUTION ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is recommended by many other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in Age.

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases

In all their stages, at little expense; little or no change in diet; no inconvenience,

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF
QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poisons" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC.

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

Morning Chronicle.

FANNY KEMBLE'S JOURNAL.

THE NEGRO HOSPITAL ON HER HUSBAND'S PLANTATION.

The infirmary is a large two-story building, terminating the broad orange-planted space between the two rows of houses which form the first settlement; it is built of white-washed wood, and contains four large-sized rooms. But how shall I describe to you the spectacle which was presented to me on entering the first of these? But half the casements, of which there were six, were glazed, and these were obscured with dirt, almost as much as the other windowless ones were darkened by the dingy shutters, which the shivering inmates had fastened to in order to protect themselves from the cold. In the enormous chimney glimmered the powerless embers of a few sticks of wood, round which, however, as many of the sick women as could approach were covering, some on wooden settles, most of them on the ground, excluding those who were too ill to rise; and these last poor wretches lay prostrate on the floor, without bed, mattress, or pillow, buried in tattered and filthy blankets, which, huddled round them as they lay strewed about, left hardly space to move upon the floor. And here, in their hour of sickness and suffering, lay those whose health and strength are spent in unrequited labor for us—those who, perhaps even yesterday, were being urged on to their unpaid task—those whose husbands, fathers, brother, and sons were even at that hour sweating over the earth, whose produce was to buy for us all the luxuries which health can revel in, all the comforts which can alleviate sickness.

I stood in the midst of them, perfectly unable to speak, the tears pouring from my eyes at this spectacle of their misery, myself and my emotion perfectly incomprehensible to them. Here lay women expecting every hour the terrors and agonies of childbirth, others who had just brought their doomed offspring into the world, others who were groaning over the anguish and bitter disappointment of miscarriages—here lay some burning with fever, others chilled with cold and aching with rheumatism, upon the hard cold ground, the draughts and dampness of the atmosphere increasing their sufferings, and dirt, noise, and stench, and every aggravation of which sickness is capable, combined in their condition—here they lay like brute beasts, absorbed in physical suffering, unvisited by any of those Divine influences which may ennoble the despondence of pain and illness, forsaken, as it seemed to me, of all good; and yet, O God, Thou surely hadst not forsaken them! Now pray take notice that this is the hospital of an estate where the owners are supposed to be humane, the overseer efficient and kind, and the negroes remarkably well cared for and comfortable. * * *

I passed on to the other room on the ground floor, and to the two above, one of which is appropriated to the use of the men who are ill. They were all in the same deplorable condition, the upper rooms being rather the more miserable, inasmuch as none of the windows were glazed at all, and they had, therefore, only the alternatives of utter darkness, or killing draughts of air from the unsheltered casements. In all, filth, disorder and misery abounded; the floor was the only bed, and scanty, begrimed rags of blankets for covering. I left this refuge for Mr. ——'s sick dependents with my clothes covered with dust, and full of vermin, and with a heart heavy enough, as you will well believe.

Our author complained to the overseer about the uncleanly condition of the children, and the allegation of the mothers that they had not time to keep them clean—with this result on her husband's plantation, be it remembered:

WOMAN FLOGGING.

This morning I paid my second visit to the infirmary, and found there had been some faint attempt at sweeping and cleaning, in compliance with my entreaties. The poor woman Harriet, however, whose statement with regard to the impossibility of their attending properly to her children had been so vehemently denied by the overseer, wearying bitterly. I asked her what ailed her, when more by signs and dumb show than words, she and old Rose informed me that Mr. O—— had flogged her that morning for having told me that the women had not time to keep their children clean. It is part of the regular duty of every overseer to visit the infirmary at least once a day, which he generally does in the morning, and Mr. O—— visit had preceded mine but a short time only, or I might have been edified by seeing a man horsewhip a woman.

WHAT DEEDS SOUTHERN IMPERIOUSNESS.

I do not think that a residence on a slave plantation is likely to be peculiarly salutary to a child like my eldest. I was observing her to-day among her swarthy worshippers, for they follow her as such, and see, with dismay, the universal experience with which they spring to obey her little gestures of command. Shewed something about a rattling, and in less than five minutes bead man Frank had erected it for her, and a dozen young slaves were ready to swing little 'Missis.' —— Think of learning to rule despotically your fellow creatures before the first lesson of self-government has been well spelt over! It makes me tremble; but I shall find a remedy, or remove myself and the child from this misery and ruin.

☞ The American Telegraph Company has determined to take into its offices, instruct in the art of telegraphing, and give positions to worthy and intelligent discharged soldiers who have been disabled from further service by severe wounds, such as the loss of a hand, an arm, or a leg.

☞ The Fayetteville, (N. C.) Observer, insists that C. Morris, President of the Telegraph Company, should dismiss the enterprising reporter who invented the story of Gen. Lee taking 40,000 prisoners at Gettysburg.

Singing Schools.

MR. BENJ. B. DAVIS, of Concord, at the request of many citizens of Portsmouth, respectfully announces that he is now conducting a Juvenile and an Adult class in Singing at

MERCANTILE HALL, Portsmouth,

Each Wednesday Afternoon and Evening.

The Juvenile Class at 5 o'clock, the Evening Class for adults, at 8. The rudiments are taught, and also practice in singing, in both schools.

TICKETS for the Juvenile School, $1.50, may be had at MR. HEAD'S Book and Music Store, and at the Hall. Also the Book used, "The Nightingale," price 50 cents. Parents and others interested, are invited to visit the Juvenile class at any time.

TICKETS to the Evening School, $1.50, may be had at the music store, and at the door. Also the Book used, "The Sacred Star," price 75 cents. Per order Committee Arr.

Portsmouth, June 24, 1863.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed in curing, and which, if used, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impotence, Incontinence, Secretion, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the bladder and kidneys, Stricture, Seminal Weakness, Nocturnal Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest sitings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of this dreadful disease, which causes solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. The mind is the first to suffer, the effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Irritability, Pimples on the face, Pain in the side, Symptoms of Consumption, &c. The mental effects on the mind are much to be dreaded, Loss of memory, Confusion of ideas, expression of spirits, even forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced by this baneful habit. Persons contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your complaint. Medicines for sale the French Capotes, warranted the best preventatives. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, a regular graduate of Boston, No. 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Irregularities, Obstructions, Painful Menstruation, Inflammation, and other menstrual derangements, are all treated upon new and original principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the patient never once experiences perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding and accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE.

in all cases. No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. at home, upon all difficult and chronic diseases, and the success attending his long and unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to take advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7, Endicott street, Boston. Those who need the services of a skillful physician and surgeon should give him a call.

☞ S—Dr. Dow imports and has for sale a new article of Spanish Fly Ointment for sale. Order by mail. Two for $1 and a red stamp.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be from WHEAT AND MALTED GRAIN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has secured the

General Selling Agency for a large Distillery in Bourbon County,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from WHEAT AND MALTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for the sale, at 21 Washington St., Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

RICHARDS, Sole General Agent.

Boston, May 17, 1863. 3mos eod

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic and Quackery error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, as the only means by which such complaints can be effectually cure, was the point made in this Universal preparation. To prevent setting attention to long stories of great cures, and to long descriptive technicalities, I would say confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declaration by true results.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and, the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea kettle combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension shelves, is a large copper Reservoir for hot water; also a large tile warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of ashes as the sales is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove. Its popularity in families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

MAGEE COOK.

Also on hand an assortment of the different sizes of the

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT" VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about

Remodelling or erecting buildings

to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat through the smoke pipe or chimney.

To accomplish this many complicated and expensive heaters have been invented, and constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the action of cold air through the fire-pot, which ignites them as they pass off from the cool, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases or heat of the fuel, which is a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are to be found in other Furnaces, and thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equals. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shaw, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known metal.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by fulling out the depression—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. The teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. Which all agree is better, as we have in few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had many years experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon to King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

VOL. 23. PORTSMOUTH, N. H. MONDAY AUG. 3, 1863. NO. 28.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

PATRIOTIC AND FAITHFUL REGULARS. For several days there have been in New York City several soldiers belonging to the 8th regular infantry of the United States. Readers familiar with the history of military movements in Texas since the outbreak of the Rebellion, will remember that two hundred and seventy of these patriotic and gallant men were stationed in Texas, and that their officers deserted to the enemy, but these men with their sergeants, Harlss, Darken, Neal, Sheble, Reinhardt, McCormack, Brady and Stapleton, were true to their country as the dial to the sun; they were alike insensible to flattery, bribery, promises of promotion, abuse and efforts of intimidation. "Faithful among the faithless," they stood by the Stars and Stripes—subjected to hardships and privations that "try men's souls," never deviating a hair's breadth from the direct path of duty and loyalty for the two years of their imprisonment.

They were recently exchanged. When we contrast their fidelity and patriotism with the treason of their officers, it seems impossible to overestimate their merits.—They deserve to be the guests of the nation, and their loyalty should be recognized by a public reception. They represent the common people—the bone and sinew—the backbone and the heart, if not the brain of the community. They were unconditionally given up to the rebel authorities by their superior officers on the 9th of May, 1861, and separated into squads and sent away to different points on the frontier of Texas.—There they were scantily supplied with rations and clothes, compelled to perform the most abject and humiliating labors, deprived of their pay, and often furnished with stripes and chains.

Recruiting officers from the rebel ranks frequently visited them, offering large bounties and commissions if they would desert their flag. They spurned the offer and remained true to their country. These officers failed to seduce them. The gilded bait of secession did not tempt them from the path of duty. Such patriotism and unfaltering fidelity merits recognition. Not a man of them voluntarily left his post.

Their officers had been educated, fed and clothed at the expense of the government they betrayed and deserted. *They* claimed to be gentlemen of culture and high position, and looked upon these men as "mudsills" and plebeians whom they could control by the mere force of will. They were mistaken. Our common sailors and soldiers are distinguished for love of country and their fidelity to its flag. We cannot value too highly the patriotism of these men—their deeds are worthy of honorable record, and their example should be held up for others to emulate. They are doing guard duty in New York. They have not been recognized. They have not received that meed of praise to which they are entitled.

To the above statement, which we copy from the New York Tribune, we would add, that these men not only deserve the praise which the people and the newspapers can give, but also *promotion*, which the government alone can give. Every one of these Sergeants should be a Lieutenant forthwith; every fit private a sergeant.

Promotion from the ranks is the true policy.

☞ A thousand tailors paraded the streets of New York the other day. They carried banners, wore badges, and were headed by a band of music.

HERE'S HEALTH FOR THE MILLION!
DR. CLARKE'S
SHERRY WINE BITTERS!
Palatable and Healthy.
Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.
Preserved in the best Sherry Wine and Whiskey
Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.
They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.
N. B. If you wish a good Bitter, *Call for Clarke's, and take no other.*
Beware of all imitations, as they contain vile drugs and cheap poisonous liquor, which will destroy your health and life quicker than disease.
Our system is to keep up the quality and make the price in proportion.
Sold by druggists, grocers, hotel-keepers and dealers generally.
Manufactured by E. R. CLARKE, Sharon, Ms.
Price only 88 cents for the Trial Bottle, 50 cts. for one quart, $1 two quarts, $1 50 four quarts.
Sold in Portsmouth at wholesale and retail by N. F. MATHES, 36 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

STANDARD ARTICLE!

Rates of Advertising,
IN THE DAILY CHRONICLE.
For 1 "SQUARE" of 800 ems nonpareil type, equal to 12 lines or 80 words (☞ words averaging a little more than by measure—one insertion 50 cts., three insertions $1, each subsequent insertion 25 cts.; $3 for a month, $5 for three months, $8 for six months, $15 per year. For inside advertising, per month or year, one-half more.
For a Column (18 Squares) per year, inside $200, outside $150.
Transient advertisements, for alternate insertions, charged one-half more per insertion. By the month or year, advertisements for every other day charged one-third less than full rates.
Cuts charged double their measure, and inserted on fourth page only.
Advertisements in large, reading matter type, charged double per Square, the smaller type.
"Special Notices" double the common rates.
Loaded notices in editorial columns, 10 cents per line, each insertion; and no statements so inserted or opinions, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.
Solid notices in reading matter type and columns, and having "credit" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.
Notices of Funerals, articles Lost and Found, &c., 50 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for; and a similar fee will be accepted when proffered.
☞ All papers more than one copy per week, sent to advertisers, will be charged for.
Probate Notices and other Legal advertising at regular rates.
Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.
Portsmouth, N. H., Jan. 1, 1863.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, AUGUST 3, 1863.

THE REBELLION.

Lee on Wednesday massed his forces at Culpepper, and made other preparations to give us battle on the Rappahannock.

Correspondents give a report that our troops occupy the heights in the rear of Fredericksburg. Gen. Schurz denies that the eleventh corps is disbanded.

Moseby's cavalry on Thursday night captured a number of wagons loaded with goods, at Fairfax Court House.

The N. Y. Daily News says all the transports at Fortress Monroe are engaged in conveying troops to Gen. Gilmore at Morris Island. A steamer, arrived at New York, brings Charleston dates to July 29, on which day two Monitors and the Ironsides were engaging Fort Wagner. Gen Gilmore had succeeded in erecting a large line of batteries within 200 yards of Wagner. He had also mounted 3 heavy siege guns within one mile and a quarter of Fort Sumter, which were to open fire on Sumter the day the steamer left. Gilmore was confident that, when he mounted his heavy siege guns, he would soon reduce the Fort. Casualties on our side small.

Gen. Blunt crossed the Arkansas on the night of the 16th, and after a severe fight at Elk Creek, about 21 miles from Fort Gibson, routed the enemy. He captured 3 stands of colors, 2 howitzers, and over 60 prisoners. The enemy's loss was 200 killed, and between 300 and 400 wounded.—Our loss is trifling—not over 10 killed and 25 wounded. The enemy burned a large amount of commissary stores, gathered in their warehouses.

Our forces had a fight with the rebels at Lancaster, Ky., on Friday morning: the rebels lost 20 killed and wounded, and nearly 100 prisoners. A rebel force, 500 strong, took Stanford, Ky., about noon on the same day, but were driven out by our cavalry with considerable loss, and at last advices were hastily retreating towards Cumberland river.

The N. Y. Express says officers from Gen. Grant's army assert that an immediate advance is to be made on Mobile.

The New Orleans Era states that Brashear City surrendered on the 22d to the gunboat Sachem.

Sunday's dispatch stated that the President had authorized the issuing of an order stating that the Government would retaliate strictly and promptly for all instances of cruel treatment of negroes taken prisoners by the rebels,—by hanging for hanging, shooting for shooting, &c. A cavalry force had retaken all the wagons, goods, &c., captured by Moseby at Fairfax Court House.

☞ Dispatches from St. Paul say that reports from Capt. Fisher's expedition state that positive information has been received of the complete dissomfiture of Little Crow and the desertion of all his followers but sixty, and his flight to the Yellowstone, beyond the Missouri. Other chiefs are awaiting the opportunity to surrender themselves and their warriors.

☞ It is proposed by some eminent citizens of Philadelphia, to have the bells rung and cannon fired in the daytime, with a general illumination of public and private buildings at night, on Thursday, Aug. 6, the National Thanksgiving Day.

☞ The New Orleans correspondent of the New York World says there are not wanting rumors, widely current since the arrival of Gen. Franklin, that Gen. Banks labors in that Department are about to close.

☞ At the Municipal Court in Portland on Friday, Peter Lolyuos, an Italian, a pedlar of caps, was brought upcharged with an assault on his wife, who interfered to prevent her husband from insulting a colored woman, and thereby got a clip from him. He was let off with a fine of one dollar and costs, which he paid. The parties have been married but six weeks.

☞ Late Japan dates state that Yeddo has been burnt by the French squadron. Thousands perished during the bombardment. Nagasaki has been sacked by the English, with horrible slaughter.

☞ At the International Exhibition at Hamburg, Germany, a Mr. Cambell, of Vermont, took three premiums for sheep, and McCormick got the gold medal for his reaper.

☞ A resolution is pending before the New York Common Council appropriating $50,000 to rebuild the Colored Orphan Asylum which the mob destroyed.

☞ Commissioner Dole will this month visit Kansas to make arrangement for the removal of the Indians from that State, as provided for by act of Congress.

☞ Pensacola is desolate, grass and weeds growing all over the place, which has now but four or five families living there.

☞ Morgan and his officers are in the Columbus Penitentiary, confined according to the rules of that institution.

☞ A post office has been opened at Port Hudson.

President Madison on Enforcing a Draft.—In 1814 President Madison thus disposed of the alleged unconstitutionality of a draft:

"The idea that the United States cannot raise a regular army in any other mode than by accepting the voluntary service of individuals, is believed to be repugnant to the uniform construction of all grants of power, and equally so to the first principles and leading objects to the Federal compact. An unqualified grant of power gives the means necessary to carry it into effect. This is an universal maxim which admits of no exception. Equally true is it that the conservation of the State is a duty paramount to all others. The Commonwealth has a right to the service of all its citizens, or rather the citizens composing the Commonwealth have a right, collectively and individually, to the service of each other to repel any danger which may be menaced. The manner in which the service is to be apportioned among the citizens, and rendered by them, are objects of legislation. All that is to be decided in such case is the abuse of power, and happily our Constitution has provided ample security against the evil.

But it is said by drawing the men from the militia service into the regular army, and putting them under regular officers, you violate a principle of the Constitution, which provides that the militia shall be commanded by their own officers. If this was a fact, the conclusion would follow. But such is not the fact. The men are not drawn from the militia, but from the population of the country; when they enlist voluntarily, it is not as militia men that they act, but as citizens. If they are drafted it must be in the same sense. In both instances they are enrolled in the militia corps, but that, as is presumed, cannot prevent the voluntary act in the one instance, or the compulsion in the other. The whole population of the United States, within certain ages, belong to these corps. If the United States could not form regular armies from them, they could raise none at all."

President Madison was, like Washington, one of the framers of the Constitution,—and probably knew as well what it meant, as any blockhead or pettifogger of to-day.

☞ A Washington correspondent states that the peace intervention satires, got off in the New York papers, purporting to come from Washington, neither go by telegraph nor the mail, but are made up out of whole cloth for mischievous purposes. Not a word about peace, save unconditional submission of the rebels, has ever been broached in the Cabinet. The stories of foreign recognition, etc., are equally untrue. The simple fact is, that our relations abroad are pronounced eminently satisfactory. If we succeed in breaking up that nice arrangement which allows rebel vessels to leave England, everything will go on very favorably, unless, perchance, the French success in Mexico bodes no good to us.

☞ A German judge was arrested in Brooklyn, N. Y., on Tuesday, at the complaint of a beautiful woman whom he had persuaded to leave her husband and come to this country with him, arriving here three weeks ago. Johanna, filled with remorse at her guilty conduct, desired to return and seek forgiveness, but her judicial lover loaded two pistols and swore to kill her if she attempted to leave him. Hence the arrest. As circumstances proved that the judge had murder in his heart, he was locked up until the woman can leave by the next steamer.

☞ For sanitary reasons no corpses will be allowed to be disinterred from the burying ground at Gettysburg, during the months of August and September. The health of wounded soldiers and citizens requires it. Arrangements have been made to purchase part of the battlefield at Gettysburg for a cemetery, in which it is proposed to gather the remains of our dead. The ground embraces that part in which the desperate attack was made on the left centre of our army. Eight other States have already united with Pennsylvania in the project.

☞ The Tribune has a letter, dated Richmond, Va., 16th, stating that the late mission of Alex. H. Stephens was to prevail upon our government to desist from arming the negroes, or they would retaliate by arming and organizing all the slaves in the South to operate against our armies, under their masters as officers. The letter denies that any negroes have ever been armed by the rebels, and states that those which have been captured by us, have been found in breastworks and in the trenches, with spades and picks only in their hands; and that all others have been merely body servants of officers and others. The letter is an extraordinary one, and may convince fools.

☞ The Christian Examiner mentions as a remarkable and pregnant fact, that in the splendid army of world-renowned German writers, who in the last hundred years have so gloriously adorned and illustrated almost every field of human thought, and fancy, and research, there was not one who was not born and educated as a Protestant.

Now that we have gained accurate information about the results of Grant's exploit, it increases on us. It is fully equal to Waterloo, superior to Austerlitz, superior to Jena (with Port Hudson and Helena, somewhat superior to Jena and Auerstadt—fought on the same day), and only surpassed by Ulm. If Grant and Banks can get hold of eight or ten thousand more, Ulm will be equalled.—*Boston Post.*

NEW HAMPSHIRE ITEMS.

—— Rev. Pliny B. Day, of Hollis, has been chosen Trustee of Dartmouth College. He has accepted.

—— Nearly all the dealers in dry goods, groceries, hats, caps, and shoes, and the merchant tailors, jewellers and milliners, in Concord, have agreed to close their places of business on the evenings of Tuesday, Wednesday, Thursday and Friday, at half past 7. The arrangement is made for no definite period.

—— A woman calling her name Mathews, has been imposing on some of the citizens of Manchester by representing herself the widow of a soldier, having several children dependent upon her, one of which, a sick child, she carried with her.

—— The new hotel in Plymouth is nearly completed, and will be "dedicated" in about two weeks. It is erected on the site of the old Pemigewassett hotel, and is 210 feet long by 45 wide, with a wing 125 by 50 feet, the whole three stories high, with basement and attic. In the basement of the wing is the depot of the Boston, Concord and Montreal railroad. The house is owned by an incorporated company of the same name as the house. It is to be kept by Mr. John S. Thompson, of Laconia, and Mr. Greely, former landlord of the old house.

—— A little child, about four years old, died very suddenly in the cars on the first train from Boston for Lawrence, Mass., on Thursday morning, while on its way with its mother to Salem, this State, where the family reside. The child was sick, but no apprehensions were felt of so serious a result.

—— The Nashua Telegraph states that the past quotas due from Nashua amount to 666 man, and its proportion under the present draft is 253: total 919. But that patriotic city has already furnished 973 volunteers, leaving the handsome surplus of 54 to her credit for future contingencies.

—— The editor of the Nashua Telegraph has received a remarkable egg. He declares "that it measures nine inches in circumference one way and seven the other, the longest diameter being three inches and a half; and that the hen which claims a semi-maternal interest in the production, weighs four pounds, while the egg weighs five ounces." But as the editor aforesaid claims for the hen only a "*semi*-maternal interest," we infer that it took two hens to lay that egg.

—— Fred Hinkley, about twelve years old, son of Mr. Daniel Hinkley of West Lebanon, had his right hand cut nearly off in a hay cutter, on Wednesday.

—— The N. Y. Post's Washington despatch says: "The 5th New Hampshire regiment, (late Col. Cross's,) left on Thursday for that State, for the purpose of escorting drafted men to the army."

—— The town of Hampton has voted to give conscripts $300 each.

—— On Friday night a barn in Exeter belonging to a man known as "Whitehorse" Bennet, was destroyed by fire, with its contents, including the old white horse and a yoke of cattle. Mr. Bennet is a poor man and can ill afford to bear the loss.

—— The stable connected with Whitcomb's Hotel, at Hampton, was burned on Friday night with its contents, eighteen tons of hay. A man named Crane was burned in the stable.

Burnside and Judge Taney, on Habeas Corpus.—General Burnside has issued a general order, commanding officers in the Department of Ohio, in case of a writ of habeas corpus issued from State Courts, for persons in official military custody, either as spies, deserters or otherwise, to make a respectful return to the writ, setting forth, first, that the respondent is a military officer, duly commissioned; second, the reason why the prisoner is held in custody; third, that the production of the prisoner would be in violation of orders from a superior authority; fourth, that he is held under authority of the United States, and that the officer does therefore respectfully decline to produce him before the State Court or Judge.

This order of Gen. Burnside is in strict, literal, and exact conformity with the *unanimous* decision of the United States Court on the subject of habeas corpus in cases where the prisoner is held in custody under United States authority. The decision referred to was delived by Judge Taney!

It is the duty of an officer, says the Court, in such cases, "*not to take the prisoner, nor suffer him to be taken, before a State Judge or Court upon a habeas corpus issued under State authority.*" And as if that were not emphatic enough, it is added that if any State authority attempts to take the prisoner from the custody of the United States officer, "*it would be his duty to resist it*, and to call to his aid any force that would be necessary to maintain the authority of law against ILLEGAL INTERFERENCE."

In order to attack Gen. Burnside in this case, assailants must also attack Chief Justice Taney and the United States Supreme Court.

☞ Dispatches state that the draft in New York City is to be re-commenced today, (Monday,) but the N. Y. Post denies that orders have been received.

☞ A white man has been accepted as a substitute for a negro in Alleghany Co., N. Y. It seems that if a black man may hire a white man for a substitute, a white man ought to be allowed to hire a black man for a substitute. It is a poor rule that won't work both ways.

☞ A cow fiercely attacked a little boy, in Troy, N. Y., who was amusing himself by chasing the young pigs, and bit him in the calf of the leg. A neighbor saved him from serious injuries.

☞ A private letter received at Boston from Port Hudson, says that Capt. John L. Swift, of the Forty-first Mass. regiment, was captured before Port Hudson by a rebel force about six weeks ago.

☞ The Third Congregational Society of Biddeford are about to erect a new and elegant church edifice, the tower of which is to be 150 feet high.

☞ Two sons of Gen. Meade were drafted in Philadelphia on Friday.

Wanted.

A SMART LIVE BOY, about 15 years old, to tend Store at No. 44 Market Street—one of correct habits, and who wishes to go right ahead in the Grocery Business.

Portsmouth, N. H., July 30, 1863.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

The MILL PRIVILEGE and appurtenances with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Gears and other Iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, previous to the late fire, when the mills were destroyed, for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 28, 1863.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose which, not exceeding one, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

DR. JOHN C. MOTT,
Physician and Surgeon,

☞ 26 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions. Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases—Medicines entirely vegetable. Advice gratis.

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno Staw

Local.

☞ We guess somebody has hit the copperhead organ in this city,—from the way it "squeaks." It improves our very possible misprint of Thursday for Tuesday, (we don't care enough about the matter, to look at our files to see whether we made it or not,) to charge the Chronicle with telling "two stories" about that Fort raid, &c. Rather a small straw, that—and too small game for us to chase, the whole of it. We have better business than political slang-whanging.

NEW BOOKS BY MR. JAS. H. HEAD.—We learn that Mr. Head has been at work for the last two months on an interesting work for the reading public, which will be soon completed and issued for the coming Fall book sales. His work on Floral Architecture, which has already taken three years' time to write and design, will also be ready for the printers at about the same time.

☞ A private letter from a member of Capt. Thacher's Company, K, 16th N. H. Regiment, mentions that Capt. T. came up from New Orleans June 29th, after an absence of two months from the regiment, on account of sickness. Since the company left Butte a la Rose, it had lost five more men by death,—Robert Smart, James Smith, John Leary, and H. M. Carter, of Portsmouth; and Theodore Fisher, of Hampton. These made ten deaths in the company since they had been in Louisiana.

The letter states that since the surrender of Port Hudson, there had been considerable talk among the soldiers about going home, as it had been generally supposed that as soon as that stronghold fell, the nine months' troops would be sent home as fast as their time expired. The 16th regiment's time would be out July 25th, as it was generally understood, although some contended that their time would not expire until Aug. 19th. It was rumored that they would be sent up the Mississippi when they did return.

☞ Acting Ensigns Charles E. Beck, of this city, Alonzo Small and Robert Merchant, and Acting Master's Mates Thomas Welch, Warren S. Cammett, and E. M. Hensley, have been ordered to the U. S. frigate St. Lawrence, now fitting out at the Portsmouth Navy Yard.

☞ About the nicest *looking* box of red raspberries we ever saw, were sold at H. M. Clark & Co.'s, on Saturday—before we got there, we are sorry to say. They were cultivated in the garden of Mr. A. M. Hoyt, on Pleasant street.

☞ Mr. Ephraim C. Pickering, of Newington, Co. F, 7th N. H. regiment, was severely wounded in the assault on Fort Wagner, and taken prisoner. He still was in the hands of the rebels at the latest accounts.

☞ Tobey & Littlefield's new ship was launched in their usual fine style, from the yard at Noble's Island, Saturday afternoon. She is a beauty, and sat the water as if she had always been used to it.

☞ The hay-maker who can keep either his grass or his temper from spoiling, this season, must be a philosopher or a christian, or both. April has continued till August, or dog-days began in June. We have had showers almost daily—hourly—for the past month. Mike's sprinkler is of no account, and hay-caps and balmorals have riz.

POLICE COURT, Friday, July 31.—Margaret Quinn, for being a common drunkard, was sentenced to the House of Correction for 30 days, and to pay costs, $4.80.

Frank Donnelly, for being drunk, was fined $1 and costs, $3.86.

John Norton, an Irishman, same offence, fined $5 and costs, $3.86.

Saturday, Aug. 1.—Jefferson C. Brown pleaded guilty to a charge of being drunk, and was fined $1 and costs, $3.69.

John Keeth pleaded guilty of same offence, and was fined $1 and costs, $3.86.

Peter McGlone, for being drunk, was fined $1 and cost, $3. 69.

James McGrota, same offence, was fined $1 and cost, $3.69.

☞ The Navy Department advertises for proposals for revolving turrets for vessels to be built at New York, Philadelphia, Boston and Portsmouth.

☞ The town of York voted, on the 25th inst., to pay $300 to each drafted man who shall pass examination, when called to be mustered into the U. S. service. Drafted men who choose to go into the United States service have $300 each.

DEATHS.

In Newington, on Sunday, Aug. 2d, very suddenly—WINTHROP PICKERING Esq., aged 64 yrs., 6 mos. He had been in poor health for some time, but visited this city on Saturday, and was apparently as well as usual, and was out about his farm on Sunday morning, but died in the afternoon.—Mr. P. was well known as a democratic politician of some note, and had filled various positions of trust in his native town of Newington—as Selectman, and Representative to General Court among others, we believe, and was one of the Inspectors of the Customs at this port, under Polk's administration we think. He was never married, and was one of the farmers of the old school.

The Funeral services will take place at the Church in Newington, on Tuesday afternoon at 3 o'clock—to which, relatives and friends are invited, without other notice.

WHO WILL BUY THEM?—It is reported that the rebel authorities at Charleston propose to sell at auction some colored Union soldiers captured by them during the recent assault on Fort Wagner. No doubt they are capable of such an outrage; but who is going to buy these colored soldiers? What planter will be silly enough to place a member of the 54th Massachusetts Regiment on his plantation? A slaveholder would as soon buy one of these colored prisoners of war to cut him up and eat him, as to place him in a slave gang on his plantation.—*N. Y. Eve. Post.*

SINGING.—Mr. Davis' Classes in this city have been quite successful; and he has been well received by citizens interested in musical education, especially of the young.

The first half of the Term closed with the lesson on the 29th inst.; and we are author zed to state, that Tickets for the coming half-term may be had at Mr. Head's, for half the full term price. This affords a fine opportunity for singers to enjoy good practice. For particulars of the School, see the advertisement on our fourth page.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 60 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ju20

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1857,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant other proofs at hand can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the superior during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more able in obtaining their applications in form to secure for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and what is *now pending*. Such unmistakable proof of skill in his profession, on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be assured having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1862. 3lawly

☞ ATTENTION, THE WHOLE!

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—most of the time so bad as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many benefits effected by its use. I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may30

E. A. STEVENS,
NO. 46 MARKET STREET.
EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, fruit dealer, Boston says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*one plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, **some very elegant.**

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in communication with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with Unfailing Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their vitals and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has treated thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the numerous cases.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their superiority as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
ja10 No. 5 Beaver Street, Albany, N. Y.

Morning Chronicle.

☞ Solomon Shaw, a miser, who died last winter while being conveyed to an insane asylum at Northampton, Mass., has appeared through a spirit medium, and declares that Clark, the officer who had him in charge, took over $20,000 from his clothing after he was dead, and kept it. Clark says if this sort of talk is continued he shall prosecute the medium, which is as near as he can get to the spirit.

☞ The harvest in Ireland is reported to be better than for years. It is the first season since 1846 without the potato blight. The better prospect at home, however, and the unsettled state of affairs here, cannot retard the emigration. The peasantry, who are the real hope of any country, are crowding the ships that sail every week for America.

TWENTY-SEVEN BOYS IN A WELL.—Friday afternoon, at the House of Refuge, a well was being sunk near the river, and had attained the depth of twenty-one feet. The curb or lining was being put in, but fitting rather tightly, Hugh Milligan, Assistant Engineer of the House, who had charge of the work, laid a few boards across the top, and calling a number of boys to his aid, they got on the platform thus formed for the purpose of pressing it down to its place, the engineer occupying a position about the centre of the boards, and the boys to the number of thirty-two, standing on the edge of the curb. A moment or so after they commenced to force the curb down, the boards gave way beneath the pressure, and the engineer and twenty-seven of the boys were precipitated to the bottom of the well. The engineer was taken out dead, but of the twenty-seven boys who fell in, not one was severely injured.—*Pittsburg Chronicle.*

MISS CHASE'S BETROTHAL RING.—The betrothal ring ordered by Senator Sprague for his intended bride, Miss Kate Chase, is a diamond solitaire set in enamel and not chased. It is described as a handsome and tasteful ornament, worthy of the beautiful young lady who is the happy possessor of the token. The price of the ring was $1000.

☞ An important survey of guano deposits on the coast of Peru has been concluded, and the stocks were estimated at 1,500,000 tons on the Guanape group (opposite the point of St. Helena), and 4,000,000 tons on the Lobos island, representing a total value of $230,000,000, or £46,000,000 sterling.

THE LITTLES—of the family of the late Hon. Josiah Little—are to have a family gathering at the Turkey Hill farm in Newburyport, this autumn, as was provided for in the will of the late owner of that estate, who desired, by an annual meeting there to strengthen the bonds of family and friendship. This will be the first gathering under that provision.

☞ A lady in Switzerland, addressing a peasant who was working in his garden very early in the season, said, "I fear the plants which have come forward rapidly, will yet all be destroyed by frosts." "God has been our Father a great while," was the reply.

☞ Spencer Stimpson, of Greenfield, Mass., committed suicide at Northfield, on Friday, by shooting himself through the heart with a revolver. He was engaged to one young lady, and another whom he had courted before he married his first wife was desirous that he should have her, and he took this mode of exit in consequence.

☞ Rev. Dr. Massey, representing 4000 English clergymen, called on the President with Lord Lyons and Secretary Seward, on Friday last. The President expressed his gratification at the anti-slavery portion of the address. It was read to a large audience there; and was responded to by Dr. Sunderland on behalf of the Washington clergy.

CLOCK'S
EXCELSIOR
HAIR RESTORER

Is warranted to restore gray or red hair to a dark beauty,—keeps the hair from falling off,—eradicates all humors and dandruff from the head, when used according to directions.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practice, and experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impotency, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the organs of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those diseases, the result of a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Disorganized of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Dr. D. has published a work, on contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No. 7 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, and No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of a secret and private nature, having by his unwearied attention and extraordinary skill gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FEMALE SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be from

WHEAT, RYE AND CORN,

is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County,

Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in bottles, half bottles and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, 91 Washington St., Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. C. RICHARDS, General Agent.

Boston, May 13, 1863. 6mos eod

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy through for all Throat and Lung Complaints, and to rid the mind of Climatic causes, some Physician has been the introducing of components which definitely, and at once, to restrain the greatest freedom of use, as the only true test by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in Colds, Coughs, Hoarseness, Sore Throat Bronchial and Asthmatic Complaints, to all Throat and Lung Complaints, which, when neglected, would end in consumption, and to prove the declarations by true results.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, and the room and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together. They saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are returned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without ever going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shea, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building up the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, so when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. TUESDAY AUG. 4, 1863. NO. 29.

Advertising.
For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $4, three months $6, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of Article Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind
Love truth; do good; be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

REV. CHARLES BEECHER, though pronounced a heretic by the Council at Georgetown, Mass., does not mean to be burnt without making some resistance. As his father, Lyman Beecher, when accused as he was of heresy, defended himself by flooring his accusers, so Edward not only accused but condemned by a council, brings his defence before the public, where he may perhaps be equal to his opponents.

His argument is published in the Traveller, and must be read in order to be understood. No abstract could give a fair idea of it. We give one extract, which may amaze some readers.

It has been said that pre-existence tends to Universalism. Was it pre-existence that gave Universalism its present growth in New England? Orthodoxy had the ground for more than a century, and could not keep it. The first Universalists were old Calvinists. Their strongest arguments were drawn from the old Calvinistic theory of Atonement. It was the impossibility of meeting those arguments that in 1785–'86 gave birth, as it were, to the New Divinity.—Universalism and New Divinity are like Esau and Jacob, children of one mother, only the younger has not been able to supplant the elder. Restorationism sustains about the same relation to New, that Universalism once did to Old, Divinity. Does it not come with rather a bad grace, sir, for the two, mutually accusing each other of tendencies to Universalism, to throw the blame of their own failure to hold the ground, upon a rival so recent as pre-existence?

Moderator, it reminds me of a pungent paragraph from the pen of the inimitable Withington, that is so apropos to the present occasion that I am sure you will pardon me for introducing with the change of a single word—the substitution of *Universalist* for *Unitarian*. It is found in a note to the Biography of Dr. Parish.

"To illustrate our manners, if ever this book should fall into the hands of a foreigner, let me mention in a note, a circumstance which is certainly unworthy of a place in the text. In Massachusetts, for a few years past, all ecclesiastical measures have been prepared in a certain conclave, nobody knows who they are or where they are,—invisible beings,—congregational cardinals, to whose decrees every orthodox clergyman and church is expected to pay unlimited deference and submission. But as they are wholly destitute of power, they have found out a singular way of executing their laws. The clergyman, who hesitates, or dares to think or act for himself, suddenly finds himself surrounded by the whisper that he is becoming a Universalist. It is not easy to conceive the horror and dismay, that this suggestion occasions. It is caught from mouth to mouth, and whispered from ear to ear, and every ghastly relater increases the terrors of the tale. The poor affrighted victim must either return to the bosom of the church,—the popular measure of the day,—or be denounced a heretic, worthy of all the flames that detraction can kindle: for, in this country, we burn heretics in no other. I will only add, that this state of society is rather amusing; to say nothing of the magnanimity of the *great men*, who condescend to use such weapons, it is singular enough to see to what useful purpose the Universalists may be put; they not only serve as whetstones on which staunch polemics may sharpen their weapons, but they make excellent bugbears to keep naughty boys in order. O the follies of the wise!"

A SMART FEAT AT ROWING.—On Friday morning a party of four ladies belonging to Salisbury Point started in a wherry and rowed all the way against the strong current from that place to Newburyport in the short space of two hours. On passing the shipyards they were heartily cheered by the carpenters at work there, which was responded to by the waving of handkerchiefs and parasols. This is a sample of the pluck of our New England women, and shows what they can do when the men are not on hand to assist them.—*Newburyport Herald.*

☞ Hezekiah Hart, a young man about 23 years of age, belonging to St. George, Me., one of the crew of the schooner Victory of the same place, now lying at Newburyport, endeavored to put an end to his life on Friday afternoon, by taking an ounce of laudanum. Antidotes were given him, and he will without doubt recover. He has had some trouble with his wife, which is thought to be cause of the rebel act.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 4, 1863.

THE REBELLION.

The recent cavalry raids from Norfolk to Jackson, N. C., found the enemy strongly entrenched at Jackson, which commands the approaches to Weldon. Major Anderson on the 26th captured the enemy's pickets, and took possession of an important bridge, thereby defeating the enemy in their intentions.

The N. Y. Times' Washington item of Saturday says the statement that Lee's forces are massed at Culpepper is not credited in military circles there. There is no doubt that he has a strong rear guard at that point, but the main body of his army is thought to be on the south bank of the Rapidan.

Gen. Meade is about to make a movement. Rations for a long march have been issued.

The rebels have erected new batteries on James Island. The Ironsides engaged Fort Wagner on the 30th ult., and soon silenced all the guns in the fort. Deserters from Fort Sumter say that if Fort Wagner is captured, the former fort will be blown up and abandoned.

☞ We have received from some of our soldiers at Port Hudson, a copy of the Port Hudson (rebel) News, of February 1, 1863, which was found there on capture. It is less than half as large as the Daily Chronicle, and was sold at 25 cents per copy (confederate money, we suppose.) One of the principal articles is, a very coppery piece from the New York Herald, Jan. 7, which asks—Where is Banks?—and Why was Sherman beaten at Vicksburg?—and then goes on to answer by blaming the administration. It reads drolly now, when Banks has been heard from, and Vicksburg is ours.

We have another paper also, from the same quarter, viz., The Port Hudson Freeman, of July 14, with the Motto, The Union—it must be preserved. First Federal Edition. Price 5 cents.

☞ The London Times has heard from Vicksburg, and in its issue of July 23d, it says: "The American news was received with surprise, disappointment, and satisfaction—surprise at the sudden collapse of the Vicksburg defence, disappointment at the removal (owing to Lee's retreat) of all prospect of a termination, and satisfaction in contemplating England's wisdom in not prematurely yielding to the recent pressure for Confederate recognition."

☞ Gen. Burnside has issued an order declaring the State of Kentucky invaded by a rebel force with the avowed intention of overawing the judges of elections, intimidating loyal voters and keeping them from the polls, and forcing the election on the third proximo.

The military power of the government, the order declares, is the only force that can defeat this attempt, and the State of Kentucky is therefore placed under martial law.

PROTECTION TO ALL SOLDIERS.—The President's official proclamation of July 30, says:—

It is the duty of every Government to give protection to its citizens of whatever class, color or condition, and especially to those who are duly organized as soldiers in the public service. The law of nations and the usages and customs of war, as carried on by civilized powers, permit no distinction as to color, in the treatment of prisoners of war as public enemies. To sell or enslave any captured person on account of his color, and for no offence against the laws of war is a relapse into barbarism, and a crime against the civilization of the age. The Government of the United States will give the same protection to all its soldiers; and if the enemy shall sell or enslave any one because of his color, the offence shall be punished by retaliation between the enemy's prisoners in our possession. It is therefore ordered, that for every soldier of the United States killed in violation of the laws of war, a rebel soldier shall be executed; and for every one enslaved by the enemy, or sold into slavery, a rebel soldier shall be placed at hard labor on the public works, and continued at such labor until the other shall be released and receive the treatment due to a prisoner of war.

UNION OF THE PORTLAND HIGH SCHOOLS. At a meeting of the School Committee of Portland, held Saturday afternoon, the following resolution was adopted, but one member voting in the negative:

Resolved—That the High Schools be united under the care of a male principal, with one assistant master, and an assistant mistress, and three female assistants, and that the boys and girls be brought together in recitation as far as may be found practicable.

☞ Seven "young and likely" negroes were sold a few days since, near Rockville, Maryland, at eighteen dollars a head, or 126 dollars for the lot.

☞ It is understood that Gen. Hooker will shortly be assigned to an active command in the field.

NORTH CAROLINA.—The Raleigh (N. C.) Standard denounces Jeff Davis as a repudiator, in whom no confidence can be placed, and whose efforts to establish a Southern Confederacy will be a failure.

The Richmond Enquirer calls upon Jeff Davis to suppress the Raleigh Standard and wipe out the Supreme Court of North Carolina.

The Standard says that Governor Vance will stand by the Supreme Court, and the Standard also, if necessary, and if Jeff Davis attempts to use physical force, a revolution in that State will be the result. It says John Mitchell, editor of the Richmond Enquirer, is an agent of Great Britain, which has long sought to divide the Southern and Northern people. North Carolina furnished 95,000 soldiers for the causeless war, 40,000 of whom are killed or wounded.—The Standard says North Carolina should send a delegation to Washington at once, and see what terms can be obtained, and not wait for Jeff Davis.

☞ The Wilmington, N. C., Journal of the 21st ult. has a long editorial on the peace party in that State. It says: "We tell our people candidly and plainly we know there is an organized movement on foot to control the congressional elections in all the districts; we say in all sincerity that if this movement means anything, it means reconstruction and submission."

CANADA.—About the 20th of July, in the British House of Lords, the Duke of Argyle asked the Government to give facilities for establishing a ship canal from Lake Erie to Ottawa river, for conveying grain through Canada instead of the United States.

Earl Granville regretted that the Canadians had not provided sufficient militia for defence in case of war, and said it was impossible for England to defend Canada effectively unless the Canadians aided.

VALLANDIGHAM AS A WAR DEMOCRAT. During the war with Mexico it was common for democrats to denounce bitterly all who questioned the justice or necessity of that contest. They demanded entire acquiescence and unfaltering support. On the 18th of December, 1847, a Democratic meeting was held at Dayton, Ohio, to send delegates to a State convention. The committee on resolutions consisted of Clement L. Vallandigham, James Brooks, George W. Houck, W. J. M. Batchelder and Daniel Tucker. Mr. Vallandigham reported a series of resolutions, one of which was as follows:

Resolved, That whatever opinions might have been entertained of the origin, necessity or justice, by the tories of the Revolutionary war, by the Federalists of the late war with England, or by the whigs and abolitionists of the present war with Mexico, the fact of their country being engaged in such war ought to have been sufficient for them, and to have precluded debate on that subject till a successful termination of the war; and that in the meantime, the patriot could have experienced no difficulty in recognizing his place on the side of his country, and could never have been induced to yield either physical or moral aid to the enemy."

A PERJURED LEGISLATOR. The Berkshire boys of the 49th Massachusetts regiment, discovered among the prisoners taken at Port Hudson, Andrew J. Lewis, formerly of Lanesborough, with a captain's commission in the rebel army in his pocket. He is a native of Charleston, S. C., but resided in Massachusetts many years, and represented Lanesborough in our Legislature in 1852. He was for some years in the Boston Custom House, and figured conspicuously as a Democratic speaker. He would be a proper man for our copperheads to run as a candidate for Governor of the Old Bay State.—*Transcript.*

☞ John Hale, the notorious horse thief, who has escaped from jail so many times, and Ephraim Gilman, murderer, broke jail in South Paris, Me., on Friday night last, and escaped. Hale managed to get out of his cell, and let Gilman out, when the two succeeded in opening the outer door, by taking off the lock with a wooden wrench.

☞ Gen. Grant is a man of great military resource. His latest contrivance is the organization of a Water Department in his army, by which his forces will be able to traverse any portion of the Mississippi, however destitute of water.

☞ Percy Douglas, stock and exchange broker at San Francisco, has filed his petition in insolvency. His liabilities are set forth at $22,000 and upwards; his assets about $800, consisting of book accounts, a portion of which are available. He attributes his failure to depreciation of mining stocks.

☞ Boards of Enrollment are informed that no limits of stature are established for drafted men. The matter of stature should be considered only in the general examination as to the physical fitness of the man for military service.

☞ Lieut. Col. Pilsen has published a remarkably plain pamphlet; "Reply to Emil Schalk's Criticisms of the Campaign in the Mountain Department, under Gen. J. C. Fremont."

☞ Cyrus Williams, of Canterbury, Ct., had the entire stock of his farm—four cows, a heifer and a sheep—killed by lightning on Monday afternoon.

TERRIBLE RETRIBUTION.—Capt. Hedden, of the New York police, relates a very singular incident connected with the recent riot. He states that in the difficulty that occurred in Twenty-second street and Second avenue, one of the crowd, who was foremost in leading them, was met by the police, severely clubbed and driven back, and that in his anxiety to escape he ran from the street to the sidewalk, hoping to get out of the way. As he reached the walk his foot tripped, throwing him with great violence against a fence of iron pickets, one of which passed up through his head, entering under the chin, and impaling him completely. In this terrible situation he died, no one on either side having time to remove him.

The most singular part of the incident is that when the police were ready to withdraw, Captain Hedden's attention was drawn to the individual, and he then perceived him to be a young man, fair faced, with delicate skin, small white hands and small feet. He was dressed in the garb of a working man, wearing dirty overalls and a dirty shirt; *but under these he was richly dressed, having on a fine silk shirt, fine woolen pants, &c.* Nothing has been discovered as to his origin.

JAPAN PRIVATEERS.—A writer in the N. Y. Journal of Commerce, on the Japan war, says that at last dates all foreigners were preparing to leave the open ports, and many had already left. The writer goes on to suggest that in view of the very ingenious policy which Great Britain has adopted in regard to the civil war in our own country, and the facilities she has afforded the South for fitting out formidable privateers, the Japanese may be induced to issue letters of marque. There are hundreds of Americans on the coast who would jump at such an opportunity, and before Great Britain could place a fleet of any magnitude in those waters, a terrible blow could be struck at British commerce. Japan has numerous ports, and coals are abundant everywhere. Prizes could be run to Japan or to Chinese ports, and readily disposed of for cash. The Japanese have purchased of late fifteen or twenty steamers which could readily be converted into privateers, unless the English manage to get them under their guns before war is declared. The force which the latter have, would be sufficient, perhaps, to blockade the principal ports, bombard a few of the towns within reach of the vessels, and take possession of the small islands on the outskirts of the empire; but for pursuing privateers afloat, or undertaking aggressive operations of any magnitude on shore, it is considered quite insufficient. For the latter, it is believed a very large land force will be required. Indeed, it looks very much as if Great Britain was about to plunge into a serious and expensive war, which may modify her policy towards the North.

MORGAN'S GRAND MISTAKE.—The rebel guerilla Morgan, in his late experiment al raid in Indiana and Ohio, was no doubt induced to undertake it in view of the daring and successful expeditions of Stoneman, Kilpatrick, Grierson and other Union cavalry leaders in the rebellious States. Morgan, for instance, looking at the simple fact that Col. Grierson, with 500 horsemen, moved right down from the northern to the southern extremity of Mississippi, 500 miles, through the heart of the State, concluded that General John Morgan, with 5,000 men could do the same thing for Ohio and Indiana. The trial, however, has proved the fallacy of this calculation, and the secret may be readily explained. Col. Grierson found the interior of Mississippi defenceless, all its able-bodied white men having been drawn off into the rebel armies around the great circle of the rebellion. Thus he aptly compared the rebellion to an empty shell; for on breaking through the shell, in a military sense, he found nothing inside. Morgan on the other hand, as soon as he touched the soil of Indiana and Ohio, found himself in a hornet's nest. Armed men on every side seemed to spring up out of the ground. Morgan, in fact, before venturing upon this grand raid, forgot to consult the books and figures of the census, and thus he has fallen a victim to a very stupid arithmetical blunder. His master, Jeff. Davis, and his associate leaders, are beginning to realize the fact that they have made the same miscalculations.

☞ A catalogue of the coins belonging to Yale College, recently published, shows that the collection contains three thousand specimens belonging to all periods from 700 B. C. to the present year, and almost all the countries where coins are used.

☞ Notwithstanding the interruption of volunteering by the riots in New York, about eleven hundred men have been mustered into the United States service in that city since the beginning of the present month.

—— In the stable and sheds of Whitcomb's Hotel, Hampton, consumed by fire on Friday evening, were 10 tons of hay, hogs, harnesses, &c., all destroyed. No insurance. Origin of the fire unknown.

☞ A Cavalry Bureau will shortly be attached to the War Department. The Bureau will have charge of the organization and equipment of the cavalry forces of the army.

Wanted,

By an American family with no children, from 4 to 10 ROOMS in the southeast part of the city. Address—"J. W. N., Portsmouth, P. O." aug

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Blocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up to any part of the city, and regulated without extra charge.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon,

THE MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, Irons and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 1 Tunnel of ENGLISH HAY in the barn at the Sagamore House. Also one vessel's House on Dock, in fair order.

The Mill Privilege has long been used, (previous to the late fire, when the mills were destroyed) for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 28, 1863.

BATCHELOR'S Celebrated HAIR DYE

Is the Best in the World!

The only Harmless, True and Reliable Dye Known!

This splendid Hair Dye is Perfect—changes Red, Rusty, or Grey Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—81 BARCLAY ST., N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. jan23uplydaw

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, combines the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spuo

Local.

DRAFT NOTICE.

Notice is hereby given that the draft for the First Congressional District in New Hampshire will commence on MONDAY, August 10th, at the office of the Provost Marshal in the old Custom House, corner of Daniel and Penhallow Streets, at 9 o'clock A. M.

The drawing will follow the numbering of the Sub Districts: Rockingham County comprising the numbers from one to eleven inclusive, Strafford from twelve to sixteen inclusive, Belknap from seventeen to nineteen inclusive, and Carroll from twenty to twenty-four inclusive.

JOHN S. GODFREY,
Capt. and Provost Marshal 1st Cong. Dist. N. H.
Portsmouth, Aug. 4, 1863.

Col. John H. Jackson, of the 3d N. H. Regiment, was at home in this city over Sunday, after an absence of nearly two years with his regiment at the South. On Monday he returned to Concord. He reports his health to be much better at the South than here—as does also Col. Wentworth, of the Maine 27th. The 3d N. H., it will be remembered, have won a good name, at James Island last year, and recently at Fort Wagner, where Gen. Strong was fatally and Col. Jackson slightly wounded. We are glad to learn that the latter's wounds are doing well.

The High School Committee of this city have appointed Aurin M. Payson, (late Principal of the Boys' High School,) to be Principal of the Girls' High School, in place of Mr. Nichols, deceased. Lewis E. Smith, late Assistant, to be Principal of the Boys' School; and Mr. J. E. Ayers, of Canterbury, to be Assistant to Mr. Smith.

A little son of Mr. Samuel White, while walking on the rail at Pleasant Point, Newcastle street, Sunday, fell into the dock or flats, and broke one arm and bruised his head severely.

On Monday, a son of Mr. A. J. Hill, about 15 years old, fell between decks of the new ship just launched, and was injured very severely, perhaps fatally.

The thermometer ranged from 85° to about 100°, in this region, on Sunday and Monday; but the hopes of the haymaking farmers ran higher than that, even.

Sergt. E. A. Tilton, of the 13th N H. V., left Concord on Friday, with a squad of skedaddlers in charge, for Washington.

We are indebted to Private Wm. A. Rand, 16th N. H. V., for various trophies from the printing office at Port Hudson.

Rev. Elbridge G. Brooks, a good earnest and loyal son of Portsmouth, is to preach at the Universalist Church in this city, on Thursday evening,—this being the National Thanksgiving service of that church.

The Manchester American suggests that on the National Thanksgiving Day, Thursday, contributions be taken in all the churches in that city for the benefit of the Sanitary Commissioners. No doubt that would be as good a way of showing our thankfulness *here*, as any. Will each church do this, on its own account? Why not?

The Fifth Regiment, Lieut. Col. Hapgood, arrived at Concord from Washington, on Monday morning. They carry 126 muskets, and are to escort the conscripts to the seat of war.

Gold opened in New York, Monday, at 127. At 1 o'clock it was quoted at 127 3 4.

THE SOCIAL CIRCLE.

(It is in the social circle at home that we hear kindly words and see smiling faces, which make us forget the toils of life. Let us strive by every means to make this the garden of the soul in which our spirits shall be softened, chastened and ripened for the life to come.)

Though our way is dark and dreary,
And we toil from day to day,
While the heart is sad and weary,
At our home there shine a ray.
Kindly words and smiling faces,
Gentle voices as of yore,
Loving kisses and embraces
Ever wait us at the door.

Here we turn when all forsake us,
Here we find from day to day,
For the soothing tones that wake us
Back to joy and peace again.
Oh! a sweet repose does linger
In the sunshine of the place,
Time, with his remorseless finger,
Vainly striveth to erase!

Though we err, yet in our sadness
Here's a shelter from the storm.
Just as in our days of gladness,
Here are hearts as true and warm.
Kindly words and smiling faces,
Gentle voices as of yore,
Loving kisses and embraces
Ever wait us at the door.

SINGING.—Mr. Davis' Classes in this city have been quite successful; and he has been well received by citizens interested in musical education, especially of the young.

The first half of the Term closed with the lesson on the 29th inst.; and we are author zed to state, that Tickets for the coming half term may be had at Mr. Head's, for half the full term price. This affords a fine opportunity for singers to enjoy good practice. For particulars of the School, see the advertisement on our fourth page.

Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing a household article ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly fast. Samples on silk and wool can be seen and the colors procured of THACHER. jy30

See you fair maiden in another column, picking Sambaci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

DEATHS.

In Mobile, Ala., July 12th, CLARA SISE, aged 16 months, only child of Charles F. and Clara B. Sise of New Orleans.

In Washington Village, South Boston, July 30th, after a week's illness of Cholera Infantum, CHARLES GRANT, aged 15 months, 9 days, youngest son of Stephen M. and Annie E. Grant.—"Suffer little children to come unto me, and forbid them not."

A cherub that had heard of earth,
And strayed from its world of light;
But pining still for its native air,
Has taken its homeward flight.

In New Castle, 1st inst., Mrs. MARGARET M. HALL, aged 61 years, wife of Mr. Wm. Hall.

The Funeral services of the late WINTHROP PICKERING, Esq., will take place at the Church in Newington, this (Tuesday) afternoon at 2 o'clk. Relatives and friends are invited to attend, without other notice.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
(late Agent of U. S. Patent Office, Washington, under the date of 1857.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions; also, to ascertain the advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The fact that no one gives proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and believes, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, are his exclusive property, and are at his disposal, free of charge, to those who may employ him. All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all the one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *six hours*, by the Commissioner of Patents.

R. H. EDDY.
Boston, Dec. 2, 1862. Stawly

The "Young America"
NEW REFRESHMENT SALOON,

ATTENTION, THE WHOLE!

RYE, N. H., Feb. 26, 1865. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum has been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all my medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

Dr. Swett—I permit me to testify, as I feel in duty bound to do, that your Panacea has cured me with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse and worse, until she began using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by day and sleep by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20y

E. A. STEVENS,
NO. 46 MARKET STREET.
EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Currie, fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in So intimate with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other Diseases of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases and invariably with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured hundreds, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK

A book for everybody.—*Startling disclosures.* DR. TELLER'S great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons, and directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from observation or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 12 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

J. TELLER, M. D.,
jan10 No. 5 Beaver Street, Albany, N. Y

Morning Chronicle.

☞ The U. S. Marine Corps numbers at present some 3,000 men. It consisted of only 1,000 before the war broke out, but its usefulness soon led to its increase. The soldiers of the corps are regular in the strict sense of the word, and constitute one of the most efficient and valuable portions of our military force. The corps has now one colonel commandant, one colonel, two lieutenant colonels, four majors, eighteen captains, twenty-eight first lieutenants, twenty-nine second lieutenants; and a first lieutenant, on the retired list.

A country editor received a remittance, with a request "to send a paper as long as the money lasted." He indulged in a bit of a spree, got broke, and respectfully announced to his subscriber that according to his own terms, his subscription was out.

☞ The Portland Press states that the wife of Col. Cyrus Hamlin, of Ullman's Brigade of colored troops, died suddenly at Baton Rouge, La., a short time since, where she was stopping with her husband. Col. H. is on the way home with her body.

☞ Notice has been given to parties who furnished gold to government on temporary loan, that after the date of the notice interest will cease upon such loans, and the money be subject to their call.

☞ It is suggested that Capt. Cutts, who has been discharged from service because he looked at a lady over the door while she was undressing, must be some relation to the Peep family.

CLOCK'S
EXCELSIOR

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints — Elder'nut Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Bladder and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, imparting the appetite, and beautifying ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal disease, such as Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Ulcerations, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Ulcerations, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Ulcerations, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest siblings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad, but sure and lasting effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dyspepsia, Palpitation of the heart, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects are Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Love of solitude, and a hopeless future. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charge for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receipting a description of your case. Dr. Dow has also for Sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, such as Ulceration of the Uterus, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief and permanent cure in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted people soon become perfect strangers to pain.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledged superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases at a lower rate and nature, by him his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow invents and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extensive top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape from the ash-pan, and the shovelfuls of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

—of the—

MAGEE PARLOR STOVE

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and use of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume its own smoke. This may pass off in a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without any care.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.,
Aaron H. Hill, Charles H. Meadum,
Henry F. Wendell, John Sise, and others.

Portsmouth, June 15, 1863.

Accommodation Pleasure Boat.

The fast and commodious yacht FLORENCE, WILLIAM H. GRAY, Master, will take parties to the Shoals, Isles of Shoals, or the Headlands adjoining the harbor.

For particulars inquire at the Chronicle office, or of DANIEL L. RANDALL, City Expressman, or of Mr. GRAY on board the boat at Long Wharf. je19

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the upper arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper then Gold.

DR. A. P. STEVENS, *Surgeon Dentist*,
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Aug. 1st, 1863.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth Inserted on Gold and Silver, and all other operations performed as usual.

It is a pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,
A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY
WILLIAM GRACE,
Amesbury, Mass

PRICE 25 CENTS PER BOX.

Daily Morning Chronicle

VOL. 23. PORTSMOUTH, N. H. WEDNESDAY AUG. 5, 1863. NO. 30.

The Chronicle.

"found to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every lion fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

This, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy, has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be secured having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his business, has received *Patents* relating to applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1862. 3tawly

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—she is afflicted in her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrups, &c., &c. When your agent came to me I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold a great number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent, for the sale of it."

JONAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.

M. LOWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and had previously been visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named."

ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, AUGUST 5, 1863.

THE REBELLION.

An official order from Washington, Aug. 3 says,—"The exigencies under which 100,000 militia for six months' service from Maryland, Pennsylvania, Ohio and West Virginia were called out by the President's proclamation of June 15, 1863, having passed, it is hereby ordered by the President that on and after the promulgation of this order, no more enlistments under the said call shall be made."

Cincinnati advices say that the rebel raid by Scott into Kentucky is ended. Only 10 wagons were captured and burned by Scott's rebels at Stamford, Ky., instead of 60 as was reported. Some 300 rebels effected the crossing of the Cumberland, leaving stolen wagons and other property behind them. Four hundred prisoners captured from Scott's command passed through Frankfort to-day for Louisville.

The Richmond Whig of Aug. 1 has Charleston dispatches of July 31, which says: Cummings Point was severely bombarded yesterday forenoon, commencing about 10 o'clock. The Ironsides and two Monitors were engaged. The bombardment lasted until about 3 P. M., when the vessels withdrew. The batteries Gregg, Simpkins, Wagner and Sumter responded to the enemy's fire. Two men were killed and one wounded at battery Gregg. The battery is not materially injured. A heavy bombardment commenced at daybreak 31st on enemy's works on Morris Island, from Fort Wagner, continuing until two o'clock, when it ceased.

Col. Richardson, the rebel guerilla, has issued an order, requiring all men of West Tennessee, between the ages of 18 and 45, to report to his camp, under the rebel conscription law. The following barbarous instructions are to govern his men in carrying out this order:

"If a man should absent himself from home to avoid this order, burn his house and all his property except such as may be useful to this command. If a man resists by refusing to report, shoot him down and leave him dying. If a man takes refuge in his house and offers resistance, set his house on fire and guard it so he may not get out."

Two companies of U. S. volunteers, in Kansas, recently fired on each other, each mistaking the other for guerrillas. Several were killed.

It is said that Lee's Army is strongly reenforced at Culpepper, and will make an important move shortly.

Arrived at New York, Aug. 3d, prize steamer Planet, captured off Mobile by U. S. steamer Lackawanna. She is 400 tons burthen and has 675 bales of cotton and 125 barrels of turpentine. The boat and cargo are valued at $250,000.

Tuesday's N. Y. Times' Washington dispatch says it is again asserted that Lee's army is in camp between the Rapidan and Orange Court House. His real depot of supplies is at Gordonsville.

The News says that Wilde's African brigade has been ordered to Morris Island.

The Herald's Washington dispatch says that Col. Baker gave orders for returning to their owners a large number of slaves that have fled to the estate of Col. Waring, in Maryland, which is now under military surveillance.

A rebel prisoner of rank was brought to Washington some time since, and the story went that he was Gen. Evans, of Ball's Bluff fame. Later revelations from the South have it that he committed all sorts of excesses in the neighborhood of Leesburg.

Secessionists are making themselves happy over the report that Jeff. Davis is about to raise a great army of negroes, upon the promise of freedom and lands, but large slaveholders in that region express the opinion that he will venture upon no such policy—in fact he dare not trust the slaves.

A doubtful report from St. Thomas, gives the rebel pirate Semmes a new frigate, to prey on our commerce.

In Iowa, a Copperhead Insurrection has broken out. A collision occurred on Saturday between the Copperheads and Union men, at South English, Keokuk county.—About 50 shots were fired on both sides.—Tally, the leader of the Copperheads, was killed. 20 others have died of their wounds. The copperheads were driven out of the place. They rallied on Sunday, mustered about 1500 armed men, and on Monday morning the Sheriff was looking abroad for military aid.

The rebel Wm. L. Yancey is dead and buried—and John B. Floyd is dangerously sick.

☞ A sailor who helped a Rhode Island substitute to escape just before the tug left the wharf in Boston for Long Island, was taken to Gen. Devens and held to answer for the sub. whom he had assisted to keep the rebel.

LASELL FEMALE SEMINARY.—The next term of this excellent Institution begins September 10th. See advertisement.

BLESSED ARE THE MERCIFUL.—A gentleman of New York city, (says the Commercial) while on his way down to business one morning last week, noticed, a little in advance of him on Broadway, near St. Paul's Church, an aged negro woman, bareheaded and very poorly clad. As she passed the churchyard, she saw a wounded soldier, apparently an Irishman, sitting near the fence, with his hand extended, asking alms of the passers by. The poor old woman passed, thrust her hand into her pocket, and drew out a few pennies, which she handed to the wounded man. What a commentary is furnished by an incident like this, on the late outrages on the colored people of that city!

The Boston Courier says that on Friday afternoon a colored boy named Charles Otis Brady, seeing a little Irish boy fall from the Mill Dam sea wall into the water, jumped in and with much difficulty rescued him from drowning.

ENGLISH ITEMS, by the Arabia.—The Marine Insurance Companies report a loss of over £150,000 sterling by the capture of the ship B. F. Hoxie.

An anti-Southern Association was being formed at Manchester, to counteract the influence and correct the misrepresentations of the advocates of the slaveholders' confederacy, and employ all means against the recognition of the Confederates.

The Army and Navy Gazette thinks that with Grant's army free to co-operate with Rosecrans in the South, there is no ground for speaking hopefully of Confederate prospects, unless Lee is able to reverse their misfortunes by a great victory.

☞ The Port Royal South says Savannah is deserted of troops. Several regiments had been sent to the relief of Vicksburg before our Charleston demonstration, and since the latter event three regiments of infantry and Anderson's artillery, twenty-four brass 12-pounders, have been sent to Charleston, leaving for defense of Savannah but 900 cavalry and 300 infantry, and a battery of artillery. All the extensive batteries and fortifications are picketed, not garrisoned. The people have the batteries and guns, but no troops to make them available, and have become greatly alarmed. The inhabitants are afraid to arm the negroes, and the remaining population consists of aged men, boys and women.

JUDGE MCCUNN DEPRIVED OF POWER FOR FURTHER MISCHIEF.—This Judge, who has been discharging the New York rioters after they had been committed by other judges, has been curbed in his evil purposes by a decision of the Supreme Court of New York, which prevents a City Judge from issuing the habeas corpus writ. Judge McCunn was dishonorably discharged from the army by Gen. McClellan for infamous practices.

☞ On Sunday night, in Washington, about midnight, a fire was communicated to the hay in the government sheds and ice house near the monument, by an incendiary. About four hundred and fifty bales of hay and one thousand tons of ice were destroyed. The fire extended to the adjacent stables, all the movable property in which, including the horses, were saved. The progress of the fire was arrested by pulling down portions of the building.

THE HAVANA FIRE.—Havana advices to July 25, state that the great fire there was still burning in the ruins, but its progress was stopped after consuming 16 warehouses containing 672 bales cotton, 630,120 boxes of sugar, and large quantities of goods were intended to run the blockade, and belonging to Englishmen, and some to rebels. The loss is estimated at a million and a half. A rebel steamer with a cargo of cotton arrived on the 23d ult.

KENTUCKY ELECTION took place on Monday, Aug. 3. Bramlette, union candidate for Governor, is said to be elected by 20,000 majority over Wyckliffe, Democrat. Brutus Clay, union, is said to be elected to Congress from the Ashland district. No rebels were allowed to vote. All had to profess loyalty—hence the result.

☞ The United States Armory at Springfield continues to turn out about 1000 muskets a day, and this number will not be diminished at present. Few and small orders for muskets have been received from Washington of late, and there are 50,000 of the model of '61, and 100,000 of the model of '63, now subject to the demand of the government.

—— Casualties at Morris Island near Charleston:

Seventh New Hampshire regiment, July 27, Geo. W. Thompson, Co. F, killed; 30th Edward Lewis, Co. C, killed by a shell.

Fourth New Hampshire regiment, July 26, Byron Howard, Co. H, killed; 26th, John Mullen, Co. G, wounded slightly.

A GOOD DECISION.—We are glad to see that the widow of an officer of volunteers in Illinois, is appointed Post-Mistress,—as was a widow in Biddeford, Me., under similar circumstances.

At the commencement of the War for the Union, Melancthon Smith was Postmaster of the town of Rockford, Ill., and his wife acting as Deputy P. M. Feeling it his duty to participate in the struggle, Mr Smith raised a regiment of which he was appointed Colonel, and entered the service under Gen. Grant, leaving Mrs. Smith to attend to the duties of the Post-Office. Col. Smith distinguished himself on several occasions, and at the recent storming of the first redoubt at Vicksburg, led the forlorn hope, and was shot through the head and killed. Application was then made for the appointment, as Postmaster, of a gentleman, who, under ordinary circumstances would have been a proper person to fill the office. Counter applications to retain the widow were also sent in. The matter being brought before the President, he indorsed the application for the widow, and afterward sent to the Post-master-General, the following manly and sensible letter:

EXECUTIVE MANSION, Washington, July 24, 1863.

HON. POSTMASTER-GENERAL — *Sir*,—Yesterday little indorsements of mine went to you in two cases of Postmaster-ships sought for widows whose husbands have fallen in the battles of this war. These cases occurring on the same day, brought me to reflect more attentively than I had before done as to what is fairly due from us here in the dispensing of patronage toward the men, who, by fighting our battles, bear the chief burden of saving our country. My conclusion is that other claims and qualifications being equal, they have the better right, and this is especially applicable to the disabled soldier and the deceased soldier's family.

Your obedient servant,

A. LINCOLN.

☞ We are in receipt, per mail, of the Order of Exercises at the Annual Commencement of Norwich University—sent us by Charles E. Wentworth. They comprise "Infantry Drill, Skirmish Drill, Oration by Rev. Jas. Davie Butler of Wisconsin, Artillery Drill, Concert by Boston Brigade Band, and Torch Light Drill." Among the literary exercises in church is an essay on "Comparative importance of mathematics and the classics in a liberal education," by Wm. Haven, of Portsmouth; an oration by Geo. W. Bungay of New York, Address by Rev. Dr. Vinton of New York, and a Poem by William Winter of the same city.

☞ Rev. Mr. Battles, of Bangor, in his sermon at the Dedication of the new Universalist Church there, has these sentences.

It has been said that Christ's kingdom is not of this world, and hence the Christian preacher should confine himself to efforts to save the human soul, letting the external condition of man alone. Absurd conclusion! It is true that Christ's kingdom is not of this world, that is, it is not based upon worldly instrumentalities; but it does come to earthly passions and deliver them from earthly clogs; it does come to preach deliverance to the captives and to set at liberty them that are bruised. Surely it Jesus could cure a withered arm on the Sabbath day—how much more should a minister of Jesus seek on the Sabbath to cure men whose whole bodies and souls are withered. Especially at this time, when an effort is being made to heal a withered nation, the influence of the Christian pulpit should be direct and health-giving, for it is not to be forgotten that if the pulpit of our land for the last twenty-five years had been faithful in preaching Christ, we should not have seen this dark and sad hour, in which our nation reels like a drunken man and people's hearts fail them for fear.

Particularly now that loyalty is in a hand-to-hand struggle with disloyalty, and Christ seems to have descended to cast out the evil spirit that has so long afflicted us, throwing us oft into the water of moral apathy and now into the fire of warlike contention—now that he has come to inaugurate the sublime effort to transform four million chattles into free men and women, let the Pulpit be on the right side with its words of cheer and warning.

☞ The statement in the Richmond Examiner of the 27th ult. that the rebel commissioner Ould had notified the government that Capts. Sawyer and Finn will be hanged, notwithstanding notice of intention to retaliate by the execution of Lee and Winder, is untrue. No such notice has been given, nor is it likely it will be.

☞ The Nashville Union says it is reported that Hon. Meredith P. Gentry, formerly a Whig member of Congress, more recently of the last Confederate Congress, surrendered himself voluntarily to the Federal commander at Shelbyville, a few days since.

☞ The enrollment in Wisconsin is nearly completed. Less than 400 soldiers, properly distributed, have repressed violence and protected the enrolling officers in all districts where resistance was attempted or threatened.

☞ The Chicago Workingmen's Association, composed of Germans, has passed emphatic resolutions declaring that they will help crush any mob which may attempt to prevent the execution of the conscription law. The Association numbers over 1000 man.

☞ The police of Bangor found recently at the house of a Mrs. George Foster, several carloads of property stolen by clothes line thieves. The lady, on the discovery being made, attempted to destroy herself by cutting the veins in her arms with her husband's razor.

JOSIAH SHACKFORD.—A few days since we said, in speaking of big sea voyages in little vessels, that "a correspondent informs us that the smallest vessel known to have crossed the Atlantic, was the *ship's boat* in which Captain Shackford, of this city, who afterwards died in Portsmouth, Ohio, crossed the Atlantic, from Bordeaux to the West Indies, several years ago."

To this, the ubiquitious "Sigma", of the Boston Transcript, who knows everything, says:—

The statement of the correspondent of the Chronicle is not precisely correct. Shackford crossed the Atlantic, in "*a small cutter sloop, of 30 tons burthen*," with no companion but his dog. This apparently improbable story is true, beyond a doubt. I have in my possession a manuscript, of twelve pages, very closely written, and in the handwriting of the late Mr. Henry Lunt, the gentleman who gave me the anecdotes of Washington, which you published a few days ago: this manuscript purports to be an account of Shackford, and his adventure. The original, of which this, in my possession, is a copy, came into the possession of the late Isaac P. Davis, who lent it, I suppose, to his friend, Mr. Daniel Webster; for Mr. Lunt informed me, that it was endorsed, in Mr. Webster's handwriting: "Mr. Webster thinks, that Judge Davis would like to read this manuscript. It is substantially a true history."

Captain Shackford had been subject to mental derangement; and, thinking the narrative might interest the late Dr. Bell, of the Insane Asylum, Mr. Lunt loaned him the original, which the doctor lost, or mislaid. Fortunately, Mr. Lunt had made a copy, which he again most kindly, copied for me, and upon which he writes me thus: "July 17, 1857. My dear sir, I have had some pleasure in copying the above history of Shackford's adventure, and wish you to accept the same. I hope you will be able to read the handwriting, but being an octogenarian, will make no apologies. The foregoing is a copy of the *original*, which the late Mr. I. P. Davis gave me to keep, till called for. I took the liberty to lend the paper to Dr. Bell. The last I heard of it was, that it had been mislaid. I once lent the *copy* to a son-in-law of Mr. Everett, who, I was told, read it over and again, with great interest. I am, dear sir, truly yours, Henry Lunt."

Now, friend Haskell, if it should be my good fortune to emerge from these ragings of Sirius into a cooler atmosphere, I may copy this curious narrative for your paper.

And to cap this, a shipmaster who has just read the above in our counting-room, tells us that while he was in Liverpool, not long since, a man, with two small boys, came over from Mystic, Connecticut, in a boat of only *thirteen tons*,—which craft was set up in a raffle, after being open for exhibition to numerous visitors for a while. As our informant had one of the tickets (which didn't draw) in the affair, he can hardly be mistaken about the matter.

In speaking of Dr. Tyng, an interesting fact came out with the death of Right Rev. Bishop Kenrick, Archbishop of Baltimore. At the time of Catholic riots at Philadelphia, Bishop Kenrick lived there. His life was in danger. No place was safe. He was hunted from place to place. Rev. Dr. Tyng then lived in Philadelphia. He offered the fugitive Bishop a refuge. In disguise, he entered the open doors of the Catholic Episcopalian, and lived there in safety till the storm was over.—"*Burleigh*."

DRAFT NOTICE.

Notice is hereby given that the draft for the First Congressional District in New Hampshire will commence on MONDAY, August 10th, at the office of the Provost Marshal in the old Custom House, corner of Daniel and Penhallow Streets, at 9 o'clock A. M.

The drawing will follow the numbering of the Sub Districts: Rockingham County comprising the numbers from one to eleven inclusive, Strafford from twelve to sixteen inclusive, Belkmap from seventeen to nineteen inclusive, and Carroll from twenty to twenty-four inclusive.

JOHN S. GODFREY,
Capt and Provost Marshal 1st Cong. Dist. N. H.
Portsmouth, Aug. 4, 1863.

Lasell Female Seminary.

THE FALL SESSION commences THURSDAY, SEPTEMBER 10TH. This Institution has been in successful operation twelve years, under the same Principal. It is situated in the beautiful village of Auburndale, on Worcester Railroad, ten miles from Boston. The privileges for Music and French are unsurpassed by any school in the country. For catalogues and particulars apply to G. W. BRIGGS, Principal.
Auburndale, Aug. 5, 1863. 5aw4w

ARMY SHIRTS,

Anglo Twilled Flannel SHIRTS & DRAWERS, for Spring and Summer Wear.

HAM & CO., No. 9 Congress Street.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

Valuable Mill Privilege

AT AUCTION.

Will be sold at Auction, on the premises in Rye,

On SATURDAY, August 15th, 1863,

at 2 o'clock in the afternoon.

The MILL PRIVILEGE and appurtenances, with the Land adjoining, in Rye, known as "Seavey's Mills," situate on the road leading to the Sagamore House; together with the Water wheels and other materials left from the late fire at the premises. There are four Water Wheels, one of which is a Howd Wheel. Also will be sold a lot of Pulleys, cogs and other iron work formerly used in the mill.

At the same time and place will be sold about six acres of SALT MARSH, with the crop of grass growing thereon. Also 10 tons of KNELISH HAY in the barn at the Sagamore House. Also one vessel's House on Deck, in fair order.

The Mill Privilege has long been used, (previous to the late fire,) when the mills were destroyed for a grist and saw mill, and is situated three miles from Portsmouth, and four miles from Rye Centre. The property will be sold without reserve and a perfect title given. Terms of sale, CASH.

The above offers an excellent opportunity for any one desirous of engaging in a profitable business with constant patronage. For further particulars enquire of MOSES H. ODIORNE at Rye, or of WILLIAM H. HACKETT.

Portsmouth, N. H., July 28, 1863.

MOCHA AND JAVA COFFEE.

From the Celebrated Berry Mills, Lynn, Mass.)

This **SPLENDID ARTICLE** of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, O. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *TRY IT!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any St. Domingo or Cafe.

☞ All the Grocers have it.

---

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartics.*—By the application of true Therapeutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so ceremoniously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The one selected, the exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and bowels, and as a Family Pill. spuo

DR. JOHN C. MOTT,

Physician and Surgeon,

☞ 50 Comm STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. Mott to cure all of the most difficult cases.—Medicines entirely vegetable. Advice gratis.

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ It will be seen that the Draft is to commence next Monday. In the mean time it would be reasonable to suppose that there might be quite a rush of young men to fill up the Second Company of Heavy Artillery, for the defence of the forts in this harbor.

☞ We understand that Mr. Brown, a reformed man and temperance lecturer, of Boston, is to hold a Temperance Meeting, somewhat on the Washingtonian plan, on Thursday evening, in the Temple. It is pleasant to know that this reformed man is aided by another, and that cases of such reformation occur in connection with temperance efforts. There is need of reformation in this direction.

☞ The "old" cracked Bell on the North Church, which has been up but three or four years, was handed down on Monday, and the new one run up—which we hope may prove better, and have better luck than the last—which was not worthy to succeed the veritable *old* North Bell. Capt. Deering, with his gang of riggers, we believe had charge of the job, which was done in good shape. The inscription on the new bell, about which considerable talk has been made, is:—

North Parish, Portsmouth, N. H. Purchased by John Knowlton, P. Nichols, for the Parish; Jonathan Dearborn, Mayor; John H. Broughton, John E. Rider, Aldermen. Jones & Co., Founders, Troy, N. Y., 1863. Hanging patented 1855."

The new bell was hung and rung on Tuesday afternoon, and is of good power and pleasing tone—the pitch E flat, we believe. We shall probably have opportunity to hear it in chime with all our city bells, to morrow.

PLEASURE TRAVELLING.—Rarely if ever before, has there been so much travel as this season, at the North—Southern resorts being mostly out of reach, now-a-days. At Niagara, Saratoga, Newport, and the White Mountains—everywhere, is the same story, of crowds and throngs of pleasure-seekers and pleasure-goers.

Here in this vicinity, the same is true.—Rye Beach is lined with boarders and transients—many who *would*-be the first, being obliged to be the last, on account of arriving last, and too late to find accommodations. A coach full of ladies and gentlemen, who drove to Rye after the last train Saturday night, couldn't come in at any of the hotels, and were obliged to return to Portsmouth in all the storm; and even here, it was not till they had applied at three hotels that they could find quarters for the night! Philbrick, of the Atlantic House, is overflowed; Jenness, of the little Surf House, near his old Ocean, tells us he never had so many applications for rooms before, as he is obliged to refuse this year. He says he could fill the proposed new Ocean House, had it been built this year; and make it pay for itself in four or five years, at this rate.

The Shoals, too, count their visitors by the hundred, or thousand. Fifty visitors each way, per day, is not uncommon.—And of course, Portsmouth hotels especially, and all business here, more or less, receive benefit from the great circulation of people and money.

On some occasions it happens that when the Shoals' packet does not arrive here in season for the cars, or the passengers are bound beach-ward, that failing in finding accommodations at the hotels, they must put up with a berth aboard the boat.—Good, so.

P. S. Since writing the above, we learn that there is a great rush to York, also, for Farwell's stage went over on Tuesday, full inside and out; and then he was obliged to leave behind (without having time to notify them) five would-be passengers, two of whom at least were ladies, whose names were booked very early on the list. Fortunately there are private conveyances on the Cape Nedick road.

☞ Mr. Davis' Singing Schools this (Wednesday) afternoon and evening. See advertisement on the fourth page of this paper.

Tickets for the last half term, 75 cents—to be had at Mr. Head's.

☞ The Portsmouth Cornet Band announce one of their cheap, popular and successful excursions to the Shoals, for Thanksgiving Day.

Seven men were badly scalded on board U. S. steamer Nahant, off Charleston, a few days ago. One of the men scalded is the carpenter of the Nahant, Mr. John Johnson of Manchester, N. H. They are all on board the Vermont at Port Royal, and are likely to recover.

☞ There was a terrible earthquake at Manilla on the 3d of June, ruining half the city and damaging every building in it—2000 lives were lost.

☞ The rebel reports of the death of the gallant Gen. Osterhaus, in the skirmish before Jackson, are now authoritatively contradicted.

PORTLAND, Me., August 4th.

The Forest City is bustling and beautiful at this season. The Democrats hold their State Convention here on Thursday, and extensive preparations are making to receive a big crowd on the occasion. An extra train will run over the Portland, Saco & Portsmouth R. R., to accommodate those desiring to go to the convention, leaving Portsmouth at 6 A. M., and returning from Portland at 6 P. M. The convention promises to be one of much interest, and will doubtless be fully attended.

Hon. Daniel Marcy, of your city, is at the Preble House. The Capt. is here looking after some extensive repairs which are being made upon the ship Frank Pierce, of Portsmouth. The F. P. has been in Portland since March last, and will load shortly for Europe, with a cargo of deals, under command of a new master who has bought an interest in the ship.

Among the live young men in which Portland abounds (a circumstance which does so much to render it such a smart, go ahead place,) is Allen Freeman, a native and former resident of Portsmouth. Allen went to Portland and opened an oyster house of modest pretensions, but soon showed himself master of the business, to which he had been educated. He has now in Deering Block the neatest and most elegant oyster house in New England—fitted up in a costly and magnificent style, and at the same time evincing a discriminating taste in all its details.

Provost Marshal Doughty has appointed Josiah Paul of South Berwick, Deputy Provost Marshal for York County. Josiah is a life long democrat, and now holds the office of Deputy Sheriff under a democratic High Sheriff. As he holds office under Democratic and Republican rule at the same time, and is as strong in his democratic proclivities as ever,—it is to be presumed that he is not to be charged by the coppers, as a democrat who has sold out his principles to take office under the "abolitionists."

JOHN H.

SINGING.—Mr. Davis' Classes in this city have been quite successful; and he has been well received by citizens interested in musical education, especially of the young.

The first half of the Term closed with the lesson on the 29th inst.; and we are author zed to state, that Tickets for the coming half term may be had at Mr. Head's, for half the full term price. This affords a fine opportunity for singers to enjoy good practice. For particulars of the School, see the advertisement on our fourth page.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

☞ See you fair maiden in another column, picking Sambuci Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, *Fruit dealer*, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time to season, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I opened it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one on the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can *offer to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the World) as to obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Buboes, Ulcerated Sore Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blotches, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been treated by more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 30,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should not take these Pills. For reasons, see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

of various sizes, and prices varying from 10 cts. to $3.00.
☞ FRAMES furnished at short notice.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vice, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and those dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.
